In addition, the Company shall comprehensively verify the economic rationality of transactions with parties that own cross-shareholdings to determine if it will continue these transactions. [Supplementary Principle 1.4.2]

(2) The Company shall analyze the appropriateness of cross-shareholdings at the meeting of the Board of Directors based on the minimum holdings required from a perspective of increasing capital and asset efficiency each year. At the meeting of the Board of Directors, members shall comprehensively analyze the medium- and long-term economic rationality of each individual stock based on holding objectives and risk and return. As a result, the Company shall sell any stock which is no longer meaningful to continue holding after considering the market environment etc. Even for stocks considered appropriate to hold, the Company may sell all or some shares after considering its capital policies and the market environment, etc.

(3) An overview of the analysis at the meeting of the Board of Directors regarding cross-shareholding shall be disclosed as appropriate in the reports related to corporate governance, etc.

(4) When companies holding the Company stock as cross-shareholdings express an intention to sell such shares, the Company shall not prevent the sale in any way by, for example, insinuating a reduction in their business relationship. [Supplementary Principle 1.4.1]

<Overview of the verification with regard to cross-shareholdings>

At the meeting of the Board of Directors held in September 2021, the members analyzed all listed stocks it holds as cross-shareholding (for 24 different companies excluding Sekisui House Reit, Inc. and equity-method affiliates) in terms of the status of shareholding, risk and return (deviation rate of stock price, dividend yield, ROE, credit ratings and others) and importance of transactions and overall significance of owning them.

Furthermore, from the perspective of increasing capital efficiency, the Company has adopted a policy to reduce cross-shareholdings in phases and set specific targets, namely to reduce the ratio (*) of cross-shareholdings to consolidated net assets to 5% or less during the period of the Fifth Medium-Term Management Plan (to January 31, 2023). The Company intends to further reduce cross-shareholdings during the period of the Sixth Medium-Term Management Plan and beyond, considering the market environment and other factors.

(*) Refers to the ratio of the “balance sheet amount of stocks for investment held for purposes other than pure investment,” stated in the annual securities report to consolidated net assets.

The Company shall strive to understand the status of transactions by carrying out surveys every business year in writing with each director on whether or not there are any transactions with the director and his/her close relatives.

[Supplementary Principle 3.1.3] Initiatives on sustainability

(1) Basic policy on sustainability and initiatives

The Group has defined "Make home the happiest place in the world" as its global vision, based on its long-term vision targeting 2050, "NEXT SEKISUI HOUSE 30- year Vision." As a global company that offers

integrated proposals of technologies, lifestyle design, and services based on the residential domain, the Group promotes initiatives that maximize the “happiness” of customers, employees, and society.

To achieve this vision, the Board of Directors, aiming to become a leading company in ESG (Environment, Social and Governance) management, promotes ESG initiatives by designating them as material items that underpin the Group’s management base and incorporating them into the Medium-Term Management Plan.

Upon resolution by the Board of Directors, the Group has identified the following material issues in promoting ESG management: “Environment” (Contributing to a decarbonized society, etc.), “Home” (Maintaining and improving customer satisfaction, etc.), “Community” (Regional revitalization, etc.), “People” (Developing human resources, etc.), and “Organization” (Strengthening corporate governance, etc.), and has upheld initiatives to address these material issues.

The Group also analyzes medium- and long-term issues that affect the Company’s value creation with relation to sustainability, identify risk factors, position them as opportunities for future business development, and applies them to medium- and long-term planning of business strategies.

The Board of Directors established the ESG Promotion Committee, consisting of 2 or more outside committee members with expert knowledge and other members, to enhance the effectiveness of ESG efforts through means such as exchanging opinions on the progress of ESG management initiatives and issues. The details of discussions at the ESG Promotion Committee meetings are reported to and deliberated at the Board of Directors’ meetings.

