The corporate governance of NITTO DENKO CORPORATION. is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Views

At the Nitto Group, we make clear our fundamental values and sense of purpose with respect to business performance in the form of our Corporate Philosophy.

In order to maximize our corporate value and achieve continuous growth under the Corporate Philosophy, we believe that prompt and transparent decision-making, as well as bold managerial decisions, are necessary. Being fully aware of the importance of establishing corporate governance to achieve such decision-making, we will further improve our corporate governance system by establishing these Corporate Governance Guidelines [Reference 1] in accordance with the following basic principles.

1. We ensure the rights and equality of our shareholders.
2. We collaborate with our stakeholders appropriately.
3. We disclose information appropriately to ensure transparency.
4. We aim to realize the management functions expected of us by our stakeholders.
5. We engage in constructive dialogue with our shareholders.

[Reason not to Enforce Each Principle of the Corporate Governance Code]

All of the principles below are pursuant to Japan's Corporate Governance Code (last revised in June 2021).

【Supplementary Principle 3.1.3 Disclosure of Sustainability Initiatives, etc.】

Nitto will disclose climate-related information in the Nitto Group Integrated Report 2022.

【Supplementary Principle 4.10.1 Composition, Independence, Etc. of Advisory Committees】

Nitto established the Management, Nomination, and Remuneration Advisory Committee as an advisory body to the representative director. For details, please see "Voluntary Establishment of Committee(s) Equivalent to Nomination Committee or Remuneration Committee" of the Corporate Governance Report.

Please note that Nitto does not necessarily believe that only independent directors can provide useful advice on management, nomination, and remuneration but rather believes that inviting opinions from a broad range of independent third parties contributes to the enhancement of corporate governance. As such, said Committee consists of independent individuals who are deemed to be appropriate at the time, such as outside corporate auditors and external experts. This being the case, independent directors may not always compose a majority of said Committee, though we believe that its independence is secured as full-time executives other than the representative director are not eligible to be a member of said Committee.

【Supplementary Principle 5.1.1 Dialogue between Senior Management and Shareholders】

Please refer to Principle 5.1 Policy for Constructive Dialogue with Shareholders for Nitto's policy for dialogue with shareholders.

Nitto is aware of the requests from shareholders to provide information and arrange management meetings with outside directors and corporate auditors. Accordingly, we make it a rule that the contents of dialogue with shareholders be shared with outside directors, corporate auditors, and other senior management members at the Board of Directors meetings and other opportunities and have outside directors provide information in Integrated Report and elsewhere. We will continue discussing how we can realize management meetings with outside directors and corporate auditors, as there remain issues with the current systems' structure to ensure fairness of opportunities, prevent information leaks, etc.

[Disclosure Based on the Principles of the Corporate Governance Code]

【Principle 1.4 Cross-Shareholdings】

The Nitto Group may hold shares of other listed companies as cross-shareholdings only when such holdings are deemed to lead to the enhancement of the Group's corporate value over the long-term. However, the ratio of such shares to total assets is minimal, and with regard to each cross-shareholding, we will continue to examine every year such factors as the status of transactions with such companies and whether the return on such holdings is commensurate with the capital costs deemed appropriate by the Company, and determine whether or not such shares need to be sold.

When exercising voting rights with respect to such cross-shareholdings, we decide the manner in which we vote in a comprehensive manner after taking into consideration such factors as whether each item to be resolved leads to the stable enhancement of the Group's corporate value.

【Principle 1.7 Related Party Transactions】

At Nitto, related party transactions conducted by our Directors or major shareholders and other parties are

resolved at Board of Directors meetings or entrusted to Outside Directors as appropriate in order to verify the rationality (business necessity) of such transactions and the validity of their terms and conditions.

resolve such transactions or entrust such business to Outside Directors as appropriate

Whether or not any items to be presented at Board of Directors meetings and other important meetings fall under the definition of related party transactions is examined by the Secretariat beforehand in conjunction with the legal department.

The soundness and appropriateness of such transactions are ensured through ex-post-facto checking of their nature, etc. by the internal audit department and through audits by the Board of Corporate Auditors (members).

