Controls to Ensure Appropriate Business Conduct

Pursuant to Article 416 of the Company Law and Article 112 of the Enforcement Regulation of the Company Law, Ichigo's Board of Directors approved and enacted a "Basic Policy for the Establishment of Structure of Internal Controls," with details shown below. Pursuant to Article 14 of Ichigo's Articles of Incorporation, Ichigo has made this policy available on its corporate website:

www.ichigo.gr.jp/en/ir/management_policies/internal_controls.html

1. Internal Controls to Ensure that Statutory Executive Officers and Employees Execute Their Duties in Full Compliance with Japanese Law and Ichigo's Articles of Incorporation (Article 416, Paragraph 1, Item 1 of the Company Law, Article 112, Paragraph 2, Item 4 of the Enforcement Regulation of the Company Law)

Overview

(1) The Board of Directors complies with relevant laws and regulations, the Articles of Incorporation, resolutions adopted at shareholders' meetings, Ichigo's mission, Ichigo's Code of Corporate Ethics, and Ichigo's Code of Conduct in making its decisions and delegating daily management to the Statutory Executive Officers, that in turn supervise employees within their respective delegated areas of management. The Board of Directors supervises the Statutory Executive Officers by receiving periodic reports on the status of business execution. The Audit Committee audits the performance of duties for both Statutory Executive Officers and employees.

(2) The Board of Directors sets internal rules, establishes relevant divisions and appoints Statutory Executive Officers, and engages external experts with respect to establishing compliance, financial reporting controls, internal audit, prevention of dealings with anti-social forces, and prevention of insider trading.

Status

(1) The Board of Directors is comprised of five independent and four internal Directors, and had a total of 11 meetings during FY22/2 with a 100% attendance rate. Statutory Executive Officers make decisions and/or seek board approval through board proposals, and report their activities to the Board of Directors at least quarterly. The Audit Committee is comprised of three Independent Directors, and held a total of 20 meetings during FY22/2 with a 100% attendance rate.

(2)

(a) Compliance – The Compliance Committee held two meetings to deliberate material compliance matters and conducted training sessions based on the company's Code of Corporate Ethics and Code of Conduct. A whistle-blowing system exists, including the ability to directly notify an external lawyer.

(b) Financial Reporting Controls – The President and Statutory Executive Officers of each division and subsidiary work to ensure compliance with internal controls and the evaluation thereof.

(c) Internal Audit Department – The objective of the Internal Audit Department for FY22/2 was to contribute to management level decision-making through a group-wide, risk-based approach along with the Audit Committee and auditors of subsidiaries. Specifically, the Internal Audit Department examined the execution of management duties, the status of investment securities, and the status of information management.

(d) Prevention of Dealings with Anti-Social Forces – Ichigo has written manuals on how to handle Anti-Social Forces as well as rules that require Anti-Social Force clauses to be included in contracts. Furthermore, Ichigo works with the Tokyo Metropolitan Police Department and other external experts in conducting due diligence of business counterparties. (See “System Against Anti-Social Forces.”)

(e) Prevention of Insider Trading – Through its internal rules on the management of insider information, Ichigo strictly manages all critical corporate information and ensures proper disclosure thereof. Internal rules require that all officers and employees must pre-clear any transaction in designated securities with the Statutory Executive Officer of their respective divisions.

2. Systems to Ensure Proper Storage and Management of Information Required for Execution of Duty by Statutory Executive Officers (Article 112, Paragraph 2, Item 1 of the Enforcement Regulation of the Company Law)

Overview

Ichigo has internal rules with respect to the creation, management, and storage of information and documents pertaining to the execution of duties by Statutory Executive Officers. Ichigo remains fully compliant with all relevant laws and regulations.

Status

Handling of information is stipulated in the Information Management Policy and handling of documents is stipulated in the Document Management Policy, and all officers and employees conduct business in full compliance with both policies.

3. Risk Management Policies and Systems (Article 112, Paragraph 2, Item 2 of the Enforcement Regulation of the Company Law)

Overview

Ichigo’s policy is that the Statutory Executive Officer of each division is responsible for the compliance of respective business operations and for managing business risks. In addition, a Chief Risk Officer has been appointed and a Risk Management Division established in order to ensure a proper risk management framework exists across the entire group and to deal with any significant risks that arise. Ichigo’s risk management framework also prescribes how to respond to any loss of basic business functions as a result of natural disasters or accidents.

