Overview of Status for Implementing Internal Control Structure (Fiscal 2021)

[Matters Regarding Risk Management]

- The Group defines risks as those factors that will prevent the Group from attaining its organizational goals and targets. The Group has established the "Daiichi Sankyo Group Risk Management Promotion Regulations," and is promoting risk management through such means as taking steps to address risks inherent in corporate activities and rationally controlling the potential impacts should risks actualize. In this manner, we seek to minimize the adverse impacts of risks on people, society, and the Group.
- CFO oversees group-wide risk management as the chief risk management officer, promotes risk management education, and operates the risk management system. The Company takes precautions to prevent the actualization of risks with the potential to significantly impact the management of the Company and to minimize their damage. At meetings of Board of Directors and Executive Management Committee meetings, etc. we identify such risks and regularly monitor and assess the status of them. Moreover, the heads of divisions formulate countermeasures through coordination with the chief risk management officer.
- The Group defines "Crisis Management" as implementations of measures and responses to minimize the impact and damage in the event of a crisis. The Group establishes the system in which we can rapidly and appropriately respond to crises, by assigning the Crisis Management Officer and Initial Crisis Management Officer and defining the reporting routes and rules in advance.
- In the business continuity plan (BCP), which is part of crisis management, measures against specific crises (natural disasters, facility accidents, infectious diseases including new types of influenza, IT system damage) are outlined; additionally, for the purpose to adapt to diversification and intensification of external risk factors and globalization of supply chains, the "Daiichi Sankyo Group BCP Policy" and "BCP Regulations" have been established to identify priority risk items in supply chains and to design both measures to prevent actualization and countermeasures for early recovery in cases when such risks materialize.

[Matters Regarding Compliance]

- The Group has defined the "Daiichi Sankyo Group Corporate Conduct Charter" and the "Daiichi Sankyo Group Employee Code of Conduct" as global principle and code of conduct for all executives and employees of the Group. The progress of promoting compliance is annually reported to Representative Directors and the Corporate Ethics Committee (including an outside specialist; the same shall apply hereafter) and, if there is an issue, a system is in place to make a proposal for implementing measures to resolve such issue.
- The Company has set up a whistle-blowing hotline in the Legal Department and the entrusted external specialist

firm that employees of domestic and overseas Group companies and business partners, etc. can use. Overseas Group companies have also set up similar hotlines, and material compliance violations will be reported to the Corporate Ethics Committee, etc.

- Based on the "Daiichi Sankyo Group Management Committee Policy," the Company holds Executive Management Committee meetings as appropriate to deliberate on important matters and make decisions related to the strategy, policy, and execution of group management. In addition, the "approval policy" is established regarding matters to be decided by the CEO and the delegation of authorities on business executions concerning the Group's strategy and policy to each head of organization; and by appropriately implementing this policy, the Company realizes smooth and speedy business operation.
- The Company follows "Daiichi Sankyo Group Global Management Policy" and "Organizational Management Regulations," and other rules; Vice Presidents responsible for the main regions, corporate bodies and functions who receive orders from the CEO, and persons in charge supervise, manage and direct members of their business units, while conveying company-wide policies to them on a regular basis, as well as receiving reports on the management and results from them.

[Matters Regarding Audit by the Internal Audit Department]

- The Company has established the Internal Audit Department as an internal audit department independent from departments engaging in business execution, which comprises a certain number of staff members with special qualifications, including a certified internal auditor, and the Company maintains a system in which effective internal control is ensured by having the Internal Audit Department perform monitoring from a fair and independent position and report on risks and issues to management.
- With the purpose of contributing to the effective achievement of management targets, internal audits are performed to evaluate the business activities of organizations covered in the audits from various perspectives, including the effectiveness and efficiency of business operations and compliance, and the results of audits are reported to CEO, Board of Directors, and other relevant parties.
- Audits of the Company are based on a comprehensive auditing approach and cover the entire organization, including Group companies, and the Internal Audit Department decides where and what to audit based on its risk assessment, risks recognized by management, audit intervals and other factors, and performs audits by organization or audits across the organization by issue.
- The Internal Audit Department receives reports of audit results from Group companies that have an audit organization and identifies risks and issues of the Group.
- The Internal Audit Department continually conducts self-evaluations of audit quality, as well as receiving evaluations of audit quality by an external specialist institution on a regular basis as part of its efforts to enhance the quality of audits.

