To implement the management strategy described above, the Company has established a corporate framework within which the Company could best continue to grow globally while meeting the challenges of a constantly evolving worldwide technology-focused business. In April 2018, the Company was reorganized and established a managing entity called SBU Headquarters, which manages the subsidiaries of each Strategic Business Unit (SBU). The focus of this reorganization was to create an operating environment in which the Company could execute transactions for expansion, divestitures, and reorganization of the business portfolio in the most expedient manner possible.

On April 1, 2021, Recruit Co., Ltd., the headquarters of Media & Solutions SBU, integrated its wholly-owned seven core operating companies and functional companies into Recruit Co., Ltd. Recruit Co., Ltd. aims to implement management strategy, while strengthening corporate governance functions in Media & Solutions SBU.

The Board of Directors values constructive dialogue with shareholders on a range of issues, including the Company's strategies. In its discussions of mid- to long-term strategies, the Board of Directors reviews and makes effective use of feedback from shareholders.

To ensure that management is focused on implementing the mid- to long-term strategy, the Company's compensation plans for internal Directors of the Board and Corporate Executive Officers incorporate performance indicators which reflect financial performance goals and shareholder value.

The Board of Directors and management are committed to using the Company's capital efficiently to achieve sustainable growth and increase the enterprise value of the Company over the long term. To that end, they closely monitor the Company's cost of capital and assess growth opportunities against their prudently established targets for return on investment and equity. The Company sets its ROE target at approximately 15%, aiming to achieve capital efficiency above the cost of shareholders' equity on a consolidated basis. When evaluating each investment opportunity, management and the Board of Directors apply a hurdle rate exceeding the cost of capital.

The section above complies with Corporate Governance Principles 3-1 (i) and 5-2 and Supplementary Principles 4-1-2 and 5-2-1.

Disclosure Based on Principles of the Corporate Governance Code

The Company has adopted the following policies based on the five general Principles of Japan's Corporate Governance Code.

Securing the Rights and Equal Treatment of Shareholders

The Company recognizes the Shareholders Meeting as the Company's highest decision-making body. The Shareholders Meeting serves as an opportunity for shareholders to express their views on the Company's strategy and goals, and the Board of Directors engages in constructive dialogue with shareholders so that their opinions are properly taken into account.

To ensure the fair and equal treatment of shareholders and to foster an appropriate environment for shareholders to exercise their voting rights, the Company implements the following measures:

- Early delivery of the Notice of Shareholders Meeting to allow enough time for a thorough understanding of the status of the business
- Posting of the Notice of Shareholders Meeting electronically in Japanese and English prior to sending it by mail
- Allowing voting by mail and the Internet for those who are unable to attend the Shareholders Meeting

The Company is committed to disclosing all information that will help shareholders cast informed votes at the Shareholders Meeting. Its disclosures relating to the Shareholders Meeting agenda go beyond what is legally mandated.

The Company facilitates shareholder activity in accordance with the "Share Handling Rules" which stipulate methods for shareholders to exercise their rights effectively. The methods include requests to view the shareholder registry or Board of Directors meeting minutes, the shareholders' right to make proposals at the Shareholders Meeting, the ability to bring a cease and desist order or file a shareholder class action in case of violation of law by a Director of the Board, and other rights of minority shareholders recognized in the Companies Act of Japan.

The above section complies with Corporate Governance General Principle 1, Principles 1-1, and 1-2 and Supplementary Principle 1-1-3 and 1-2-1.

Appropriate Cooperation with Stakeholders Other Than Shareholders

The Company considers all of its stakeholders to be important, including not only its shareholders but also its employees, individual users, business clients, business partners, non-profit organizations (NPOs) and non-governmental organizations (NGOs), national and other governments, and local communities. The Company aims to realize its Basic Principle and create corporate value for all the stakeholders in a sustainable manner.

In order to achieve the Basic Principle, the Board of Directors and Corporate Executive Officers consider it important to realize a continuous cycle of long-term business growth and contribution to society through the business. Dialogue with stakeholders is reported to the Board of Directors, and the Board of Directors and Corporate Executive Officers incorporate their inputs into our management strategies and goals.

The committees, which were voluntarily established as advisory bodies to the Board of Directors, hold discussions regarding stakeholders. Each committee reports to the Board of Directors on stakeholder engagement topics, including stakeholder input for the following:

- Policies and proposed actions for promoting a compliance mindset from the Compliance Committee
- Key risk themes from the Risk Management Committee
- Policies on sustainability actions from the Sustainability Committee

The Board of Directors monitors the progress of these activities and discusses important issues to incorporate into management discussions.

