Kiyoshi Nishioka	○	<p>Mr. Nishioka is an advisor of Research Center for Advanced Science and Technology, the University of Tokyo. Until June 2009, he had served as Executive Officer of Nippon Steel Corporation, which has a transactional relationship with us. ## 2. Matters on Functions of Business Execution, Audit and Supervision, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

### 1. Status of the oversight and decision-making function:

The Company has implemented an executive officer system to explicitly divide management oversight and business execution functions with the aim to accelerate and stimulate the decision-making processes by the senior management consisting of President and Corporate Officers. We have also drastically reduced the number of board directors. In addition, we have strengthened the oversight function by appointing Independent Directors. The Board of Directors meeting is held once or twice per month. The Board defines basic corporate policies, and makes decisions on important business execution matters and items specified in the Companies Act and the Articles of Incorporation based on thorough deliberation. The Board has sought to accelerate and stimulate the management decision-making function. To strengthen the oversight function of the Board of Directors and ensure appropriate decision-making, Directors are appointed with an emphasis on corporate governance perspectives, while Executive Officers are appointed in a manner they do not have to concurrently serve as Directors as far as possible and can focus on business execution, their primary duty. The Company has abolished the director-in-charge system except for Chairperson and President for more effective oversight function through monitoring by Audit & Supervisory Board Members including Outside Audit & Supervisory Board Members and mutual monitoring between respective directors. We have also established an agile management system to quickly respond to changes in business environments, and limit the term of office of directors to one year to more clearly define management responsibilities of Directors. We appointed ten Directors, including four Outside Directors (including one female member), at the Ordinary General Meeting of Shareholders held on March 30, 2021. To strengthen functional independence and objectivity and accountability of the Board of Directors, the Company has organized the Nomination Advisory Committee and the Remuneration Advisory Committee. Independent Outside Directors and Outside Audit & Supervisory Board Members represent the majority of both committees.

### 2. Status of the operational execution function:

Agendas and priority matters to be submitted to the Board of Directors' meeting for resolution are decided at Management Committee meetings chaired by President. For investment matters escalated to the Management Committee, their risks are analyzed and their results and progress are managed through

preliminary risk review and assessment by task teams. Basic management measures, such as the mid-term business plans, are formulated based on deliberation by the Management Committee and exhaustive discussions by all Executive Officers. The Company has implemented a performance evaluation system for each division to place the strong responsibility for execution at the core of business activities and fully implant the result-focused performance evaluation. Also, the Company has organized the Security Export Control Committee and the Safety Measure Committee reporting directly to President, and the Sustainability Promotion Council, the Responsible Care Promotion Council, and the IR Promotion Council under the Management Committee chaired by President. These committees and councils are responsible for investigation, research and deliberation on items necessary for appropriate business execution.

3. Status of the Internal audit function:

(1) Audit by the Audit & Supervisory Board Members: The Audit by the Audit & Supervisory Board consists of five members including three Outside Audit & Supervisory Board Members (including two female members). For more sound business management, Audit & Supervisory Board Members shall attend the Board of Directors' meetings and other important internal meetings. They deliver their insights; and audit business executions through on-site inspections, interviews with responsible persons, and consulting important documents, to provide suggestions, advice and recommendations. In addition, Audit & Supervisory Board Members are making efforts to enhance audits on Group companies and strive to strengthen a consolidated management framework in cooperation with Audit & Supervisory Board Members of major affiliated companies. Mr. Toshiharu Kato, Standing Statutory Member of Audit & Supervisory Board, has garnered significant expertise in finance and accounting through years of involvement in the Company's Finance and Accounting Division, and as Chief Financial Officer (CFO) to control the Finance and Accounting Division. In addition, in order to enhance the functions of the Audit & Supervisory Board, two full-time staff members are assigned to support the performance of duties by the Audit & Supervisory Board Members.

(2) Internal Audit: The company has organized the Internal Audit Department reporting directly to the President. The Internal Audit Department (consisting of 13 full-time staff members and 1 part-time member) forms annual internal audit plan under the provisions of the company's Internal Audit Rules, audits situations of compliance, conduct of business and internal control system of the Showa Denko Group including affiliated companies, reveals potential risks concerning overall business activities, and reports results of internal audit to the top management, the Board of Directors and the Audit & Supervisory Board. In addition, the Internal Audit Department cooperates with the Accounts Auditor and Audit & Supervisory Board Members through various measures including periodic briefing session about annual internal audit plan and results of internal audit, while paying attention to each auditing body's independence. On the other hand, Responsible Care Department audits the situation of management of environment and safety issues.