[Matters Regarding Audit by Audit & Supervisory Board Members]

- Directors and employees of the Company, as well as executives and employees of Group companies, report the status of the execution of operations to Audit & Supervisory Board Members of the Company as necessary. The Company has a system in place, under which when Directors of the Company find facts that could seriously damage the Company, they can immediately report the facts to Audit & Supervisory Board Members of the Company.
- Audit & Supervisory Board Members of the Company hold regular meetings for opinion exchanges with Directors, including the Representative Directors of the Company, while attending important meetings and reviewing important documents. They also coordinate closely with the Internal Audit Department and accounting auditors of the Company, and secure a system under which Audit & Supervisory Board Members can conduct an audit effectively.
- Full-time Audit & Supervisory Board Members of the Company concurrently serve as part-time Audit & Supervisory Board Members of major domestic Group companies, and they attend Board of Directors' Meetings and Executive Management Committee meetings of those companies and check those companies' status of the establishment and implementation of its internal control system.
- To enhance the audit functions of Audit & Supervisory Board Members, full-time staff members, who are independent from the execution of operations, assist with the duties of Audit & Supervisory Board Members.

2. Basic Views on Eliminating Anti-Social Forces

The Group's basic ideas about and systems for eliminating antisocial forces are set in its basic policy on establishing internal control structure as follows.

1. Matters Related to Defense against Takeovers

Adoption of Anti-Takeover Measures	Not Adopted
------------------------------------	-------------

Supplementary Explanation

The Company believes that it is the shareholders to decide whether or not to respond to any moves toward large-scale acquisition of Company share. The Company does not deny the potentially significant impact that transfers of management control may have in terms of stimulating business enterprise. In line with this thinking, the Company has not prepared any specific takeover defenses.

Nonetheless, the Company would consider it a self-evident duty of the Company management to oppose any takeover plans whose aims were generally considered inappropriate (such as schemes to ramp up the share price) or that would otherwise be deemed detrimental to the value of the Company or the mutual interests of shareholders. Accordingly, the Company will continue monitoring closely share transactions and changes in shareholders. In the event any moves toward large-scale acquisition of Company share are noticed, the Company would evaluate any takeover proposal with outside experts and determine carefully the impact of such on the value of the Company and the mutual interests of shareholders. If any proposal were deemed detrimental to such interests, the Company would institute appropriate anti-takeover measures in response to individual cases.

2. Other Matters Concerning to Corporate Governance System

The Company's basic policy concerning disclosure of information related to the Company or group companies is to make disclosures to shareholders and other investors in a timely, appropriate and proactive way based on laws and regulations, the regulations of the stock exchange, and internal company regulations relating to information management and disclosure (Timely Disclosure and Information Management Regulations). Through this policy, the Company strives to earn trust as a company that is highly transparent and open to the society.

1) Financial information

The information for financial statements, etc. (including quarterly financial statements) is referred to Board of Directors by the Finance and Accounting department. Upon resolution by Board of Directors, the Corporate Communications Department works jointly and in consultation with the related departments to compile a disclosure proposal. The disclosure is then made upon approval by the President and CEO.

