Explanation of Changes

Although occupancy decreased for Four Major Regional Cities due to a departing tenant at the Ichigo Nagoya Building, occupancy increased for Tokyo Metropolitan Area and Other Regional Cities due to new tenants at the Ichigo Ikejiri Building and Ichigo Kumamoto Building.

Value-Add Actions

As part of its ongoing efforts to increase tenant satisfaction via value-add capex, Ichigo Office recently completed renovation of the entrance façade at the Ichigo Tachikawa Building, following last month's renovation of the building's entrance hall and restrooms. The clean and sharp design of the newly renovated façade has become a distinguishing feature of the building, and Ichigo Office has added vibrance to the entrance area by displaying art work by a local artist from Tachikawa City, which is also known for its art. This renovation work is expected to contribute towards a rapid lease-up of vacant spaces as well as driving higher rents at re-tenanting.

Ichigo Office will continue to work to increase tenant satisfaction and the competitiveness of its assets to drive higher earnings for shareholders.