Moreover, the ESG Management Promotion Headquarters, which was established in June 2020, acts as the responsible division in further promoting ESG management, based on discussions at the ESG Promotion Committee meetings and through the coordination within the Company and with Group companies both in Japan and overseas. Furthermore, to promote ESG management with the participation of all employees, the Company conducts “ESG Dialogue,” which allows dialogues by job rank, on the theme of “making employees, customers, and communities happy through our business.”

The Company discloses its initiatives on sustainability and the status of investments in human capital and intellectual property in the Corporate Governance Report, as well as the Integrated Report and the Sustainability Report issued every year.

Regarding climate change risks and revenue-generating opportunities, the Company incorporates the TCFD Report in the Integrated Reports and discloses the results of analysis of risks and revenue-generating opportunities under multiple scenarios (1.5°C and 4.0°C).

(2) Investment in human capital

As a partner in creating happiness, the Group implements human resources strategies based on “Diversity and inclusion,” “Workstyle innovations,” “Support for self-directed career development,” and “happiness health management” to provide new value to customers and society.

The Company has positioned 2021 as the year one for reforming its personnel system and have introduced a highly transparent evaluation system and career interviews based on full communication between supervisors and members to support the “career autonomy” of employees.

Furthermore, the Company is working to systematically produce next-generation of business leaders through such programs as the *Keiei-juku* management training program inaugurated in 2018 to develop and select organization leaders (branch managers, head office senior managers, factory managers, etc.) and the “SHINE! Challenge Program” launched in October 2019.

Additionally, the Company provides various training programs for branch managers and team leaders to strengthen management capability, human resources development, organizational revitalization, etc. of individual branches and teams and conducts the “Self-esteem improvement seminar” (for employees in their third year at the Company), the “Autonomous career development course” (for employees in the fifth to the seventh year at the Company), and the “Mid-career training” (for employees reaching their 45th birthday) to

support career building.

The Company has also formulated a health management policy based on the belief that improving physical and mental health, which are integral to an employee's happiness, is indispensable to the realization of the global vision, and is therefore engaged in promoting "happiness" health management.

Specific measures include a well-being survey targeting all employees and innovative health programs on the Company's original app, Sekisui House FIT, to promote physical exercises and prevention of lifestyle-related diseases.

In recognition of these initiatives, the Company was certified as a Certified Health and Productivity Management Organization (White 500) designed by the Ministry of Economy, Trade and Industry and certified by the Japan Health Council for two consecutive years in 2020 and 2021.

(3) Investment in intellectual property

<Investments>

The Group, recognizing the importance of R&D, invests ample R&D expenses primarily in the Comprehensive Housing R&D Institute, the Human Life R&D Institute, and other R&D bases, as well as make proactive capital investments.

The Group, in recent years, has also proactively invested in fields that will contribute to the promotion of future businesses, mainly in new business fields such as the Platform House business, through industry-academia collaboration and partnerships with companies in different industries.

The Group also makes proactive investments in areas that are not necessarily related to technology developments such as the Sumufumulab, which hosts customer-participation events, and the *Nattoku Kobo* Studio, which provides opportunities for hands-on experience related to the living environment, and collectively positions the outcome of these investments as management resources (intellectual capital).

<Protection of outputs>

Among such intellectual capital, technologies and designs are protected by patents and design registrations, while the Group's expertise and data accumulated over the years, in addition to the opinions of our customers, are protected as trade secrets.

Moreover, when the outcome of these investments reach the commercialization stage, the Company carefully considers the names of the products and protects them with trademarks to make them represent the symbols for providing customers with satisfaction and security through the value chain.

The Company, attaching greater importance than ever to these activities, established the Intellectual Property Office in August 2021 as a dedicated organization to oversee intellectual property, and in addition to developing in-house human resources, has been proactively hiring specialists in intellectual property, including talent who had overseen intellectual property at other companies.

<For sustained growth>

Through measures that encompass both investments and the protection of their outcome, the Company has built up its core competencies of "technical capabilities," "construction capabilities," and "customer base." The Company has also demonstrated its competitive edge throughout its unique value chain that encompasses every process of home building in order to provide value to its customers, and build a foundation for sustainable corporate growth.