Status

Ichigo continually monitors business execution and the risk thereof, and the Chief Risk Officer reports monitoring results to the Board. Ichigo has business continuity plans that specify how to recover from natural disasters and accidents, and all officers and employees are fully aware of these plans.

4. Systems to Ensure Effective Execution of Duties by Statutory Executive Officers (Article 112, Paragraph 2, Item 3 of the Enforcement Regulation of the Company Law)

Overview

Ichigo provides for efficient and agile execution of duties by establishing clarity with respect to scope of responsibilities and associated authority. Ichigo sets business plans and monitors progress based on the group's management philosophy and mission, annual group policies, and annual business targets. Furthermore, Ichigo holds a regular Senior Management Meeting comprised of the Chairman, President, Executive Vice President, and representatives of each subsidiary to evaluate and make decisions on material business matters.

Status

Statutory Executive Officers execute their duties within their respective delegated scopes of responsibilities without any undue overlap or negligence. For FY22/2, Statutory Executive Officers set their business policies and targets in accordance with the Ichigo 2030 long-term vision announced in April 2019 and successfully achieved these targets. The Head of Finance provides analytic support to the Senior Management Meeting to support its effectiveness as a forum for vigorous discussion and review of key business issues.

5. Audit Committee and Audit Systems (Article 416, Paragraph 1, Item 1 of the Company Law, Article 112, Paragraph 1, Items 1~7 of the Enforcement Regulation of the Company Law)

Overview

- (1) Ichigo appoints Directors and employees that assist the Audit Committee in the execution of its duties. Such Directors and employees carry out their duties independent from the Board of Directors, other Directors, and Statutory Executive Officers, with any change in appointment requiring the authorization of the Audit Committee.
- (2) Audit Committee Members attend important meetings, and can request explanations from officers and employees as well as view all related materials.
- (3) Officers and employees must report to the Audit Committee or Audit Committee Members matters that have material impact on the business and financial situation of Ichigo. Any person making such report shall not receive disadvantageous treatment for making such report.
- (4) The Audit Committee maintains a close relationship with the Internal Audit Department by discussing audit plans and receiving reports on audit results. The Audit Committee also receives periodic reports from the Independent Auditor as well as exchanges views on any material audit matters.
- (5) The Audit Committee holds meetings with Audit Committee Members and auditors of subsidiaries, attends important meetings at subsidiaries, and receives explanations and reports from subsidiaries in order to assess the appropriate execution of duties by Directors and Statutory Executive Officers of subsidiaries.
- (6) The Audit Committee, at its sole discretion, can appoint external specialists necessary for the execution of audits and can request that Ichigo bear associated costs.

Status

- (1) In accordance with internal rules pertaining to Directors and employees assisting in the duties of the Audit Committee, Ichigo has appointed several employees to assist the Audit Committee and has ensured their independence. Furthermore, the prior consent from the Audit Committee has been sought for any organizational or compensation matter with respect to these appointed individuals.
 - (2) In accordance with Audit Committee Rules, the Audit Committee attended important management meetings and received explanations as well as reviewed any relevant materials. In addition, officers and employees have made all required reporting to the Audit Committee, and no disadvantageous treatment has resulted from such reporting.
 - (3) The Audit Committee approved internal audit plans and received reports on the results of audits. Furthermore, the Audit Committee has received periodic reports from the external auditor and has engaged in discussion of material audit matters.
 - (4) The Audit Committee holds two liaison meetings a year with Audit Committee Members and auditors of subsidiaries, and receives explanations and reports from the officers and employees of subsidiaries.
 - (5) The Audit Committee has requested that Ichigo bear the costs associated with auditing of subsidiaries.
6. Systems to Ensure Fully Appropriate Business Activities by Ichigo and its Subsidiaries (Article 112, Paragraph 2, Item 5 of the Enforcement Regulation of the Company Law)

