### **Notice Concerning the Temporary Output Curtailment by Kyushu Electric Power**

During the period from September 20 to September 26, 2021, the Kyushu Electric Power Transmission and Distribution Co., Inc. (“Kyushu Electric”) conducted its temporary curtailment on renewable energy output in Kyushu under the Renewable Energy Act, pursuant to which electric utility operators are able to suspend energy procurement without compensation for a certain period. Canadian Solar Infrastructure Fund, Inc. (the “Fund” or “CSIF”) hereby provides further update on the impact to the Fund’s assets in Kyushu during this period.

1. CSIF PV Plant affected by this Curtailment
2. Based on the Kyushu Electric notification, energy generation from the Fund’s PV Power Plant was temporarily suspended from 8:00 am to 4:00 pm for those power plants for which remote-controlled curtailment (Note devices has not been installed yet (“Not-installed Power Plant”) and for certain time slots Kyushu Electric designated for those power plants for which such devices has already been installed (“Installed Power Plant”) on the date provided above.

The following PV Plant was affected by the Curtailment by Kyushu Electric.

PV Facility (* for Not-installed Power Plant)	Solar Module Output (MW)	Date of Temporary Curtailment Suspension
S-01_CS Shibushi-shi	1.22	September 25, 2021
S-04_CS Isa-shi Dai-ni	2.01	September 25 and 26, 2021
S-08_CS Hiji-machi	2.57	September 25 and 26, 2021
S-10E_CS Minami shimabara-shi East	2.23	September 25 and 26, 2021
S-10W_CSMinami shimabara-shi West	1.69	September 25 and 26, 2021
S-13 CS Mashiki-machi	47.69	September 20 and 26, 2021

S-24_CS Hiji-machi Dai-ni (*)	53.40	September 26, 2021
-------------------------------	-------	--------------------

(Note) Fund shifts from curtailing output for an entire day to curtailing output in increments and only at peak hours for those power plants with remote-controlled curtailment devices.

### 3. The Financial Impact of the Curtailment

The financial impact of this Curtailment is to be provided in the middle of October together with the impact of the curtailments announced in “Notice Concerning the Temporary Output Curtailment by Kyushu Electric Power” released on September 21, 2021 and other potential curtailments which will be conducted during this month.

### 4. Disclosure timing of the Temporary Output Curtailment

Although disclosures for the temporary output curtailment had been made together with the financial impact on the next Monday (next business day if it is not a business day) if the temporary output curtailment is conducted from Monday to next Sunday from the disclosure “Impact of the Temporary Output Curtailment by Kyushu Electric Power” released on May 7, 2019, after “Notice Concerning the Temporary Output Curtailment by Kyushu Electric Power” released on February 22, 2021, the disclosure for the combined fact that the temporary output curtailment has been conducted will be made next Monday (next business day if it is not a business day) if the temporary output curtailment is conducted from Monday to next Sunday and the financial impact will be disclosed monthly basis in the middle of next month so that Canadian Solar O&M Japan K.K., the O&M operator for CSIF, aggregates detailed data on the time slots the curtailment conducted for the Installed Power Plant and the substantial suspended energy output for those power plant to disclose more accurate information.
