The corporate governance of Denka Company Limited (the “Company”) is described below.

## I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

### 1. Basic Views

In order to fulfill the expectations and trust of its many stakeholders, including shareholders, customers, local society, and employees, based on “The Denka Value” (corporate philosophy), which forms the basis for the activities of the Denka Group, the Company strives to strengthen its business foundation by improving its earnings power and expanding the scope of operations, while also working to improve corporate value by making every effort to continue being a company that can win the trust and sympathy of society.

The Company considers corporate governance as the foundation for the above, and so we have striven to strengthen governance, in order to fulfill the responsibilities we owe to all our stakeholders, and ensure the transparency and soundness of our management.

Specifically, it has introduced an Executive Officer System to speed up its decision-making, and by delegating powers and roles in the execution of business to the Executive Officers, clearly separates the execution of business by Executive Officers and the overseeing and supervision of such execution by the Directors.

Furthermore, it has endeavored to strengthen corporate governance by abolishing special titles for Directors (Senior Managing Director, Managing Director etc.) in principle, thus establishing a system where all Directors can engage in the monitoring and supervision of business execution from an equal standing.

With regard to its outside officers system, the Company appoints Outside Directors who are sufficiently independent and have extensive knowledge in their respective areas. In addition to carrying out supervision of management from an external perspective, they have established places for regular exchanges of opinions with top management. This enables them to provide sufficient advice through exchanges outside the Board of Directors meetings and enables the Company to monitor its management from an external perspective.

In terms of the design of its corporate governance system, the Company has chosen to transition to a Company with Audit Committee. This step is aimed at further strengthening the supervisory function of the Board of Directors, through measures such as placing the Board of Directors’ decision rights with Directors who are Audit Committee Members.

The Company has also established the Nomination & Remuneration Advisory Committee composed of a majority of Outside Directors, as an advisory body to the Board of Directors. This has been done to promote transparent and objective management decisions, as the Board of Directors receives diverse opinions and advice from Outside Directors on important management issues such as those concerning governance, including nominations and remuneration.

These changes will enable the Company to bolster its management structure possessing both proactiveness and prevention.

### [Reasons for Non-compliance with the Principles of the Corporate Governance Code]

[Principle 3.1 Full Disclosure]

(v) Explanations with respect to the individual appointments, dismissals and nominations of the senior Management and Directors

The reasons for the appointment of internal and outside directors are included in the Reference Documents for General Meetings of Shareholders. As to reasons for the appointment or dismissal of Executive Officers, the Company will consider disclosing the respective career records of new Executive Officers and the reasons for the dismissal of Executive Officers on the Company’s website at the time the appointment or dismissal is resolved by the Board of Directors.

Information described below is based on the Corporate Governance Code as revised on June 11, 2021.

[Principle 1.4 Strategic Shareholdings]

○ Policy concerning strategic shareholdings

The Company holds shares in cases where it judges that doing so is in accordance with the creation of stable business relationships and will maintain and strengthen business alliances in line with growth strategies and contribute to increased corporate value over the medium- to long-term, and it will sell any shares that do not conform to this policy.

○ Examination on strategic shareholdings at the Board of Directors

The Company comprehensively reviews the shares at the Board of Directors meeting in compliance with the above policies from a variety of perspectives, including the financial condition of the issuer of said shares, the value of transactions with the Company and its economic rationality and a comparison with the Company's capital cost. The purpose of holding said shares are stated in the securities report. The Company will continue to review them annually.

As a result of this ongoing review, the Company reduced the number of its strategic shareholding (listed shares) as of March 31, 2021 to approximately two-thirds of that as of March 31, 2016.

○ Standards for exercise of voting rights as to strategic shareholdings

Regarding the exercising of voting rights in relation to shares held as strategic shareholdings, in principle, the Company respects the business policies and strategies of the issuing company. After consideration of the issuing company's management situation by the department in charge of the management of those shares, the Company carefully examines proposals individually from the perspective of whether they will ultimately contribute to increased shareholder value before making its decision for or against the proposals. In the following cases in particular, the Company will enter into dialog with the issuing company as necessary and make a careful decision as to whether or not it will vote for the proposals:

- (1) in the event that a marked deterioration in the business performance continues for a set period of time;
- (2) in the event of a serious scandal;
- (3) in the event of any other proposal that could cause damage to shareholder value.

[Principle 1.7 Related Party Transactions]

The Company requires, in the Board of Directors Regulations, that the prior consent of the Board of Directors must be obtained for any competing transactions and dealing with the company by Directors and the results must be reported afterwards. In the case of continuing transactions, the results of competing transactions and dealing with the company in the previous fiscal year are reported to the Board of Directors once a year, and prior approval for the current fiscal year is sought. Also, related party transactions are determined in the same way as general transaction terms, and are disclosed in the notes to financial statements and securities reports in accordance with laws and regulations.