In addition, the Board of Directors and Corporate Executive Officers take the lead in discussions and initiatives based on dialogue with stakeholders, including dialogue with shareholders through online meetings and stakeholder surveys, and communication with specialists and experts.

The above section complies with Corporate Governance General Principle 2.

Ensuring Appropriate Information Disclosure and Transparency

The Company actively discloses non-financial information including environmental, social, and governance (ESG) topics and our corporate culture, in addition to financial information such as quarterly financial performance.

The Company discloses such information online in both English and Japanese in principle, and goes beyond legally mandated disclosures to make voluntary disclosures in order to ensure transparency and fairness for a broad range of stakeholders.

The disclosures include financial information, such as a quarterly financial results summary and FAQs, non-financial information, and transcripts and audio recordings of conference calls, which are disclosed on the Company website. The Company started to voluntarily disclose the English version of its Annual Report (translated from “*Yukashouken Houkokusho*”), beginning in 2020, which listed companies in Japan are legally required to publish in Japanese and includes disclosure of annual financial results and non-financial information such as governance and risk information.

Each Director of the Board is involved in disclosing useful and readily understandable information for stakeholders. Information disclosure forms the basis of the Company’s dialogue with shareholders and other stakeholders, and feedback obtained through this engagement with stakeholders is used to further improve its disclosures.

The above section complies with Corporate Governance General Principle 3 and Supplementary Principles 3-1-1.

Responsibilities of the Board of Directors and Committees

The Company’s Board of Directors is responsible for (i) decisions on basic management policies, (ii) management oversight, (iii) executive decisions that could have a major impact on the Recruit Group, and (iv) decisions on matters required to be resolved by the Board of Directors as provided in relevant laws and regulations, all of which are aimed at increasing corporate value and shareholder value in the medium to long term.

To establish an environment that supports appropriate risk-taking by the Directors of the Board and Corporate Executive Officers, the Board of Directors establishes the Compliance Committee and the Risk Management Committee as advisory bodies. The two Committees monitor SBU activities and identify key risks for the Company. The Business Strategy Meeting then considers whether the particularly significant risks have been identified and adequate mitigation measures are set. The results are reported to the Board of Directors. Based on the Committee reports, the Board of Directors assesses and manages the Company’s overall risk. When the decision-making speed is critical, the Board of Directors entrusts a certain degree of executive decision-making authority to the President, CEO, and Representative Director and oversees the execution status.

To ensure effective oversight of Executive Directors and Corporate Executive Officers, the Board of Directors appoints multiple independent outside Directors of the Board and outside Audit & Supervisory Board members. In order to enhance the objectivity and effectiveness of supervisory functions, the Nomination and Compensation Committees are chaired by Independent Directors, and serve as advisory bodies to the Board of Directors.

Regarding nomination and dismissal of Directors and Corporate Executive Officers, the Nomination Committee deliberates whether an appointment or dismissal is appropriate by taking into consideration the overall assessment of candidates for positions including evaluation of performance, capabilities, and qualities.

Directors of the Board, elected by the shareholders and entrusted with management of the Company, bear fiduciary responsibilities, including diligence in the performance of their duties, and contribution to sustainable growth and increases in enterprise and shareholder value over the medium to long term.

The Company's Directors, Audit & Supervisory Board members, and Corporate Executive Officers are aware of their responsibilities entrusted to them by shareholders, and act for the joint benefit of shareholders and the Company while ensuring appropriate cooperation with stakeholders.

The Sustainability Committee meets twice annually, and serves as an advisory body to the Board of Directors. The Committee's participants include Executive Directors, Corporate Executive Officers who are CEOs of SBU Headquarters, the chairperson of the Board of Directors, and internal and outside experts. To increase awareness of the demands and expectations of broader society, the Committee emphasizes engagement with diverse stakeholders and conducts extensive discussion with stakeholders including NGOs. The Board of Directors then confirms the action plans and fiscal year policy for the Company's sustainability activities and promotes specific activities.

Annually, the Board of Directors analyzes and assesses its own effectiveness, confirms whether deliberations are conducted properly from the perspective of all stakeholders involved in the Company, and carries out initiatives for improvement.

The above section complies with Corporate Governance General Principle 4, Principles 4-1, 4-3 and 4-5.

Dialogue with Shareholders

The Company believes constructive dialogue with shareholders can help realize the Recruit Group Management Philosophy and achieve sustainable increases in enterprise value and shareholder value.

In addition to discussions with shareholders at the Annual Meeting of Shareholders, Directors of the Board and Corporate Executive Officers meet with both overseas and Japanese shareholders and investors. Through this dialogue, Directors and Corporate Executive Officers help shareholders and investors understand the Company's management policies and receive feedback from shareholders on the Company's strategy, goals and policies.