Overview

- (1) Ichigo and all subsidiaries share Ichigo's Management Philosophy, Code of Corporate Ethics, and Code of Conduct, and have executed a management agreement requiring that they work collaboratively in dealing with corporate governance, compliance, risk management, and prevention of dealings with Anti-Social Forces.
- (2) Ichigo has appointed a Statutory Executive Officer and established a Corporate Operations Division responsible for monitoring business activities of subsidiaries, and requires each subsidiary to provide business reports.
- (3) With respect to any transaction with Ichigo Trust Pte. Ltd., the major shareholder of Ichigo, Ichigo takes special care to protect the interests of minority shareholders by having the Board of Directors evaluate the purpose, process, and price of any such transactions and ensure that they contribute to increasing Ichigo's corporate value and protect all Ichigo shareholders.
- (4) Ichigo supports, advises, and manages its subsidiaries to ensure their business activities are fully compliant with the Company Law. Ichigo oversees appropriate business conduct of subsidiaries by receiving periodic reports with respect to their business operations as well as execution of duties by Directors and officers.

- (5) Through its internal rules on the management of insider information, Ichigo strictly manages all critical corporate information and ensures proper disclosure thereof. Internal rules require that all officers and employees must pre-clear any transaction in designated securities with the Statutory Executive Officer of their respective divisions.

Status

- (1) Structure to Ensure that Ichigo Subsidiaries Execute Their Duties in Compliance with Laws and Regulations and Ichigo's Articles of Incorporation

The Boards of each subsidiary have approved a "Basic Policy for the Establishment of Structure of Internal Controls," pursuant to the one established by Ichigo. Audit Committee Members and internal auditors of respective subsidiaries attend Board of Directors meetings as well as any other important management meetings and examine related materials to ensure Directors and officers are executing their duties in compliance with laws and regulations, and Ichigo's Articles of Incorporation.

- (2) Structure for Ichigo Subsidiaries to Report to Ichigo on the Execution of Their Duties

The President receives a report every three months from the presidents of each subsidiary with respect to business operations and the execution of duties by Directors and officers.

- (3) Structure of Risk Management at Ichigo Subsidiaries

Each subsidiary monitors business risks pursuant to their respective risk management policies, and reports results to Ichigo's Risk Management Division. The Head of Ichigo's Risk Management Division, in turn, reports this information to Ichigo's Board. The Chief Risk Officer provides the Board of Directors with a comprehensive update on the status of group-wide risk management.

- (4) Structure to Ensure Efficient Execution of Duties at Ichigo Subsidiaries

Each subsidiary has policies in place to ensure clarity of scope of responsibilities, with management decisions being made in line with such policies, therefore resulting in the efficient execution of duties.

Reference: Establishment and Status of Internal Structures to Prevent Dealings with Anti-Social Forces

As part of its internal control systems, Ichigo has established an internal structure to prevent dealings with Anti-Social Forces:

- (1) Ichigo and its subsidiaries have clear policies on preventing dealings with Anti-Social Forces stipulated within its Code of Corporate Ethics.
- (2) Ichigo has appointed the Executive Vice President and the Corporate Operations Division as being responsible in handling requests from Anti-Social Forces, and also receives advice on this issue from external legal counsel. Furthermore, Ichigo augments its efforts in this area by collaborating with external experts such as the Organized Crime Control Division of the Tokyo Metropolitan Police Department, the Marunouchi Police Station, and the National Center for Removal of Criminal Organizations.
- (3) Ichigo's Statutory Executive Officer (Corporate Operations) centrally manages group-wide information pertaining to Anti-Social Forces.

- (4) Under no circumstance will Ichigo heed to the request from an Anti-Social Force, and working together with external experts Ichigo shall firmly reject any request. All contracts with external parties will include language that aims to prevent dealings with Anti-Social Forces. Ichigo will terminate business relationships with any existing counterparty that is identified as being an Anti-Social Force.
- (5) All officers and employees of Ichigo and subsidiaries receive compliance training, and are made fully aware of their obligation to prevent dealings with Anti-Social Forces and escalate any concerns on this matter.

Notes to the Consolidated Financial Statements

C. Fiscal Year of Consolidated Subsidiaries

The fiscal year-ends of consolidated subsidiaries are as follows:

January-end	25 companies
February-end	10 companies
March-end	2 companies
November-end	1 company
December-end	14 companies

For subsidiaries whose fiscal year-ends are in December or January, financial data as of that date have been used. For subsidiaries whose fiscal year-ends are in March and November, provisional financial data (created at a point in time within three-months from March-end) have been used. All necessary adjustments for consolidation have been made with respect to significant transactions which occurred in FY22/2.