[Supplementary Principle 2.4.1 Policies for ensuring diversity in the appointment of core human resources]

The Company positions diversity promotion as one of the most important human capital strategies under the management plan "Denka Value-Up." Efforts are being made based on the basic policy of eliciting potential abilities possessed by each of the diverse employees working at the Denka Group and creating new value as an organization, which will result in sound and sustainable growth of the Company.

As a target for diversity, the Company aims to increase the ratio of women in middle managerial positions by 50% or more in three years (8 persons / 1.6% in fiscal 2020; 14 persons / 2.8% in fiscal 2022). By maintaining the ratio of new female graduates (for career-track positions) at 30% or more in recruitment, we strive to expand the general population of female candidates for middle managerial positions. While the Company has no numerical target for appointing foreign nationals and midcareer hires to middle managerial positions, the Company pursues recruitment regardless of nationality and localization of employees, including those for middle managerial positions. In terms of midcareer hires, we constantly recruit industry-ready personnel irrespective of gender, nationality and the like based on the business needs, such as changes in the operating environment and business strategies, while appointing them to middle managerial positions.

While advancing recruitment and other measures to ensure diversity, the Company conducts employee awareness surveys to establish in a systematic manner an environment where diverse employees can achieve their full potential. We analyze issues and problems found in the work environment, review training programs for specialty human resources and other systems to support employees' career advancement, and improve the working environment continuously and in a structured manner. The Company's human capital development policy and policies for improving office environment, along with the status of implementation of these policies, etc. can be seen in the Company's Integrated Report and ESG information website.

[Principle 2.6 Roles of Corporate Pension Funds as Asset Owners]

The Company has adopted a defined benefit corporate pension plan, and management of the reserve for the corporate pension fund is based on the regulations.

Specifically, the Company determines the asset composition ratio in order to achieve the necessary management objectives in accordance with the basic policy for management, and also decides the most appropriate management trustee institution.

The department in charge of managing the corporate pension fund appropriately monitors the management trustee institution with regard to management performance, conflicts of interest and exercise of voting rights.

[Supplementary Principle 3.1.3 Initiatives on sustainability]

When disclosing its management plan "Denka Value-Up," the Company disclosed its initiatives on sustainability in materials it distributed to announce the plan, the Integrated Report and other documents. In addition to investments in human capital and intellectual properties, we also disclose the impact of climate change-related risks and earning opportunities on our business activities and profits based on the TCFD framework. The information is available in the Company's Integrated Report and ESG information website. The Company has established the Denka Group ESG Basic Policy as its basic policy for sustainability, details of which are shown in Attachment 1.

[Supplementary Principle 4.1.1 Scope of Delegation to Management]

After review of the role of the Board of Directors, the Company clearly positioned the role of Board of Directors as a body with decision-making function and supervisory function for management. The execution of business has been delegated to the respective Executive Officers, except for important business executions. Matters to be resolved by the Board of Directors, including basic policies regarding corporate management and other important matters relating to business execution, are clearly set forth in the Board of Directors Regulations. In accordance with the Regulations, the Board of Directors oversees and supervises the execution of business. In addition, the Board of Directors resolves on the assignment of duties and authority of the Executive Officers responsible for business execution. As well as delegating business execution to Executive Officers within that scope, the Board of Directors receives reports on the status of their execution of business.

The Company has also established the Management Committee composed of Directors (including Directors who are Audit Committee Members) and some Executive Officers, with the aim of engaging in deliberation and discussion on important management issues. With the Executive Officer responsible for each item participating in discussions on that item, the Company is pursuing more efficient discussions and swifter decision-making on important management matters.

[Principle 4.8 Effective Use of Independent Outside Directors]

The Company considers that it is necessary to appoint Independent Outside Directors to comprise at least one-third of the Board of Directors, in light of the factors such as the progressive globalization and computerization of the management environment. Based on this policy, currently four (44.4%) of the Company's 9 Directors are Outside Directors (including Outside Directors who are Audit Committee Members).

All four Outside Directors have been designated as independent directors pursuant to the rules of the Tokyo Stock Exchange and registered with the Exchange.

[Principle 4.9 Independence Standards and Qualification for Independent Outside Directors]

For independent Outside Directors, the Board of Directors of the Company selects candidates for appointment as independent officers based on judgment focused on substantiality, such as whether they can be expected to contribute to increasing the Company's corporate value. For the composition of the Committee and our policy regarding its independence, as well as its mandates and roles, etc., please refer to "Supplementary Explanation" for II. 1. [Voluntary Establishment of Nomination/Remuneration Committee] in this report.