【Supplementary Principle 2.4.1 Ensuring Diversity】

Nitto strives to empower women by appointing more female employees to managerial positions by including "corporate culture that satisfies diverse employees" in its material issues (materiality) for sustainability. Meanwhile, at this point, we do not set or disclose performance targets for the appointment of foreign and/or mid-career employees to managerial positions as we do not perceive a significant difference in appointing our employees to managerial positions on account of their nationality or timing of hiring. Please refer to the Company's website and Integrated Report regarding our performance targets and progress for the appointment of women to managerial positions.

Remaining committed to developing a "Nitto Person" who comprehends and carries out the Nitto Way, Nitto is developing a group-wide foundation for human resource management to empower human resources across the globe. Please refer to the Company's website and Integrated Report for the latest on our concrete evaluation systems and human resource development programs.

【Principle 2.6 Roles of Corporate Pension Funds as Asset Owners】

In order for Nitto to perform a function as an asset owner with its enhanced investment expertise, it appoints a CFO, a manager in charge of finance, and a manager in charge of human resources as the pension management director, and in addition, appoints human resources with experience in fund management as an executive director, and supplements professional capacity and knowledge by employing an external advisor, thereby properly operating and managing Nitto's corporate pension.

【Principle 3.1 Full Disclosure】

(i) Corporate Philosophy and Management Plan

Please refer to the Company's website at <https://www.nitto.com/jp/en/ir/>

(ii) Basic Views on Corporate Governance

Please refer to "1. Basic Views" of this Report.

(iii) Policy related to remuneration of Directors and Corporate Auditors

Please refer to the Company's website at <https://www.nitto.com/jp/en/ir/>

(iv) (v) Nomination Policy and Procedures, and Reasons for Individual Nomination of Candidates for Directors and Corporate Auditors

(Appropriate Structure of the Board of Directors and Board of Corporate Auditors)

Given the current scale of business, the need to facilitate substantial discussions at Board of Directors meetings and Board of Corporate Auditors meetings and to ensure an appropriate number of Outside Directors, etc., we believe that the appropriate size of the Board of Directors is not more than ten Directors (one third or more of whom are independent directors). Likewise, the Articles of Incorporation set an upper limit of ten. We also believe that the appropriate size of the Board of Corporate Auditors is not more than five members (half or more of whom are independent auditors), who are individuals having appropriate experience and ability as well as necessary knowledge in finance, accounting, and legal affairs, with at least one (1) Corporate Auditor who has sufficient expertise in finance and accounting. Furthermore, in order to make important policy decisions in an ever-changing business environment and to exercise a sustained supervisory function, we have identified five qualities, knowledge, experience, etc. (hereinafter collectively referred to as "skills") in "leadership," "technology," "finance," "governance," and "sustainability" for the Board of Directors and Board of Corporate Auditors and believe that a composition that ensures a good balance of such skills will contribute to management.

(Appointment and Dismissal of Directors and Corporate Auditors)

The Officer Appointment Standards and the Officer Dismissal Standards have been established as described below and are applied when appointing or dismissing a Director or Corporate Auditor. In addition, in order to further enhance fairness and transparency in appointment and dismissal of Directors, the Management, Nomination and Remuneration Advisory Committee meets and reports the results of its deliberations to the Board of Directors, and the Board of Directors makes the final decision by taking such report into account.

<Officer Appointment Standards>

1. A person who practices the Nitto Way*
2. A person who can contribute to the Company with the five skills identified by the Company.

*Our values, attitudes and mindset, and code of conduct are based on placing safety before everything else, amazing and inspiring our customers, anticipating and leveraging change, taking on challenges for new value creation, acting promptly and following through on decisions with determination, transforming ourselves con-

stantly, and having an attitude of integrity, and understanding and respecting diversity.

<Officer Dismissal Standards>

1. An act was committed that was contrary to public order and morality;
2. A violation of the laws and ordinances, the Articles of Incorporation, or any other regulations of the Group was committed, and Nitto suffered a substantial loss or hindrance to Group business operations due to such violation;
3. A material inconvenience was caused to the execution of the duties of an Officer; or
4. Any of the quality requirements set forth in the Officer Appointment Standards is no longer satisfied.