(3) Audit by Accounting Auditor: The Company has signed an audit agreement with KPMG AZSA LLC, which conducts accounting audit. Certified Public Accountants who executed the audit are designated limited liability partners and executive members, namely Michitaka Shishido, Noriaki Sakurai and Daio Aida. Assistants to the audit service included twelve Certified Public Accountants and 27 other staff members. Accounting Auditor reviews an annual audit schedule jointly with Audit & Supervisory Board Members and report the results of audit. Accounting Auditor exchanges information and opinions as needed to facilitate collaborations with other related parties.

##### 1. Basic Views on Internal Control System and Progress of System Development

The below shows basic policies for establishing the internal control system as resolved by the Board of Directors:

The Company positions fair social ethics-based behavior as well as compliance with laws and regulations, and the articles of incorporation as critical management issues. We have, thereby, formulated the “Group Vision” and “Our Code of Conducts.” Based on the above, we define and appropriately operate the basic policies to “establish a system to ensure appropriateness of business (internal control system)” as stated below.

(1) Framework ensuring that execution of duties by directors and employees of the Company and its subsidiaries complies with laws and regulations and the Articles of Incorporation

The Company has organized the Sustainability Promotion Council under the Management Committee chaired by President in accordance with the Rules for Sustainability Promotion. The Council considers mid- and long-term action plans and priority matters for the Group’s compliance, formulates measures based on the Action Plan and monitors implementation of them. The Company has established the Whistleblowing System, which are available via both internal and external routes, to prevent issues, detect them earlier, and solve them appropriately. We shall fully disseminate compliance policies through trainings and a Corporate Ethics Campaign Month held in the second half of each year. We shall take an action against any violative acts to prevent recurrence or proper punitive measures. Such actions or measures shall be reflected in the organization performance assessment etc. The Company properly streamlines and operates the internal control to ensure reliability of financial reports. In no case, we shall have any relation with any anti-social forces. We shall not respond to undue claims, either. We have established a structure against anti-social forces to fully disseminate relevant information and how to handle them. For each of specific cases, we shall take a firm action in cooperating with the police authority and external professional bodies.

(2) Framework for storing and managing information related to execution of duties by directors of the Company

The Company shall handle, save and maintain the minutes of the Board of Directors’ meeting and other management meetings, and information related to execution of duties such as decisions in writing in accordance with respective rules of Document Control, Confidential Information, Information Security and Personal Information Management, etc.

(3) Policy and framework for managing risks of loss of the Company and its subsidiaries

The Company multilaterally considers the Group's priority matters with the members of the Management Committees held twice a month in principle. We attach special importance to investment deals from the perspectives of strategic rationale, risk management, and progress and result management. Each of business divisions and staff sections analyzes and assesses its inherent risks for proper risk management. The Sustainability Promotion Council under the Management Committee summarizes and assesses risks of the Group on a regular basis. The Council formulates measures against significant risks which may impact the Group and confirm the status of their implementation. In the event of outbreak of crisis such as an accident or a disaster, we will take actions to address each of them by organizing emergency response headquarters, based on the internal rules such as Emergency Protocols. The Company has organized the Responsible Care Promotion Council to ensure environment protection, safety and health; and the Security Export Control Committee for legitimate export of regulated cargos, etc. The staff departments manage individual risks appropriately through development of rules related to the Group and development and delivery of manuals and trainings.

(4) Framework ensuring the efficiency of execution of duties by directors of the Company and its subsidiaries

The Company has implemented the executive officer system to explicitly divide management oversight and business execution functions with the aim to accelerate and stimulate decision-making processes by the top management consisting of President and Corporate Officers. In accordance with the Long-term Vision and the Group Management Policies, we shall decide the direction for the management and the Group's management policies. We include each year's issues and targets of the entire Group in Annual Action Plans (budget), based on which we manage our business performance. We specify the division of duties and clearly define authorities of each organization in accordance with the Group Management Rules. All subsidiaries are supposed to follow these rules including the Group Management Rules when building their organizational structures, which will help the Group to exercise agile decision-making in line with the characteristics of each business and deal with wide-ranging operations appropriately and efficiently.

(5) Systems to report matters related to duties of Directors etc. of subsidiaries of the Company, and to ensure appropriateness of business execution in other corporate groups

The Company requires that all of its subsidiaries report to the parent, on a regular basis, their operation results, financial position and any other important information in accordance with the Group Management Rules. Audit & Supervisory Board Members and Internal Audit Departments of the Company shall inspect and diagnose the Group companies, if necessary. Audit & Supervisory Board Members of the Company shall have meetings on a regular basis with Audit & Supervisory Board Members of the key Group companies to keep interactions.

