# Key Points

## ■ FY21 1H results: Sales were up, but operating income declined.

- **Summary** : Orders increased year on year, and sales were up due to the increase in orders. Operating income decreased due to a decline in the gross margin, the impact of a decrease in government subsidies, an increase in SG&A expenses, and other factors. Profit attributable to owners of parent decreased.
- **Segments** :
  - Control** : Sales were up, but operating income declined. (Excluding the impact of exchange rates, orders increased 10.1%, sales increased 0.7%, and operating income declined 15.4% year on year.)
  - Measuring instruments** : Sales and operating income were up.
  - Aviation and other** : Sales were up, but operating income declined.
- **Regions** : Orders were firm mainly for small projects. (The situation varies, depending on the region.)
- **Industries** : Sales were strong in the downstream sector and the chemicals industry.

## ■ FY21 earnings forecasts: <Change>

- Revised factors:**
  1. Revised exchange rate (US\$1: ¥105 ➔ ¥107.5)
  2. Orders revised upward based on 1H result and outlook
  3. No change in profit attributable to owners of parent

## ■ FY21 dividend forecast: Total annual dividend of ¥34 <No change>

From the first quarter, as a result of revising the Group's internal management classification, the life innovation business that was previously included in the test and measurement business segment has been reclassified into the industrial automation and control business segment. In addition, the name of the reportable segment previously known as the test and measurement business has been changed to the measuring instruments business. Moreover, segment information for the second quarter of the previous fiscal year has been presented based on the changed classification.

