## [Summary]

In the month under review, despite the impact of a delay in delivery of some products caused by the Shanghai lockdown, store net sales at like-for-like stores were $190.1 \%$ and those of all stores were $174.4 \%$, respectively, compared with the same month of the previous year. These performances were due to a significant increase in the number of customers visiting stores as a result of the lifting of COVID-19 movement restrictions.

In reaction to this, however, e-commerce net sales at like-for-like stores were 94.9\% and those of all stores were $96.6 \%$, respectively, compared with the same month of the previous year, as the number of customers visiting the online store was slow. Consequently, net sales at like-for-like stores (total) were 139.3\% and those of all stores (total) were 135.2\%, respectively, compared with the same month of the previous year.

In the apparel business segment, continuing from the previous month, sales of early summer clothing such as blouses, shirts and pants grew steadily due to a rise in temperature in the second half of the month, while sales of business suits trended favorably thanks to a recovery in demand for business dresses.

In the lifestyle business segment, strong bridal demand led to healthy sales at Yamato, which conducts the gift catalogue business, while Creative Yoko, which is engaged in the pet \& home life business, and Chacott, which develops the wellness business, experienced sales expansion, respectively.