D. Accounting Standards

1. Valuation of Material Assets

a. Other Securities

Securities with market prices	Mark-to-market on the last day of the fiscal year (Valuation difference is reported as a component of shareholders' equity; the cost is calculated using the moving average cost method.)
-------------------------------	---

Securities without market prices	Moving average cost method (The valuation method for investment partnerships is noted in 6. (c) Investment Partnerships.)
----------------------------------	---

b. Derivatives	Mark-to-market
----------------	----------------

c. Real Estate for Sale	Cost (however, impair assets whose profitability declines)
-------------------------	--

2. Depreciation Methods for Material Depreciable Assets

Property, Plant, and Equipment	Primarily straight-line method
Useful life	Buildings and structures: 7~39 years Solar power plant equipment: 20 years

3. Accounting Standards for Material Allowances

a. Allowance for Doubtful Accounts

Reserved based on the record of bad debts with respect to ordinary receivables and loans, plus an estimate of uncollectible amounts determined with reference to specific doubtful receivables from customers experiencing financial difficulties.

b. Allowance for Employee Bonuses

Reserved based on an estimated amount for the current fiscal year.

4. Material Hedge Accounting Method

a. Hedge Accounting Method

In general, Ichigo adopts the deferral hedge accounting method. However, interest rate swaps and interest rate caps that meet the criteria for special treatment are accounted for under the special treatment method.

b. Hedging Instruments and Hedging Targets

Hedging instruments	Interest rate swaps and interest rate caps
---------------------	--

Hedging targets	Loans
-----------------	-------

c. Hedging Policy

Pursuant to its internal rules, Ichigo hedges against interest rate risks that arise from its business activities.

d. Evaluation Method of the Effectiveness of Hedges

Ichigo evaluates the effectiveness of hedging activities with reference to the accumulated gain or loss on the hedging instruments and related hedging targets for a period from the commencement of the hedges to the time of evaluation. Interest-rate swaps and interest rate caps accounted for under the special treatment method are omitted from this evaluation.

Ichigo has adopted the special treatment, pursuant to Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR (ASBJ PITF No. 40, September 29, 2020), for all in-scope hedge transactions.

Details of in-scope hedge transactions are shown below:

Hedge Accounting Method	Deferral hedge accounting method
Hedging Instruments	Interest rate swaps
Hedging Targets	Loans
Hedge Transaction Type	Cash-flow hedge

5. Goodwill Amortization Period and Method

Goodwill is amortized on a straight-line basis for a period of 10 to 20 years depending on the specific characteristics of each subsidiary.

6. Other Material Matters Related to the Preparation of the Financial Statements

a. Consumption Tax

For most items, consumption taxes are excluded from the relevant revenue, costs, or expenses.

Non-deductible consumption taxes are generally accounted for as costs in the current fiscal year; however, certain items paid in connection with the acquisition of assets are amortized over 5 years using the straight-line method or are included in acquisition costs.

b. Operational Investments

Operational investments are separated from non-operational investments and are accounted for under Operational Securities Investments and Operational Loan Investments within Current Assets. Profits and losses arising from operational investments are accounted for under Operating Profits and Losses.

Although Ichigo may control the decision-making body of investment vehicles or hold significant influence over them by holding shares, shares are held solely for operational investment purposes and Ichigo has no intention of holding them as subsidiaries or affiliates. Therefore, such investment vehicles are excluded from subsidiaries or affiliates.

c. Investment Partnerships

Ichigo accounts for investments in investment partnerships as Operational Securities Investments. Such investments are recorded at the time the investments are made. Gains and losses distributed from the investment partnerships are recorded as Revenue, and Operational Securities Investments increases or decreases by the same amount. Refunds received from the investment partnerships are credited to Operational Securities Investments.

d. Consolidated Tax Treatment

Ichigo qualifies for consolidated tax treatment.

e. Tax Effect Reflecting Transition to Group Aggregate Tax Treatment from Consolidated Tax Treatment

With respect to reporting deferred tax assets and liabilities, accounting items that were subject to change as part of the shift to a group aggregation system and changes in standalone tax rules under the 2020 Tax Reform, Ichigo and certain domestic subsidiaries apply pre-revision tax rules pursuant to the ASBJ Guidance 39, "Tax Accounting With Respect to the Shift from the Tax Consolidation System to Group Aggregation System" (issued on March 31, 2020), and do not apply the rules prescribed under Clause 44 of the Implementation Guidance 28, "Accounting Standards Implementation Guidance for Tax Accounting" (issued on February 16, 2018).

