■ APPENDIX · DATA SHEET

1. Sustainable Retail

1-1. Growth Strategy

Farm for Tomorrow, Table for Tomorrow

We provide services that enable a better food life for more people.

We evolve continuously where good farmers are rewarded and proud.

We realize a society that deliver a sustainable framework that links farm and table.

We solve social issues related to food through business approaches.

We create and expand Tomorrow's Food.

growth strategy

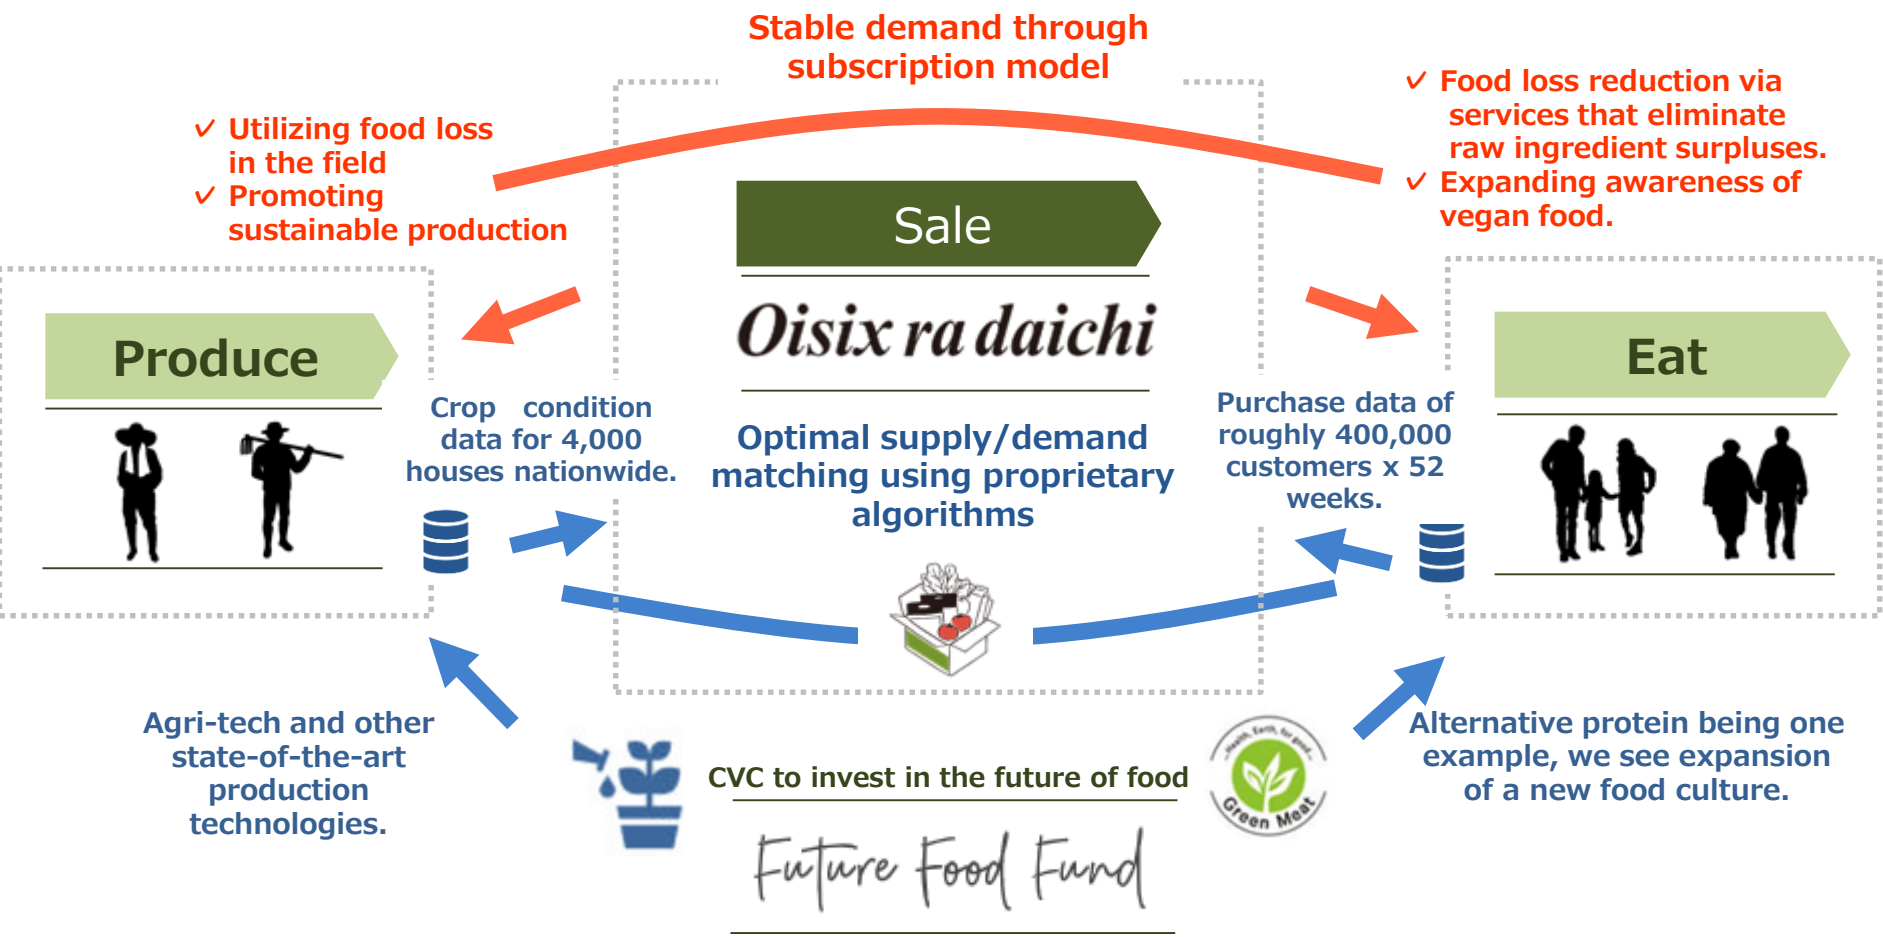

“Leveraging the power of the business model and technology to provide food that is good for both people and the earth.”

Sustainable Retail

Using business models and technology

→ Using Business Models
 → Using Technology

► Realization of zero food loss and carbon neutrality

1-2. Zero Food Waste

Zero Food Waste -Supply chain

Our distribution food loss ratio is roughly 0.2% - by far the lowest within the food retailing industry. Via further efforts, we aim to contribute to the further reduction of food loss not only at ORD , but within the entire supply chain.

Oisix ra daichi

Produce

Promotion of sales of irregular and substandard products, and upcycling of discarded parts

Reduction of food loss in the field *
(1H of FY2021)

Reduction of approximately
100 t

(not including the use of off-specification products at Kit Oisix)

Sale

Using the SUBSCRIBE Model
Supply and demand data matching
between field and table

Food Loss in Distribution

General retail	Oisix ra daichi
about 5-10%	about 0.2%

Eat

Offer "Kit Oisix", "Chanto Oisix" and other services for using up ingredients

The amount of food wasted at home has been reduced to

about **1/3**
through the use of Kit Oisix.

Contributing to ORD food loss zero program as well as to the program for food loss reduction in the entire supply chain.

*Food loss reduction refers to the weight of food sold/ reduction in food ingredients disposed of for items that were edible but were not consumed. Sales weight of food loss from partner plants during production/processing (includes those from third-parties) and/or undistributed items owing to not meeting shipping standards. Amount of food loss reduced by using the Kit Oisix meal kit. Derived by using 77g/meal of food loss reduction (based on internal research, June 2019) and the cumulative number of kits sold.