(6) Items regarding the system for employees assisting duties of Audit & Supervisory Board Members of the Company, such employees' independence from the directors, and ensuring effectiveness of instructions given to them

The Company assigns full-time assistants for Audit & Supervisory Board Members to help them efficiently fulfill their duties. We shall consult them and obtain their prior consent for reassignment of the assistants and their evaluations. Such employees shall not concurrently serve any other divisions or departments but report exclusively to Audit & Supervisory Board Members.

(7) System to ensure Audit & Supervisory Board Members of the Company to be informed from Directors, etc. of the Company, Directors, etc. of its subsidiaries, or a person who received a report from either of the former two persons

To enable Audit & Supervisory Board Members to have a full picture of important decision making or business execution by the Directors, we keep them informed by explaining matters discussed in important meetings such as the Board of Directors' or Management Committee meetings, sharing important documents about execution of duties such as requests for approval, monthly financial documents and internal audit reports, briefings by relevant divisions and departments of the Company. According to the Group Management Rules, the Company shall decide supervisory departments of the Group companies requiring them to inform Audit & Supervisory Board Members of the items related to their companies when necessary. The Group's officers and employees shall immediately report any business execution matters

upon request by Audit & Supervisory Board Members. If they discover any fact that may cause a material damage on the Group, they shall immediately report it to Audit & Supervisory Board Members. Note that such report submitted to Audit & Supervisory Board Members must include the fact and the status of operation of the Group’s internal reporting system.

(8) A system to protect Directors, etc. who reported to Audit & Supervisory Board Members of the Company from unfair treatment

The Company shall not unfairly treat anyone who reported the fact to Audit & Supervisory Board Members of the Company.

(9) System of policy on procedures for advance payment or reimbursement of expenses incurred in the execution of duties by Audit & Supervisory Board Members of the Company, and other expenses incurred in the said execution of duties, or handling of debts

The Company shall allocate a certain amount of budget every year to shoulder costs etc. arising from execution of duties of Audit & Supervisory Board Members except cases considered as unnecessary for execution of their duties.

(10) Framework ensuring the effectiveness of auditing by Audit & Supervisory Board Members of the Company

To increase the effectiveness of audit to be performed in accordance with the Standards for Audit by Audit & Supervisory Board Members and in line with the Audit policies and plans formulated in the beginning of the year by Audit & Supervisory Board Members, the Company shall give proper supports for Audit & Supervisory Board Members to visit and audit sites. President and Chief Risk Management Officer shall hold monthly meetings with Audit & Supervisory Board Members about issues, priority audit issues, improvement of audit environments and other issues that the Company should address. The Internal Audit Department and Accounting Auditor shall cooperate with Audit & Supervisory Board Members by reporting audit results and through periodic meetings.

## 2. Basic Views on Eliminating Anti-Social Forces and Progress of Related Efforts

We have stipulated, in the “Our Code of Conduct” approved at the Board of Directors meeting that all employees are required to observe rules and regulations and behave under highly ethical standards. The “Guidance of Practice” including specific guidelines of the Code explicitly states that the Company shall not have any relationship with anti-social groups or persons and resolutely decline any unreasonable claims without easy concession. For this purpose, necessary information shall be collected by General Affairs Department controlling the entire company, and general affairs divisions or departments of business sites and affiliated companies under the control of Chief Risk Management Officer (CRO) and the manager responsible for preventing unreasonable concessions. They shall deliver trainings, share and familiarize relevant information and procedures against anti-social groups within the Company. ## Skill Matrix

### Vision for post-integration

The Showa Denko Group has revised its Long-term Vision, which had been announced in December 2020, and set the ideal state of the newly integrated company as “Co-Creative Chemical Company.” The Group has also set the Purpose of the Newly Integrated Company as “Change society through the power of chemistry,” and now aims to become “Company that can compete on the world stage,” “Company that contributes to sustainable global society,” and “Company that develops talent that represents Japan’s manufacturing industry.”

### Medium- to long-term strategy to realize the Vision

To realize the Vision, it is necessary for the Group to make the most of our business portfolio that combines Core Growth businesses, Next-Generation businesses, Stable Earnings businesses, and Fundamental Technologies/Materials businesses. We have positioned our Electronics, Mobility, and Life Science businesses as “growth businesses” that will lead the growth of the entire Showa Denko Group, and will make these businesses grow rapidly.

### Major issues to be discussed at the Board of Directors’ meetings

To enhance the effectiveness of the Vision, it will be necessary for the Board of Directors to have lively discussion about “the way to compete on the world stage,” “contribution to SDGs,” “autonomous business portfolio reform,” and “innovation including technical synergy” and quick decision making.