II. Notes on Restatement

Accounting Standard for Disclosure of Accounting Estimates

Ichigo is applying the Accounting Standard for Disclosure of Accounting Estimates (ASBJ Statement No. 31, March 31, 2020) starting from FY22/2, as described in III. Notes on Accounting Estimates.

Restatement of Consolidated Balance Sheet Items

Starting from FY22/2, items previously stated as “Solar power plants” and “Solar power plants under construction” under Fixed Assets are restated as “Solar and wind power plants” and “Solar and wind power plants under construction” to reflect the start of operations of Ichigo’s first wind power plant, the Ichigo Yonezawa Itaya ECO Power Plant.

In the FY22/2 balance sheet, “Buildings and structures under Construction” and “Solar and wind power plants under construction” under Fixed Assets are JPY 435 million and JPY 2,095 million, respectively.

III. Notes on Accounting Estimates

Valuation of Real Estate

A. Amount Recorded in FY22/2 Financial Statements

Real Estate for Sale	JPY 68,666 million
Fixed Assets	JPY 173,165 million

B. Information on Material Accounting Estimates for Specific Line Items

Ichigo and its subsidiaries invest in real estate including offices, hotels, residential assets, and retail assets, and record real estate expected to be sold as Real Estate for Sale as of FY22/2-end. Real estate expected to be held over the longer term is recorded as Fixed Assets.

If the net sale value of Real Estate for Sale is less than the book value, the net sale value is recorded on the balance sheet, and the difference is recorded as Valuation Loss on Real Estate for Sale under Cost of Goods Sold. With respect to Fixed Assets, for assets and asset groups that show indications of impairment, if the total undiscounted future cash flow is less than the book value, Ichigo impairs the book value to the asset’s recoverable amount and an equivalent impairment loss is recorded. When recording the impairment loss, the net sale value is recorded as the recoverable amount.

Ichigo uses the lower of the internally-calculated valuation amount based on the direct capitalization method (income approach) and the third-party real estate appraisal value as the net sale value.

Both the internal valuation amount and third-party real estate appraisal value are calculated using the income approach based on the net income or the future cash flows expected to be generated by the real estate assets and the cap rate.

Net income and future cash flow forecasts are impacted by rent levels in the area where the asset is located and by the asset’s occupancy. The cap rate is impacted by interest rate fluctuations, land prices per region and asset type, real estate market conditions, and the age, grade, rights, and regulatory compliance of the asset. Despite prolonged Covid impact during FY22/2, cap rates are trending downward

due to sustained high real estate transaction prices. As a result, the impact on the valuation of real estate is limited with the exception of certain asset types, and the impact has been reflected in the forecasts of cap rates, net income, and future cash flows of hotel assets.

Ichigo makes efforts to reduce the uncertainty of its internally-calculated valuations that are based on publicly available data via means such as obtaining third-party verifications of the cap rates per region and asset type. However, because there exists a large number of factors that impact the estimate of net sale value, any change in the preconditions and assumptions of the valuation caused by a change in business environment may result in the recording of a Valuation Loss on Real Estate for Sale or an Impairment Loss.

IV. Additional Information

Reclassification of Fixed Assets to Real Estate for Sale Assets

In FY22/2 Ichigo reclassified Fixed Assets expected to be sold in the short-term to Real Estate for Sale.

VIII. Notes on Financial Instruments

A. Matters Concerning Status of Financial Instruments

1. Policies on Financial Instruments

Ichigo funds itself primarily via bank loans and bonds, taking into account Ichigo's asset acquisition and disposition activity. Short-term excess funds are managed in liquid financial instruments such as bank deposits, and short-term working capital is financed via bank loans. Ichigo's policy is to use derivatives only for hedging purposes and not for speculative transactions.