Zero Food Waste

-Reducing Food Loss in the Field

Kit Oisix proactively utilizes off-specification raw ingredients. Implemented new sales space focused on food loss at the farm. **By conducting promotions (e.g., providing product background and taste information) that leverage the strength of e-commerce, we cultivate customer needs that contribute to society.**

Food Loss in the Field

Uneven shape

out of specification size

good harvest

superficial blemishes

Kit Oisix

Active use of normally scrapped /discarded raw ingredients.

▲Using Discarded Chives Stems Bibimbap Kit

▲Gapao rice kit using mackerel scraps Gapao Rice Kit

ふざろい Radish

Sales space focused on food loss at the farm (point of production).

▲Kale croquettes made from surplus kale due to declining demand for restaurant food.

▲ Gyoza made from Gyoza dumplings made from unripe cabbage

“Upcycle by Oisix” has been more popular than expected and has allowed us to secure both sales growth and food loss reduction. **We aim to further expand the market by increasing sales channels to third-party customers such as retailers.**

About 4 months after launch,

Sales of **30** million yen

Reduction of about **6t** of food loss

- Acceleration of Product Development

Release of 17 items, including PB products, in about 4 months after launch

▲Jam made from banana peels

▲Stollen made from the pulp of plums used to make plum wine

-Expansion of Sales Channels

Expanding sales channels to promote the reduction of food loss in the field

Zero Food Waste

-Newly established Food Rescue Center

NEW TOPICS

Produce

Sale

Eat

To further mitigate food loss in the fields, we established the Oisix Food Rescue Center which is equipped with processing functions dedicated to food loss reduction. By purchasing entire crops – including off-specification items – we make unrelenting effort to realize food loss reduction.

Fields

All crops from the field

Regular vegetables

Bumper crop, uniformity

Stems, peels, leaves, etc.
Field waste

Bulk purchase of crops

NEW

Food Rescue Center

New processing center specializes in reducing food loss
New Processing Center

Zero Food Waste

-Newly established Food Rescue Center

NEW TOPICS

With the aim of eliminating food loss both in the field and in distribution, via proprietary technologies, we utilize normally discarded items for use as raw ingredients in Kit and/or Upcycle products. We are also developing technologies to extend food expiry dates.

Food Rescue Center

1 Utilization of raw materials and processed products

Foods that can be eaten but are discarded in the field

2 Conversion to upcycled products

Normally inedible parts such as vines, skin, and stems

3 Extension of quality retention period

Raw and cut vegetables that are easily damaged Cut vegetables, etc. Products that do not last long

Kit Manufacturing Center

Proactively used as raw materials for Kit cut vegetables and processed products

Accelerate development of upcycled products and expand manufacturing capacity

By extending the quality retention period further contribute to food loss reduction

Zero Food Waste

-Supply and demand matching through the use of data

Our distribution level food loss ratio is roughly 0.2% (vs. 5~10% average for food retail). By matching field and individual consumption data, food loss can be reduced and a stress-free shopping environment can be achieved via improved personalization.

-Food Loss Comparison in Food Retailing (Distribution Process)

general retail store

Oisix ra daichi

5~10% > about 0.2%

- Using data to help the field and the table Original algorithm matching

Oisix ra daichi

Supply and demand matching based on proprietary algorithms

Improving the accuracy of personalization through the use of AI

Crop status data from 4,000 stores nationwide

Purchase data of about 400,000 customers x 52 weeks

Zero Food Waste

-Service for using up food ingredients

By using "Kit Oisix," "Chanto Oisix," and other services that exhaust food ingredients, food loss at home is reduced to 1/3.

- Amount of food wasted per meal

General Dinner

Kit Oisix

A set of semi-processed ingredients

野菜が主役の献立セット

ちゃんとおisix

recipes for one meal (main dish and side dishes) for three or five days.

1-3. Carbon Neutral

The entire supply chain is carbon neutral

Reflecting our unique characteristics as manifested by "handling foods with low environmental impact" and "simple distribution channels from field to dinner table," **our business model results in CO2 emissions that is just 50% of the Physical Retail Average even accounting for home delivery.**

A business model boasting significantly lower CO2 emissions than the Physical Retail Average

-CO2 emissions per sales (including all of Scope 1, 2, and 3)

Physical Retail Average*

Oisix ra daichi

Low pesticide use and additive-free are characteristics of our environmentally friendly food products.

Domestic products

Simple distribution channels from farm fields to dining tables.

A storeless EC food market.

*We calculated the average of five companies that disclose information on CO2 emissions in Scope 1, 2, and 3. Sales of each company are calculated on a consolidated basis for the relevant fiscal year (based on our research).

We are advancing initiatives such as promotion of sale of pre-organic products and biochar production experiments to reduce by one-half, greenhouse gas emissions stemming from agricultural production.

- Commitment

We aim to halve greenhouse gas emission from our production within 5 years.

Reduction

Support for production of pre-organic agricultural products.

Reduction

Energy conservation experiment in facility cultivation

Absorption

Production experiment using biochar

Visualization

Understanding the environmental impact Introduction of labeling

Carbon Neutral -Partnerships with Food Tech Startups

NEW TOPICS

Investment and business alliance with two alternative protein startups in Japan and the U.S.
Aiming to create a platform for sustainable food sales in Japan via joint product development among other things.

Oisix ra daichi Future Food Fund

Investment and business alliance

Development, manufacturing and sales of plant-based meat

Research on culture technology for crustaceans such as lobsters and crabs

- Joint Product Development

In collaboration with Green Culture, Inc. Green Meat" made from Oisix original ingredients Green Meat" using Oisix original ingredients.

  *Oisix ra daichi*

Regarding decarbonization of last mile logistics, we plan introduction in Jan 2022 of green energy delivery vehicles for Radishbo-ya and Daichi on an experimental basis.

- Commitment

We aim to halve greenhouse gas emissions stemming from our delivery operations within 5 years.

Started experiments to introduce green energy delivery vehicles using biomass fuel, which is neutral in terms of CO2 emissions, in January 2022.

Carbon Neutral

-Expanding the Sometimes Vegan Style

In order to further expand "Sometimes Vegan" in Japan and overseas markets, we plan to sell vegan frozen foods in major supermarkets and expand the "Ready to Eat" lineup in the U.S. We also plan to start selling PB frozen foods through our own EC site and/or via third parties in Japan.

- About Vegan and Sustainable

Veganism is a lifestyle that does not consume foods of animal origin. In terms of sustainability, the energy inefficiency of animal products and the GHGs emitted directly from animals have become a problem. " Sometimes Vegan " who enjoy veganism only a few days a week are spreading in Japan and abroad.

◆ Expanding the global plant-based food market*

U.S.

- Expansion of external sales of vegan frozen products

PURPLE CARROT

Sold in about **7,000** stores in the U.S.

WHOLE FOODS MARKET | TARGET | Kroger

- Expansion of product lineups for a variety of food scenes

Japan

- Expansion of Oisix Vegan Course members

2. 1H Achievements

Executive Summary

-2022/3 1H Achievements

Sales

Led by Oisix, sales saw solid growth increasing +18%

◆ Domestic Delivery business (Three major brands)

- ✓ Subscribers : Led by Oisix, there was steady growth in subscriptions through the 1H. Subscribers rose by roughly 43,000 for the three main brands.
- ✓ ARPU : Whilst there was an YoY decline against the strong one-off COVID driven performance of last year, vs 2019, growth remained high at 10-18%.

◆ Other Business

- ✓ Purple Carrot (U.S.), which saw a near doubling in business last year, saw a decline in subscriptions in the 2Q owing to such factors as renewed economic activity. The business has remained profitable however, and performance above expectations.
- ✓ Other businesses, led by the EC Support Business. expanded steadily.

EBITDA

EBITDA continued to expand more than expected reflecting Oisix driven sales/profit growth.

- ✓ EBITDA continued to expand more than expected reflecting Oisix driven sales/profit growth.
- ✓ However, sales fell YoY. Last year was an irregular year where sales grew despite an inability to acquire new customers given tight logistics capacity at Oisix.
- ✓ 2Q profit fell YoY. On top of seasonal factors, new investments in such areas as the new Oisix distribution center and purchase frequency enhancement measures were made for future growth.

