## **Notice Concerning Use of 100% Renewable Energy Compatible with “RE100” for Operation of SE Sapporo Building**

Japan Excellent, Inc. (hereinafter “JEI”) announces that, starting from January 2022, all the electricity necessary for the operation of SE Sapporo Building, which is owned by JEI, will be sourced from “RE100” derived from renewable energy.

### **1. Overview**

Starting from January 2022, all the electricity necessary for the operation of SE Sapporo Building, which is owned by JEI, will be sourced from “RE100” derived from renewable energy. This means that CO<sub>2</sub> emissions from electricity consumption of SE Sapporo Building will be reduced to zero.

“Renewable energy” refers to a clean and CO<sub>2</sub> emission-free energy system where all energy use is sourced from renewable energy sources such as solar, water, wind, geothermal, and biomass power, and does not use petroleum, coal or other fossil fuels.

Through this initiative, JEI will contribute to two of the UN Sustainable Development Goals: Goal 7 (Affordable and Clean Energy) and Goal 13 (Climate Action).

As a result of this initiative, the total number of properties that use CO<sub>2</sub> emission-free electricity will increase to eight (including planned properties).

Japan Excellent, Inc.

## **2. Commencement Date of Supply**

January 1, 2022 (schedule)

## **3. JEI's Future Initiatives**

JEI upholds a basic policy to work to reduce environmental burden and to cooperate/collaborate with stakeholders to realize a sustainable society. We will continue to advance initiatives for sustainability including environmental and energy-saving measures as well as improving the energy use efficiency of owned buildings.