2. Details and Risks of Financial Instruments

Trade notes, accounts receivable, and operational loan investments are operating receivables that are exposed to customer credit risks. Foreign currency-denominated financial instruments in overseas business operations are exposed to currency risks.

Operational securities investments are primarily investments in Japanese and foreign equities, and securities investments primarily take the form of equity and are typically investments in companies with which Ichigo has a business relationship. All of these investments are exposed to issuer credit risk, interest rate risk, and market price fluctuation risk.

Bank loans, bonds, and non-recourse loans are for the purpose of financing investments and capital expenditures, and are expected to be redeemed or repaid within approximately thirty years after the fiscal year-end. Floating-rate loans are exposed to interest rate risk, a part of which is hedged using derivative transactions (e.g. interest rate swaps and interest rate caps). Please refer to (I) Material Matters for Preparation of the Consolidated Financial Statements (D) Accounting Standards, (4) Material Hedge Accounting Method.

3. Risk Management of Financial Instruments

(a) Management of Credit Risk

Operating receivables exist primarily at subsidiaries. Responsible departments monitor the collection status pursuant to the designated procedure for mitigation of collection risk. Other operating receivables arise irregularly, e.g. at the time of investment monetization, and the responsible department determines the execution of the transaction based on the time needed for collection and the credit worthiness of the counterparty and monitors the receivable until it is collected in accordance with the agreement. Ichigo monitors operational securities investments and securities investments with respect to the financial status of the issuers and reviews holding policies, as necessary and appropriate.

(b) Management of Market Risk

Ichigo uses interest rate swaps and interest rate caps for the purpose of reducing interest rate risk on corporate and non-recourse loans. Ichigo monitors operational securities investments and securities investments which have market risks (e.g. real estate funds) or are denominated in foreign currencies regularly for the impact from changes in market value and currency rates and reviews the holding policies as necessary. Derivative transactions are executed and controlled in the Finance Department in accordance with the designated procedure.

(c) Management of Liquidity Risk

Ichigo establishes and updates its funding plan as necessary based on new investment and disposition plans set by the responsible departments, and manages liquidity risk by maintaining short-term liquidity.

4. Supplement to Matters Concerning Market Values of Financial Instruments

Market values of financial instruments include prices based on market prices as well as prices calculated based on rational assumptions where market prices are not available. Such prices may fluctuate, since their calculations include variables that can vary based on assumptions.

B. Adjustments to Market Values of Financial Instruments

Amounts recorded on the consolidated balance sheet, corresponding market values, and their differences as of February 28, 2022 are shown below. Items for which it is deemed highly difficult to obtain market values are not included. (See Note 2 on page 29).

¹ The receivables and payables related to derivative transactions are shown as a net amount.

(Note 1) Calculation Method of Market Value of Financial Instruments and Matters Concerning Securities and Derivatives Transactions

Assets

(1) Cash and Deposits

Carried at book value due to short settlement period.

(2) Trade Notes and Accounts Receivable

Carried at book value less allowance for doubtful accounts due to short settlement period and because allowance for doubtful accounts appropriately takes into consideration credit risks.

(3) Operational Loan Investments

Carried at book value less allowance for doubtful accounts due to short settlement period and because allowance for doubtful accounts appropriately takes into consideration credit risks.

(4) Securities Investments

The market values of equities are the last traded exchange price, and bonds are the last-traded exchange price or dealer-indicated price.

Liabilities

(1) Short-Term Loans, (2) Bonds due within One Year, (3) Long-Term Loans due within One Year, (4) Long-Term Non-Recourse Loans due within One Year, and (5) Income Tax Payable

Carried at book value due to short settlement period.

(6) Bonds

The fair value of bonds issued by Ichigo is calculated based on the current value by applying a discount rate to the total of principal and interest.

Notwithstanding the above, floating rate bonds are carried at book value because their book values are similar to their market values.

(7) Long-Term Loans, and (8) Long-Term Non-Recourse Loans

Floating-rate borrowings for long-term loans, and long-term non-recourse loans are carried at book value because their book values closely track their market values. Partial floating-rate long-term loans and long-term non-recourse loans are subject to the special accounting treatment of interest rate swaps and interest rate caps, and their market values are calculated by taking the present value of their principal and interest along with the corresponding interest rate swap, using a discount rate for similar new loans.