2022/3 Summary of 1H Results

Sales : Led by Oisix, sales saw solid growth **increasing +18%**

EBITDA : **Better than expected growth reflects sales/profit expansion** at Oisix as well as continued stellar performance at Purple Carrot.

Sales

56.16bn yen
(YoY **+ 18%**)

EBITDA

4.18bn yen
(YoY **▲ 10%**)

Operating
Income

3.34bn yen
(YoY **▲ 16%**)

Net income
Attributable to
owners of the
parent

2.15bn yen
(YoY **▲ 12%**)

Consolidated Results Overview

-Sales

(Note) Calculation of ARPU assumption.
To eliminate the one-off boost effects of COVID-19 on ARPU, we assume ARPU to be equal to FY3/20 or the level posted before COVID-19.

Continued high-level growth reflects Oisix led subscription growth and high ARPU.

Consolidated Results Overview

-Profits

(Note) Calculation of ARPU assumption.
To eliminate the one-off boost effects of COVID-19 on ARPU, we assume ARPU to be equal to FY3/20 or the level posted before COVID-19.

Whilst down YoY, **profits exceeded forecast** reflecting Oisix led sales/profit expansion.

EBITDA

(bn yen)

Operating Income

(bn yen)

Attributable to owners of the parent Net income

(bn yen)

YoY : Sales

On top of the additional Oisix led 43 thousand subscribers posted in 1H within domestic home delivery, the effect of continued high ARPU (vs. pre-COVID-19) **resulted in a revenue increase of 8.6bn yen.**

- Sales (bn yen)

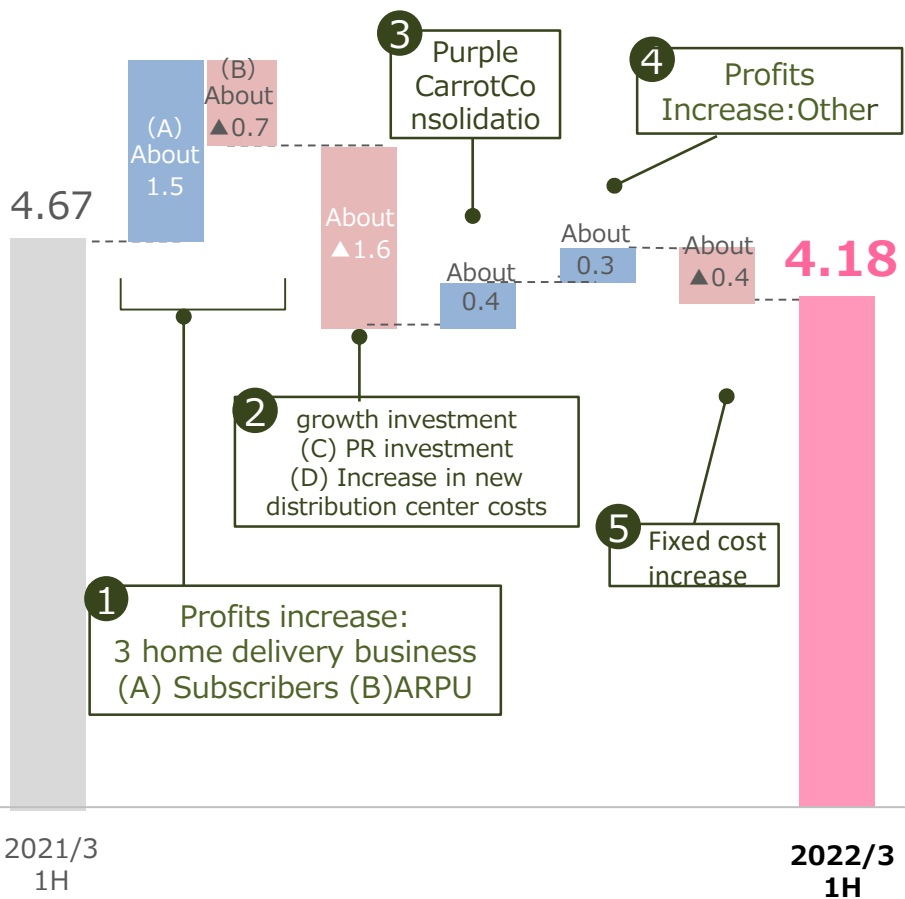

- 1 Sales increase of 3 home delivery business : about 4.7bn yen**
 - (A) Increase in subscribers : about 7.6bn yen
 - (B) Increase in ARPU : about ▲2.9bn yen
- 2 Sales increase of Purple Carrot : about 1.5bn yen**
- 3 Sales increase of Other : about 2.4bn yen**
 - EC support
 - Kindergarten wholesale
 - Hong Kong/ Shanghai
 - Consolidated subsidiaries (include new consolidation by "Toyoichi")

YoY : EBITDA

EBITDA were above expectations. Whilst aggressive growth investments were made – new large-scale PR spending, transitioning to the new Oisix distribution center – subscriptions and ARPU remained strong.

- **EBITDA** (bn yen)

