**[Monthly comment]**

In August, net sales totaled 93.7% for existing stores compared with the previous year and 99.9% for all stores.

Due to factors including sluggish growth in number of customers with several days of rain around the Bon holiday, decreased sales of air-conditioners given the lower temperature compared with the previous year and one less Saturday compared with the previous year, sales of existing stores decreased year on year in August.

On the other hand, sales of apparel continued to increase year on year and sales of hobby-related items were favorable due to nesting demand, etc.

**[Information on opening and closing stores]**