(Nomination of Outside Directors and Outside Corporate Auditors)

When nominating Outside Director and Outside Corporate Auditor candidates, individuals who are considered appropriate for such positions must meet the Independent Officer Appointment Standards and the Officer Appointment Standards. Furthermore, in order for Outside Directors and Corporate Auditors to set aside the time and labor necessary to properly fulfill their roles and responsibilities at Nitto, due attention is paid to the statuses of concurrent positions (officers, etc.) that they might hold at other companies to ensure that such statuses are appropriate.

<Criteria for Independent Outside Directors and Outside Corporate Auditors>

The Company, in an effort to ensure the objectivity and transparency of governance, has set forth the criteria for the independence of Outside Directors and Outside Corporate Auditors (hereinafter collectively referred to as "Outside Officer(s)"), as follows.

7. A person who has kinship status (being a relative within the third degree of kinship or a relative living together) with an executing person of the Group;

9. In addition to the above, a person who has an interest that is reasonably considered to give rise to doubts about his or her independence as an Independent Outside Director or Independent Outside Corporate Auditor, or to give rise to a conflict of interest with shareholders of the Company.

1. The director (candidate) in question concurrently holds a position as Director, etc. at listed companies or equivalent public companies;

【Supplementary Principle 4.1.1 Brief Summary of the Scope and Nature of Matters Delegated to the Board of Directors】

At Nitto, decisions are made at different levels: the Board of Directors serves as an organization for making management decisions and conducting oversight; the Corporate Strategy Committee undertakes business affairs based on decisions made by the Board of Directors; each business division (including corporate departments) has its own meeting structure(s); and heads of each department make decisions (see Nitto's website(<https://www.nitto.com/jp/ja/ir/>) for information on the Corporate Governance System).

The scope and content of decisions to be made at each level are regulated through the Group's decision-making regulations and standards that are specifically segmented based on the nature of such decisions, amounts to be approved, and other factors. Management decision-making at the Board of Directors meetings and execution of operations are thus separated from each other, and the effectiveness of discussions at the Board of Directors meetings is ensured.

【Supplementary Principle 4.1.3 CEO's Successor Plan】

Pursuant to the succession plan for the president (Chief Executive Officer), the Board of Directors appropriately exercises supervision to ensure that an individual with the necessary knowledge, experience, and ability to be a candidate for the successor is fostered systematically, with sufficient time and resources devoted thereto.

Nitto’s internal officers are obliged to constantly gather information and train themselves proactively in order to fulfill their roles.

【Supplementary Principle 5.1 Policies Related to Constructive Dialogue with Shareholders】

In order to achieve sustainable growth and increase our medium- and long-term corporate value, we provide clear explanations of our business to our shareholders and promote constructive dialogue with them in order

to gain their understanding. To this end, we have established the following policies.

1. We at Nitto position IR activities as one of our key business issues, and senior management members personally promote dialogue with shareholders, with the CEO in charge and the CFO serving as a competent director.
2. In order to ensure the effectiveness of dialogue, a dedicated IR department has been established, and a cross-sectional structure for sharing and disclosure of IR information has been constructed through positive cooperation with the Legal, Corporate Planning, Corporate Accounting & Finance, General Affairs, Public Relations, Management of Group Companies, CSR, and other departments. In addition, an information-handling officer has been appointed to strive to ensure disclosure of information in a timely and appropriate manner.
3. As measures to promote opportunities for dialogue aside from individual meetings, information meetings are held every quarter, with the CEO or CFO providing explanations. Additionally, overseas IR roadshows in the United States, Europe, and Asia are conducted at least once a year.
4. Information on views and business issues uncovered through dialogue with shareholders are periodically relayed to senior management and relevant departments to communicate, share, and feed the same back to management.
5. In order to control insider information, the “Nitto Group Regulations to Prevent Insider Dealings” have been established to ensure infallible information control. Meetings with shareholders and investors to be interviewed are limited during the “quiet periods” immediately prior to the announcement of financial results.

Supplementary Explanation

The basic views of the Company on acquisition of substantial shares of the Company are as follows:

In case acquisition aimed at substantial shareholdings is to be made, the Company is of the opinion that the decision on whether or not to accept the acquisition should ultimately be left to the judgement of its shareholders. On the other hand, however, the Company cannot deny the existence of corporate takeovers with unjust objectives such as sell-offs at high prices, and realizes that it is obviously the responsibility of the management of the Company to secure the basic principles and the brand of the Company and protect the interests of our shareholders and other stakeholders from such unjust parties.