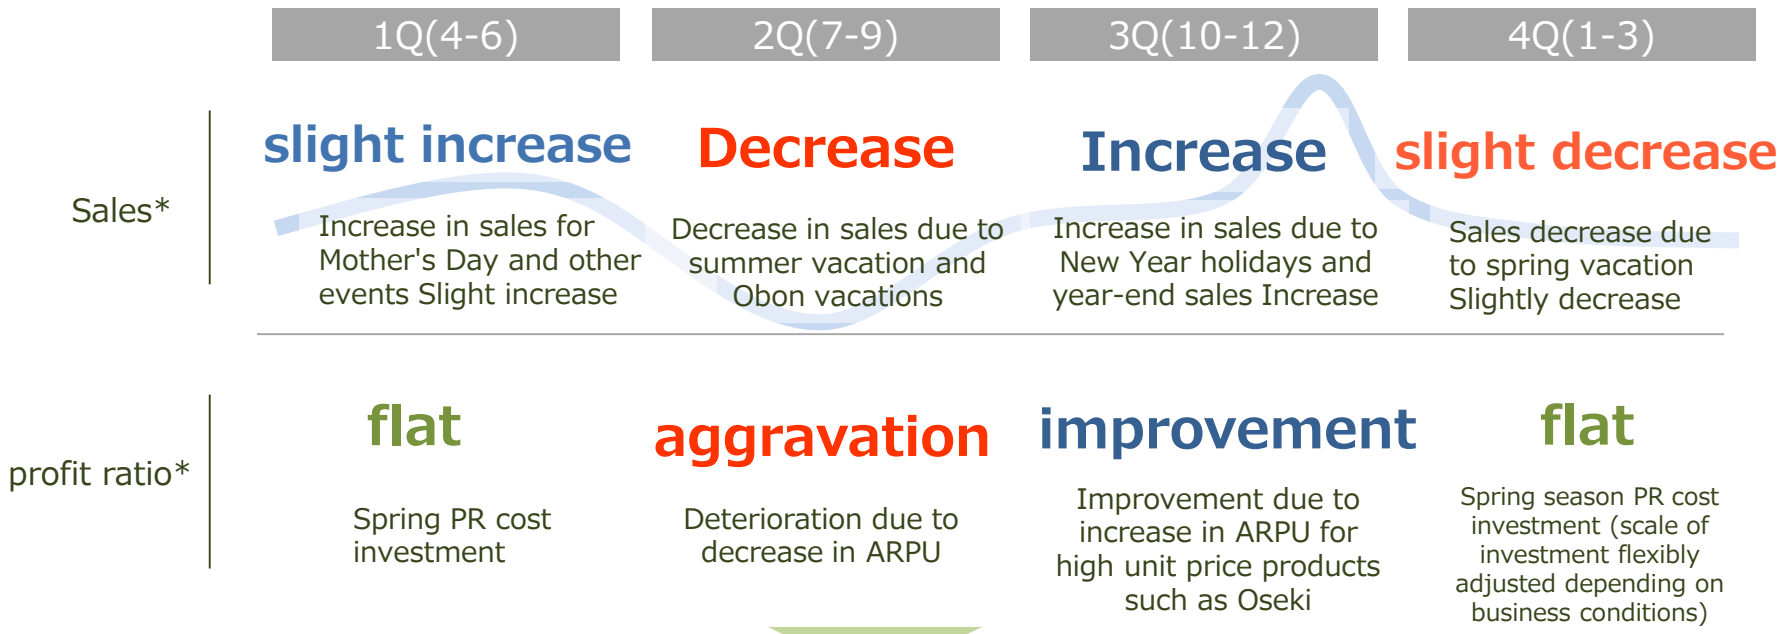

- 1 Profits increase of 3 home delivery business : about 0.8bn yen**
 - (A) Increase in subscribers : about 1.5bn yen
 - (B) Increase in ARPU : about 0.7bn yen
- 2 Increased investment in growth : about ▲1.6bn yen**
 - (C) PR investment : about ▲1.5bn yen
 - (D) Increase in logistics costs for new Oisix distribution center : about ▲0.1bn yen
- 3 Profit increase of Purple Carrot : about 0.4bn yen**
⇒ Turn into surplus in 1 year after consolidation
- 4 Profits increase of Other : about 0.3 bn yen**
- 5 Companywide fixed costs increase : about ▲0.4bn yen**
 - Strengthening personnel for business enhancement and expansion
 - Preparatory expenses for renewal of system infrastructure (enhancement of speed and data utilization).

Seasonal fluctuations in business performance

Our business model is characterized by seasonal fluctuations to sales and profit margins. COVID-19 has tended to mask those fluctuations. **In the current FY3/22, as the effect of COVID-19 subsides, seasonal fluctuations are likely to be more pronounced.**

- Seasonal changes in normal conditions

- Impact of COVID-19 Seasonal Variations

Due to the impact of the COVID-19, the range of seasonal variation such as the impact of summer vacation is smaller than normal, but **the seasonal variation is larger than the previous year because the COVID is gradually settling down this year.**

EBITDA: Changes from 1Q to 2Q

In addition to the effect of seasonally lower profit margins, we invested actively in growth initiatives such as the new Oisix distribution center and measures to improve purchase frequency.

-EBITDA: Changes from 1Q to 2Q (bn yen)

- 1 Profits increase of 3 home delivery business : about 0.2bn yen**
- 2 Increased investment in growth : about ▲0.3bn yen**
 - Increase in one-time expenses for relocation of the new Oisix distribution center
 - Increase in expenses for measures to improve purchasing frequency
- 3 Profits decrease of Purple Carrot : about ▲0.2bn yen**
 - Decrease in profits due to a reactionary decline in the number of members following the resumption of the economy after an irregular pace of growth
 - Increase in expenses due to the switch to materials that maintain quality during the summer
 - Increase in manufacturing and development costs for new products, etc.
- 4 Increase Fixed Costs : about ▲0.2bn yen**
 - Strengthening personnel for business enhancement and expansion
 - Preparatory expenses for renewal of system infrastructure (enhancement of speed and data utilization).

Business segment Results

	Sales	Segment profit	Overview
Oisix	28.58 bn yen (YoY +24%)	4.04bn yen (YoY ▲7%)	<ul style="list-style-type: none"> • Promotions are progressing better than expected. New subscriptions increased by roughly 39,000 in the 1H. • Reflecting promotions timed to public holidays and continued demand for home delivery, ARPU has remained high at roughly +18% vs pre-COVID levels.
Daichi	6.62 bn yen (YoY ▲7%)	1.31 bn yen (YoY ▲4%)	<ul style="list-style-type: none"> • Advertisements highlighting seasonal vegetables being one example, we continue development of customer acquisition methods in line with the target customer. • ARPU remained high and was up roughly +10% vs pre-COVID levels.
Radish Boya	8.73 bn yen (YoY ▲4%)	1.14 bn yen (YoY ▲30%)	<ul style="list-style-type: none"> • As demonstrated by the likes of the fuzuroi-radish campaign, customer-focused advertising knowledge is accumulating. • ARPU remained high and was up roughly +10% vs pre-COVID levels.
Purple Carrot (Results for January to June)	5.53 bn yen (YoY +37%)	0.81 bn yen (YoY +130%)	<ul style="list-style-type: none"> • Coming off of an irregular one-off increase, resumption in economic activity suggests a negative repercussion phase in subscriptions. On the other hand, the impact has been less severe than expected and business remained profitable in 2Q.
Other business	6.91 bn yen (YoY +55%)	0.86 bn yen (YoY +28%)	<ul style="list-style-type: none"> • EC support services continued to see strong performance. • The SinS/Nursery School Wholesale business saw sales expansion on steady growth in the number of customers • Overseas, the impact of COVID has subsided. We will return to advancing our efforts to refine our services.

Business segment Results Overview

Future Outlook

Sales : By adjusting to lifestyle changes post COVID-19, we aim to secure a healthy increase in subscribers. Although ARPU is expected to see gradual decline, we aim to maintain purchasing frequency at a high level even after COVID-19.

Costs : we anticipate gradual reduction to CoGS via such initiatives as transitioning to in-house processing. New PR investments for customer acquisitions will be implemented to the maximum within the appropriate CPA range. With startup of operations at Oisix's new distribution center, one-off additional logistical costs are expected in the 2H. With full integration of distribution, however, we anticipate gradual cost reductions from next fiscal year.

		2H 2022/3	2023/3	Outlook
Sales	Subscribers	Expansion	Expansion	Respond to changes in customers' lifestyles, which will continue after Corona, and steadily expand by acquiring members mainly in the spring, which is an opportune time as before.
	ARPU	Decrease	Retain ~ Increase	In the 1H, the decline was less than initially expected, but we expect a gradual decline in the 2H due to changes in lifestyles following the lifting of the emergency declaration. In the second half, we expect a gradual decline. On the other hand, in the next fiscal year, we aim to maintain the level of sales at a higher level than the previous year through measures such as strengthening value propositions. In the next fiscal year, however, we will aim to maintain sales at a level higher than that of the previous fiscal year through measures such as strengthening our value proposition. Translated with www.DeepL.com/Translator (free version)
Costs	CoGs	Improve	Improve	Reduced product and manufacturing costs by promoting in-house production of processing processes.
	PR	Increase	increase	Implemented to the maximum within the appropriate CPA range.
	Logistics	Temporally increase	Improve	With commencement of operations at the new Oisix refrigeration center in August, additional expenses of roughly ¥0.8bn (including roughly ¥0.6bn in depreciation and land rent) will be incurred in FY3/22. Next year, with elimination of one-off expenses and consolidation of logistics, a gradual decline in expenses is expected.
	Other SG&A	Improve	Improve	With expanding sales, the ratio of fixed SG&A to sales declined.

② Domestic Delivery business (other)

③ Overseas Business

④ Other Business

EC Support

Continuing from the previous fiscal year, both subscriptions and ARPU have been steadily increasing. Via product planning and propositions aligned with individual customer needs, we have been able to maintain unit basket prices at levels exceeding those prior to COVID.

ISETAN DOOR

Support for Isetan Mitsukoshi's EC business
Commissioned from operation and management of EC sites to distribution and delivery.

- ✓ In 1H, both sales and the number of subscribers has grown steadily, partly due to the influence of COVID-19.
- ✓ Sale of unbundled gift sets being one example, implementing events that leverage the strength of department stores.

d-meal kit

Started in July 2019 in collaboration with NTT Docomo. Offer regular delivery services, mainly meal kit for NTT Docomo's customers.

- ✓ In 1H, both sales and the number of subscribers has grown steadily, partly due to the influence of COVID-19.
- ✓ We have developed a new original d-meal kit. Targeted at the very high need for shortening cooking processes.

