The following is an overview of corporate governance at ITOCHU Corporation.

## **I Basic Policy, Capital Structure, Corporate Attributes and Other Basic Information**

### **1. Basic Policy**

ITOCHU Group adopts the spirit of “*Sampo-yoshi*” (in Japanese, “*yoshi*” means “good”, and “*sampo*” means three sides, and these three sides consist of (1) the seller (“*urite*”), (2) the buyer (“*kaite*”) and (3) society (“*seken*”). “*Sampo-yoshi*” is therefore “*urite-yoshi*” (meaning “good for the seller”), “*kaite-yoshi*” (meaning “good for the buyer”) and “*seken-yoshi*” (meaning “good for society”)) as our corporate mission, which spirit originates from the message of our founder *Chubei Itoh I* (the merchant based in the former Ohmi Province of Japan (present-day Shiga Prefecture). We sincerely wish to contribute to solving social issues by not purely seeking to maximize our profits but also considering and responding to the expectations and trust of all of our surrounding stakeholders, including our customers, our shareholders and our employees. “*Sampo-yoshi*” is the business spirit by which we aim to bring a positive effect into the world and to contribute to sustainable society for all. Furthermore, we adopt “I am One with Infinite Missions” as our guideline of conduct. These words mean that each individual employee should consider his or her business conduct on his or her own initiative in order to complete our infinite missions aim for better business operations which are good for the seller, good for the buyer, and good for society as well as for a better future.

It is the fundamental management policy of ITOCHU Corporation (“ITOCHU” or the “Company”) to build a fair and good relationship with various stakeholders based on our corporate mission and our guideline of conduct and thus improve our corporate value from a long-term perspective. In accordance with this policy, with the intention to ensure proper and efficient execution by management, we will enhance the transparency of decision-making and establish a corporate governance system in which monitoring and supervision functions are appropriately incorporated.

A strong leadership and a transparent decision-making system are pillars of good corporate governance. ITOCHU adopts an organizational structure with the presence of an Audit & Supervisory Board (*kansayaku secchi kaisha*). In recent years, ITOCHU has gradually shifted to a governance model where executive officers decide and carry out the day to day business under the direction and supervision of the Board of Directors, along with implementing measures to strengthen monitoring.

In order to separate execution by and monitoring over management, we reduced several executive Directors and the percentage of outside Directors in our Board of Directors was increased to one-third or more from April 2017. We keep this percentage of outside Directors also in FYE 2021 and onwards.

Additionally, ITOCHU has established, as voluntary advisory committees to the Board, the Governance and Remuneration Committee and the Nomination Committee which are chaired by outside Directors and are comprised of a majority of the members as outside Directors and Audit & Supervisory Board Members, and the Women's Advancement Committee which is chaired by an outside Director and is comprised of more than half of the members as outside Directors and Audit & Supervisory Board Members.

In appointing outside Directors and Audit & Supervisory Board Members, ITOCHU places great importance on their independence, and in this connection, ITOCHU has adopted its own independence criteria, augmenting the independence criteria established by the Tokyo Stock Exchange.

This highly independent Board of Directors monitors execution by management as well as deliberates the execution of business that is of high quantitative or qualitative importance. The Company believes this arrangement facilitates not only appropriate monitoring over execution by management but also the consideration of important business execution from an external perspective.

It is also vital that ITOCHU discloses its financial and non-financial information to the stakeholders as part of good governance. For this purpose, ITOCHU adopts a "Basic IR Policy" to further promote a multi-party stakeholder dialogue, and uses our best effort to timely and adequately disclose such information. Through the communication with its stakeholders, ITOCHU aims to enhance its corporate value on a long-term basis.

We believe that our current corporate governance structure accords with good and effective corporate governance called for by the Tokyo Stock Exchange, in its Corporate Governance Code. ITOCHU will continue to evaluate and improve its corporate governance structure so that it always best suits ITOCHU in any given moment and time in its corporate history.