To promote dialogue with shareholders and investors, the Board of Directors appoints a Corporate Executive Officer in charge of Investor Relations in the Corporate Planning Division, and establishes a department dedicated to Investor Relations. In addition, the Company also sets up a contact point for inquiries from individual shareholders and individual investors.

The Board of Directors including Independent Directors discusses the feedback from shareholders and investors and uses this feedback to fulfill its role to monitor management and execute decisions.

The above section complies with Corporate Governance General Principle 5.

Internal audits are voluntary, focusing on internal independent evaluations of the internal control structure and prevention of internal misconduct, and carried out under the direction of management.

This means ensuring that there is adequate time to conduct audits, engaging in active monitoring, and providing guidance for prevention and handling of cases of misconduct, deficiencies, and other negative issues. This is achieved by communicating and coordinating with the Audit & Supervisory Board members and other officers of subsidiaries and by receiving periodic reports on the audit results of the subsidiaries and associates. Provision of Support for Outside Directors of the Board and Outside Audit & Supervisory Board Members

Outside Directors of the Board

The Administrators of the Board of Directors provide various forms of support to ensure outside Directors are able to appropriately oversee the performance of Executive Directors. This support includes advance briefings on agenda items to be discussed at the Board of Directors meetings and the provision of relevant supporting information.

Outside Audit & Supervisory Board Members

Standing Audit & Supervisory Board members and assistants to Audit & Supervisory Board members provide necessary support to outside Audit & Supervisory Board members to ensure the appropriate and prompt conduct of audits. Such support includes sharing materials and agenda items discussed at important meetings that outside Audit & Supervisory Board members did not attend. Subsidiaries with a standing Audit & Supervisory Board member provide reports to the Audit & Supervisory Board of the Company. Furthermore, the Audit & Supervisory Board members themselves visit subsidiaries and interview management to check on business conditions.

These support functions are supplemented by the following established procedures:

- One outside Director is assigned to coordinate with the outside Directors, and to communicate and coordinate with Directors and Corporate Executive Officers and for collaboration with Audit & Supervisory Board members or the Audit & Supervisory Board.
- As necessary, following Board of Directors meetings, separate meetings attended only by outside Directors and outside Audit & Supervisory Board members may be held, in order to more effectively gather information without affecting the independence of outside Directors and outside Audit & Supervisory Board members.
- The Board of Directors approves internal audit plans for the fiscal year prepared by the Internal Audit Department, and internal audit reports are issued biannually to ensure coordination among outside Directors, outside Audit & Supervisory members and the Internal Audit Department.

Items relating to Functions of Business Execution, Audit and Oversight, Nomination, and Decision on Compensation, Etc.

Corporate Governance Overview

The Company's corporate governance structure is a "Company with an Audit & Supervisory Board" as defined under the Companies Act of Japan. In this structure, Audit & Supervisory Board members appointed by shareholders conduct audits of the execution of the duties by Directors as an independent body from the Board of Directors. This is the foundation for the Company's efforts to ensure and improve transparency, soundness, and efficiency of management.

Under this structure, the Company has appointed multiple outside Directors of the Board and outside Audit & Supervisory Board members who are highly independent. The Company also has voluntarily established committees to serve as advisory bodies to the Board of Directors, including the Nomination, Compensation, Compliance, Risk Management, and Sustainability Committees. To enhance independence, the Nomination and Compensation Committees are all chaired by Independent Directors of the Board and have a majority of outside members.

Annually, the Board of Directors analyzes and assesses its own effectiveness, confirms whether deliberations are conducted properly from the perspective of various stakeholders, and carries out initiatives for improvement.

Furthermore, the Company has appointed Corporate Executive Officers, and established the Business Strategy Meeting to serve as an advisory body to the CEO in order to enhance the Company's decision-making process and execution. The Business Strategy Meeting discusses important matters for the Company and the CEO approves the execution of such matters.

The Company has organized management units called Strategic Business Units ("SBU"). Each SBU has established a managing company, or SBU Headquarters, which manages the subsidiaries of each SBU. After deciding basic management policies and important matters, and clarifying the scope of responsibilities,

the Board of Directors delegates certain decision-making authority to the Business Strategy Meeting, SBU Headquarters, and other relevant bodies.

Through this arrangement, the Company aims to ensure that our corporate governance mechanisms are functioning sufficiently, both in terms of timely decision-making and effective internal control.

The above section complies with Corporate Governance Supplementary Principle 4-10 and 4-10-1.

