Coincheck, Inc. (Head office: Shibuya-ku, Tokyo, President: Satoshi Hasuo, hereinafter referred to as “Coincheck”) is pleased to announce that Coincheck launched a project with Yuga Labs, who owns NFT collections such as “Bored Ape Yacht Club (BAYS)” to develop a metaverse city “Oasis MARS” in the metaverse “Otherside,” which Animoca Brands, a company with subsidiaries such as Open Metaverse and NFT-related subsidiaries, produced. Coincheck also started recruiting metaverse creators to participate as project members of “Oasis MARS” and collaboration partners to enhance “Oasis MARS” project.

Coincheck is currently focusing on developing “Oasis,” a project for urban development in a metaverse that utilizes blockchain among the emerging next-generation SNS-typed internet, and working to create a new customer experience and digital economic sphere by combining the metaverse and NFTs. In January 2022, Coincheck began developing “Oasis TOKYO” in the metaverse game “The Sandbox,” and in March 2022, Coincheck began developing “Oasis KYOTO” in the metaverse game “Decentraland.” Collaborations with various artists, celebrities, brands, etc. have been decided even before metaverse cities are open to the public.

In “Oasis MARS,” Coincheck will continue to collaborate with various creators, artists, and other partners to

advance the project and create a precedent in the still nascent metaverse, and pursue new possibilities in a world that combines metaverse and NFTs.