#### [Reasons for Not Implementing Principles of Corporate Governance Code]

ITOCHU complies with all principles set forth in the Corporate Governance Code.

#### [Disclosure Based on Principles of Corporate Governance Code]

(Principle 1.4)

##### ■ Policy on Acquiring and Holding Listed Stocks

ITOCHU classifies investments other than for pure investment purposes and to consolidated companies as "Investments to Non-Affiliated Companies," and the "Cross-Shareholdings" as set forth in Corporate Governance Code is included in this classification. ITOCHU engages in investments to non-affiliated companies in order to create business relationships. In principle, it is the Company's policy to limit investments to non-affiliated companies to those that have a high likelihood of generating investment returns, and those with a high strategic significance including affiliation in future. This policy remains the same, regardless of whether investments are in or outside Japan, or listed or unlisted.

In order to manage our investment, we set our internal rule. Through annual review of all investments to non-affiliated companies including the Cross-Shareholdings, we examine economic (quantitative) rationale based on returns on our investment, and review strategic objectives to hold such investments taking into consideration the likelihood that our investment purpose is realized in the future. Investments that do not generate economic added value over two-years or investments that lack strategic objective based on such annual review will be, in principle, sold. Results of such annual review with respect to Cross-Shareholdings are subject to further scrutiny at our Board of Directors from the perspective of economic rationale and strategic objective.

ITOCHU places great importance on communication with each investee with the view to building, strengthening and maintaining business relationship as well as to improving corporate value of both ITOCHU and each investee. In May 2015, ITOCHU adopted the following internal voting guideline with respect to Cross-Shareholdings to ensure that ITOCHU's voting rights on all of such investments are exercised in a timely and adequate manner.

[Voting Guideline]

- (1) In principle, not to abstain from voting or to grant full authority to exercise voting rights on our behalf.
- (2) To decide for or against a proposal taking into consideration our investment purpose and holding policy.

ITOCHU's final position on voting is determined through internal decision making process based on an initial plan prepared by a department in question through which an investment is made.

(Principle 1.7)

■ Transactions between Related Parties

Based on our Rules of the Board of Directors, ITOCHU requires a resolution of the Board of Directors concerning transactions involving conflict of interests of Directors or transactions by Director which may compete with ITOCHU, and through such requirement, ITOCHU believes such transactions are adequately supervised by the Board of Directors.

(Principle 2.6)

■ Functional Performance of Corporate Pension as an Asset Owner

In ITOCHU, our finance division dispatches several persons with high expertise in asset management to our corporate pension fund, and such persons, one of who is positioned as the executive Director of the pension fund, are in charge of asset management thereof. Appropriate placement of such persons is arranged by sufficient training as well as planned and regular rotation. In addition, ITOCHU respects the intention of the pension fund regarding its investment portfolio and the stewardship activities of the investment management institutions. Furthermore, operating the pension fund in the interest of the third parties is strictly prohibited pursuant to the internal regulation of the pension funds, and the potential conflict of interest is regularly announced and well-known to the Directors of the pension fund. Thus, we appropriately manage conflicts of interest that may arise between the beneficiaries of the corporate pension and ITOCHU. On 6 June, 2019, the corporation pension fund has accepted and announced the Japan's Stewardship Code as an Asset Owner. The corporation pension fund as an asset owner will fulfill its stewardship responsibilities through the actions of the asset managers, to which they outsource their asset management activities.

■ Basic Policy on Corporate Governance

Please see Paragraph I-1 (Basic Policy) above in this report.

(Principle 3.1(iii))

■ Policy and Process for Setting Compensation

Our current remuneration plan for Directors is designed to be an incentive to grow business performance. The variable remuneration (performance-linked bonuses, share price-linked bonuses, and performance-linked stock remuneration) accounts for a high proportion of total remuneration. Also, this remuneration plan, including the calculation method, has been previously disclosed publicly, making it highly transparent. In order to increase awareness of contribution to raising business performance and enlarging corporate value over the medium to long term, we are including stock remuneration (non-monetary compensation) as part of the remuneration plan.

