3. Reasons for Revisions

In regard to the consolidated forecast, in addition to the first quarter results exceeding the initial forecast, we expect demand for ball bearings, motors, semiconductors, and other products to remain strong in the second quarter and thereafter. As such, we have revised the forecast.

(Note) The business forecasts contained in this press release are made based on information available as of the date of the announcement. The actual results may differ from the forecasts due to a variety of factors in the days to come.

Provisional accounting treatments for business combinations were finalized at the end of the previous fiscal year, and the contents of finalization of the provisional accounting treatments are reflected on the figures for the fiscal half-year ended September 30, 2020.