Board of Directors

Role of the Board of Directors

The Board of Directors seeks to increase enterprise and shareholder value in the mid- to long-term. The responsibilities of the Board of Directors include:

- Setting basic management policies to achieve the Company's strategic objectives
- Conducting oversight of operations and management
- Making decisions that could have a major impact on the Company
- Resolving matters required to be resolved by the Board of Directors as stipulated in relevant laws and regulations

Board of Directors meetings are held once a month in principle. The Board of Directors makes decisions on matters which significantly impact the Company's corporate governance and/or the Company's consolidated financial performance, such as investments above a certain threshold and key personnel matters. The Board of Directors delegates authority over other business matters to the Business Strategy Meeting and other decision-making bodies according to their appropriate level of responsibilities.

Criteria for determining organizational decision-making authority are set forth in the rules on decision-making authority. These rules are reviewed annually by the Board of Directors and revised as necessary.

When proposing to shareholders that certain matters for resolution at the Annual Meeting of Shareholders be delegated to the Board of Directors, a Board of Directors meeting attended by two Independent Director of the Board and two outside Audit & Supervisory Board members considers whether the Board of Directors is adequately constituted to fulfill its corporate governance roles and responsibilities, and whether such delegation is desirable from the perspectives of agile decision-making and expertise in business judgment.

Composition of the Board of Directors

The Board of Directors is composed of six Directors, including two Independent Directors.

As a result of its growth, the Company today operates across many business sectors and geographic locations, engages with a broad universe of individual users and business clients, and employs people from diverse backgrounds. The Company recognizes that the Board of Directors should reflect this diversity to ensure that it sustains the high-quality discussions that drive innovation and the long-term success of the Company.

As for the size of the Board of Directors, the Company believes that the Board of Directors should have an appropriate number of members in order to foster high-quality discussions. Under the Company's Articles of Incorporation, the Board of Directors may have a maximum of eleven Directors.

In addition, beginning April 1, 2021, we have changed to a structure in which different persons serve as the Chairperson of the Board of Directors and the CEO. We believe that checks and balances will be more

effective and this will contribute to the strengthening of governance by separating the roles of the Chairperson of the Board of Directors and the CEO.

Approach to Selecting Directors of the Board

The approach to selecting candidates for the Board of Directors is to choose qualified personnel from a pool of diverse candidates who can fulfill the duties and responsibilities of the position by considering their skills, leadership and professional experience, personal background, judgment, personality, and insight, without discrimination based on attributes of gender, age, nationality or ethnicity. Current Directors who are considered for renomination are evaluated on these criteria as well as their performance on the Board and number of terms of office.

With regard to the skills of candidates for Directors, the Nomination Committee reviews categories which are of particular importance for realizing the Company's mid- to long-term business strategies and resolved by the Board of Directors. Please refer to the Skill Matrix at the end of this document for the details.

In order to further improve the quality of management decision-making, the Company is working to increase the diversity of the Board of Directors. The Company has specifically set a target for gender, and aims to propose candidates for election to its Annual Meeting of Shareholders, to achieve an approximately 50% ratio of women out of the total number of Directors of the Board and Audit & Supervisory Board members by FY2030. As of June 18, 2021, two of the ten members of the Board of Directors including Audit & Supervisory Board members are women.

The Company has a policy that at least one third of the Directors of the Board are Independent Directors who maintain appropriate separation from management execution. As of June 18, 2021, there are six Directors of the Board, of which two are reported as Independent Directors to the Tokyo Stock Exchange. Outside Directors are selected based on the above criteria as well as their management experience at corporations operating globally and/or that are publicly listed.

The Company expects Independent Directors to play the following roles in addition to supervising the management of the Company:

- To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid- to long-term period.
- To play a leading role in matters related to selection and dismissal, evaluation and compensation of Directors of the Board and Corporate Executive Officers as a chair and/or member of the Nomination and Compensation Committees.
- To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of Independent Directors as well as outside Audit & Supervisory Board members.

In order to ensure that Independent Directors fulfill the above roles, the Company takes the following measures:

- To share and discuss the topics discussed during the Compliance Committee and Risk Management Committee with the Board of Directors for the purpose of creating an environment that allows Directors and Corporate Executive Officers to take appropriate risks when making decisions.

- To share and discuss the topics discussed during the Sustainability Committee as well as the voice of our shareholders with the Board of Directors for the purpose of ensuring the discussions at the Board appropriately reflect the diverse perspectives of our stakeholders.

In addition to the above mentioned Independent Directors, the Board appoints one non-Executive Director who does not execute business operations, but who has in-depth knowledge of and experience in the Internet industry.

The above section complies with Corporate Governance Principles 4-6, 4-7, 4-8 and 4-11, and Supplementary Principle 1-1-2 and 4-1-1.