Due to the continuous rise in demand for mobile sales, **the total amount of distribution maintained a high growth rate of +40% YoY.**

The establishment of the SV system has strengthened cooperative relationships with partner supermarkets, and the number of units in operation has been steadily increasing.

Impact scale

<u>2022/3 1H value of circulation</u> 10.80 bn yen (YoY +40%)	<u>Number of vehicles in operation</u> 884
--	--

-Development Scale

- ✓ Partnerships with 142 supermarkets, with growth in the number of units in operation in 42 prefectures nationwide
- ✓ Ito-Yokado Co., Ltd. made a significant contribution to the number of units in operation by strengthening advertising for Tokushimaru.

Overview of Business Segments

④ Other Business

A home delivery business focusing on 100% vegan meal kits, which is being developed in the US. Although the number of members began to decline due to the impact of the economic resumption, the impact was slower than expected and progress was better than expected.

Quarterly results (\$mn)

-Business Overview

Home delivery service offering meal kits with only 100% vegan food

- ✓ Weekly home delivery to 48 states in the continental U.S. subscription model
- ✓ Veganism is a lifestyle in which people do not consume foods of animal origin. Veganism is a lifestyle that does not consume food of animal origin. In recent years, the style has spread to enjoy only a few days a week.

We look to create opportunities allowing for more people to readily adopt vegan food. Means to accomplish this include store sales and expansion of Ready-to-Eat scenarios. We look to utilize our knowledge of home delivery and expand the range of value provided.

-Sales of frozen foods at retail stores

- ✓ Purple carrot products are sold at major retail stores such as Whole Foods Markets, the largest organic retailer in the U.S.

-Expansion of product lineup "Ready to Eat"

- ✓ Expanding the lineup of products that are easier to prepare than meal kits. These include microwavable staple foods and snacks that can be eaten as is for breakfast/snacks.

Growing recognition as a vegan meal kit player with expanding sales channels and a broadening product range.

Domestic Delivery business (Three major brands)
Domestic Delivery business (Other)
Overseas Business
Other Business

Hong Kong/Shanghai

Hoang Kong : **The negative repercussion effect in subscriptions following COVID appears to be bottoming out.** To help strengthen brand recognition, collaborative projects with popular local entities such as Tsukada Farm are being implemented.

Shang hai : **Restrictions on travel to Japan have been eased. Local surveys have been conducted and via furthering of understanding of daily food needs,** we look to accelerate product development and cultivation of customer acquisition channels.

Hong Kong

Launched the service in 2009.
Cross-border delivery of Japanese products

✓ After an increase in the number of members due to COVID, there was a reactionary decline, but the decline is bottoming out.

✓ Expand brand recognition through collaborations with popular local companies such as Tsukada Farm and MUJI stores.

Shanghai

Business experiment started in 2017. Deliver products that meet Oisix product standards by local procurement

✓ Travel restrictions due to COVID impact eased Detailed field survey to begin

✓ Promote understanding of local dietary habits and environment, and proceed with localized Kit Oisix production and development. In parallel, we are also developing channels for acquisition (ABC Cooking Studio, etc.).

Shop in Shop

Rapid expansion in the number of stores with which we do business, with a total increase of 53 stores in the first half of the year, mainly due to the model of introducing meal kits to stores. We aim to further expand our business by creating models suitable for those areas where meal kit penetration has not progressed.

Impact scale

-Expansion through introduction of model stores

- ✓ Via the horizontal deployment of model store sales methodology, the number of transacting stores has been growing nicely.
- ✓ Advancing development of a new model to allow for speedy introduction in larger geographical markets.

Nursery School Wholesale (*suku-suku Oisix*)

Strengthen nutrition education opportunities for nursery schools and actively implement information disclosure. **Promote nutrition education through events and expand Oisix recognition among parents of child-rearing age.**

-Providing information to the child-rearing generation through nutrition education

▲An initiative to get children interested in vegetables they eat by having them name them.

- ✓ We continue to organize nutrition education events which are in high demand from nursery schools and parents. We offer those facilities supplying food ingredients with tools and opportunities.
- ✓ By strengthening the dissemination of event information, **we expand brand recognition among the child-rearing generation**

New PR support service for other companies: "Space AD"

NEW TOPICS

Domestic Delivery business
(Three major brands)

Domestic Delivery business
(Other)

Overseas Business

Other Business

Launched "Space AD", an offline promotion support service specializing in subscriptions. Providing the know-how built up through our own offline promotions, we aim to turn this into a 5 bn yen business in three years.

-Strengths of our offline PR

- ✓ Thorough management of acquisition costs and customer LTV
- ✓ Experience in offline customer acquisition at Oisix
- ✓ Experience in holding events in a variety of event spaces at approx 2,200 facilities

-Examples of Support

Features of "Space AD"

- ① Supports efficient offline advertising by visualizing sales efficiency based on factual data
- ② Provision of customer service staff specializing in the promotion of subscribed services
- ③ Propose event spaces that meet your needs based on area characteristics uniquely identified from customer attributes and human flow.

- ✓ We have provided support to several client companies, including Nestlé.
- ✓ Customer service staff introduce the appeal of services face-to-face, and some companies acquire more than 10,000 customers per year.

Jointly developing raw materials for meal kits with Toyoichi which was consolidated into Oisix in March 2021. Strengthened product development based on customer needs in the three home delivery businesses, **selling 31 new products in the first six months after consolidation**

Development of Kit Oisix ingredients

豊洲漁商産直市場

-Business Overview

Wholesale of marine products, mainly for restaurants

-Strengths

- ✓ Unique procurement network from both "market" and "direct production"
- ✓ Purchase from the customer's point of view by utilizing the mother company of restaurants

- ✓ Developed exclusive ingredients for Kit Oisix by combining Toyoichi's information on ports and Oisix's information on popular products.
- ✓ In addition to promoting the strengthening of marine products in the home delivery business Gradual increase in transaction volume as a new Toyoichi business

Affiliated company Welcome (DEAN&DELUCA, 20% owned) continues to be affected by COVID's request for shorter business hours.

Exhibiting at events across Japan was strong as new demand.

-Performance overview

- ✓ COVID continues to have an impact on the reduction of human flow and shortening of business hours
- ✓ Increase in requests for participation in department store events
 - Exhibited in 10 cities, about double the number of the previous year
 - We aim to build on rising DEAN&DELUCA driven customer traffic by implementing product development of highly popular local specialty products.

-Outlook

- ✓ Although uncertainties about the impact of COVID-19 will continue, continuous improvement in business performance is expected.
- ✓ Inclusive of likely employment adjustment subsidies, **we believe the possibility of a large non-operating loss is low.**

WELCOME GROUP

- Lifestyle business through retail and restaurant businesses
- ◆ Main Brand : DEAN & DELUCA, GEORGE'S etc,

WeSupport Family

Borrowing from our WeSupport Medical platform – a food support platform for medical professionals, **we initiated “WeSupport Family” which is a project to address child poverty and food loss.**

WeSupport Medical

Launched in the wake of COVID, WeSupport Medical is a food support platform for medical professionals. 127 supported support for 700,000 people and more than 700 million yen

Messages from the medical institutions we support

Thank you very much for all the support you have extended us. Thanks to you, we have been able to maintain the health and morale of our medical staff. As for future initiatives, it is truly wonderful that you are supporting single-parent households that have been hit especially hard by COVID.

WeSupport Family

A food support platform for poor households with children, mainly single parents. By utilizing the surplus stock of supporting companies, we can also contribute to solving the problem of food loss.

ひとり親家庭などのこどもの栄養を考えた支援をお考えの方へ

子どもたちの栄養を考えた食支援
WeSupport Family

Tokyo Harvest

“Tokyo Harvest,” an event to showcase the wonders of food producers, was held online. Under the slogan “#Start not throwing away,” the event called for participation in food loss reduction activities from a variety of perspectives including those of producers and consumers.

Producer

Craft gin

Craft gin saving the food and beverage industry. Production of spirits via distillation of beer suffering from inventory hangover vis-à-vis COVID.

