Proposal 4: Payment of Bonuses to Directors

The Company proposes to pay a total of 57 million yen as bonuses to eight (8) Directors (excluding Outside Directors) as of the end of the fiscal year under review, taking into account factors including past payments and the business performance of the fiscal year under review.

As described on page 15 of the Japanese original of this Notice, the Company's Board of Directors has defined a basic policy regarding details of compensation, etc. for individual Directors. This proposal has been deemed to be appropriate as it is necessary and reasonable to grant individual compensation, etc. to each Director in accordance with such policy, and the Company leaves the decision on the amount to be paid to each Director to the Board of Directors. In addition, the amount of compensation for Directors will exclude the employee's salary for Directors who concurrently serve as employees, as has been the case to date.

Proposal 5: Revision of Ceilings for the Amount of Compensation and the Number of Shares to be Awarded for the Allotment of Transfer-restricted Shares to Directors (Excluding Outside Directors)

With regard to the compensation scheme for the allotment of transfer-restricted shares to the Company's Directors (excluding Outside Directors; hereinafter, the "Eligible Director(s)") (hereinafter, the "Scheme"), it has been determined by resolution of the 97th Annual General Meeting of Shareholders held on June 24, 2020, that the amount of compensation for the allotment of transfer-restricted shares should be 30 million yen or less per annum, and the total number of common shares the Company issues to or disposes of for Eligible Directors under the Scheme should be 30,000 shares or less per annum.

As for the "30,000 shares or less per annum to be issued to or disposed of," it is the result of a one-to-three stock split of the Company's common shares executed on February 1, 2022; the total number of common shares the Company issues to or disposes of for Eligible Directors under the Scheme had been determined to be "10,000 shares or less per annum" by resolution of the 97th Annual General Meeting of Shareholders held on June 24, 2020, and adjusted to "30,000 shares or less per annum" according to the split ratio of the said stock split.

The Company proposes that the amount of compensation for the allotment of transfer-restricted shares be revised to 50 million yen or less per annum, taking into account the Company's performance, the Company's share price, external environment and various other conditions, and in order to motivate the Directors to play more part in raising the Company's corporate value by increasing the proportion of stock compensation within Directors' remuneration and thereby letting them share value with our shareholders on an increased level. We also propose that, along with revision of the ceiling amount of compensation for the allotment of transfer-restricted shares, the total number of common shares the Company issues to or disposes of for Eligible Directors under the Scheme be revised to 50,000 shares or less per annum.

We also propose that the amount of Directors' remuneration shall exclude the employee salary portion paid to Directors who concurrently serve as employees, as has been the case to date.

This proposal seeks the approval to revise the amount of compensation for the allotment of transfer-restricted shares, in addition to the amount of director remuneration for which approval is sought by "Proposal 6: Revision of the Amount of Director Remuneration" (220 million yen or less per annum, of which 30 million yen or less per annum is for Outside Directors, excluding the employee salary portion paid to Directors who concurrently serve as employees).

The number of Eligible Directors is currently eight (8). If Proposal 3 is approved by resolution as originally proposed, the number of Eligible Directors will be six (6).

As mentioned on page 15 of the Japanese original of this Notice, the Company's Board of Directors has defined a policy for deciding the compensation, etc., for individual Directors, which is deemed to remain appropriate as the policy for deciding compensation even after the approval of this proposal. Therefore, the Company does not plan to change the said policy when this proposal is approved. This proposal is assessed to be appropriate on the ground that its content is reasonable and necessary for awarding compensation, etc. for individual directors in line with the said policy.

The content of the Scheme, which is summarized below, has not been changed since it was approved at the 97th Annual General Meeting of Shareholders held on June 24, 2020, apart from the total amount of monetary compensation claim to be provided to Eligible Directors and the total number of shares to be awarded. Specific timing and distribution of provision of compensation to Eligible Directors under the Scheme shall be decided at a meeting of the Board of Directors after deliberation by the Nomination and Compensation Advisory Committee.

<Outline of the Scheme>

Each business year in principle, Eligible Directors shall pay in as property contributed in kind to the Company all the monetary compensation claim provided to them based on the resolution of the Company's Board of Directors, and receive the Company's common shares issued to or disposed of for them. The total number of common shares the Company issues to or disposes of for Eligible Directors under the Scheme shall be 50,000 shares or less per annum. However, in the event of a stock split (including allotment of the Company's common shares without contribution) or a reverse stock split of the Company's common shares that takes effect on or after the resolution date of this Annual General meeting of Shareholders, adjustments within a reasonable range may be made as needed on or after the said effective date.

The paid-in amount per common share to be issued to or disposed of for Eligible Directors under the Scheme shall be determined by the Board of Directors based on the closing price of the Company's common shares on the Tokyo Stock Exchange on the business day immediately preceding the date of the resolution of the Board of Directors pertaining to the decision of Subscription Requirements for the said common shares (or the closing price on the most recent trading day prior to that day if no transactions were concluded on that day) and at a price within the range that is not notably favorable to the Eligible Directors.