Given our current performance up until today, the purpose of this remuneration plan is sufficiently achieved. In order to continue the expansion in business performance, we are keen to maintain this remuneration plan for Directors.

In accordance with the above policy for determining the remuneration of Directors, our remuneration plan for Directors which includes the formula and calculation method for the individual payment amount for each director, is resolved at the Board of Directors with consideration of the annual financial plan of each year following the deliberation at the Governance and Remuneration Committee under the Board of Directors as voluntary advisory committees.

Remuneration Plan for Directors consists of monthly remuneration and performance-linked remunerations (performance-linked bonuses, share price-linked bonuses, and performance-linked stock remuneration (non-monetary compensation)) and is deliberated by the Governance and Compensation Committee and approved by the Board of Directors unanimously. Performance-linked bonuses reflects short-term performance and share price-linked bonuses and performance-linked stock remuneration reflect the increase of corporate value in the medium to long term.

The Board of Directors has deemed that the remuneration for FYE 2021 is appropriate based on the fact that it adheres to the decision policy for the details of remuneration, as individual remuneration for Directors was decided using the calculation process and procedures in line with deliberations by the Governance and Remuneration Committee and the resolution of the Board of Directors.

With respect to compensation paid to Directors for FYE 2022, please refer to “Disclosed Details of Policy for Determining Amount and Calculation Method of Compensation” in the section II-1 of this report. Only monthly remuneration is paid to the outside Directors and bonuses and stock remuneration are not paid thereto. Monthly remuneration paid to Audit & Supervisory Board Members is determined by consultation among Audit & Supervisory Board Members and bonuses and stock remuneration are not paid thereto.

ITOCHU’s Board of Directors assumes the role to supervise the business execution by the managements, as well as to decide corporate governance related matters and certain business matters which are highly important either qualitatively or quantitatively. ■ Evaluation as to the Effectiveness of the Board of Directors

ITOCHU Corporation conducted the evaluation as to the effectiveness of the Board of Directors targeting directors and Audit & Supervisory Board Members in FYE 2021.

As a result of this evaluation, in terms of the structure of the Board of Directors and its advisory committees as well as the roles and duties, operation status, information provision to directors and Audit & Supervisory Board Members, and training, the Board of Directors of ITOCHU Corporation confirmed that the effectiveness of the Board of Directors was secured.

According to an external consultant, in FYE 2021, the Board of Directors held sufficient discussions on matters that are highly consistent with ITOCHU Corporation's mid- to long-term management strategy and that contribute to the implementation thereof, confirming that the Board of Directors is fulfilling its functions. Among other factors, the evaluation stated that the Board of Directors played an appropriate role in enhancing the involvement of Outside Directors in the management selection process and the commitment to the SDGs in the next mid-term management plan, as manifestations of the effectiveness of the Board of Directors.

In regard to the issues identified in the previous evaluation ((1) further diversity, (2) the further enhancement of mid-to long-term discussions, and (3) the strengthening of provision of information to Outside Directors and outside Audit & Supervisory Board Members), steady improvement and progress were observed.

At the same time, the findings also noted that promoting enhanced supervision of business execution and discussions that contribute to further improving corporate value, not in form, but in substance, so that the Board of Directors can further fulfill its role, is an issue to be dealt with going forward.

Based on the above effectiveness evaluation results, ITOCHU Corporation intends to actively work on enhancing discussion and strengthening supervision in order to maintain the effectiveness of the Board of Directors and further improve its functionality.

