**Four Core Competencies of Monex Group :**  
Diversity, Technology, Innovation, Globalization

The value of each subsidiary successfully increased under the Group visions, “Global Vision” and “New Beginning (crypto-related business entry).”

### TradeStation Group (2011-)

- EBITDA\*<sup>1</sup> Margin : 26% (FYE Mar 2021)
- PMI\*<sup>2</sup> Actions : Reinforce management team, rebranding, crypto-related business support.
- Group Synergy : Rebuilding in-house backbone system and improving U.S. equity trading services for the Japan segment.

### Coincheck (2018-)

- EBITDA Margin : 68% (FYE Mar 2021)
- PMI\*<sup>2</sup> Actions : Internal control and cyber security reinforcement, registration of crypto asset exchange license, huge fixed-cost reduction.

\*1 EBITDA = The amount equivalent to operating income + depreciation and amortization cost + interest expense of US segment (the same hereinafter).

\*2 PMI (Post Merger Integration): Integration of the subsidiary after M&A and its growth initiative

TradeStation aims to pursue further scale as a growth company, preparing to go public on the New York Stock Exchange, and has started making upfront investments, including marketing initiatives.

### Overview

- In November 2021, TradeStation and Monex Group announced that TradeStation aims to provide its innovative trading environment to more customers and rapidly broaden its customer base, looking at the recent expansion in the United States self-directed market as a good opportunity for the next level of growth\*<sup>1</sup>.
- To secure growth capital necessary for large-scale marketing initiatives and to enhance services, TradeStation has chosen a business combination with a SPAC (a “De-SPAC” transaction) to make TradeStation a publicly traded company listed on a major US stock exchange.
- Pre-money equity valuation of TradeStation of approximately US\$1.3 billion (approx.JPY145.0 billion)
- As reflected in TradeStation’s results for 3-month and 9-month periods ended Dec. 31, 2021, TradeStation has already begun substantial increased investment in marketing and product enhancement initiatives\*<sup>2</sup>.

Appendix. Group Overview

After announcing an asset-management model transformation, total assets in custody grew 1.4 times in two years, reaching to ¥6 trillion. U.S. equity and mutual funds contribute to the growth in assets in custody.

Monex Securities Assets Under Custody by Product

\* As of Jan 4. The figures for 2021/12 includes that of accounts transferred from Shinsei Bank (Mutual funds and bonds)

Revenues other than Japanese equity commissions surpassed fixed costs to help build a stable revenue base. Accelerating the asset-management model in which revenues increase along with assets under custody.

\* Figures of Monex Securities. Fixed costs consists of rental expense + data processing fee + depreciation cost + remuneration fee (excluding bonuses linked with performance)

To promote the asset-management model, Monex is striving to increase assets in custody by utilizing offline channels.

# Continued focus on revenues other than Japan equity commissions, including mutual fund trust fees and U.S. equity trading revenues.

## Mutual Fund

- Number of applications for Monex Card increased. Service to enable automatic periodic purchase of mutual funds is scheduled to launch in Feb 2022, aiming for additional growth in the mutual funds balance.
- Started a business partnership with Shinsei Bank Group in Jan. Transferred Shinsei Bank's mutual fund balance to Monex Securities, the latest mutual fund balance is 980 billion yen.

## U.S. Equity Trading

- U.S. equity commissions account for 22% of entire brokerage commissions. Number of unique users of U.S. equity trading increased, which contributes significantly to revenues when the market is active.
- Plan to launch U.S. equity margin trading from July 2022.
- With the launch of over-the-counter (OTC) trading last September, customers can trade U.S. stocks for a total of 17 hours, including during the day in Japan.

## U.S. equity commission and its ratio in total brokerage revenue

Total assets under management (AUM) of Monex Asset Management, the asset management company within the group, grew by 3.2 times YoY to reach a total of ¥54.4 billion.

### Assets Under Management Grow Strongly

# Strong year-over-year growth in total accounts and customer assets under custody.

## Account Additions & Client Assets

- Total accounts\*1: **179k (+36% YoY)**
- Total customer assets\*2: **\$12.3B (+33% YoY)**
- Crypto accounts have grown to 9% of total accounts at Dec 31, 2021 from less than 2% at Dec 31, 2020

# of accounts by asset class and monthly account growth percentage

## DARTs and VIX

- DARTs declined YoY due to COVID-driven elevated trading of the prior year, but increased by 6% sequentially
- VIX closing average for fiscal third quarter declined by 35% from prior year and increased by 5% sequentially.
- Mix of DARTs shifted YoY with higher futures and options trading, as a percent of total, and lower equities

DARTs by asset class and VIX

\*1 Included in "total accounts" for Dec. 2021 are customer crypto accounts opened through a marketing promotion that began Dec. 20, 2021 in which TradeStation makes the initial account funding (BTC equal to USD \$10.00). Crypto accounts opened under this promotion were 4,950, or 87%, of the total crypto accounts opened in Dec. 2021.

\*2 Customers' Assets under custody include the balance of foreign stocks and some deposits of held by Monex, Inc. and Asia-Pacific Segment.

## Commission revenue growth reflects TradeStation’s account growth.

### Commission Revenue

- Total brokerage revenue\*1 was \$38.9M in 3Q.
- Brokerage commission revenue growth YoY was driven by higher futures and options revenue.

### Interest Income

- Growth of total customer assets expands interest income through margin lending, securities and crypto asset lending, and interest earned on customer cash under custody.
- Interest income is strongly correlated to short-term interest rates. If the federal funds target rate increases over the 2022 calendar year as many are anticipating, TradeStation expects increased net interest income with respect to the investment of customer cash.

\*1 Brokerage revenue includes payment-for-order-flow (PFOF). \*2 Equities revenue includes commissions and fees received for equities and mutual fund transactions, which includes PFOF received for customer equities trades. \*3 Options revenue includes commissions and fees received for options transactions, which includes PFOF received for customer options trades.

TradeStation positions itself to attract an expanding market of self-directed investors.

### Marketing

- Coincheck has been aggressively marketing to maintain the No.1 position in Japan while the entire crypto asset market is growing and the investor base is expanding.
- Coincheck captures the movement of the crypto asset market on a timely basis and controls ROI to conduct marketing that will capture a larger majority of the target population.

The total # of crypto asset accounts in Japan is approx. 17% of the total # of securities accounts in Japan, or approx. 5 million accounts\*<sup>1</sup>, compared to approx. 29 million accounts in Japan\*<sup>2</sup>. Assuming that the # of securities accounts is the upper limit, and based on the cascade theory, Coincheck will acquire customers from the majority group.