In issuing or disposing of common shares under the above circumstances, the Company shall enter into an agreement with each Eligible Director on the allotment of transfer-restricted shares (hereinafter, the "Allotment Agreement") that includes the points stated below (The common shares allotted under the Allotment Agreement shall be hereinafter referred to as the "Allotted Shares.").

1. Transfer-restriction period

Eligible Directors shall not transfer, pledge as security, transfer inter vivos, or otherwise dispose of the Allotted Shares during the period commencing on the pay-in date of Allotted Shares and terminating on the date of their retirement from office due to reasons such as expiry of term (hereinafter, the "Restricted Period").

2. Conditions for removal of restrictions

Upon expiry of the Restricted Period, transfer restrictions on all of the Allotted Shares of an Eligible Director shall be removed, provided the said Eligible Director has remained continuously in the position of Director of the Company, or other positions designated by the Company's Board of Directors, during the period commencing on the pay-in date of Allotted Shares and terminating at the conclusion of the first Annual General Meeting of Shareholders of the Company that came around thereafter. However, in the event that an Eligible Director retired from office with good reason, or retired from office due to death, during the period commencing on the pay-in date of Allotted Shares and terminating at the conclusion of the first Annual General Meeting of Shareholders of the Company that came around thereafter, the number of Allotted Shares for which restrictions are to be removed and the timing of the removal of restrictions shall be reasonably adjusted as needed.

3. Reasons for acquisition without consideration

In the event that an Eligible Director retired from office without good reason during the Restricted Period, the Company shall rightfully acquire the Allotted Shares without consideration. If there are still Allotted Shares from which restrictions have not been removed as of the time of the removal of restrictions provided for in item 2. above, the Company shall rightfully acquire such Allotted Shares without consideration.

4. Treatment in case of corporate reorganization, etc.

Notwithstanding the provisions of item 1. above, if, during the Restricted Period, matters pertaining to a merger agreement under which the Company will become a disappearing company, a

stock exchange agreement or a stock transfer plan under which the Company will become a wholly owned subsidiary, or other corporate reorganization arrangements are approved by a General Meeting of Shareholders of the Company (or the Board of Directors of the Company, in case where such corporate reorganization arrangement does not require approval of the General Meeting of Shareholders of the Company), the number of Allotted Shares from which restrictions are to be removed and the timing of the removal of restrictions shall be reasonably adjusted as needed by the resolution of the Board of Directors of the Company. In such case, if there remain Allotted Shares from which restrictions have not been removed as of the time immediately following the removal of restrictions, the Company shall rightfully acquire such Allotted Shares without consideration.

5. Other matters

Any other matters pertaining to the Allotment Agreement shall be decided by the Company's Board of Directors.

During the Restricted Period, the shares allotted to Eligible Directors under the Scheme will be kept in accounts opened by Eligible Directors at a securities company designated by the Company specifically for this purpose so as to preclude any transfer, pledging as security, transfer inter vivos, or any other form of disposal of such shares during the Restricted Period.

Proposal 6: Revision of the Amount of Director Remuneration

The amount of remuneration of the Company's Directors was determined by resolution of the 94th Annual General Meeting of Shareholders held on June 27, 2017, to be 240 million yen or less per annum (of which 30 million yen or less per annum is for Outside Directors) and has remained so to date.

The Company proposes that the amount of Directors' remuneration be revised to 220 million yen or less per annum (of which 30 million yen or less per annum is for Outside Directors), taking into account the Company's performance, the Company's corporate value, external environment and various other conditions, and in order to motivate the Directors to play more part in raising the Company's share price by increasing the proportion of stock compensation within Directors' remuneration and thereby letting them share value with our shareholders on an increased level.

We also propose that the amount of Directors' remuneration shall exclude the employee salary portion paid to Directors who concurrently serve as employees, as has been the case to date.

This proposal seeks the approval to revise the amount of director remuneration, in addition to the amount of remuneration for which approval is sought by "Proposal 5: Revision of Ceilings for the Amount of Compensation and the Number of Shares to be Awarded for the Allotment of Transfer-restricted Shares to Directors (Excluding Outside Directors)" (50 million yen or less per annum, excluding the employee salary portion paid to Directors who concurrently serve as employees).

The number of Directors of the Company is currently ten (10) (of which two (2) are Outside Directors). If Proposal 3 is approved by resolution as originally proposed, the number of Directors will be nine (9) (of which three (3) are Outside Directors).

As mentioned on page 15 of the Japanese original of this Notice, the Company's Board of Directors has defined a policy for deciding the compensation, etc., for individual Directors, which is deemed to remain appropriate as the policy for deciding compensation even after the approval of this proposal. Therefore, the Company does not plan to change the said policy when this proposal is approved. This proposal is assessed to be appropriate on the ground that its content is reasonable and necessary for awarding compensation, etc. for individual directors in line with the said policy.