Supplementary Information

- Following the deliberation at the Governance and Remuneration Committee, Board of Directors has resolved unanimously the current Remuneration Plan for Directors consisting of monthly remuneration and Performance-Linked Remunerations (performance-linked bonuses, share price-linked bonuses, and performance-linked stock remuneration (non-monetary compensation)).
- The performance-linked bonuses is positioned as compensation linked to short-term (one fiscal year) performance, and the share price-linked and performance-linked stock remuneration are positioned as compensation for the performance for enhancing the corporate value over the medium to long term.
- ITOCHU's current remuneration plan for Directors does not have a fixed percentage of Performance-Linked Remuneration (performance-linked bonuses, share price-linked bonuses, performance-linked stock remuneration (non-monetary compensation)) and is designed so that the percentage of Performance-Linked Remuneration in total director remuneration increases as ITOCHU Corporation's performance improves and its share price increases. ITOCHU believes that this design/system is in line with the decision policy of our remuneration plan for Directors, which is designed to be an incentive to grow business performance.
- Regarding the Director's remuneration in FYE 2021, the ratio of performance-linked bonus is approximately 69% and the aggregate ratio of the share price-linked bonuses and performance-linked stock remuneration is approximately 14%. As for the Director's remuneration in FYE 2022, the estimated ratio of the aggregate amount of the performance-linked bonus is approximately 58% and the ratio of the share price-linked bonuses and performance-linked stock remuneration is approximately 12%. In the calculation of the ratio in the above for FYE 2021 mentioned above, as described later in section II (Overview of Business Management Organization and Other Corporate Governance Systems Related to Managerial Decision-Making, Business Execution, and Management Supervision.) -1 (Items Related to Organizational Structure and Operations, etc.), the "special benefits" mentioned in "Disclosed Details of Policy for Determining Amount and Calculation Method of Compensation" is included, and the share price-linked bonus in FYE 2022 is calculated based on the assumption that the relative stock growth rate with TOPIX is 110%.
- Net profit (consolidated) is of high interest to the stock market because it is an easy-to-understand indicator of capital to growth-oriented investments and to returns to shareholders and we have an unshakeable belief in its importance as an indicator going forward. In addition, bonuses for employees are linked to net profit (consolidated) so we have net profit attributable to ITOCHU (consolidated) as the linked indicator for performance-linked bonuses and performance-linked stock remuneration (non-monetary compensation). For FYE 2021, the initial plan for "Net income attributable to ITOCHU (consolidated)" was 400 billion yen (announced on May 8, 2020), and the actual result was 401.4 billion yen (announced on May 10, 2021).

## CORPORATE GOVERNANCE

- Regarding share price-linked bonuses for FYE 2021, the average value of our company stock prices on a daily basis for each fiscal year is used as the linked indicator thereof. The average value of our company stock prices in FYE 2021 increased by approximately 660 yen compared to the average value of our company stock prices in FYE 2019. From FYE 2022, the average value of our company stock prices on a daily basis for the 2 consecutive business years will be adopted as the linked indicator of share price-linked bonuses.
- For the details of the performance-linked bonuses, share price-linked bonuses, and performance-linked stock remuneration mentioned above, please refer to section II (Overview of Business Management Organization and Other Corporate Governance Systems Related to Managerial Decision-Making, Business Execution, and Management Supervision.) -1 (Items Related to Organizational Structure and Operations, etc.) “Disclosed Details of Policy for Determining Amount and Calculation Method of Compensation”.

Note: The remuneration paid to Directors (excluding outside Directors) in FYE 2021 comprised monthly remuneration, performance-linked bonuses, share price-linked bonuses, special benefits, and performance-linked stock remuneration (non-monetary compensation) for Directors (Board Incentive Plan Trust). Monthly remuneration is decided based on the standard amount by position and the level of contribution to ITOCHU Corporation, including its response to climate change, ESG, and the SDGs. The total amount of performance-linked bonuses is determined on the basis of consolidated net profit attributable to ITOCHU, and the amount of the share price-linked bonuses is determined by adding the evaluation of the relative growth rate of ITOCHU's share price compared to Tokyo Stock Price Index (TOPIX) to the amount of increase of ITOCHU's share price. An overview of the system of performance-linked stock remuneration for Directors is described below in “Disclosed Details of Policy for Determining Amount and Calculation Method of Compensation” below.