Audit & Supervisory Board

Role of the Audit & Supervisory Board

The Audit & Supervisory Board is responsible for the following:

- Supervising the activities and performance of each Director of the Board as well as the Board of Directors as a whole and auditing the maintenance and operational status of internal control policies, procedures, and processes, based on the audit plan.
- Evaluating the appropriateness and performance of the Independent Auditor.

All members of the Audit & Supervisory Board attend the Board of Directors meetings as part of their oversight responsibilities. In addition, one or more standing Audit & Supervisory Board members must attend the Business Strategy Meeting to enhance the oversight function.

The Audit & Supervisory Board generally meets once a month and holds extraordinary meetings as needed.

Composition of the Audit & Supervisory Board

The Audit & Supervisory Board comprises four members, including two outside members. One substitute Audit & Supervisory Board member has been elected, in order to avoid any potential non-compliance with the statutory requirement that more than half of the members of the Audit & Supervisory Board be outside members.

Approach to Selecting Audit & Supervisory Board Members

The approach to selecting candidates for the Audit & Supervisory Board is to select qualified persons with suitable experience and capabilities and with the necessary knowledge in the areas of finance, accounting, and legal affairs, to fulfill the duties and responsibilities as an Audit & Supervisory Board member. The Company has two standing Audit & Supervisory Board members who deeply understand the business of the Company, and two outside Audit & Supervisory Board members, one with expertise in legal affairs and one with expertise in finance and accounting.

All the Audit & Supervisory Board members make efforts to continuously expand their knowledge in order to fulfill their audit function in areas such as finance, accounting, and legal affairs through appropriate training courses funded by the Company. For example, the Audit & Supervisory Board members seek to deepen their understanding of the latest accounting standards and important matters for auditing by taking relevant training and seminars offered by the Japan Audit & Supervisory Board Members Association or by outside audit and assurance firms.

The above section complies with Corporate Governance Principles 4-4 and Supplementary Principle 4-4-1.

Advisory Bodies to the Board of Directors: Nomination and Compensation Committees

The Nomination and Compensation Committees advise the Board of Directors. Each committee has a majority of outside members and is chaired by an outside Director in order to enhance the transparency and objectivity of the decision-making process.

These committees review and consider the nomination, evaluation, and compensation of Directors and Corporate Executive Officers in each fiscal year. Final decisions are made by resolution of the Board of Directors.

The roles of each committee are as follows:

Nomination Committee

The Committee deliberates and reports to the Board of Directors on the following:

- Nomination, succession and dismissal of the CEO
- Appropriateness of the process for nominating and dismissing candidates for Directors of the Board and Corporate Executive Officers.

Succession planning for the CEO considers the role's desired skills and qualifications, the Company's strategic outlook and the Board's desired governance structure. The appointment of the CEO is approved by the Board of Directors based on the recommendation of the Nomination Committee.

Development plans for successor candidates are formulated based on the expected succession timing of the existing CEO and the Committee monitors the progress of these plans.

If the Company should face poor business performance and it is determined that this is the result of inadequate performance of the CEO, upon deliberation, the Nomination Committee may report its findings and recommend their dismissal to the Board of Directors.

Regarding the nomination of Directors of the Board and Corporate Executive Officers, discussions are held on the best management structure, taking into account the mid-to long-term governance policy and the timing of planned CEO succession. The Committee deliberates on the adequacy of the entire process above including selection of the candidates and resolutions by the Board of Directors.

Directors or Corporate Executive Officers can be dismissed in cases where it is recognized that they have significantly harmed the enterprise value of the Company due to violation of laws and regulations or other similarly significant reasons. In such cases, the Nomination Committee reviews the individual's conduct and makes a recommendation to the Board of Directors. In addition, the committee develops, and makes periodic additions and revisions to the Skill Matrix used to identify the skills, experience and other qualifications necessary to create the optimal composition of members and enhance the effectiveness of the Board of Directors.

Compensation Committee

The Compensation Committee deliberates on policies relating to the determination of compensation for Directors and Corporate Executive officers, evaluation procedures, compensation structure, the individual evaluation of Directors of the Board and Corporate Executive Officers, as well as individual compensation amounts. Beginning on April 1, 2021, the Evaluation Committee and the Compensation Committee have been combined into one committee called the Compensation Committee.

In the latest fiscal year the two main topics deliberated and approved by the Evaluation Committee and Compensation Committee were as follows:

- The level and elements of executive compensation
- The Directors' individual performance evaluation and compensation

The above section complies with Corporate Governance Principles 3-1 (iv), and Supplementary Principles 4-1-3, 4-3-1, 4-3-2, 4-3-3, 4-10-1 and 4-11-1.

