The corporate governance of YAMATO HOLDINGS CO., LTD. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Views

Based on the Yamato Group Corporate Philosophy, the Company and its group companies (the “Group”) has been engaging in business activities in line with laws and social norms, and promoting management in conformity with compliance.

Moreover, positioning the effective use of the Group’s business resources to maximize its corporate value as one of utmost management priorities, the Group has been implementing measures to enhance its management structure as an approach to corporate governance.

[Reasons for Non-compliance with the Principles of the Japan’s Corporate Governance Code]

The Company complies with all principles (including ones for the Prime Market to be applied on and after April 4, 2022) of Japan’s Corporate Governance Code revised in June 2021.

[Disclosure Based on the Principles of the Japan’s Corporate Governance Code] [Updated]

Initiatives of Yamato Holdings for corporate governance have been described in this report as well as the Corporate Governance Guidelines, the Notices of the General Meeting of Shareholders, Japanese securities reports and Integrated Reports prepared by the Company and its website, so please refer to these reports and website.

Details of disclosure items based on the principles of the Japan’s Corporate Governance Code are as follows.

[Principle 1-4 Cross-Shareholdings]

Policy on cross-shareholdings

The Company maintains a policy of owning stocks that are deemed meaningful, based on a comprehensive consideration, from a medium- to long-term perspective, of the relationship with the Group’s businesses, the profitability of the Company, and the possibility of creating business opportunities, among other factors.

A decision is made every year at the Board of Directors Meeting concerning whether to continue holding the stocks, based on quantitative and qualitative consideration regarding primarily the benefits and risks associated with holding the stocks, in light of various factors including the business track record with the Company, and the market price of the shares. If it is decided, as a result of the consideration, that there is little significance of holding stocks, the Company reduces the stocks held.

Exercise of voting rights

The Company maintains a policy of making decisions on supporting or opposing agenda items on a case-by-case basis, and exercises the voting rights, with consideration given to the issuing company raising its corporate value, the issuing company’s compliance framework, and the possibility that the issue will have a negative impact on the Group’s business, among other factors.

[Principle 1-7 Transactions among Related Parties]

The Company has provided that the Board of Directors shall make decisions with respect to matters such as officers with interests in competing businesses and conflict-of-interest transactions, in accordance with the Board of Directors Regulations and other regulations.

Also, the Company has established a framework to enable the persons giving approval to make sure that, if the Company or a Group company engages in business transactions with key shareholders or other related parties, the interests of shareholders and the Company are not harmed, taking into consideration the importance and nature of the business transaction in question, in accordance with internal regulations.

[Supplementary Principle 2-4-1 Ensuring Diversity in The Promotion to Core Human Resources]

The social environment surrounding our group is changing drastically, and the needs of society are rapidly diversifying. In order to flexibly respond to these changes, the human resources active in the organization must also become more diverse. By promoting respect for human rights and diversity, we aim to become an internationally competitive corporate group that is resistant to market changes.

◆Basic Diversity Policy

The Yamato Group respects the diversity of its employees, and believes that allowing each individual to maximize their abilities is the source of innovation that creates new value and leads to the growth of the company and the realization of a prosperous society. The Company promotes diversity throughout the Group by creating a working environment where diverse human resources can play an active role and training diverse human resources based on the approach of “Inclusive Management,” which is the DNA of the Yamato Group.

In January 2021, the Group formulated the “Sustainable Medium-Term Plan 2023.” We will promote sustainable management based on this plan, which sets out specific actions to be taken on each materiality issue and targets to be achieved by the fiscal year ending March 31, 2024, in order to realize our environmental and social vision, which we have set as our future vision for creating a sustainable future.

◆Social Vision

“Through Co-Creation and Fair Business Activities, Help Create a Society That Leaves No One Behind.”

◆Goals and Status of “Human Rights and Diversity”

- Percentage of all employees (full-timers) participating in human rights training

Target (cumulative total for fiscal year ended March 31, 2021 to fiscal year ending March 31, 2024): 100%

Status (fiscal year ended March 31, 2022): Expanded the scope of training and conducted human rights training for 390 new assistant managers.