These special benefits for FYE 2021 were paid within the limit of Director bonuses based on the minimization of earnings reductions caused by the COVID-19 pandemic, the achievement of the income goals in the “FYE 2021 Management Plan” and significant improvement of corporate value, and the Company claiming the top position in the general trading company industry for this first time in terms of annual average stock price and average market capitalization.

An overview of this stock remuneration system is provided below, in “(c) performance-linked Stock Remuneration for Directors.”

(b) Directors' Bonuses for FYE 2022

• Performance-linked Bonuses

Director performance-linked bonuses for FYE 2022 will be paid in amounts calculated according to the methods described below, following the conclusion of the 98<sup>th</sup> Ordinary General Meeting of Shareholders.

a. Total amount paid to all Directors:

The total amount paid to all Directors shall be the lesser of the sum of the amount paid to an individual Director in b. below or ¥2.0 billion.

b. Amount paid to an individual Director

The formula to calculate the amount paid to an individual Director is below.

Total base amount paid to all Directors = (A + B + C) x Sum of Position points for all the eligible Directors/55

Where:

A = (Consolidated net profit attributable to the Company for FYE 2022 for the portion up to ¥200.0 billion) × 0.35%

B = (Consolidated net profit attributable to the Company for FYE 2022 for the portion more than ¥200.0 billion but up to ¥300.0 billion x 0.525%

C = (Consolidated net profit attributable to the Company for FYE 2022 for the portion exceeding ¥300.0 billion) × 0.35%

(amount of less than ¥1 shall be rounded down)

The amount paid to an individual Director = (Total base amount paid to all Directors as above x Position Point/Sum of Position points for all the eligible Directors) x 20% + (Total base amount paid to all Directors as above x Position Point/Sum of Position points for all the eligible Directors) x 80% x the Rate (defined below) determined based on plan achievement rate of the consolidated net profit of the assigned division/department

(amount of less than ¥1,000 shall be rounded up)

Provided, however, that

- (1) The Rate: 100% + (plan achievement rate of the consolidated net profit of the assigned division/department -100%) x 2 (if negative, it will be 0%)
- (2) The assigned division of the Director utilized the Rate is the General Products & Realty Company of which planning of the consolidated net profit for FYE 2022 is 63 billion yen (announced at 10 May, 2021).
- (3) The plan achievement rate shall be 100% for the eligible Director (not being the Division Company President) for whom no plan achievement rate is measurable.

The points assigned to each position are as per below:

| Position points                                   |     |
|---|-----|
| Chairman and Chief Executive Officer              | 10  |
| President and Chief Operating Officer             | 7.5 |
| Executive Vice President (resident in Japan)      | 5   |
| Executive Vice President (resident outside Japan) | 4   |
| Senior Managing Executive Officer                 | 4   |
| Managing Executive Officer                        | 3   |

Notwithstanding the calculation stated above, the amount paid to an individual Director shall not exceed the maximum amount for each position as set forth below:

| Maximum amount paid to an individual Director     | (Millions of yen) |
|---|-------------------|
| Chairman and Chief Executive Officer              | 546               |
| President and Chief Operating Officer             | 409               |
| Executive Vice President (resident in Japan)      | 273               |
| Executive Vice President (resident outside Japan) | 218               |
| Senior Managing Executive Officer                 | 218               |
| Managing Executive Officer                        | 163               |

- Share Price-linked Bonuses

To align with our shareholders and create greater awareness of increasing corporate value, we have introduced share-price linked bonuses with ITOCHU's share price as the linked indicator. This bonus is an index linked to the increase in the average daily value of ITOCHU's stock price for each consecutive two fiscal years. To ensure fairness, the calculation scheme includes the relative evaluation between the growth rate of the average value of the ITOCHU's stock price and the growth rate of the average value of the Tokyo Stock Price Index (TOPIX) for each fiscal year. The total amount of bonuses during the term of Directors is paid to them after their retirement.