Consumer

Whole food recipes

Introduction of turnip and carrot leaf recipes that can be preserved.

Tokyo Harvest
An event held for the ninth time this year to communicate the excellence of food producers such as farmers, fishermen, and livestock breeders both in Japan and overseas, and to convey feelings of gratitude and respect in a tangible form.

Supporting Athletes

Continuing to implement "food" support to help athletes competing on the world stage. We also provide minor sports marketing know-how. Additionally, we created a sports support project within the company to encourage proactive participation by employees.

Support for wheelchair rugby

Federation Director involved in administration including that of dissemination and education. Also involved in providing food support at training camps and tournaments.

(C)Megumi Masuda/World Wheelchair Rugby

- ✓ Won a bronze medal at the Tokyo Paralympics!

Food support for athletes

Provide food support for our vegetables and juices.

- ✓ One of our support athletes, wrestler Ms. Mukaida, has won a gold medal at the Tokyo Olympics!

APPENDIX • DATA SHEET

Main Business Risks

■ Effects of climate change

Fresh produce accounts for about 30 % of Group sales. We deploy a structure for fresh produce that makes it possible to secure supplies from other regions if poor weather in specific regions prevents harvests or results in poor quality. The system distributes transactions and in principle allows procurement of key products from multiple producer regions. Nevertheless, poor weather lasting longer and having more broad-ranging effects than expected may lead to product shortages and quality issues, with potential consequences for Group businesses and business results.

■ Effects of concentration of logistics centers

We operate our own logistics centers, where logistics functions such as inspection, storage, sorting, and packing of our products are concentrated. For the most part, products under the Oisix brand are shipped to customers through our logistics center located in the city of Ebina, Kanagawa Prefecture. Those under the DWMK brand are shipped through a center located in the city of Narashino, Chiba Prefecture. If a natural disaster, fire, or other cause were to render either or both logistics centers unable to operate, potential consequences include inventory losses, shipping delay, and temporary suspension of services, which in turn would affect Group businesses and business results.

■ Issues related to food safety

We have established proprietary standards for the products handled for all our major brands. Whenever possible, we seek to offer produce grown without pesticides or chemical fertilizers. Our processed food products are made using the fewest possible additives. We have also established unique inspection systems for produce (including inspections of production sites and testing for residual pesticides) and processed food products (including use of third-party experts and independent institutions). We also strive to secure appropriate quality and safety that can be objectively demonstrated and evaluated through health and safety management guidance provided to suppliers and other means. Nevertheless, it remains possible that those who produce the products we offer may provide misleading or fraudulent labels regarding use of pesticides and similar matters or provide false quality information. Such cases could well lead to rebuke or penalties from regulators, customer complaints, and compensation for damages, in turn damaging the image of the Group's brands or leading to a loss of confidence in the Group and potentially affecting Group businesses and business results.

■ Governance throughout the supply chain

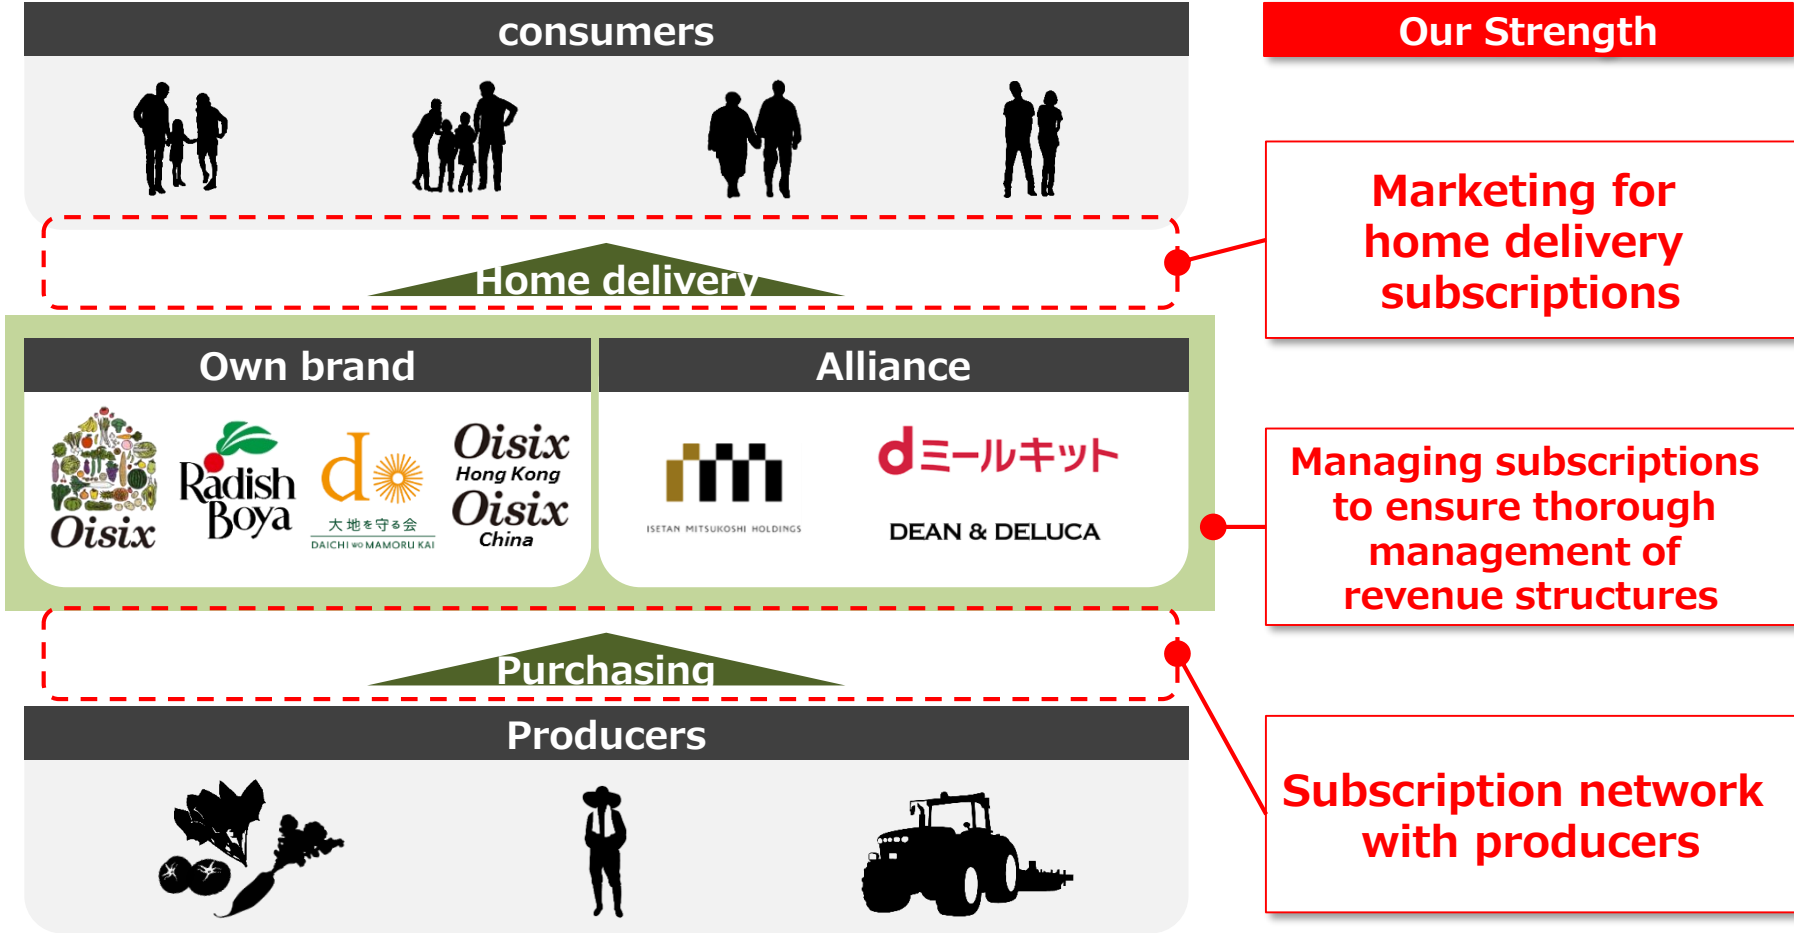

The Group develops its business in collaboration with many business partners, from procurement to logistics and the last mile. If any of these supply chains were to experience an increase in occupational accidents caused by the working environment, or governance violations such as human rights abuses or concealment of wrongdoings, it could have an impact on our business and business performance.