## Expectations for recovery in various areas and industries

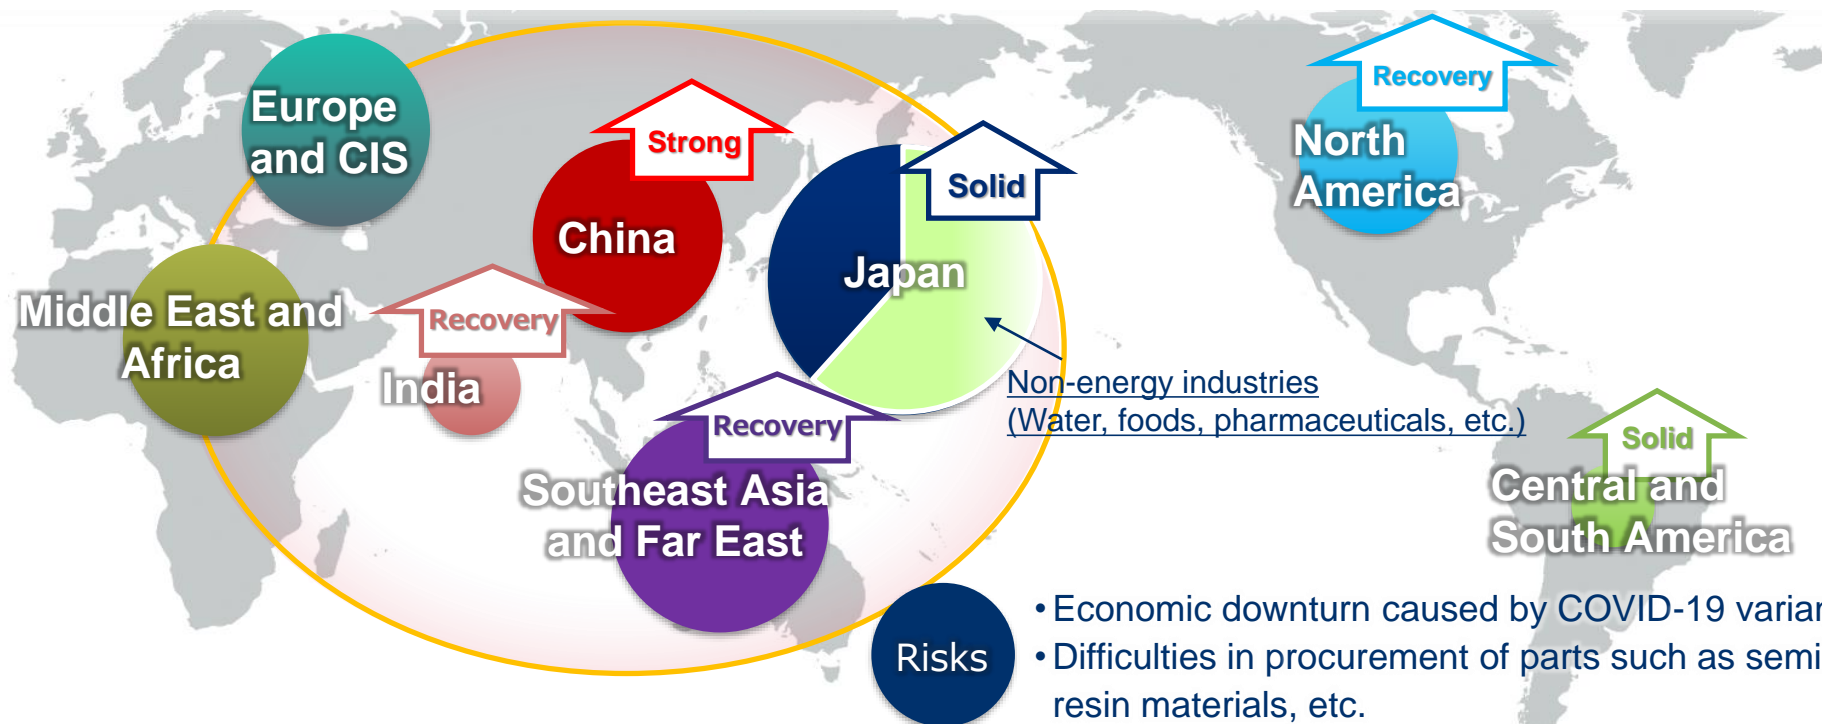

### China continues to drive orders.

Regions

**China:** Strong performance      **N. America, SE Asia, and India:** Recovering from impact of Covid-19  
**Japan and Latin America:** Solid growth

Industries

**Downstream & chemicals:** Continued strong growth driven by rising demand  
**Materials:** Strong growth in raw materials used in semiconductors, etc. Mining is also strong.