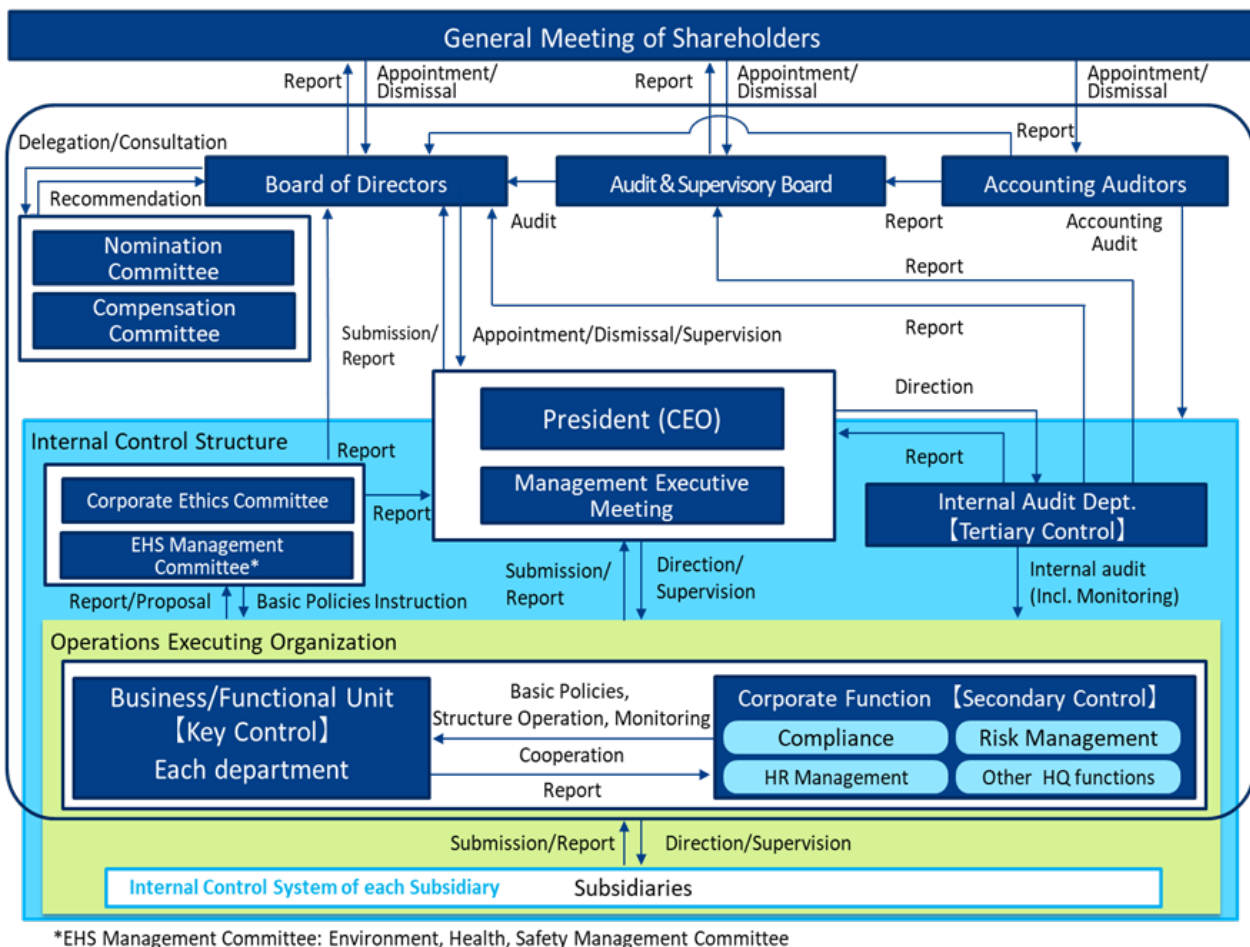

2) Information other than financial information

Information other than financial information includes those relating to matters to be decided that are reported or referred for resolution to Board of Directors from the relevant departments and resolved at a meeting of Board of Directors, and those related to matters occurred that are reported to the President and CEO and Corporate Communications Department from the relevant departments. Based on such resolutions or reports, the Corporate Communications Department works jointly and in consultation with the related departments to compile a disclosure proposal. The total number of the ordinary shares of the Company to be issued or disposed of is 240 thousand shares or less per year (if a share split of the Company's ordinary shares (including a gratis allotment of the Company's ordinary shares) or a share consolidation occurs, or if there is any other reason that requires adjustment of the total number, the Company will adjust the number in a reasonable range as necessary according to the split or consolidation ratio.).