Following the deliberation at the Governance and Remuneration Committee, Board of Directors has resolved unanimously the amendment of a part of its formula for calculating the amount of share price-linked bonuses from FYE 2022 to make it more appropriate to achieve the aforementioned objectives.

Based on the revised formula below, the Company calculates the individual payment amount of share price-linked bonuses for FYE 2022 and FYE 2023 for each fiscal year, and when the Director retires or, in the case of taking on the position of executive officer after retirement of the Director, the executive officer retires, such amount will be paid.

a. FYE 2022

$$[(\text{The simple average of daily stock closing price of the Company ("Average of Daily Closing Price") in FYE 2022}) - (\text{Average of Daily Closing Price from FYE 2020 to FYE 2021})] \times 1,300,000 \times (\text{Points assigned to each Director according to the position ("Position Point")} / 108.8 \text{ points} \times \text{Relative Stock Price Growth Rate (Note 1)})$$

Note 1 Relative Stock Price Growth Rate = (Average of Daily Closing Price in FYE 2022 / Average of Daily Closing Price from FYE 2020 to FYE 2021) / (Simple average of daily TOPIX (Note 2) in FYE 2022 / Simple average of TOPIX from FYE 2020 to FYE 2021)

Note 2 TOPIX = Tokyo Stock Price Index, the principal index consisting of all Japanese common stocks listed on the First Section of Tokyo Stock Exchange.

b. FYE 2023

$$[(\text{Average of Daily Closing Price from FYE 2022 to FYE 2023}) - (\text{Average of Daily Closing Price FYE 2020 to FYE 2021})] \times 1,300,000 \times (\text{Total Position Points in FYE 2022 and FYE 2023}) / (108.8 \text{ points} \times 2 \text{ (years)}) \times \text{Relative Stock Price Growth Rate (Note 3)} - (\text{share price-linked bonus for FYE 2022 calculated in the above a.}).$$

Note 3 Relative Stock Price Growth Rate = (Average of Daily Closing Price from FYE 2022 to FYE 2023 / Average of Daily Closing Price FYE 2020 to FYE 2021) / (Simple average of daily TOPIX from FYE 2022 to FYE 2023 / Simple average of TOPIX in FYE 2020 to FYE 2021).

Except for the point for Executive Vice President (resident outside Japan) is 5, the Position Points assigned to each position are same as those applied for performance-linked bonuses.

The share price-linked bonuses together with performance-linked bonuses are paid to the eligible Directors within the Director bonuses limit of ¥2.0 billion.

(If the amount of performance-linked bonus and share price-linked bonus based on the above formula exceeds 2.0 billion yen, the performance-linked bonus is preferentially allocated to the limit amount)

(c) performance-linked Stock Remuneration Plan

- By resolution at the 92<sup>nd</sup> Ordinary General Meeting of Shareholders held on 24 June, 2016, ITOCHU introduced the performance-linked stock remuneration plan (the “Stock Remuneration Plan”) and, by resolution of the Board of Directors held on 13 May, 2020, we continue this plan from FYE 2021.
- Under this plan, in June of every year during the trust period, Directors who served as Directors from 1 July of the previous year to the last day of June of the said year are granted points based on performance in the fiscal year that ended on 31 March of said year and in accordance with the number of months of service during that period.
- The method of calculating the number of points granted to Directors (excluding outside Directors) in FYE 2022 is described below. One point corresponds to one share in ITOCHU, and amounts of less than one point are discarded.