The Group will strive to avoid or mitigate risks through close communication with business partners that make up the supply chain, jointly recognizing the possibility of incidents and security systems, and through collaborative work. We will also strive to transfer risks through the use of insurance and exemption and cancellation clauses in contracts.

Our Subscription Model

Expanding our business areas to include alliances and marketing support for other companies based on subscription model strengths in our three home delivery brands.

What Our Three Brands Deliver

Based on the distribution of safe, reliable food products, each of our three brands delivers products tailored to the lives and values of our customers.

Two-worker households with small children

Meals that can be boasted without taking time

Households who want to enjoy cooking

Self realization through Cooking

Senior household with two people

Easy feeling of health

Producers

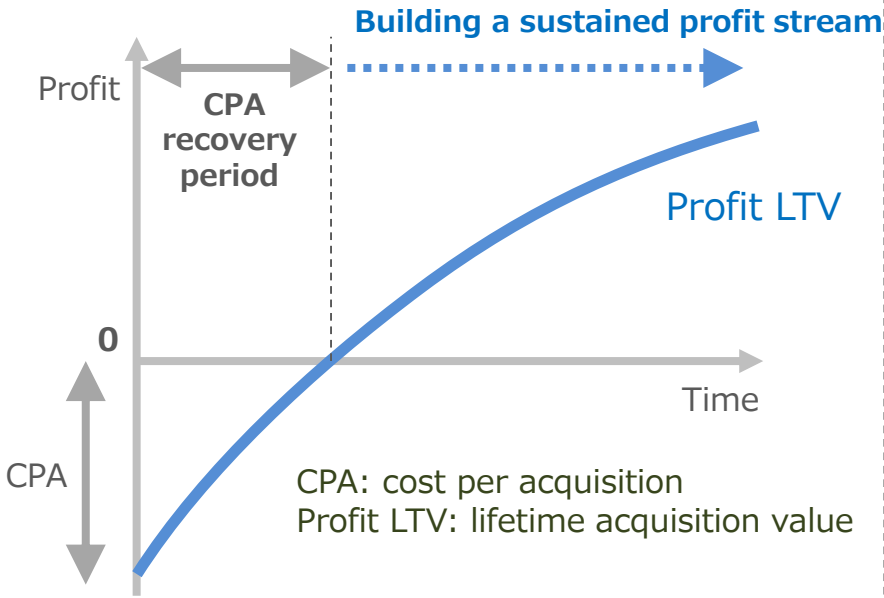

Subscription Management

Building a subscription model that generates sustained profits through rapid returns on investment to secure new customers and rigorous management of per delivery revenue and expenditures

Rigorous CPA and LTV management

Setting a period to recoup CPA and rigorously managing CPA within this range

Rigorous management of unit revenues and expenditures

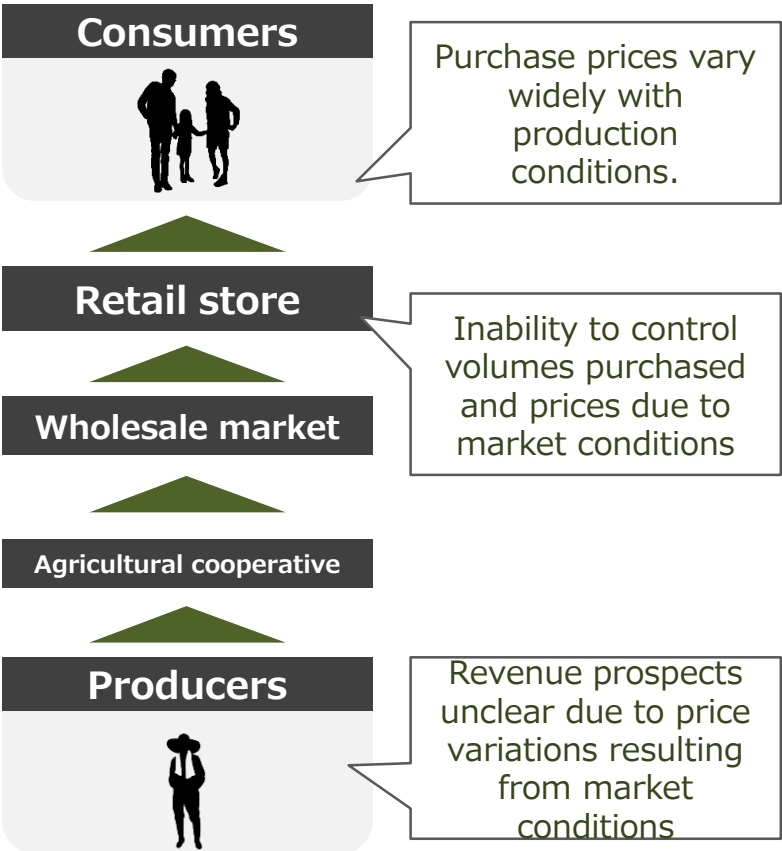

Making percentages of loss-making deliveries visible for each unit and reducing them structurally

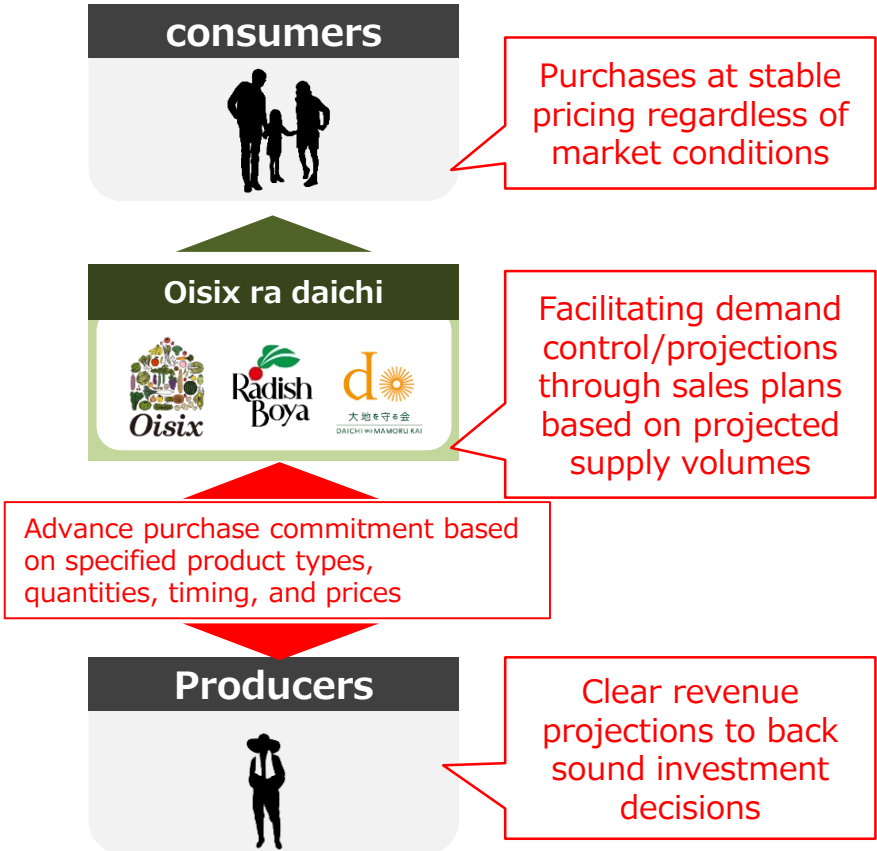

Subscription Network

Reducing risks and securing stable transactions through a subscription network based on 4,000 producers nationwide and procurement under transaction conditions arranged in advance

■ Typical distribution of agricultural products

■ Our efforts

Differences in the assets of the three brands

How to join	WEB mainly	WEB/ door-to-door sales	WEB mainly
How to order	WEB only	WEB/ Paper catalogs/ TEL	WEB/ Paper catalogs/ TEL
Logistics bases	4 place in Kanagawa	4 places in Hokkaido, Tokyo, Kanagawa, Osaka.	1 place in Chiba
Last One Mile	Yamato trucks approximately 99%	Our trucks approximately 95% (area around Logistics bases)	Our trucks approximately 80% (area around metropolitan area)

EC support

We will provide our strengths and develop businesses to support other companies' EC. For example, we will provide subscription know-how cultivated through our domestic food delivery business and logistics assets specialized in food delivery.