The market values of fixed-rate loans are calculated based on the present value of the total amount of principal and interest using a discount rate for similar new loans.

Derivative Transactions

The market values of derivative transactions are the prices presented by financial institutions. The market value of interest rate swaps and interest rate caps under special treatment is included in long-term loans and long-term non-recourse loans since it is accounted for with the instrument it hedges.

(Note 2) Financial Instruments for which it is Difficult to Obtain Market Values

Classification	Amount Recorded in Consolidated Balance Sheet
(1) Operational Securities Investments ¹	1,963
(2) Securities Investments ¹	2,236
(3) Long-term Security Deposits Received	6,749

¹ Excluding allowance for doubtful accounts which are recorded separately

- (1) Operational Securities Investments are foreign non-listed bonds and Japanese real estate funds that don't have market prices, and are not subject to market value disclosures.
- (2) Securities Investments are investment in Japanese non-listed bonds and equities that don't have market prices and whose future cash flow cannot be easily estimated, and are not subject to market value disclosures.
- (3) Long-term Security Deposits Received which are security deposits received from tenants of rental properties are not subject to market value disclosures because they are not priced in the market and it is difficult to estimate future cash flow because the actual period of deposit is not known.

IX. Notes on Leased Real Estate Not Currently Held for Sale

A. Income from Leased Real Estate Not Currently Held for Sale

Ichigo and some of its consolidated subsidiaries own leased real estate mainly in the Tokyo Metropolitan area that are not currently held for sale. Income on this leased real estate in FY22/2 was JPY 3,601 million (rental revenue is recorded in Revenue and the cost of lease is recorded in Costs of Goods Sold). Gains on sales of real estate were JPY 3,248 million (recorded as extraordinary gains).

B. Market Value of Leased Real Estate Not Currently Held for Sale

(JPY million)

Book Value on Consolidated Balance Sheet ¹			Market Value as of Feb 28, 2022 ³

¹ Book Value on Consolidated Balance Sheet = Acquisition Cost – (Cumulative Depreciation + Cumulative Impairment Loss)

² The main components of the increase for the fiscal year are JPY 1,134 million due to the acquisition of real estate and JPY 1,108 million from Capital Expenditures. The main components of the decrease for the fiscal year are JPY 9,421 million resulting from asset sales, JPY 3,379 million of Depreciation, and JPY 681 million transferred to Real Estate for Sale due to a change in the purpose of ownership.

³ Market value as of February 28, 2022 is based upon third-party real estate appraisals and calculated by Ichigo using reasonable indices reflecting market prices.

X. Notes on Special Purpose Companies (SPC)

A. Overview of SPC and SPC Transactions

Ichigo Owners, an Ichigo consolidated subsidiary providing real estate investment services to individual investors, launched a business that allows investors to make diversified, small-scale investments in a broad array of real estate assets pursuant to the Act on Specified Joint Real Estate Ventures. This new business employs voluntary partnerships as part of its structure.

Under this business, investors invest in a voluntary partnership pursuant to a specified real estate venture agreement. The voluntary partnership receives distributions of the income generated from the real estate asset it acquires using the invested funds. dividends on the gains from the real estate purchased via the investments. Rental income and gains on sales associated with the real estate asset are attributed to the investors.

Pursuant to the voluntary partnership agreement, Ichigo Owners receives a fee for serving as managing partner. Ichigo Owners also engages in real estate transactions with the voluntary partnership.

¹ The Real Estate Transaction amount is the sale price of the asset at the time of sale, and recorded under Revenue in the Consolidated Income Statement.

² The Managing Partner Fee is calculated as a percentage of the sale price and recorded under Revenue in the Consolidated Income Statement.

XI. Per Share Data

Net Assets per Share	JPY 215.46
Net Income per Share	JPY 13.81
Net Income per Share (fully diluted)	JPY –

Note: Ichigo had no dilutive common shares. Therefore, diluted net income per share information has not been disclosed.

XII. Material Subsequent Events

N/A

XIII. Other Notes

Ichigo wrote down the below asset in FY22/2.

(1) Asset and Write-down Amount

Asset	Type	Location	Impairment Loss
Operating Asset	Intangible Asset	Chiyoda-ku, Tokyo	JPY 716 million

(2) Write-down Rationale

Ichigo impairs the values of assets to their respective recoverable amount based on the current business environment. An equivalent amount was recorded as a loss under Extraordinary Losses.

