##### **【Basic Views and Basic Policy on Corporate Governance】**

Please refer to “I. 1. Basic Views” of the Report for details.

##### **【Policies and Procedures for Determining Remuneration of Senior Management and Directors】**

Please refer to Appendix (3) for the conceptual diagram of the Remunerations of Directors.

1. Basic policy for remunerations of Directors, etc.

- (1) The remunerations of senior management and directors (hereinafter “Directors etc.”) shall consist of Basic Compensation and Bonus.
- (2) Basic Compensation is designed to serve as an incentive for the actions of Directors, etc. to contribute to the Company’s sustainable growth, rather than aiming for short-term or sub-optimal effects.
- (3) The amount of Bonuses shall largely reflect the Company's consolidated financial results for a fiscal year in order to heighten incentive to achieve the annual target of the business plans.
- (4) The remuneration shall be set at levels which are designed to be objectively competitive to attract and retain outstanding talent while taking into consideration such factors as the scale and content of the Company’s business. Based on surveys by a third-party organization and other materials, such levels shall be checked annually whether or not to be objectively appropriate.

2. Mechanisms of each remuneration element

(1) Basic Compensation

The level of Basic Compensation shall be determined based on the policy described in section 1(4) above.

While Basic Compensation for each year shall be fixed, the Company will adopt a mechanism where the Basic Compensation level would be changed in the event where the Company’s position has changed in terms of “the company’s size”, “earnings capacity”, and “outside evaluations” from a comprehensive and medium- to long-term perspective.

As main indicators for determining the change in the Company position, the Company will apply the following: ①in terms of “the company’s size,” sales revenue, total assets and market capitalization, ②in terms of “earnings capacity,” net income (attributable to the parent company), ROE, ROI and D/E ratio, and ③in terms of “outside evaluations,” credit ratings and ESG index selected by GPIF (Government Pension Investment Fund).

The amounts to be paid to each person will be determined in accordance with the base amount set by each position.

(2) Bonuses

Bonuses shall be paid on the condition that performance for that fiscal year exceeds a particular level and shall be determined based on the bonus calculation formula (performance indicator×coefficient).

In order to reflect the current earnings capacity of the relevant business year (including financial activities) to the amount of bonuses, the Company will apply the combined value of consolidated core operating profit and financial profit and loss to the performance indicator concerning the bonus calculation formula. In addition, the Company will set the coefficient of the calculation formula so that it will get larger as the position of a person gets higher.

(3) Percentages of fixed remuneration (Basic Compensation) and performance-linked remuneration (Bonuses)

The Company will design the bonus calculation formula so that the bonuses of Directors (excluding Outside Directors) accounts for roughly 30% of the remuneration when the consolidated performance goal (core operating profit) for the latest fiscal year of the mid-term management plan (fiscal years 2019 to 2021) is achieved.

3. Procedures for determining remunerations of Directors, etc.

The Company shall establish a Remuneration Advisory Committee as an advisory body to the Board of Directors on a remuneration system for Directors, etc., levels of remuneration, and other matters incidental thereto. Composed mainly of Outside Directors, the Committee shall advise the Board of Directors about the remuneration system for Directors, etc., levels of remuneration, etc. so that greater transparency and fairness can be ensured regarding the remuneration.

The remuneration amount of Directors shall be set at a level not higher than the upper limit of a total remuneration prescribed by resolution of the 125th General Meeting of Shareholders held on June 23, 2006(i.e. 1 billion yen or less per year).

The Board of Directors shall deliberate on and decide the method of determining remunerations of Directors, etc., based on the advice from the Remuneration Advisory Committee. The individual amounts of remuneration for Directors, etc., shall be determined by the Remuneration Advisory Committee, which is authorized by the Board of Directors, based on the “Policies for Determining Remuneration of Senior Management and Directors.”