When restricted share-based compensation is paid, monetary compensation receivables will be paid to Directors based on a resolution of Board of Directors of the Company, and Directors will pay all of the paid monetary compensation receivables as in-kind contribution assets of the Company's ordinary shares and will be issued them.

When delivering the Company's ordinary shares, a restricted share allotment agreement will be concluded between the Company and each Director, and Directors shall not freely transfer, set security interests or otherwise dispose of the Company's ordinary shares allotted under the allotment agreement for a certain period of time specified in the allotment agreement.

The number of restricted share-based compensation to be delivered shall be the number of shares of the Company's ordinary shares, which is the amount of restricted share-based compensation for each position divided by the closing price of the market price of the Company's ordinary share on the day before the allotment resolution by Board of Directors.

8. Mid-term performance-based share compensation

Mid-term performance-based share compensation, which is a long-term incentive compensation, will be a trust-type share compensation system that has the nature of performance share (performance-based share compensation) for Directors (excluding Outside Directors) and the Corporate Officers (hereinafter, "the Target Directors & Officers") as compensation based on the achievement of the performance of the 5-year business plan in order to promote management with an emphasis on increasing shareholder value over the mid to long term.

The trust period for the fiscal year covered by the 5-year business plan (hereinafter, the "Target Period," and the initial Target Period is 5-year business plan (fiscal 2021-fiscal 2025)) will be set.

- The number of shares of the Company, etc. to be delivered, etc. to the Target Directors & Officers shall be determined at a certain time every year based on share delivery points calculated by multiplying the number of points accumulated over a Target Period, which are awarded according to their position, by the performance-based coefficient. The performance-based coefficient shall be determined within the range between 0% and 200% according to the degree of achievement of targets of the Company's performance indicators set forth for the final fiscal year of the Target Period (For the initial Target Period, revenue, core operating profit ratio before research and development expenses, ROE, research and development progress, ESG indicators, and relative TSR set forth in Daiichi Sankyo's 5-year business plan announced in fiscal 2021 shall be adopted), and one ordinary share in the Company per point shall be delivered. During the trust

period, if a share split of the Company's ordinary shares (including a gratis allotment of the Company's ordinary shares) or a share consolidation occurs, or if there is any other reason that requires adjustment of the number of points, Daiichi Sankyo will adjust the number of points in a reasonable range as necessary according to the split or consolidation ratio. The total number of ordinary shares, etc. of the Company to be delivered to the Target Directors & Officers during the Target Period will be limited to the number obtained by multiplying the maximum number of 0.5 million shares per fiscal year by the number of fiscal years of the Target Period (the initial Target Period is 2.5 million shares for the five fiscal years). As a general rule, when the Target Directors & Officers receive the Company's shares, etc., after their retirement, 50% of the shares to be delivered will be converted into money and be provided for the purpose of allocating to tax payment funds such as withholding income tax. Shares and monetary payments will be provided through the executive compensation BIP (Board Incentive Plan) trust of Mitsubishi UFJ Trust and Banking Corporation.

With justifiable reason, when it is not possible to establish the trust, amend the trust agreement, make additional contribution to the Trust, or when Target Directors & Officers are non-resident of Japan, or with any other justifiable reason, that delivery of the Company's Shares, etc. to Target Directors & Officers from the trust is not possible, the Company may, within the upper limit of money to be contributed by the Company, make monetary payments of the amount reasonably calculated based on the number of the Company's Shares, etc. that should be delivered in accordance with the plan and share price, etc., to Target Directors & Officers.