At present, neither is the Company placed under any specific threat for acquisition of substantial shareholdings nor does the Company intend to define explicit defense measures against the advent of such a buyer (so-called takeover defense measures). Yet the Company, having assumed the management responsibility entrusted from its shareholders, is committed at all times to keep close watch over its stock transactions and shareholder movements, and will immediately take measures deemed most appropriate should there be any sign of a party with the intention to acquire substantial shares of Nitto Denko stocks.

The Nitto Group discloses information timely in accordance with the following procedures:

(1) Information collection

Based on the various regulations stated above, the Group has set judgement criteria exceeding the disclosure standards requested under the timely disclosure rules for information on decisions, occurrences, and financial results of the Group. 3. Disclosed below is the explanation for non-compliance with Supplementary Principle 4.10.1 of Japan's Corporate Governance Code.

Nitto established the Management, Nomination, and Remuneration Advisory Committee as an advisory organization to the representative director. For details, please see "Voluntary Establishment of Committee(s) Equivalent to Nomination Committee or Remuneration Committee" of the Corporate Governance Report.

Please note that Nitto does not necessarily believe that only independent directors can provide useful advice on management, nomination, and remuneration but rather believes that inviting opinions from a broad range of independent third parties contributes to the enhancement of corporate governance. As such, said Committee consists of independent individuals who are deemed to be appropriate at the time, such as outside corporate auditors and external experts. This being the case, independent directors may not always compose a majority of said Committee, though we believe that its independence is secured as full-time executives other than the representative director are not eligible to be a member of said Committee.

4. Disclosed below is the explanation for non-compliance with Supplementary Principle 5.1.1 of Japan's Corporate Governance Code.

Please refer to Principle 5.1 Policy for Constructive Dialogue with Shareholders for Nitto's policy for dialogue with shareholders.

We will continue discussing how we can realize management meetings with outside directors and corporate auditors, as there remain issues with the current systems' structure to ensure fairness of opportunities, prevent information leaks, etc.

[Appendix 3]

Policies and Procedures for Electing and Dismissing Directors and Corporate Auditors
(Principle 3.1, iv, Supplementary Principle 4.11.1)

[Appropriate structure of the Board of Directors and Board of Corporate Auditors]

Given the current scale of business, the need to facilitate substantial discussions at Board of Directors meetings and Board of Corporate Auditors meetings and to ensure an appropriate number of Outside Directors, etc., we believe that the appropriate size of the Board of Directors is not more than ten Directors (one third or more of whom are independent directors). Likewise, the Articles of Incorporation set an upper limit of ten. We also believe that the appropriate size of the Board of Corporate Auditors is not more than five members (half or more of whom are independent auditors), who are individuals having appropriate experience and ability as well as necessary knowledge in finance, accounting, and legal affairs, with at least one (1) Corporate Auditor who has sufficient expertise in finance and accounting. Likewise, the Articles of Incorporation set an upper limit of five. Furthermore, in order to make important policy decisions in an ever-changing business environment and to exercise a sustained supervisory function, we have identified five qualities, knowledge, experience, etc. (hereinafter collectively referred to as "skills") in "leadership," "technology," "finance," "governance," and "sustainability" for the Board of Directors and Board of Corporate Auditors and believe that a composition that ensures a good balance of such skills will contribute to management.

[Appointment and Dismissal of Directors and Corporate Auditors]

The Officer Appointment Standards and the Officer Dismissal Standards have been established as described below and are applied when appointing or dismissing a Director or Corporate Auditor. In addition, in order to further enhance fairness and transparency in appointment and dismissal of Directors, the Management, Nomination and Remuneration Advisory Committee meets and reports the results of its deliberations to the Board of Directors, and the Board of Directors makes the final decision by taking such report into account.

<Officer Appointment Standards>

1. A person who practices the Nitto Way*
2. A person who can contribute to the Company with the five skills identified by the Company.

*Our values, attitudes and mindset, and code of conduct are based on placing safety before everything else, amazing and inspiring our customers, anticipating and leveraging change, taking on challenges for new value creation, acting promptly and following through on decisions with determination, transforming ourselves constantly, and having an attitude of integrity, and understanding and respecting diversity.

