	Previous year	99	103	105	108	111	111	111	111

Monthly review

Same stores sales represent comparable sales (current vs. previous year), excluding sales during period with operating hours shortened. In case that sales during the period are included, year-on-year changes in sales, number of customers and average check are 116.5%, 117.6% and 99.1%, respectively in July, while 96.8%, 96.1% and 101.2% on a year-to-date basis (November to July).

The fourth COVID-19 state of emergency was declared for Tokyo and stricter COVID-19 measures were extended in Kanagawa, Saitama and Osaka prefectures in July. Vaccinations were implemented at a steady pace, however, we have yet to see the peak of COVID-19 cases, resulting in hosting the Tokyo Olympics without spectators.

Under such situation, we continued to operate our stores, taking measures to prevent the spread of infection and expanding stores offering home delivery and to-go services.

As a result, in July, all stores sales increased by 39.5% and same stores sales increased by 16.1% compared to the same month of the previous year.

Notes 1 Percentages are rounded to first decimal places.

2 Sales and number of stores include those of our subsidiary RAMEN TENKA INC.

3 Same stores are defined as those in operation at least 16 months.

4 Numbers in the table above are preliminary and unaudited, therefore, may differ from those based on actual results in the financial statements.