### Identification of skills necessary for Directors

On the basis of above discussion, we formulated a matrix that indicates expertise and experience of each Director and each Member of the Audit & Supervisory Board.

## < Outline of Director Compensation Scheme >

The outline of SDK's director compensation scheme in and after 2022 is as follows:

### 1. Basic policy

- Directors (excluding outside directors)
  - A compensation scheme appropriate for recruiting and maintaining excellent human resources inside and outside Japan as SDK aims to become a world-leading chemical company for advanced functional materials
  - A compensation scheme that will help motivate efforts to achieve financial goals and increase medium-to-long-term enterprise value, thereby contributing to sustainable growth of the Group
  - A transparent, fair and rational process for deciding compensation from the viewpoint of accountability to all stakeholders, including shareholders
- Outside directors
  - A compensation scheme appropriate for the role and responsibility for supervising the management of SDK from an independent and objective standpoint

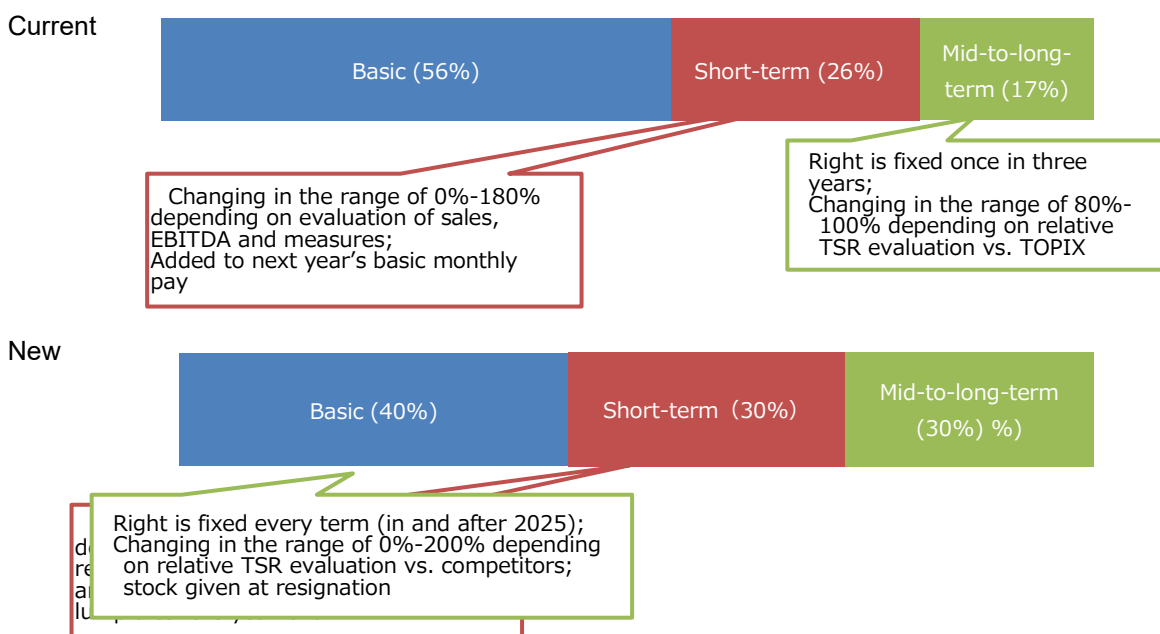

### 2. Composition and levels of compensation

The compensation for executive directors and corporate officers consists of basic compensation (fixed compensation) based on position, short-term performance-linked compensation, and medium-to-long-term performance-linked compensation (stock-based compensation). In case of a standard amount for President and CEO, the proportions of basic, short-term performance-linked, and medium-to-long-term performance-linked compensations are roughly 40%:30%:30%. Compensations for other executive directors and corporate officers are decided in line with the case of president. As for director and chairman of the board (without right of representation), short-term performance-linked compensation will not be given in view of its basic role of supervising the management. Compensation paid to outside directors and members of the Audit & Supervisory Board will be only basic compensation in consideration of their roles and responsibilities. In deciding the composition and levels of compensation, we will use objective market research data provided by external specialized institutions (such as Willis Towers Watson's database regarding compensation for executives). We will consider the results of comparison with global chemical or other material companies of a similar scale.

Graph 1 Type of compensation and scope of payment

Type of compensation			Scope			
Fixed / fluctuating	Money or not money	Composition	Executive directors / corporate officers	Director / chairman of the board (without right of representation)	Outside directors	Members of the Audit & Supervisory Board
Fixed		Basic	○	○	○	○
Fluctuating	Money	Short-term performance-linked (Bonuses)	○	-	-	-
	Not money	Medium-to-long-term performance linked (Stock-based)	○	○	-	-

Graph 2 Percentage of compensation components for President and CEO (image)

Composition is calculated based on standard amount.

