(Note) Revision to the financial results forecast announced most recently: Yes

## * Notes:

(1) Changes in significant subsidiaries during the nine months ended December 31, 2021 (changes in specified subsidiaries resulting in changes in scope of consolidation): No
(2) Accounting policies adopted specially for the preparation of quarterly consolidated financial statements: Yes
(3) Changes in accounting policies, changes in accounting estimates and retrospective restatement

1) Changes in accounting policies due to the revision of accounting standards: Yes
2) Changes in accounting policies other than 1) above: No
3) Changes in accounting estimates: No
4) Retrospective restatement: No
(4) Total number of issued shares (common shares)
5) Total number of issued shares at the end of the period (including treasury shares):

December 31, 2021: 181,021,197 shares
March 31, 2021: 200,343,397 shares
2) Total number of treasury shares at the end of the period:

December 31, 2021: 5,190,207 shares
March 31, 2021: 13,818,561 shares
3) Average number of shares during the period:

Nine months ended December 31, 2021: 181,394,873 shares
Nine months ended December 31, 2020: 192,654,680 shares
The Company has adopted a performance-linked stock remuneration plan using a trust. The Company's shares held by the trust ( 639,519 shares) are included in the total number of treasury shares at the end of the period and the average number of shares during the period is calculated and stated taking into account shares held by the trust.

* Explanation of the proper use of financial results forecast and other notes
(1) The earnings forecasts and other forward-looking statements herein are based on information currently available to the Company and certain assumptions deemed reasonable. Actual results may differ significantly due to a wide range of factors.

## (Change in accounting policy)

(Application of "Accounting Standard for Revenue Recognition", etc.)
The Company has adopted ASBJ Statement No.29, "Accounting Standard for Revenue Recognition" (March 31, 2020) (hereinafter referred to as "The Accounting Standard"), etc. since the beginning of the consolidated first quarter; and recognizes revenue at the amount expected to be received in exchange for the goods or services when control over the promised goods or services is transferred to the customer. The Company had previously adopted percentage of completion method for recognizing revenue from construction contracts when the outcome of the progress part of the construction was deemed certain ; otherwise the completed contract method is adopted; thereby however, the Company has changed it to the method which recognizes revenue over a period of time as the performance obligation to transfer the goods or services to the customer is satisfied when control over the goods or services is transferred to the customer over a period of time. The Company measures progress related to the satisfaction of performance obligations based on the percentage of construction costs incurred by the end of each reporting period to the total expected construction costs. If it is impossible to estimate reasonably the progress of satisfaction of the performance obligation, but probable that the costs incurred will be recovered, the Company recognizes revenue using "the cost recovery method". For construction contracts where the period from the date of the contract commencement to the date when the performance obligation is expected to be fully satisfied is very short, the Company applies the alternative treatment; and recognizes revenue when the performance obligation is fully satisfied, instead of recognizing revenue a period of time. This change in accounting policy has been applied retrospectively in principle; and financial statements for the previous quarterly and previous consolidated fiscal year have been adjusted retrospectively. However, the following methods specified in the accounting Standard, paragraph 85 have been applied.
(1) For contracts in which almost all amounts of revenue were recognized in accordance with the previous treatment prior to the beginning of the previous fiscal year, the comparative information shall not be adjusted retrospectively.
(2) For amounts of variable consideration included in contracts in which almost all amounts of the revenue were recognized in accordance with the previous treatment prior to the beginning of the current fiscal year, the comparative information shall be adjusted retrospectively using the amount at the time when the uncertainty regarding the amount of the variable consideration is resolved.
(3) For contracts which began and ended during the previous fiscal year, the quarterly consolidated financial statements for the previous fiscal year shall not be adjusted retrospectively.
As a result, net sales for the consolidated cumulative third quarter of the previous fiscal year increased by $¥ 123$ million, cost of sales increased by $¥ 125$ million, and operating income, ordinary income, and income before income taxes decreased by $¥ 1$ million, respectively, compared with those before the retrospective application. In addition, the balance of retained earnings at the beginning of the previous fiscal year increased by $¥ 0$ million, as the cumulative effect was reflected in net assets at the beginning of the previous fiscal year.
(Accounting Standard for Fair Value Measurement.)
The Company has adopted ASBJ Statement No.30" Accounting Standard for Fair Value Measurement" (July 4, 2019) (hereinafter referred to as "The Accounting Standard"), etc. since the beginning of the consolidated first quarter; and adopts the new accounting policies specified in the accounting Standard, etc. into the future in accordance with the transitional treatment specified in both the accounting Standard paragraph 19 and ASBJ Statement No. 10 Accounting Standard for Financial Instruments (July 4, 2019) Paragraph 44 2. For your information, there is no impact caused by the application on the quarterly consolidated financial statements.