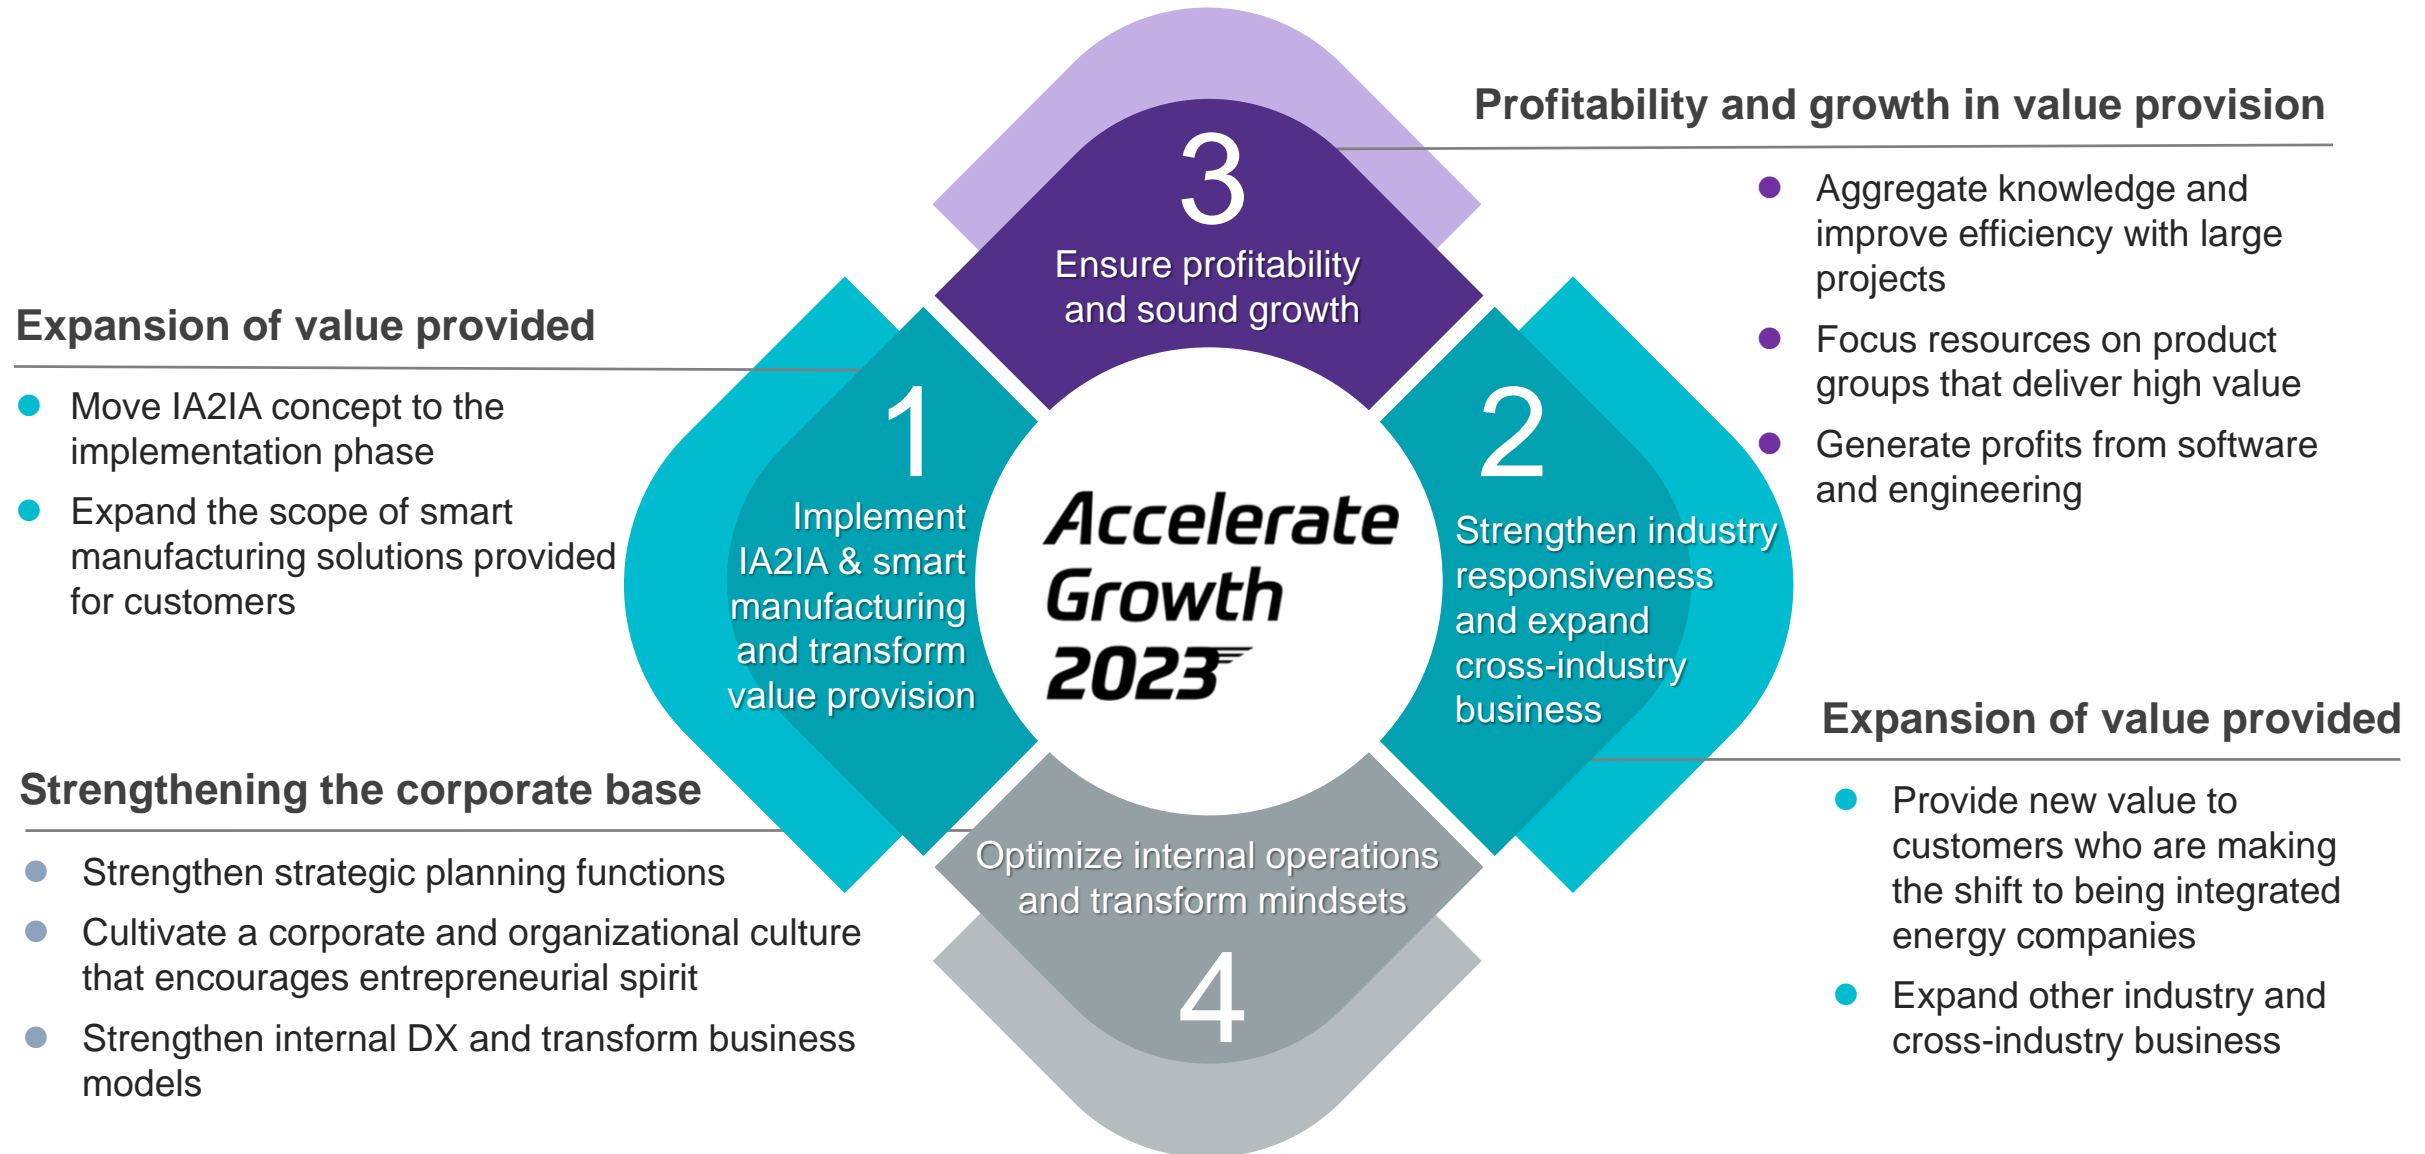

#### Overseas sales ratio

FY 20 1H	69.4%
FY 21 1H	70.5%

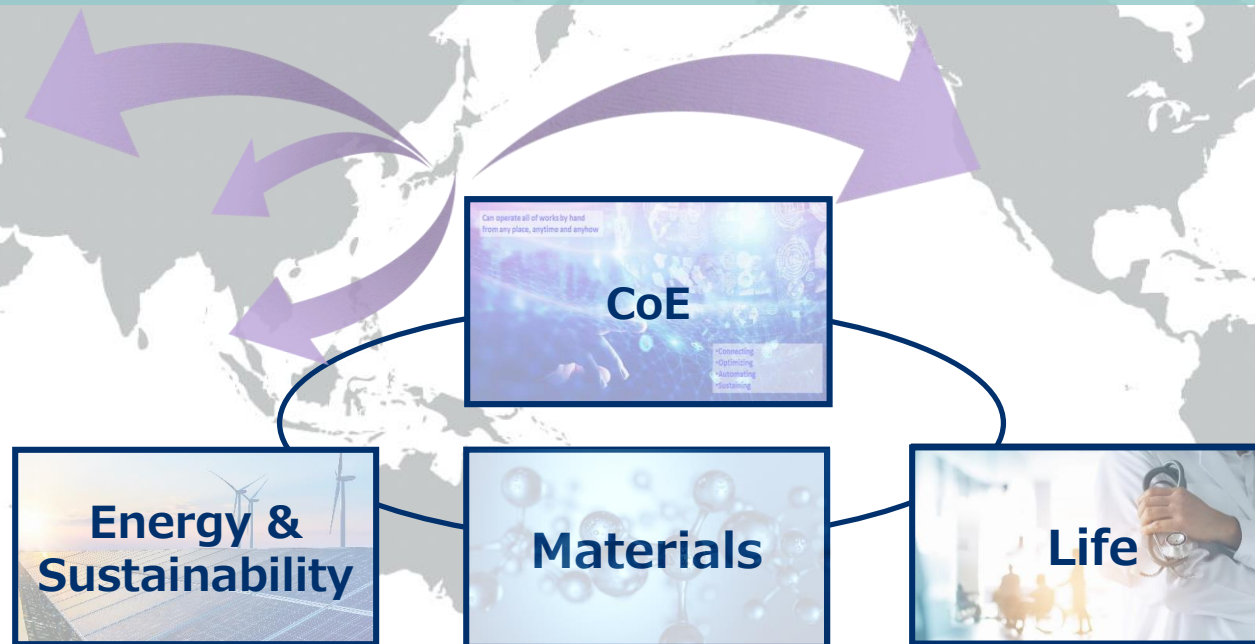

- Economic downturn caused by COVID-19 variant
- Difficulties in procurement of parts such as semiconductors, resin materials, etc.

# Accelerate Growth 2023 Basic strategies

## Launch of three business segments CoE\* × strengthening of regional proposal capabilities = expanded industry coverage

- ✓ Establish CoEs for global sharing of solutions and best practices in response to common customer challenges
- ✓ Accelerate approach by Group companies in each region to customers in a wide range of industries

\*CoE: Center of excellence, a global, cross-organizational organization that brings together highly-skilled personnel with specific types of expertise.

## Expanding global orders in fields that contribute to SDGs

### ***Water***

- ◆ Praagraj Smart City: Drinking water supply system, product maintenance service/ India
- ◆ CAMANA Pjt - One of the largest reclaimed water projects in the region: Products/ Philippines

### ***Food***

- ◆ Monitoring of cooking oil storage tanks: Systems & products (109 plants and 469 tanks)/ Thailand

### ***Pharma***

- ◆ Medical device production: environmental monitoring system, products, validation/ Vietnam

### ***Battery***

- ◆ Battery process: Film thickness gauges / many orders and inquiries from major customers in Korea, China, etc.

