**[Monthly comment]**

In May, net sales totaled 105.7% for existing stores compared with the previous year and 119.1% for all stores.

Due to factors including recovery in the number of people going out during the Golden Week holiday, favorable sales of summer apparel with the rise in temperature and continued stable sales of home appliances, household items and hobby-related items, sales of both existing stores and all stores increased year on year albeit the number of holidays was one day less.

**[Information on opening and closing stores]**
