1. Details of the secondary offering through over-allotment

Secondary offering through over-allotment is the offering through which a bookrunner of the primary offering shall offer the investment units (up to 14,644 units) borrowed from Lion Partners, upon the primary offering after taking into account the demand and other circumstances concerning it. The number of investment units to be offered in the secondary offering through over-allotment is scheduled to be 14,644 units, but the number is the maximum amount. The number may be reduced or the secondary offering through over-allotment itself may not take place at all, depending on the demand and other circumstances.

If the secondary offering through over-allotment is conducted, Lion Partners will grant such bookrunner a right to acquire additional investment units (the “Greenshoe Option”), up to the maximum number of investment units offered in the secondary offering through over-allotment, separate from the investment units for the primary offering. The Greenshoe Option shall be exercised between the delivery date of the primary offering and secondary offering through over-allotment and September 9, 2022 (Friday).

In addition, such bookrunner may, within a specified period, purchase investment units up to the maximum number of investment units offered in the secondary offering through over-allotment on the Tokyo Stock Exchange, Inc. (the “Syndicate Cover Transaction”) with the aim of returning the investments units borrowed from Lion Partners (the Borrowed Investment Units). Investment units purchased by such bookrunner through the Syndicate Cover Transaction shall be appropriated in full for returning the Borrowed Investment Units. Such bookrunner, at its discretion, may choose not to enter into any Syndicate Cover Transaction, or to terminate the Syndicate Cover Transaction prior to reaching the maximum number of investment units to be offered in the secondary offering through over-allotment during the Syndicate Cover Transaction Period.

Further, such bookrunner may conduct stabilizing transactions in connection with the primary offering and secondary offering through over-allotment, and appropriate all or part of the investment units that are purchased through such stabilizing transactions to return the Borrowed Investment Units.

Any Borrowed Investment Units remaining after allocation of investments units acquired through Syndicate Covering Transaction and stabilizing transaction shall be returned by such bookrunner exercising the Greenshoe Option.

Such bookrunner will conduct the transactions described above upon consultation with the other bookrunners.

2. Specific use of the funds to be procured and scheduled expenditure date

Net proceeds from the primary offering will be appropriated to a portion of the acquisition of the property described in “Notice Concerning Acquisition of Real Estate Beneficiary Interests in Trust and entering into Lease Contracts”, which was released today. The remainder will be treated as cash on hand and will be appropriated to a portion of the funds to acquire specified assets in the future.
