## **Support for Task Force on Climate-related Financial Disclosures (TCFD) Recommendations**

GLP J-REIT announces today that GLP Japan Advisors Inc. (GLPJA), to which GLP J-REIT entrusts the management of its assets, has expressed support for the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) and joined the TCFD Consortium, a group of domestic companies that support TCFD recommendations.

### 1. Overview of TCFD

The TCFD is an international initiative established in 2015 by the Financial Stability Board (FSB) at the request of the G20 Finance Ministers and the Central Bank Governors Meeting to discuss climate-related issues to be addressed by the financial sector. TCFD discusses how financial institutions and companies should disclose the impacts of climate-related risks and opportunities on the organization's businesses to investors and other stakeholders, and announces recommendations.

### 2. Overview of TCFD Consortium

The TCFD Consortium was established as a Japanese forum for companies and financial institutions, etc. supporting the TCFD recommendations in order to have discussions on effective disclosure and engagement to link disclosed information to appropriate investment decisions implemented by financial institutions and other organizations.

### 3. Future Initiatives

GLP J-REIT and GLP JA together in collaboration with our sponsor group, the GLP Group, give the utmost consideration to environmental protection, and fulfill their social responsibilities in ensuring the health and safety of our customers and local communities as well as employees.

As a key confirmation of our overarching commitment to integrating such social responsibilities for the sustainability of the society into our core business practices, we have established various policies including our Environmental, Social and Governance (ESG) policies, and have taken various individual initiatives on a company as well as investment property basis.

We believe that the TCFD recommendations, which advocates a framework for disclosing risks and opportunities related to climate change, are also in line with the stated mission of GLP Group, which is to “create best-in-class logistics facilities by maximizing value for all stakeholders including our investors, customers and communities in which we live and operate”, and therefore GLPJA has expressed support for the TCFD recommendations.

GLP J-REIT and GLPJA will continuously and actively make efforts to contribute for realizing sustainable society through their investment and asset management of logistic properties, and aims to disclose information in line with the information provision framework proposed by TCFD.