Five skills identified by the Company

Skill	Reason for selection
Leadership	For a company to keep growing in a dramatically changing business environment, it needs to make bold business decisions. For this reason, we have chosen leadership qualities and experience in a global organization, such as being part of a management team or a person responsible for a large project at a listed company, or a manager of a venture company, or having a key role in a government, as a skill we seek in our Board members.
Technology	To achieve Nitto's mission, "Contribute to customers' value creation with innovative ideas," we need to keep investing in innovation. For this reason, we have chosen in-depth knowledge in science and technology not only in relation to our existing businesses but also in relation to IT, DX, quality, the environment, safety technologies, and new areas as a skill we seek in our Board members.
Finance	To manage a company, we need scientific investment measures based on financial indicators. For this reason, we have chosen knowledge in finance and accounting as a skill we seek in our Board members.
Governance	The statement, "We place safety before everything else," which is one of the principles of "The Nitto Way," also encompasses "safety in business management." For this reason, we have chosen insights into and board experience in areas such as legal matters, risk management, and labor as a skill we seek in our Board members.

Sustainability	For a company to keep growing, it needs to help build a sustainable society in addition to achieving its own growth. For this reason, we have chosen a background in areas, such as diversity, environmental contribution, and brand value, as a skill we seek in our Board members.

[Nomination of Outside Directors and Outside Corporate Auditors]

Furthermore, in order for Outside Directors and Corporate Auditors to set aside the time and labor necessary to properly fulfill their roles and responsibilities at Nitto, due attention is paid to the statuses of concurrent positions (officers, etc.) that they might hold at other companies to ensure that such statuses are appropriate.

<Criteria for Independent Outside Directors and Outside Corporate Auditors>

The Company, in an effort to ensure the objectivity and transparency of governance, has set forth the criteria for the independence of Outside Directors and Outside Corporate Auditors (hereinafter collectively referred to as "Outside Officer(s)"), as follows.

[Appendix 4]

Brief Summary of the Scope and Nature of Matters Delegated to the Board of Directors
(Supplementary Principle 4.1.1)

At Nitto, decisions are made at different levels: the Board of Directors serves as an organization for making management decisions and conducting oversight; the Corporate Strategy Committee undertakes business affairs based on decisions made by the Board of Directors; each business division (including corporate departments) has its own meeting structure(s); and heads of each department make decisions (see Nitto's website for information on the Corporate Governance System).

The scope and content of decisions to be made at each level are regulated through the Group's decision-making regulations and standards that are specifically segmented based on the nature of such decisions, amounts to be approved, and other factors. Management decision-making at the Board of Directors meetings and execution of operations are thus separated from each other, and the effectiveness of discussions at the Board of Directors meetings is ensured.

[Appendix 5]

Related Party Transactions (Principle 1.7)

At Nitto, related party transactions conducted by our Directors or major shareholders and other parties are resolved at Board of Directors meetings or entrusted to Outside Directors as appropriate in order to verify the rationality (business necessity) of such transactions and the validity of their terms and conditions.

Whether or not any items to be presented at Board of Directors meetings and other important meetings fall under the definition of related party transactions is examined by the Secretariat beforehand in conjunction with the legal department.

The soundness and appropriateness of such transactions are ensured through ex-post-facto checking of their nature, etc. by the internal audit department and through audits by the Board of Corporate Auditors (members).

[Appendix 6]

Training for Directors and Corporate Auditors (Supplementary Principle 4.14.2)

When nominating Directors and Corporate Auditors, Nitto makes it a policy to nominate candidates appropriate for such positions who, in light of the Officer Appointment Standards, can fulfill the duties and responsibilities of Directors and Corporate Auditors.

Additionally, Nitto periodically provides training on practicing the Corporate Philosophy, compliance, and corporate responsibilities that should be assumed by the Officers, which are attended not only by employees, but also by all of the officers, who thereby set an example for others to follow. Nitto's internal officers are obliged to constantly gather information and train themselves proactively in order to fulfill their roles.

Newly appointed outside officers undertake training on Nitto's business lines, financial position, and other topics immediately after taking office.

[Appendix 7]

Policy related to remuneration of Directors (Principle 3.1, (iii))

1. Basic policy related to remuneration of Directors

- The content of remuneration shall be such that Nitto Persons* are allowed to be appointed as a Director.
- The remuneration structure shall be such that Directors are motivated to contribute to Nitto's sustainable growth and the enhancement of its corporate value over the mid- and long-term.
- The remuneration determination process shall be fair and transparent.