[Supplementary Principle 4.11.1 View on Diversity and Size of the Board of Directors]

The Company's Board of Directors is currently composed of 9 Directors, including five Directors from within the Company (of whom one is Audit Committee Member) and four Outside Directors (of whom three are Audit Committee Members). However, in terms of the transparency and soundness of management, the Company considers it appropriate to increase the number of Directors to 15 (including six Directors who are Audit Committee Members). The Company believes it is important for the Board of Directors as a whole to have an appropriate size and to be diverse in terms of gender, international background, work experience, and other factors by electing persons with a variety of knowledge, experience, and abilities in a well-balanced manner. This will be achieved by appointing Directors who possess sufficient specialized knowledge and practical experience in each of the Company's business and support divisions from within the Company, as well as Outside Directors who possess specialization required for improvement in corporate value of the Company and broad knowledge based on a wealth of business experience and management experience at other companies.

The members of the Company's Board of Directors have been selected based on the idea stated above. Their skills matrix is as shown in Attachment 2.

Going forward, in selecting Director candidates, the Company will give full consideration to the balance between knowledge, experience and skills, as well as diversity, and the selection will also be based on whether or not each candidate is expected to contribute to enhancing corporate value, before submitting the related proposal to an Ordinary General Meeting of Shareholders.

[Supplementary Principle 4.11.2 Status of Concurrent Position of Officers held at Other Listed Companies by Directors]

The status of concurrent positions of officers held at other listed companies by the Company's Directors are stated in the Reference Documents and Business Reports for General Meeting of Shareholders every year.

[Supplementary Principle 4.11.3 Analyzation and Evaluation of the Effectiveness of the Board of Directors]

(1) Method of Evaluation

Following last year, the Company analyzed and evaluated the effectiveness of the Board of Directors by having individual Directors and Audit Board Members to complete the "Self Evaluation Questionnaire," which covers items related to the effectiveness of the Board of Directors, such as scale, composition,

operation, and 20 other items, and discussing the questionnaire results at Board of Directors meetings.

## (2) Summary of Evaluation Results and Future Efforts

The Company confirmed the appropriateness of the frequency and duration of the Board of Directors meetings, and a holding method of the meetings amid the COVID-19 crisis, and that optimization has been seen in the composition of the Board of Directors (in terms of achieving the right balance of expertise, experience, ability and diversity). It also confirmed that the Board of Directors, composed of a 42% proportion of Independent Outside Directors, engage in appropriate monitoring and supervision of management.

In addition, the Company reviewed resolution criteria at the Board of Directors meetings, which was raised as an issue last year. As a result of this review, the Company shared the understanding that more time had been secured for the discussion of matters of greater importance. In addition, regarding the operation of a Company with Audit Committee, it was confirmed that the operation achieved stability in its second year since the transition.

At the same time, however, some expressed the opinion that the Board of Directors should divert the time saved by adopting stricter resolution criteria to monitoring whether the executive team is steadily implementing the long-term business strategy and individual business strategy, as well as take measures such as having discussions on amendments as needed.

Furthermore, the Board of Directors shared the understanding that it is necessary to establish a Board operation system in which the Board of Directors can focus more on monitoring, supervising and giving advice on the status of the execution of business under a new, streamlined corporate structure. It was also recognized that the Nomination & Remuneration Advisory Committee shall be further utilized in order for the Board to more proactively engage in the establishment and implementation of a succession plan.

Looking ahead, in light of these constructive opinions, we will take steps to further improve the effectiveness of the Board of Directors, aiming to improve medium-to-long-term corporate value, and respond to the expectations and trust of our shareholders and numerous other stakeholders.

### [Supplementary Principle 4.14.2 Training policy for Directors]

The Company conducts tours of its offices and plants and training sessions about the Company's business, particularly for newly-appointed Outside Directors, to enable them to gain information about the Company. Also, all newly appointed Directors, including outside officers, are encouraged to participate in external seminars to learn necessary legal and other knowledge for the purpose of increasing their understanding of the roles and responsibilities required of them. In addition to providing and arranging these opportunities and assisting with the costs, the Company has a policy to provide training in the same way to incumbent officers as necessary in order to continually update their knowledge.

### [Principle 5.1 Policy for Constructive Dialogue with Shareholders]

In order to promote constructive dialogue with shareholders and investors, the Company has formulated management plans aimed at sustainable growth and increased corporate value over the medium- to long-term and works to gain the understanding of shareholders and investors by setting up various opportunities and endeavoring to provide explanations.

- (i) The Corporate Communications Department, the Corporate Planning Department and the Administrative Department are the points of contact for dialogue with shareholders and investors, and actions are taken under the supervision of the Executive Officer in charge.
