Komatsu's suspension of shipments to Russia and production in Russia

Komatsu is gravely concerned about the current situation in Ukraine and sincerely hopes that the situation will be settled peacefully as soon as possible.

Due to the situation in Ukraine, the disruption in the supply chain surrounding Komatsu has remained serious, and the impact on the financial and economic situation remains uncertain.

As announced in its news release of March 30, 2022, Komatsu decided to suspend our shipments to Russia against the background of the confusion of its supply chain and uncertain financial and economic conditions. At present, Komatsu has suspended the shipments and production at its manufacturing subsidiary in Russia.

As a humanitarian assistance effort for those affected by the Ukrainian situation, Komatsu is going to donate EUR 1 million to a support organization. Additionally, Komatsu is planning to solicit cash contributions from our employees.

As of today, Komatsu anticipates that the impact will be minimal on the projected consolidated business results for the fiscal year ended March 31, 2022. When Komatsu anticipates considerable effects on business results as affected by future developments of the Ukrainian situation, it will disclose them in a timely manner.