Note that Ichigo calculates the recoverable amount based on value-in-use. For assets that are not expected to generate future cash flows, the recoverable amount is set to zero.

Notes to the Parent Financial Statements

I. Material Accounting Policies

A. Valuation Method for Securities

- Shares in subsidiaries and affiliates Moving average cost method
- Other securities
 - Securities with market prices Mark-to-market on the last day of the fiscal year (Valuation difference is reported as a component of shareholders' equity; the cost is calculated using the moving average cost method.)
 - Securities without market prices Moving average cost method (Valuation method for investment partnerships is noted in (F) Other Material Matters Related to the Preparation of the Financial Statements (3) Investment Partnerships.)
- Derivatives Mark-to-market
- Real estate for sale Cost (however, impair assets whose profitability declines)

B. Depreciation Method for Fixed Assets

- Property, Plant, and Equipment Primarily straight-line method
 - Useful life Buildings and Structures: 8~39 years
- Intangible Assets Straight-line method
 - Useful life Software: 5 years

C. Amortization of Deferred Assets

Issuance cost of shares: Full amount is recorded as cost.

D. Accounting Standards for Allowances

Allowance for doubtful accounts

Reserved based on the record of bad debts with respect to ordinary receivables and loans, plus an estimate of uncollectible amounts determined with reference to specific doubtful receivables from customers experiencing financial difficulties.

E. Hedge Accounting Method

1. Hedge Accounting Method

In general, Ichigo adopts the deferral hedge accounting method. However, interest rate swaps that meet the criteria for special treatment are accounted for under the special treatment method.

2. Hedging Instruments and Hedging Targets

Hedging instruments	Interest rate swaps
Hedging targets	Loans

3. Hedging Policy

Pursuant to its internal rules, Ichigo hedges against interest rate risks that arise from its business activities.

4. Evaluation of Hedge Effectiveness

Ichigo evaluates the effectiveness of hedging activities with reference to the accumulated gain or loss on the hedging instruments and related hedging targets for a period from the commencement of the hedges to the time of evaluation. Interest-rate swaps accounted for under the special treatment method are omitted from this evaluation.

F. Other Material Matters Related to the Preparation of the Financial Statements

1. Consumption Tax

Consumption taxes are excluded from the relevant revenue, costs, or expenses. Non-deductible consumption taxes are generally accounted for as costs in the current fiscal year; however, certain items paid in connection with the acquisition of assets are amortized over 5 years using the straight-line method.

2. Operational Investments

Operational investments are separated from non-operational investments and are accounted for under Operational Securities Investments and Operational Loan Investments within Current Assets. Profits and losses arising from operational investments are accounted for under Operating Profits and Losses.

Although Ichigo may control the decision-making body of investment vehicles or hold significant influence over them by holding shares, shares are held solely for operational investment purposes and Ichigo has no intention of holding them as subsidiaries or affiliates. Therefore, such investment vehicles are excluded from subsidiaries or affiliates.

3. Investment Partnerships

Ichigo accounts for investments in investment partnerships as Operational Securities Investments or Investment Securities in Other Affiliates. Such investments are recorded at the time the investments are made. Gains and losses distributed from the investment partnerships are recorded as Revenue, and the corresponding balance sheet item increases or decreases by the same amount. Refunds received from the investment partnerships are credited to the corresponding balance sheet item.

4. Consolidated Tax Treatment

Ichigo qualifies for consolidated tax treatment.

5. Tax Effect Reflecting Transition to Group Aggregate Tax Treatment from Consolidated Tax Treatment

With respect to reporting deferred tax assets and liabilities, accounting items that were subject to change as part of the shift to a group aggregation system and changes in standalone tax rules under the 2020 Tax Reform, Ichigo applies pre-revision tax rules pursuant to the ASBJ Guidance 39, “Tax Accounting With Respect to the Shift from the Tax Consolidation System to Group Aggregation System” (issued on March 31, 2020), and do not apply the rules prescribed under Clause 44 of the Implementation Guidance 28, “Accounting Standards Implementation Guidance for Tax Accounting” (issued on February 16, 2018).

II. Notes on Restatement

Accounting Standard for Disclosure of Accounting Estimates
