Ichigo Receives Highest CASBEE Environmental Certification for Tradepia Odaiba

Ichigo is a Japanese sustainable infrastructure company dedicated to making the world more sustainable. Ichigo believes companies exist to serve society, and is committed to contributing to a sustainable society while growing long-term value for its shareholders.

Ichigo today received a S rank, the highest CASBEE (Comprehensive Assessment System for Built Environment Efficiency) certification, for its Tradepia Odaiba building.

1. Certification Overview

Name	Tradepia Odaiba
Address	2-3-1 Daiba, Minato-ku, Tokyo
Total Floor Area	76,580m ²
Structure	Steel/Steel Reinforced Concrete, 23 Floors & 2 Basement Floors
Completion Date	February 1, 2001

Rank: S (highest)

2. CASBEE Assessment

- (1) The building is equipped with a seismic control system to make it earthquake-safe.
- (2) The building's structure is built with Grade 3 construction materials, which are considered to have a useful life of c. 75-90 years.
- (3) The building offers convenient access to and promotes the use of public transportation.
- (4) The building employs environmentally conscious cleaning and sanitation practices.
- (5) The building promotes biodiversity with a greenery ratio greater than 20% and its management and use of biological resources.
- (6) The building's asset management and property management companies work collaboratively to set energy efficiency goals each year and generate ongoing efficiency improvements.

3. CASBEE Overview

CASBEE evaluates and rates buildings' environmental performance based on their energy and resource efficiency, recycling activity, environmental load, and aesthetic appeal.

CASBEE-certified buildings are scored for their environmental performance in five categories and receive a total environmental performance ranking (from highest to lowest): S, A, B+, B-, C.

CASBEE Environmental Performance Evaluation Categories

- a. Energy/greenhouse gas
- b. Water
- c. Materials
- d. Biodiversity/sustainable site
- e. Indoor environment

4. Ichigo's Environmental Initiatives

Ichigo believes that working on behalf of the environment and society is a fundamental social responsibility. Ichigo has been accelerating its initiatives aimed towards a net-zero carbon society, and has moved forward its RE100 target by 15 years from 2040 to 2025 and is transitioning to renewable energy to further accelerate this target. In addition to driving renewable energy production via its Clean Energy business, Ichigo is working to reduce greenhouse gas emissions in order to become climate positive.

Ichigo is committed to protecting the earth's resources and energy and achieving a circular economy that can be handed to future generations.

About RE100

[RE100](#) is a global initiative bringing together the world's most influential businesses driving the transition to 100% renewable electricity, with the aim of achieving a net-zero carbon society. Led by the [Climate Group](#) in partnership with [CDP](#), the group operates in a diverse range of sectors, and together, sends a powerful signal to markets and governments to accelerate the transition to a clean economy.