- Employment rate of persons with disabilities

Target (fiscal year ending March 31, 2024): 2.5%

Status (fiscal year ended March 31, 2022): 2.61%

- Number of female managers (executives) / ratio of female managers

Target (fiscal year ending March 31, 2024): Double the number compared with the fiscal year ended March 31, 2021 / 10%

Status (fiscal year ended March 31, 2022): 348 people / 5.3%

In January 2022, we formulated the Yamato Group Human Rights Policy with the aim of strengthening our human rights and diversity initiatives. In order to respect the diversity of people involved in the Yamato Group and create a work environment where they can play an active role, we are continuing trainings that include conducting human rights training for new assistant managers and hold meetings on the subject of human rights at each of our branches.

We actively support the independence of people with disabilities, and currently, approximately 3,300 people with disabilities work at the Yamato Group's roughly 1,400 business sites, and more than 1,200 people with disabilities work as consigned delivery workers for Kuroneko DM-Bin.

Furthermore, we promote the establishment of an environment where it is easy for female managers to play active roles throughout the Yamato Group, such as by introducing through our in-house newsletter the female managers serving as role models so that female employees can envision how they will become managers.

As we do not recognize that there is any particular difference in the timing of hiring or nationality in terms of promotion to management positions, we do not set or disclose targets for mid-career hires or foreign nationals to be promoted to management positions at this time.

In accordance with the revision of the Group's retirement benefit system, the Yamato Group Corporate Pension Fund was dissolved and the Yamato Group Employees Welfare Center, which took over the retirement benefit investment management function, manages the reserves for the Company's corporate pension plan. The Company facilitates the professional development of said Center's staff mainly by allocating personnel with expertise at the Center's secretariat, and by sending staff members to external seminars.

The Center's management policies are decided by the board of Yamato Group Employees Welfare Center, taking into consideration the deliberations of the Pension Assets Management Committee. Personnel with the appropriate qualities are assigned to the Pension Assets Management Committee and the board of Yamato Group Employees Welfare Center, and a labor union official is assigned as a representative for the beneficiaries.

[Supplementary Principle 3-1-3 Disclosure Related to Sustainability]

Based on the transformation plan “YAMATO NEXT100” formulated as a grand design for the management over the medium to long term, in January 2020, the Company promotes the theme “Sustainability initiatives – Management embodying the environment and society.”

This plan cites dual visions in terms of paving the way to a sustainable future, one of which is the environmental vision “Connect. Deliver the Future via Green Logistics” and other of which is the social vision “Through Co-Creation and Fair Business Activities, Help Create a Society That Leaves No One Behind.” As material issues (materiality), the Yamato Group has identified “Energy & Climate,” “Atmosphere,” “Resource Conservation & Waste,” and “Resilience of Companies & Society” in the environmental area, and “Labor,” “Human Rights & Diversity,” “Safety & Security,” “Data Unitization & Security,” “Supply Chain Management,” and “Community” in the social area, and set long-term targets, including climate neutrality by 2050*.

*Scope 1 & 2 (in-house emissions)

Furthermore, in January 2021, the Yamato Group formulated the “Sustainable Medium-Term Plan 2023 (Environment and Society).” This plan is a comprehensive mid-term sustainable plan that sets out specific actions to be taken on each material issue (materiality) and targets to be achieved by the fiscal year ending March 31, 2024 in order to achieve the two visions.

In May 2022, we announced a new GHG (greenhouse gas) emission target to achieve 48% reduction compared with fiscal year ended March 31, 2021 for fiscal year ending March 31, 2031. We will work to achieve this goal to reduce GHG emissions with some of our major measures as “introduction of 20,000 EVs,” “introduction of 810 photo-voltaic power generation facilities,” and “increase overall ratio of electricity generated via renewable energy sources to 70%.”

We established a dedicated department within the Company to oversee the Group-wide promotion of sustainability, and we also deployed personnel responsible for sustainability at each Group company to promote sustainability management Group-wide. In addition, with the president as chairman and composed of Yamato Transport executive officers and presidents of major Group companies, the Yamato Group Environmental Committee and the Yamato Group Social Promotion Committee meet once a year to share information about and discuss issues related to sustainability. The Yamato Group promotes Group-wide sustainable management by discussing and resolving key agenda items at Management Committee meetings and Board of Directors meetings, as appropriate.

The Company recognizes that climate change is a significant issue for increasing the Group’s medium to long-term corporate value and to realize a sustainable society, and we understand and evaluate risks, opportunities and their impacts related to climate change. Furthermore, we shall work to enhance information disclosure based on TCFD (Task Force on Climate-related Financial Disclosures) recommendations.

Based on these situations, the Company has confirmed that the Board of Directors has been able to display effectiveness that contributes to securing sound management and achieving prompt and accurate decision-making and business execution, which are the Company's basic policies for corporate governance.