Oisix ra daichi

E-commerce Marketing

Operation and management of e-commerce sites focusing on food

Logistics and Distribution

Providing assets for food delivery

product development

Development and provision of products that meet client needs

DEAN & DELUCA

dメールキット powered by *Oisix*

"Tokushimaru" (subsidiary)

Offering mobile supermarkets for seniors and "shopping refugees" difficult to approach via the Internet

overview

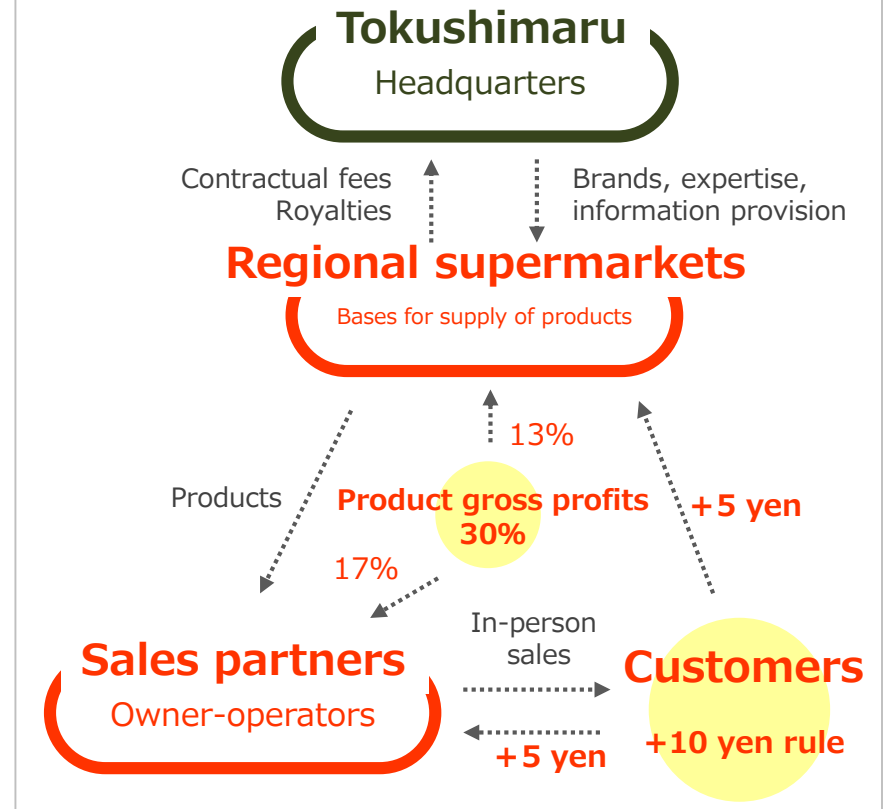

Operating a mobile supermarket for seniors

aim

Provide value to customers who cannot be approached through EC

- ✓ Solving the Social Problem of "Shopping Refugees" Who Cannot Go Out to the Neighborhood Supermarket
- ✓ Strong network of customers with weekly face-to-face sales.

Revenue Model

Overseas Home Delivery

Hong Kong / Shanghai: Aim to establish services that meet the needs of local Chinese consumers

U.S.: Utilize management know-how in food subscription model for Purple Carrot

■ Oisix Shanghai

- ✓ Started the service in 2017. Grasp the needs to establish the subscription model for Chinese customers

■ Oisix Hong Kong

- ✓ Launched the service in Hong Kong in 2009. Cross-border delivery of Japanese products
- ✓ With the spread of coronavirus, both users and sales are dramatically increasing

U.S. Meal Kit Market*

■ Purple Carrot Business(U.S.)

Oisix ra daichi

PURPLE CARROT

- ✓ Global expansion of vegan food x Japanese food "Health Conscious Food" both in Asia and the U.S.
- ✓ Recognize consolidated from FY2020/3 Q3

Shop in Shop

Setting up booths for individual brands in the produce sections of partner supermarkets to sell produce and products that meet each brand's standards

overview

Wholesale of the Company's products to affiliated supermarkets

aim

Expand awareness to customers who cannot be reached online

- ✓ By selling our products in real supermarkets, we will expand our recognition to the segment that we cannot reach through online advertising.
- ✓ Our products are expected to attract customers to our partner stores.

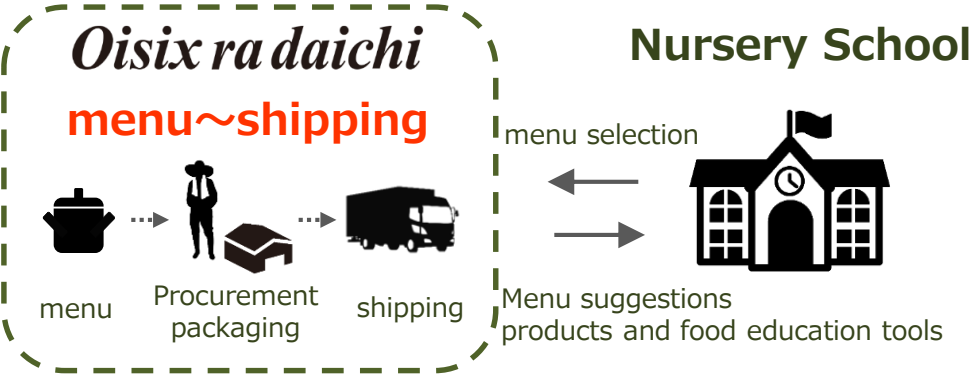

Image of affiliated supermarkets

Nursery School Wholesale

(*suku-suku Oisix*)

Provides a unique system for ordering food for school lunches based on a menu. It supports the operation of nursery school facilities in terms of food service and food education.

at the nursery school

overview

Support for nursery school facility management for food service and food education

aim

Fostering food awareness at an early age
Expanding awareness among parents

- ✓ The workload of nutritionists and nursery school teachers is reduced because menus can be ordered in bulk.
- ✓ Confronting children's food problems. And to raise awareness of our company among parents.

Future Food Fund (subsidiary)

Utilizing our experience at the time of our founding, we will build an ecosystem of food tech that provides a wide range of support by making maximum use of the platforms of operating companies that participate as LPs, not just investment activities.

By comprehensively following the business growth of startups, the speed of business growth will be significantly accelerated.

Utilization of various LP assets and know-how

◆ Example

Sales

Import /Logistics

Infrastructure

Collaboration and support with proven American VCs and incubators

Service experiment utilizing startup specialty EC sales floor

一流フレンチシェフ監修

(Supplemental Information)
Impact of changes to revenue recognition standards.

Sales and profits will not be significantly affected by changes to revenue recognition standards.

Although, the CoGS ratio shows represented as having worsened.

◆ Changes CoGs

◆ Main change schemes

① Domestic Delivery

- ✓ Some sales promotion expenses, such as point discounts, are offset against sales

② EC Support

- ✓ Sales and expenses that were shown on a net basis are now shown separately
- ✓ Expenses are accounted for in CoGS.