Points = Individual stock remuneration amount (Note 1) / Average acquisition stock price of ITOCHU shares in the trust (Note 2) × {(Number of months of service from July, the beginning month of the applicable period of payment, to June of the following year (rounding up fractions of less than one month)) / 12} (rounding down fractions)

Note 1: The individual stock remuneration amount is calculated on the basis of the total stock remuneration amount, which is calculated as indicated below.

a. Total stock remuneration amount

= (the amount of consolidated net profit attributable to ITOCHU for FYE 2022 – ¥300.0 billion) x 0.175% x Sum total of position points of eligible Directors / 55  
(rounding up fractions of less than ¥1)

b. Individual stock remuneration amount

= Total stock remuneration amount x Position points of each Director / Sum total of position points of Directors (rounding down fractions of less than ¥1,000)

The points assigned to each position are as per below:

| Position points                              |     |
|--|-----|
| Chairman and Chief Executive Officer         | 10  |
| President and Chief Operating Officer        | 7.5 |
| Executive Vice President (resident in Japan) | 5   |
| Senior Managing Executive Officer            | 4   |
| Managing Executive Officer                   | 3   |

Note 2: In the event that the trust period has been extended, this is the average acquisition stock price of ITOCHU shares that were acquired by the Trust in accordance with the extension of the trust period. (However, if no ITOCHU shares are acquired by the trust in accordance with the extension of the trust period, then this is the closing stock price of ITOCHU shares on the market of Tokyo Stock Exchange on the first day of the extended trust period).

- Points granted to Executive Officers (excluding those concurrently serving as Directors) in June each year shall be calculated by the method similar to that of Directors.
- As the Stock Remuneration Plan, ITOCHU has adopted a framework called “Board Incentive Plan Trust (BIP)” (“BIP Trust”). The BIP Trust is a stock incentive plan for executives, based on the performance share and restricted stock plans in the United States. ITOCHU will conduct delivery and payment of ITOCHU shares acquired by the BIP Trust and an amount of money equivalent of the conversion value of said shares (“ITOCHU Shares, etc.”), together with dividends derived from ITOCHU shares, to Directors, etc. following retirement from office (or after death in the event of the

death of a Director, etc.; the same applies hereinafter), based on performance, etc. Please see Chart 1 below for overview of the BIP Trust.

- Outline of the Stock Remuneration Plan is as follows:

- (1) Persons Entitled to Receive Stock Remuneration: Directors and executive officers of ITOCHU (excluding outside Directors and those who are non-residents of Japan, as of the date hereof, the numbers of the Directors applicable is 5 and of the executive officers not being Director is 18)
- (2) Maximum Amount of Money Contributed by the Company to the Trust: a total of ¥1.5 billion for 2 fiscal years
- (3) Method for the Acquisition of Shares by the Trust: Scheduled to be acquired on the stock market (thus no dilution of shares is anticipated)
- (4) Upper Limit on the Number of Shares to be acquired by Directors, etc.: For the trust period, with an applicable period of 2 fiscal years, the upper limit will be 1,300,000 points (an average of 650,000 points per year)
- (5) Performance Index under the Stock Remuneration Plan: Consolidated net profit attributable to the Company (upon which the amount of total stock remuneration will be calculated. See above for more details)
- (6) Timing of Delivery of Shares: After retirement from Office
- (7) Voting Rights Concerning Shares in the Trust: Will not be exercised in order to ensure neutrality toward management

(d) Rules for Directors of non-residents in Japan

A Director of non-residents in Japan is not eligible for performance-linked stock remuneration. As a substitute, such Director is eligible for the Equivalent Amount of Individual stock remuneration. The Equivalent Amount of Individual stock remuneration is calculated in accordance with the above formula (except the points assigned to such Director being 15) as if such Director were subject to performance-linked stock remuneration, and the amount will be added or subtracted according to a certain performance achievement rate. The remuneration will be determined and paid following the conclusion of the 97th Ordinary General Meeting of Shareholders as a performance-linked bonus, (round up less than ¥ 1,000), separately from the performance-linked bonus based on formula above.

This performance-linked bonus (the Equivalent Amount of Individual stock remuneration) will be paid within the limit of 2.0 billion yen (a resolution of the general meeting of shareholders on June 21, 2019), the overall maximum limit of the bonus including this performance-linked bonus, the performance-linked bonus calculated by formula above and the share price-linked bonus. If the total amount exceeds 2.0 billion yen, this performance-linked bonus and the performance-linked bonus calculated by formula above will be preferentially allocated.

