#### Year-end dividends

The Company gives top priority to the issue of increasing corporate value through business growth and expansion and regards the return of profits to shareholders as a key management issue. In appropriating profits, we give consideration to all aspects including returns on shareholder investment and the securing of internal reserves for our future growth and expansion. Aiming to improve earnings, we allot internal reserves for not only loans and investments to further accelerate the growth and expansion of our businesses and more quickly realize the business portfolios that we should pursue but also research and development to create new innovative technologies.

In addition, on October 1, 2022, the Company will celebrate its 25th anniversary.