The maximum amount of liability for damages covered in the agreement is the minimum amount required under applicable laws and regulations. The Company pays all of the

The insurance contract covers any losses, legal defense costs, etc. caused by the insured persons' execution of their duties, and which are claimed for during the term of insurance. However, the contract does not cover any losses caused by dishonest or improper conduct such as willful breach of duty or criminal acts.

Information Gathering and Support Function

The Company has set in place an organizational structure that enables Directors of the Board and Audit & Supervisory Board members to obtain information whenever necessary to fulfill their respective duties. They are able, at the Company's expense, to acquire advice from outside experts as needed in areas requiring high specialization and where the Company's knowledge is inadequate. They are also provided with support including the assignment of staff.

The Corporate Planning Division holds regular meetings at least once a month for outside Directors, and the Committee Secretariats of the Nomination, Compensation Committees give advance briefings and provide required information as circumstances demand.

The Company gives outside Audit & Supervisory Board members access to group-wide internal information when needed. Standing Audit & Supervisory Board members and assistants provide outside Audit & Supervisory Board members necessary support including distribution of, and advance briefings on, meeting materials and the provision of information of various kinds.

As part of the annual analysis and evaluation of the effectiveness of the Board of Directors, outside Directors and outside Audit & Supervisory Board members are asked whether they have been able to obtain timely information needed for effective deliberations of the Board of Directors. Corrective measures are taken as appropriate.

The above section complies with Corporate Governance Principle 4-13 and Supplementary Principles 4-13-1 and 4-13-2.

Capital Strategy

The Company has adopted a policy of implementing capital policies that will not unduly harm the interests of existing shareholders.

The Company invests in new businesses, research and development, and mergers and acquisitions (M&A) in order to achieve profitable growth over the long-term, and maximize enterprise value as well as shareholder value. Therefore, the Company has set adjusted EBITDA and adjusted EPS as target management KPIs. The Company's ROE target is approximately 15%. The Company also applies a hurdle rate exceeding the cost of capital when evaluating each investment opportunity, and focuses on achieving capital efficiency above the cost of shareholders' equity on a consolidated basis.

The Company's primary use of capital is to invest for its long-term business strategy in order to achieve sustainable profit growth and increase enterprise value. The Company believes that this approach will contribute to the common interests of shareholders. The Company also considers the return of capital to its shareholders in the form of dividends to be an important part of its capital allocation strategy. The Company strives to continuously pay stable dividends considering its long-term cash needs and financial position forecast.

The Company may consider implementing share repurchase programs, depending on the capital market environment and the outlook of its financial position.

Capital policies and action such as large equity financing or, management buyout that may result in changes to, or major dilution of, controlling interests, will be carried out only after all due consideration by the Board of

Directors, ensuring proper procedures are followed, and providing sufficient explanations to shareholders regarding the necessity and rationale of the actions.

Policy of Strategic Shareholdings

In principle, the Company's policy is to reduce strategic shareholdings. The decision on whether or not to hold each company's stock is made based on a comprehensive assessment of the economic value of its stock, cost of capital, strategic importance, and other factors. The Board of Directors scrutinizes these shareholdings once a year and deliberates the reduction of these holdings if they do not meet the above criteria.

Exercising voting rights of strategic shareholdings is to be carried out appropriately upon verifying the agenda item and judging whether or not such proposed item contributes to improvement of shareholder value. If the agenda item significantly damages expected shareholder value, the Company will not judge it positively. If the Company casts a dissenting vote to an agenda item, it will be reported to the Board of Directors.

If a company that holds shares of the Company as strategic shareholdings indicates the intention to sell the shares, the Company will do nothing to hinder the sale, such as indicating resulting reductions in business transactions between the companies.

Furthermore, the Company does not conduct business transactions that may harm the shared interests of the Company and its shareholders, such as continuing business transactions with companies that are strategic shareholders without adequately verifying the economic rationality of the transactions.

The above section complies with Corporate Governance Principle 1-4 and Supplementary Principles 1-4-1 and 1-4-2.

- Aiming to prosper together with all stakeholders.
- Conducting corporate activities with a sound governance foundation.

Material Foundation for Corporate Activities

The Company sets material foundations for corporate activities to increase its corporate value in a sustainable manner by prospering together with all stakeholders. The material foundations are identified based on dialogue, including environmental, social and governance ("ESG") topics, with its external stakeholders, and internal discussions of its Board of Directors and the Committees. The Company reinforces initiatives for each theme, and the Board of Directors monitors them based on discussions in the related Committees, which are advisory bodies to the Board of Directors.