* In addition to the basic requirement of having profound insights and high levels of expertise acquired from past experience, Nitto Persons should comprehend and live up to our Corporate Philosophy, deliver results, and continue to take on new challenges.

2. Components of remuneration

Directors (excluding Outside Directors) shall be remunerated as follows.

Type	Category	Policy related to the content of remuneration, methods of calculating the amount/number, and the timing of payment
Fixed compensation	Compensation in cash	Monthly compensation as determined by position, responsibility, and length of service is paid in cash.
Short-term performance-linked compensation	Bonus for Directors in cash	Compensation in cash is paid after the relevant business term is over to raise awareness about the Group's performance improvement for each business term. The number of shares to be granted to each Director is determined based on consolidated operating income, consolidated ROE, and ESG-related items (CO2 emissions reduction, status of efforts to increase the proportion of female employees in management positions, etc.)* when three years have passed since the commencement of their performance evaluation period. Targets should be set high, and no compensation is paid if the targets are not met. The number of shares to be granted ranges between 50% and 150% according to the progress against the targets.
Mid-term performance-linked compensation	Performance-linked share-based remuneration	This additional compensation is designed to incentivize Directors to improve business performance over the mid-term and share-based remuneration is granted once every three consecutive business terms.

		The number of shares to be granted to each Director is determined by consolidated operating income and consolidated ROE* when three years have passed since the commencement of their performance evaluation. Targets should be set high and no compensation is paid if the targets are not met. The number of shares to be granted ranges between 80% and 150% according to the progress of achievement of the targets.
Mid- and long-term performance-linked compensation	Restricted share remuneration	Share remuneration is granted for each business term to align the interests of Directors and shareholders and reflect mid- and long-term business performance in their compensation. The number of shares to be granted to each Director is determined by position, responsibility, and length of service. The amount of remuneration is linked to the market price by setting restrictions on transfer until retirement.

* Consolidated operating income is chosen as an indicator for their commitment to delivering results, whereas consolidated ROE serves as an indicator for measuring business stability and. ESG-related items serve as a measure of sustainable corporate value improvement. In light of their roles and independence, Outside Directors are remunerated by fixed compensation only.

3. Policy related to designing of the compensation level

In order to ensure that compensation for Nitto's officers, etc. is at a competitive level vis-à-vis industry standards, their compensation level is set by benchmarking a group of major companies of a similar scale in the same industry as Nitto.

4. Policy related to the component ratio of remuneration

For the purpose of standard evaluation, the target component ratio of remuneration is: Compensation in cash : Bonus for Directors : Restricted share remuneration = 40% : 40% : 20%. Performance-linked share-based remuneration is provided as additional remuneration when mid-term targets have been achieved, but not provided based on standard evaluation.

5. Policy related to the decision process

The policy related to the standard amount, calculation method, component ratio among different types of compensations, timing or conditions of payment, etc. for the remuneration of each Director shall be decided by the Board of Directors after comprehensively taking into account such factors as Nitto's business lines, management environment, the levels

of remuneration to officers at major companies of a similar scale in the same industry as Nitto and upon receiving a report on the results of deliberations by the Management, Nomination and Remuneration Advisory Committee.

Decisions on concrete details of compensation in cash for each term of office and allocation of bonuses for officers to each Director shall be entrusted to the President (who is also a Board Member) pursuant to a resolution of the Board of Directors. Because the President is in a position to evaluate if targets for Directors other than Outside Directors have been met, it is deemed rational for him/her to make a decision on the allocation. Compensation in cash shall be determined according to the position, responsibility, and length of service, whereas bonuses for officers shall be determined by taking into account the progress of achievement of targets set for areas of responsibilities of each Director in accordance with the predetermined standard amount and calculation method above, in order to prevent arbitrary decisions from being made. For performance-linked share-based remuneration and restricted share remuneration, the Board of Directors shall determine the number of shares to be granted to each Director using a predetermined formula. (However, the payment rate based on the evaluation of ESG-related items in the formula for performance-linked share-based remuneration shall be resolved by the Board of Directors in the range of 0% to 30%, after hearing the opinions of the Management, Nomination and Remuneration Advisory Committee.)