Aggressive development of new industry customers by product business too

## IA2IA\* and smart manufacturing Leading customer transformation throughout the value chain

Receipt of approx. 260 orders in FY21-1 H / Steady progress in PoCs\* with customers

**Topics** RIOS: Dramatic increase in profitability demonstrated through PoC with refinery customer

**RIOS** Rigorous integrated optimization system

- Integrated Yokogawa + KBC digital twin solution for simulation of IN(Procurement) - OUT(Deriver) process
- **Maximization of profits** by optimizing production throughout the oil refining **supply chain** in response to shifts in demand and crude oil market prices

※IA2IA: Industrial Automation to Industrial Autonomy / PoC: Proof of Concept

## Accelerating initiatives for mid- to long-term transition to clean energy

### Creating sustainable value for society as a whole

- ✓ Strengthening efforts for geothermal, hydroelectric, waste / biomass power generation

Control system and integration service order for Lahendong geothermal power plant in Indonesia

- ✓ Strengthening efforts for generation/ distribution of power (including renewable) via power grid

Acceleration of activities for realization of microgrid

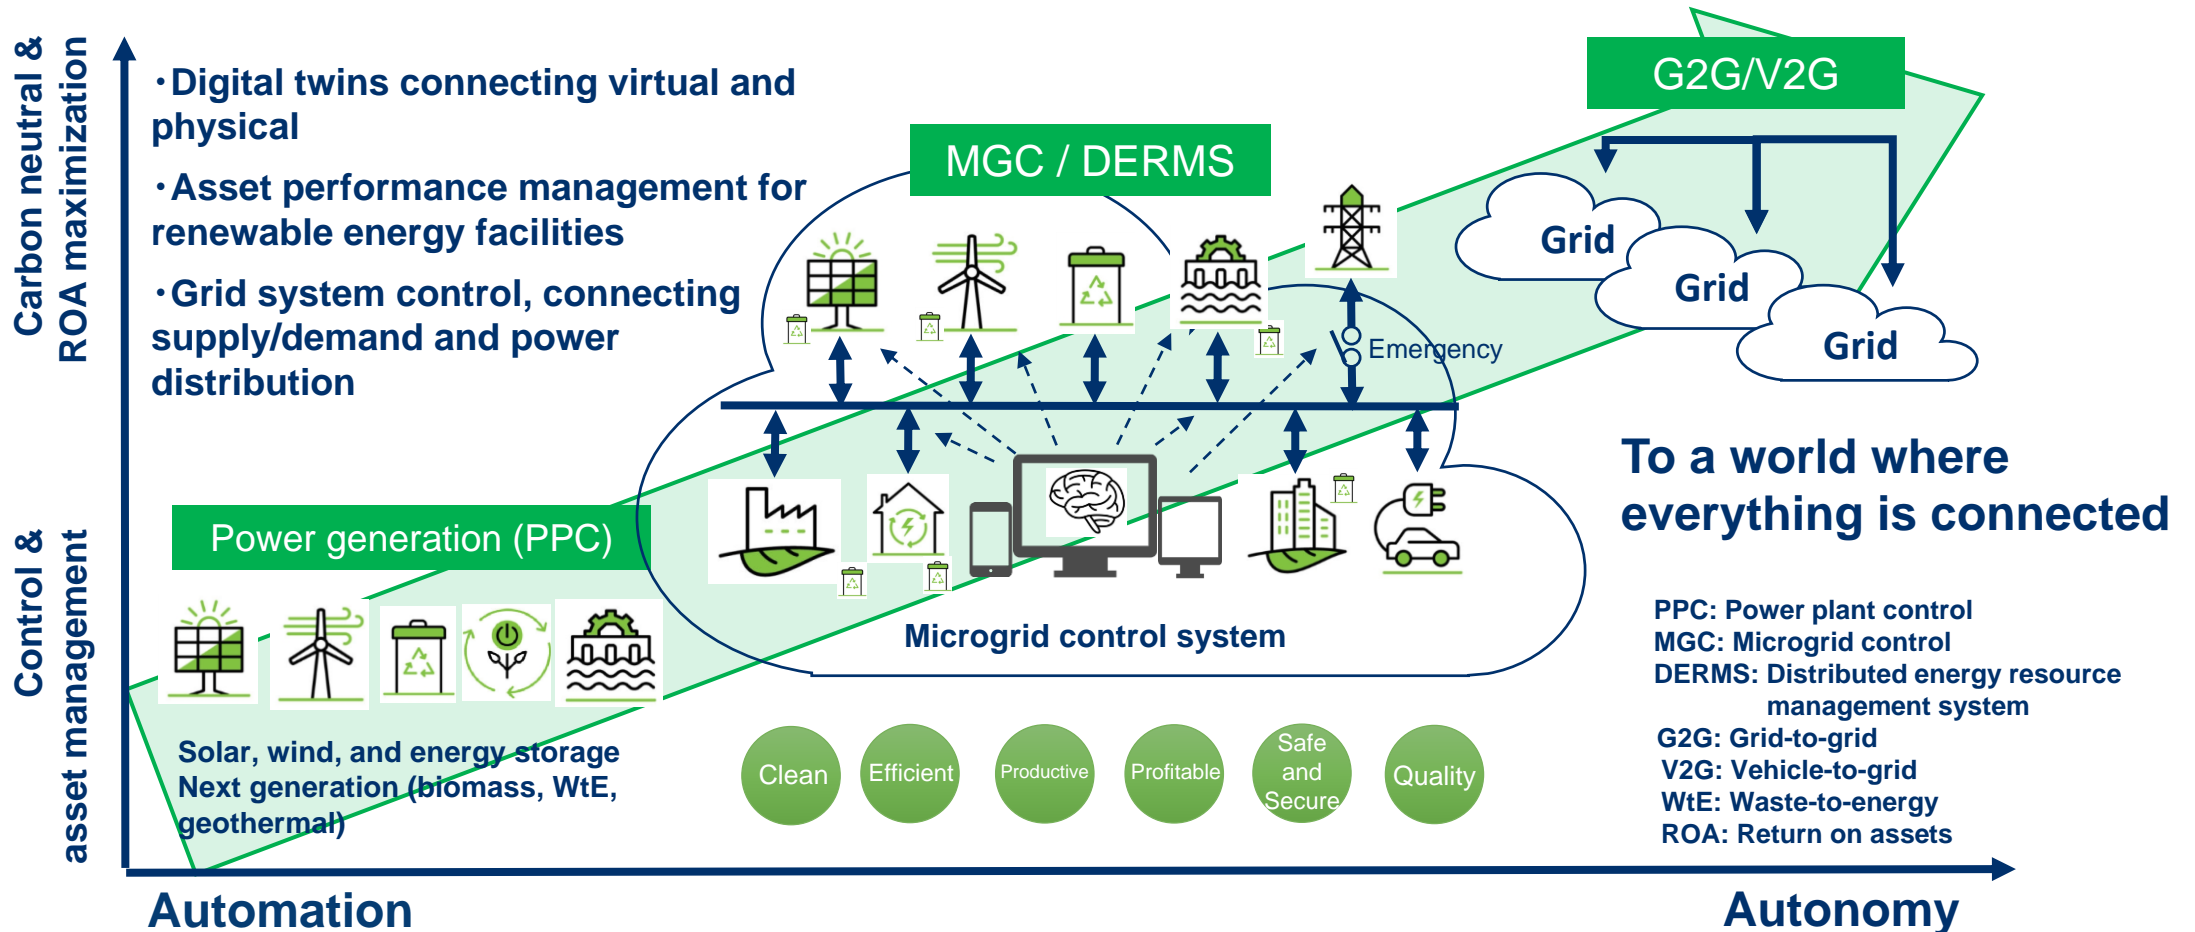

- ✓ Strengthening efforts targeting the hydrogen supply chain

Start activities to identify the value we will provide for future hydrogen-based societies

# Accelerate Growth 2023