Going forward, the Company will further strengthen corporate governance to improve the soundness of the entire Yamato Group's management while continuously work to maintain and improve the effectiveness of the Board of Directors for the achievement of the growth strategies called for in the medium-term management plan "One Yamato 2023."

--

1. Basic policy

The Company determines matters regarding remuneration for the Company's Directors based on the following considerations.

○Competitive remuneration levels

•The remuneration level shall reward Officers for their roles, responsibilities and business performance,

and shall be appropriate for securing talented human resources.

- Remuneration system that places emphasis on increasing corporate value and shareholder value
- The remuneration system shall be linked to business performance and furthermore serve as motivation for achieving performance targets.
- The remuneration structure shall be linked to medium- to long-term corporate value and furthermore encourage a sense of common interests with shareholders.
- Fairness and impartiality of the remuneration system
- The process of determining remuneration shall be objective and highly transparent.

2. Remuneration structure

The Company's remuneration for Directors consists of basic remuneration (fixed remuneration), which takes remuneration levels at other companies and other such factors into consideration, and short-term performance-linked remuneration (variable remuneration), and mid-to-long-term performance-linked remuneration (variable remuneration). The mid-to-long-term performance-linked remuneration (variable remuneration) will apply to remuneration paid in July 2022 onwards. In addition, remuneration for Auditors and Independent Outside Directors consists exclusively of basic remuneration due to the nature of their functional roles.

3. Policy for determining basic remuneration (fixed remuneration)

Basic remuneration (fixed remuneration) is determined in accordance with rank and title and based on responsibilities, upon having considered remuneration levels at other companies and other such factors.

4. Policy for determining short-term performance-linked remuneration (variable remuneration)

The standard amount will be set at a percentage within a range of 45-55% of the basic remuneration (fixed remuneration). Both the percentage within the range as well as the basic remuneration (fixed remuneration) shall be determined based on the position of the Director. The remuneration for each individual shall be set at between 0-150% of the standard amount, depending on the extent to which the company achieved its performance targets, as well as the Director's mission evaluation. The company's performance targets shall refer to consolidated operating revenues, consolidated operating profit and profit attributable to owners of parent.

5. Policy for determining mid-to-long-term performance-linked remuneration (variable remuneration)

The standard amount will be set at within a range of 30-40% of the basic remuneration (fixed remuneration), which shall be determined based on the position of the Director. The remuneration for each Director shall be set at between 0-150% of the standard amount, depending on the extent to which the company achieved its performance targets, as well as the Director's mission evaluation. The company's performance targets shall refer to ROE, TSR and ESG metrics.

The mid-to-long-term performance-linked remuneration (variable remuneration) amount shall be divided by the average closing price of the company's shares in the Tokyo Stock Exchange during the month prior to the first fiscal year of the Medium-term Management Plan, to calculate the number of shares to be granted, and 1 share shall be converted to 1 point, which shall then be granted to the Director.

6. Policy for determining mix of remuneration and other compensation types for individual Directors

The mix of remuneration types is such that the higher a Director's position, the more weight assigned to performance-linked remuneration. The Company has opted for this approach upon having taken into account remuneration levels at other companies, in part because this approach makes it possible to furthermore fuel motivation with respect to achieving performance targets, generating medium- to long-term corporate value, and attaining sustainable growth, and also because the Company seeks to offer remuneration levels competitive for recruiting and retaining talented human resources.

7. Timing of delivery and conditions

The Company pays its basic remuneration (fixed remuneration) and short-term performance-linked remuneration (variable remuneration) as monetary sums on a monthly basis encompassing twelve equal installments annually.

As for the mid-to-long-term performance-linked remuneration (variable remuneration), points will be

granted once a year, in June, and the cumulative number of points until retirement shall be counted (one stock for each point) and the stocks shall be provided based on the Director's Stock Remuneration Rules.

8. Matters relating to decisions on remuneration and other compensation for individual Directors

The remuneration and other compensation for individual Directors, including the basic remuneration (fixed remuneration), the short-term performance-linked remuneration (variable remuneration), and the mid-to-long-term performance-linked remuneration (variable remuneration) is, with the objective of securing objectivity and transparency, determined by the Board of Directors, based on the proposal by the Nomination and Compensation Committee, which is chaired by an independent outside Director and of which the majority of members are independent outside Directors, following deliberations in the Nomination and Compensation Committee regarding the amount and calculation method of the remuneration and other compensation for individual Directors.