In appointing outside Audit & Supervisory Board Members, ITOCHU prioritizes candidates with higher independence based on the independence criteria prescribed by the Tokyo Stock Exchange, and ITOCHU's own independence criteria who are expected to effectively monitor and audit ITOCHU's activities. In addition, ITOCHU selects at least one Audit & Supervisory Board Member with adequate expertise in finance and accounting. ### 3. Reason for Adopting the Current System

The Company, as a company with Audit & Supervisory Board Members, endeavors to strengthen the monitoring/supervising function and ensure the transparency of decision making by having the Audit & Supervisory Board Members (including outside Audit & Supervisory Board Members) fully monitor corporate management. In addition to its corporate governance system primarily based on the monitoring of corporate management by Audit & Supervisory Board Members, the Company appointed outside Directors the percentage of which is one-third or more of the total number of the Directors, and keep this percentage of outside Directors also in FYE 2022 and onwards. And, the Company has already appointed independent outside Directors and established, as voluntary advisory committees to the Board, the Governance and Remuneration Committee and the Nomination Committee, which are chaired by outside Directors and are comprised of a majority of the members as outside Directors and Audit & Supervisory Board Members, and the Women's Advancement Committee which is chaired by an outside Director and is comprised of more than half of the members as outside Directors and Audit & Supervisory Board Members, for the purpose of further increasing the effectiveness of the supervision of management by the Board of Directors and strengthening and improving the transparency of decision making. In the process of appointing the outside Directors and outside Audit & Supervisory Board Members, the Company focuses securing independency of the outside Directors and the outside Audit & Supervisory Board Members, and in addition to the independence criteria established by the Tokyo Stock Exchange ITOCHU has adopted its own independence criteria.

The Company believes that its current corporate governance system—which is based on the Board of Directors consisting with the independent outside Directors for one-third or more of all Directors, the said voluntary advisory committees to the Board and the Audit & Supervisory Board, more than half of whom are outside Audit & Supervisory Board Members— accords with ITOCHU's "Basic Policy" stated in I-1 above in this report.

## 2. Promoting women success

Until now, under the "Human Resource Diversification Promotion Plan", we have worked on it with the aim of retention of women employees by expanding the number of women employees and developing childcare and nursing-related regulations at a higher level than the statutory requirement.

Currently, from the point of view of women success, all women employees under 34 years old are able to take Cervical Screening on the company cost under the Support Measure for Balancing Cancer Care and Work with the recognition of that the prevalence of cancers of women is higher than that of men.

Under the action plan corresponding to the Act on Promotion of Women's Activities, we provide carefully individualized support according to individual's life stage and career, and, in order for the expanding generation of women in career-track positions who joined company during early-mid 2000's to compete as organization managers on an equal footing with male employees, with the need for ongoing support to be carefully tailored to individual circumstances. In particular, support for the employees taking children only during overseas assignment, work from home system for employees with certain reasons such as childcare, nursing, illness etc., guidance before taking maternity leave, three-party meeting on return from childcare leave, interviews before/after overseas assignment. In terms career development, sending women employees to the external training sessions, provision of skill-up training during childcare leave, transfer from clerical positions to career-tracking position, and re-employment system that allows those who left the Company due to relocation of spouses to apply for re-employment.

As of 1 October, 2021, we established Women's Advancement Committee as a new voluntary advisory committee of the Board of Directors. The Committee is chaired by an outside director and more than half of the members are outside Directors and Audit & Supervisory Board Members. In 2021, half of the members of the committee are women. The aim of the establishment of the committee is to review its past initiatives and current issues from a new perspective and to discuss realistic measures and their implementation to further drive women's participation and advancement in the workplace.

Through these efforts for execution of the Action Plan, we will engage the contribution with SDGs (Gender Equality).