Corporate Governance

The Company endeavors to strengthen its corporate governance by designating the COO, Managing Corporate Executive Officer and Director of the Board as a responsible person for corporate governance including ESG. Based on its initiatives, the Board of Directors confirms the appropriateness of its corporate governance and its compensation structure from a mid-to long-term perspective, based on discussions in its advisory bodies such as Nomination and Compensation Committees.

Specifically the Company focuses on enhancing gender diversity in the Board of Directors members including Audit & Supervisory Board members by setting a target. The Board of Directors has also decided to include ESG factors in compensation of each Executive Director beginning in FY2021. Please refer to the "Commitments to Sustainability" below for more details on the target regarding gender diversity.

Human Capital

The Company has positioned value creation produced by its empowered employees as a renewed priority for management, and will take further actions to reinforce human capital, especially focusing on initiatives for diversity, equity and inclusion (DEI) and employee engagement.

The Company will specifically accelerate its initiatives for gender diversity by setting group-wide targets as a corporate strategy, and the Board of Directors will discuss and monitor the progress, based on discussions in the Sustainability Committee. Please also refer to the "Commitments to Sustainability" and "Our Human Capital" below for more details.

Corporate Ethics and Compliance

The Company views corporate ethics and compliance as a fundamental prerequisite for our corporate activities, and defines it as meeting society's expectations and demands through appropriate action both as a company and as individuals, beyond the framework of solely legal compliance. The initiatives include employee training and whistleblowing programs. The Board of Directors monitors corporate ethics and compliance initiatives, based on discussions in the Compliance Committee. Please refer to "Internal Controls" in this document for more details about corporate ethics and compliance.

Data Security & Privacy

The Company sets Data Security and Data Privacy as a high-priority risk, and takes appropriate initiatives depending on the importance of the data or information in our possession as well as the characteristics of the data or information to be protected. It has also established structures and measures required in the laws and regulations in each country and area in which it operates. The Board of Directors discusses and monitors the initiatives, based on discussions in the Risk Management Committee.

Human Rights

The Company sets the Recruit Group Human Rights Policy, which was resolved by the Board of Directors, based on discussions in the Sustainability Committee. This policy is set to protect all employees, temporary workers, including those who work for its business clients through the Staffing SBU, and its senior management. The Company is also committed to carefully identifying risks, and to respecting and protecting human rights which may be affected by the rapid development of technology.

The Board of Directors is also responsible for establishing a structure for the Company to take appropriate measures for climate change, and oversees its initiatives.

Commitments to Sustainability:

Prosper Together - Seek sustainable growth shared by all stakeholders

The Company believes that making a positive impact on society and the global environment through our corporate activities, and thereby prospering together with all stakeholders, is key to achieving sustainable growth. Therefore, the Company has set targets for environmental, social and governance ("ESG") matters as a corporate strategy.

As an environmental goal, in order to address climate change, the Company's target is to achieve carbon neutrality in greenhouse gas ("GHG") emissions by FY2021 through its business activities, and to achieve carbon neutrality in GHG emissions by FY2030 through its business activities and its entire value chain¹.

Regarding social issues, the Company believes that having a job is one of the most important facets for many people, and therefore it is critical to make a positive impact on this throughout its business activities. The Company looks to contribute to eliminating poverty and economic vulnerability by reducing the time it takes job seekers to get hired. Specifically, the Company targets reducing the time it takes to get hired by half by FY2030 compared to FY2021².

There also exist barriers for job seekers in the labor market from underrepresented or vulnerable groups. These barriers are difficult to remove through improving matching efficiency alone. For this reason, the Company also targets helping approximately 30 million people facing such barriers to get hired from FY2021 through FY2030, by using technology and partnership to promote inclusive hiring, to eliminate such barriers³.

From its foundation, the Company has created new services and products, and brought value to society by respecting each employee's diverse characteristics. The Company has positioned value creation produced by its empowered employees as a renewed priority for management, and will take further actions toward diversity, equity and inclusion (DEI). With respect to the management and promotion of our core talent, the Company does not discriminate based on factors such as gender, nationality, age, or how that person was recruited. The Company will specifically accelerate its initiatives for gender diversity and is committed to achieve an approximately 50% ratio of women in senior executive roles, in managerial positions, and of total employees within the Company by FY2030⁴.

For governance, the Company focuses further on enhancing diversity of members of the Board of Directors, to help raise the quality of decision-making and further ensure transparency and soundness in its governance structure. The Company aims to propose candidates for election to its Annual Meeting of Shareholders, to achieve an approximately 50% ratio of women out of the total number of Directors of the Board and Audit & Supervisory Board members by FY2030⁵.