[Appendix 8]

3. Policy related to designing of the compensation level

In order to ensure that compensation for Nitto's officers, etc. is at a competitive level vis-à-vis industry standards, their compensation level is set by benchmarking a group of major companies of a similar scale in the same industry as Nitto.

4. Policy related to the decision process

Remuneration of individual Corporate Auditors is determined through consultation among themselves.

[Appendix 9]

Policies Related to Constructive Dialogue with Shareholders (Principle 5.1)

In order to achieve sustainable growth and increase our medium- and long-term corporate value, we provide clear explanations of our business to our shareholders and promote constructive dialogue with them in order to gain their understanding. To this end, we have established the following policies.

1. We at Nitto position IR activities as one of our key business issues, and senior management members personally promote dialogue with shareholders, with the CEO in charge and the CFO serving as a competent director.
2. In order to ensure the effectiveness of dialogue, a dedicated IR department has been established, and a cross-sectional structure for sharing and disclosure of IR information has been constructed through positive cooperation with the Legal, Corporate Planning, Corporate Accounting & Finance, General Affairs, Public Relations, Management of Group Companies, CSR, and other departments. In addition, an information-handling officer has been appointed to strive to ensure disclosure of information in a timely and appropriate manner.
3. As measures to promote opportunities for dialogue aside from individual meetings, information meetings are held every quarter, with the CEO or CFO providing explanations. Additionally, overseas IR roadshows in the United States, Europe, and Asia are conducted at least once a year.
4. Information on views and business issues uncovered through dialogue with shareholders are periodically relayed to senior management and relevant departments to communicate, share, and feed the same back to management.
5. In order to control insider information, the “Nitto Denko Group Regulations to Prevent Insider Dealings” have been established to ensure infallible information control. Meetings with shareholders and investors to be interviewed are limited during the “quiet periods” immediately prior to the announcement of financial results.

Findings on the Nitto Board Effectiveness Evaluation

Please find below an executive summary of the findings of the FY2021 effectiveness analysis/evaluation of the Board of Directors of Nitto Denko Corporation (hereinafter, “Nitto”). The analysis/evaluation was conducted based on Japan’s Corporate Governance Code stipulated by Tokyo Stock Exchange, Inc.

1. Analysis/evaluation method

As was in the last year, Nitto’s Board of Directors analyzed and evaluated the effectiveness of the Board based on the results of a survey conducted by a third-party organization, which were discussed at the Board.

2. Categories of the survey questions

- Board composition	3 questions
- Operation of the Board	8 questions
- Risk management	3 questions
- Discussions at the Board of Directors meetings	9 questions
- Monitoring function of the Board	3 questions
- Training for Directors and Corporate Auditors	2 questions
- Dialogues with shareholders	2 questions
- Efforts by individual Directors and Corporate Auditors	7 questions
- Overview	3 questions

Total of 40 questions

3. Overview of the analysis/evaluation results

1) Conclusion

It has been concluded that the effectiveness of Nitto’s Board of Directors is ensured.

2) Analysis and evaluation

All the Directors and Corporate Auditors responded to the Board effectiveness survey that used a five-point scale for each question. The respondents chose “Appropriate” or “Largely appropriate” for many of the questions (93% of the entire survey). In particular, as in the last year, the survey confirmed that open discussions took place at the Board of Directors meetings among the Board members including Outside Directors and Outside Corporate Auditors and that the agenda items and deliberation times were generally appropriate.

With respect to the creation of a Group-wide internal control system and the supervision of its operational status, which had been recognized as a challenge in the last year, the Basic Policy on

Internal Control has been revised and a structure has been put in place, which enables special function departments and regional headquarters to collaborate with each other to compile risk information and the Board and the Corporate Strategy Meeting to receive regular reports. In addition, robust discussions also took place on human resource development, resulting in the establishment of a new Basic Policy on Human Resource Management.

As its challenges in the current fiscal year, the Board recognizes that it needs to have more in-depth discussions on human resource strategy and take actions on the skill matrix. In addition, opinions were expressed on the promotion of ESG management as in the last year.

4. Future action

With the above analysis/evaluation findings in mind, Nitto's Board of Directors will remain committed to further enhancing the effectiveness of the entire Board.