### 3. Incentive compensation

Incentive compensation will be granted according to performance based on indexes of long-term numerical goals included in the integrated company's long-term vision. It is intended to urge performance of tasks for realizing vision and strategy under the compensation scheme linked to business results and enterprise value.

#### i) Short-term performance-linked compensation (bonuses)

Payment to each person is decided by multiplying standard value (decided in advance based on position) by performance evaluation coefficient (changing in the range of 0%-200%). The coefficient consists of overall business results evaluation (70%) and personal evaluation (30%). In the case of representative director and chairman of the board, only overall business results evaluation is considered.

Indexes of overall business results evaluation consist of the amount of consolidated EBITDA (20%), the ratio of consolidated EBITDA to sales (30%), and ROIC (20%). As for the first two, evaluation is made relative to the degree of achievement of goals for each term. As for ROIC, evaluation is made on the basis of the average for the past three years.

Personal performance evaluation is made by the Compensation Advisory Committee entrusted by the Board of Directors concerning individual goals, evaluation, and the amount of payment. In case of misconduct, SDK may nullify the right to receive benefit or demand return of compensation, depending on the timing of misconduct and the timing of its revelation. The Board of Directors will make a decision on the matter after deliberations at the Compensation Advisory Committee.

Graph 3 Evaluation indexes of short-term performance-linked compensation (bonuses)

Evaluation indexes		Weighting of evaluation
Evaluation of overall business results	Consolidated EBITDA (amount)	20%
	Ratio of consolidated EBITDA to sales (%)	30%
	ROIC	20%
Personal performance evaluation		30%

4. Medium-to-long-term compensation (stock-based compensation)

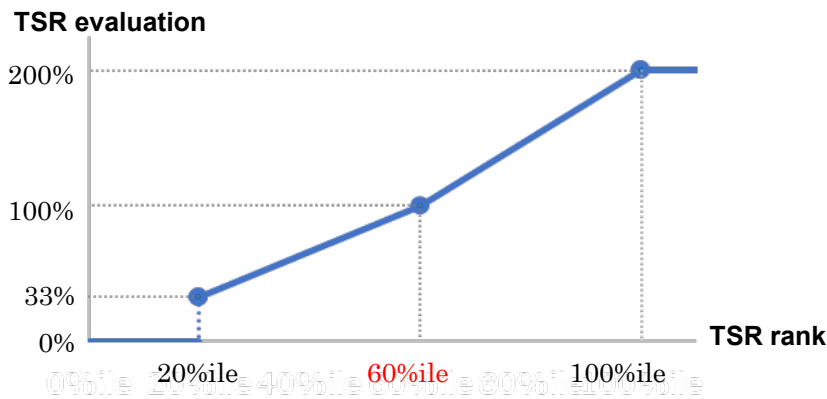

Under the new scheme, points are given by multiplying standard figures (decided in advance based on position) by TSR evaluation coefficient (changing in the range of 0%-200%). TSR evaluation coefficient will be decided based on SDK's rank order of three-year relative TSR evaluation (percentile, hereinafter "%ile") by comparison with competitors in the chemical/textile industries having similar business models and of the same size or larger. To encourage realization of the long-term vision, TSR coefficient will be set at 100% when SDK's rank order is in 60%ile, while it will be 0% when SDK's rank order is below 20%ile. To promote long-term sharing of value with shareholders, shares will be given in a lump after resignation according to cumulative points.

In case of misconduct, SDK may nullify the right to receive benefit or demand return of compensation, depending on the timing of misconduct and the timing of its revelation. The Board of Directors will make a decision on the matter after deliberations at the Compensation Advisory Committee.

Graph 5 TSR evaluation coefficient

$$\text{TSR} = \frac{\text{Average closing stock price in Dec. of the last year} + \text{Total amount of dividends during the period}}{\text{Average closing stock price in Dec. immediately preceding the evaluation period}}$$

### 5. Compensation governance

SDK's Compensation Advisory Committee is chaired by an independent outside director, and independent outside directors/auditors account for the majority of committee members. The committee will make proposals and reports as necessary to the Board of Directors in view of the latest situation concerning executive compensation and market trends, results of comparison with relevant competitors, and other pieces of advice. To ensure high levels of independence and objectivity, decisions on compensation for respective directors will be entrusted to the Compensation Advisory Committee as from 2022. SDK has appointed Willis Towers Watson, an external consultancy, as advisor.