¹ GHG emissions through business activities are the sum of direct emissions from the use of fuels in the owned or controlled sources ("Scope 1") and indirect emissions from the use of purchased electricity, heat, or steam in the owned or controlled sources ("Scope 2"). GHG emissions through the value chain are indirect emissions other than Scope 1 and Scope 2, occurring in the value chain. Carbon neutrality includes reducing the GHG emissions as well as offsetting residual emissions.

² Average estimated duration it takes for people who get hired through Indeed online job-search platform after they started to apply to a job on the platform, calculated by available data.

³ Initiatives aim to support racial and ethnic minority groups, people without higher education, people facing barriers due to age bias, and people with disabilities. The Company may also aim to reduce other various barriers, including newly emerging issues in the labor market by FY2030. The initiative as of today includes help through the Indeed online job-search platform, and through partnerships such as Goodwill Industries International and Shaw Trust with whom Indeed collaborates.

⁴ Ratio of women as of April 1, 2021: 10.0% for senior executive roles, 41.5% for managerial positions, and 51.5% for employees. Senior executive roles are defined as Corporate Executive Officers and Corporate Professional Officers of Recruit Holdings and Media & Solutions Strategic Business Unit ("SBU"), and CEOs of the Company's major subsidiaries and heads of key functions in the HR Technology and Staffing SBU. Figures for managerial positions and employees are calculated from Recruit Holdings, SBU Headquarters, and primary operating companies of each SBU. Managerial positions mean all of those that have subordinates except for senior executive positions.

⁵ Members of the Board of Directors are defined as Directors of the Board and Audit & Supervisory Board members, and its ratio of women out of the total members is 20% as of June 18, 2021.

Investment in Our Human Capital, Intellectual Property and Corporate Culture

The Company has established a human rights policy that in the course of our corporate activities, we strive to not cause or contribute to discrimination and the violation of human rights violations based on class, race, color, sex, language, religion, gender, age, political or other opinion, national or social origin, nationality,

property, sexual orientation, gender identity, disability, birth or other status. We are committed to ensuring equal opportunity, and to respecting decent work that lets people choose their own life path.

One of the Company's core values is to "Bet on Passion" which is centered around respecting individual differences. We respect and welcome each of our diverse employees' unique ideas and passions, which allows us to quickly grasp and respond to the changing needs of our individual users and business clients, and is how we've continued to grow and deliver valuable services. We believe this is our competitive advantage. The Company will take further action to strengthen its human capital, particularly by focusing on diversity, equity and inclusion (DEI) initiatives, and employee engagement, which includes employee training and a working environment which draws out the maximum intrinsic motivations of its diverse and unique employees.

As a first step, we will focus on gender parity. At the same time, we will encourage and support subsidiaries to address other aspects of DEI that are reflective of each country, area and business. Please refer to our Commitment to Sustainability for more details.

The Company also engages in various initiatives for better employee engagement, ensuring that employees maximize their potential and bring sustainable value to Recruit Group. For example, Recruit Holdings and its main subsidiaries each conduct employee engagement surveys of all employees, so that we can understand the best way to improve employee engagement and what initiatives will strengthen our corporate culture.

The Company manages its business by investing in a corporate culture that aims to maximize the intrinsic motivations of its diverse and unique employees which is one way we invest in our Human Capital and Intellectual property. One example at Recruit Holdings and Recruit Co., Ltd, the headquarter of our Media & Solutions SBU, is the use of "Mission Grades" which is an evaluation structure for employees. In this structure, an individual's compensation, including salary and bonus, is determined by the level of difficulty and complexity of their missions, and their expected performance. Another example is the "Will-Can-Must" management method which helps employees manage their own goals by expressing what they would like to accomplish (Will), the strengths they would like to leverage and challenges they would like to overcome (Can), and the missions that will allow them to develop their skills (Must). The employee's managers will then pitch the employee's individual development plan to the "Talent Development Committee".

The HR Technology SBU runs the "Indeed University", where global engineers gather and launch new services in teams. Staffing SBU has introduced a management method called "unit management" where a unit manager from each organization who is familiar with local customer needs and market conditions, is given authority to make decisions flexibly based on their own deep knowledge. This management approach serves as a strong motivator for employees in the field to achieve results, while at the same time providing them with opportunities to enhance their decision-making abilities as leaders.

We believe that people are our strength and the value creation cycle produced by our empowered employees is a top priority for management, and we will make a strong effort to strengthen our human capital.

When all of our employees are empowered to pursue their curiosity and passions, they will be motivated to innovate our products and services to better satisfy both our individual users and our business clients, help them to achieve their goals, and in doing so will allow us to share our success with our shareholders and contribute to creating a better society.
