April 2022 Monthly YoY Change in Sales and Number of Company-owned Stores

Monthly review

People's mobility increased and restaurants operated with no business hour restrictions in April in response to full lifting of quasi-emergency measures late last month.

The weather temperature was high for the time of year. It was colder than previous years at the beginning of the month, but then got hotter.

As a result, in April, all stores sales increased by 40.4% and same stores sales including period with shorter business hours and excluding it increased by 18.0% and decreased by 0.6%, respectively year on year.

*We planned a 14.4% increase of same stores sales including the period on an annual basis at the time of formulation of forecast of the fiscal year ending October 31, 2022.
