RAKSUL Selected as a Constituent of FTSE Blossom Japan Sector Relative Index

RAKSUL INC. is pleased to announce that we have been selected for the first time as a constituent of the FTSE Blossom Japan Sector Relative Index (hereinafter the "Index"), which reflects the performance of companies that demonstrate relatively strong ESG practices in each sector.

The Index, created by one of the leading ESG rating agencies FTSE Russell, is designed as a sector neutral benchmark and evaluated based on ESG ratings as well as carbon intensity and management attitude towards climate change risks/opportunities.

It is also one of the ESG indices adopted by Government Pension Investment Fund (GPIF), the world's largest pension fund, which has begun passive investment tracking this Index.
