Corporate governance at Toyota Tsusho Corporation (the “Company”) is as follows:

I. Basic Policies for Corporate Governance, Capital Structure, Corporate Attributes and other Basic Information

1. Basic Policy

In the Toyota Tsusho Group’s Fundamental Philosophy, the Toyota Tsusho Group (the “Group”) has set forth the corporate philosophy “Living and prospering together with people, society, and the Earth, we aim to be a value-generating corporation that contributes to creation of a prosperous society.” The Group has instituted the Behavioral Guidelines as a fundamental code of conduct for legally and appropriately realizing this philosophy as a good corporate citizen.

In keeping with this Fundamental Philosophy, the Company has instituted the Basic Policies on Establishing Internal Control Systems for the purpose of carrying on and deepening penetration of the Toyota Tsusho Group Way, which articulates the Group’s unique values, beliefs, and daily principles of conduct, of promoting value creation from the customer’s perspective, and of fulfilling the Group’s social mission by establishing a “system for ensuring the appropriateness of the Company’s operations.”

On the basis of this fundamental philosophy, the Company will actively promote further management efficiency, transparency, rigorous compliance, and financial soundness. In addition, the Company will further enhance its public relations and investor relations activities to promote wider understanding of the Group.

[Reasons for not implementing each principle of the Corporate Governance Code]

It is described based on the code revised in June 2021.

The Company implements each principle of the Corporate Governance Code including for the Prime Market.

[Disclosure based on each principle of the Corporate Governance Code] (Updated)

[Principle 1.3]

The Company's dividend policy is to endeavor to maintain a stable dividend and increase dividend per share, with a dividend payout ratio of 25% or more as a basic policy. The Company intends to use internally retained earnings to further enhance and strengthen its operational foundation and invest in business expansion to ensure future shareholder returns.

[Principle 1.4]

- Policies on strategic shareholdings

Maintaining and strengthening business relationships and cooperative relationships with a wide variety of companies is necessary for sustained enhancement of the Company's corporate value. The Company strategically holds limited shares of listed companies that are considered —from a medium- to long-term perspective— to be beneficial and important as significant business/collaborative partners. When conducting reviews into whether the Company ought to continue holding its cross shares and the number of the cross shares it holds, the Company will comprehensively take into consideration profitability using self-devised cost-of-capital-based indicators as well as matters such as business relations with the partners concerned, and the results of these reviews shall be reported to the Board of Directors meeting once a year. The Company will reduce its holdings of cross shares where it is found that there are no grounds to continue holding them.

- Policy on the exercise of voting rights

Striving to maintain and strengthen partnership with investee companies, the Company engages in communications with these companies that contribute to enhancement of their shareholder interests and corporate value over the medium and long term. The Company's departments that manage investments take that perspective and appropriately exercise voting rights on the basis of multifaceted and comprehensive consideration of the situation of each investee company.

- Policy for when cross-shareholders (i.e. shareholders who hold a Company's share for the purpose of cross-shareholding) indicate that they want to sell the shares

If cross-shareholders seek to sell the shares, the Company will not hinder the sale of the cross-held shares. In such a case, if the Company has their shares for the purpose of cross-sharing, the Company will take appropriate measures to reduce those shares

in accordance with the Company's policies on cross-shareholdings.

[Principle 1.5] [Supplementary Principle 1-5-1]

The Company presently has no plans to adopt takeover defense measures. If it were to do so in the future, it would adopt only measures it deems reasonable and necessary and fully explain them to shareholders.

[Principle 1-6]

The Company presently has no plans to adopt any capital policies that would result in a change in control of the Company or substantially dilute existing shareholders. If it were to do so in the future, it would adopt only policies it deems reasonable and necessary and fully explain them to shareholders.

[Principle 1-7]

The Company complies with the procedures set forth in the Companies Act concerning transactions involving conflict-of interest of directors and transactions by directors, and all transactions with non-director executive officers require reporting to and approval of the Board of Directors based on our Regulations of Board of Directors as well. Through such requirement, the Company believes such transactions are adequately supervised by the Board of Directors. In transactions between the Company and the Company's major shareholders or other related parties, the Company decides price and other terms and conditions on the basis of individual negotiations, as in the case of ordinary transactions, approves transactions in accordance with internal rules, and endeavors to ensure that related-party transactions do not harm the interests of the Company or the common interests of all shareholders.

[Supplementary Principle 2-4-1]

(1) Our approach to securing diversity

The Group is convinced that its effort to respect, embrace, and actively utilize diversity will lead to an increased superiority of the entire group. We aim to build a strong organization while promoting diversity and inclusion as a management strategy, letting each of diverse employees exert his/her ample individuality as a strong individual, and having them influence each other and evolving together. Moreover, we continue to get personnel equipped with diverse individuality and experience to perform well as our core human resources such as managerial staff, by ensuring to select, develop, evaluate, and promote personnel according to each individual's skills regardless of

his/her attributes. This approach is disclosed in our official website:
Sustainability_Social_Promoting Diversity_Basic Policy

(<https://www.toyota-tsusho.com/english/csr/social/diversity.html>)

(2) Set measurable goals and disclose the execution status

Shown below are voluntary and measurable goals for securing diversity on a nonconsolidated basis, coupled with the execution status.

① Promote female employees to managerial positions

Currently (as of April 2021), female employees account for 31% of our entire staff. Proportion of females in managerial positions has risen from 4.5% five years ago to 6.5%. There has been an increase in female overseas-posted employees, line general managers and group leaders, and we have one female senior executive officer and one female executive officer. We will step up the effort to promote female empowerment while aiming to raise the female manager ratio to 10% by April 2025.

② Promotion of non-Japanese employees to managerial positions

Currently (as of April 2022), 58 non-Japanese employees serve the Company, which is actively recruiting new graduates and mid-career workers who are non-Japanese. We will continue to assist and develop recruited non-Japanese employees so that they will perform well as our core human resources such as managerial personnel.

③ Utilization recruited mid-career employees

Mid-career employees now account for approximately 30%–50% of workers recruited annually (as of April 2022). The Company, having been boosting its mid-career recruitment for new key domains constituting its entity-wide strategy, will continue hiring mid-career workers more or less to a similar extent and utilize their diverse experience.

(3) Human resources development policy and internal environment streamlining policy

To help expand opportunities for diverse employees to perform well, the Group introduces a human resources system that assists work–life balance and work style reform and makes diverse career paths happen. We also foster an environment and corporate culture that lets diverse employees work lively while raising individual employees' awareness. To continue these efforts, we have in place a platform in which divisional CEOs set annual D&I endeavor goals and report their progress and achievements at a meeting of officers and Board of Directors. In the coming years, to be able to generate a value unique to the Company and grow sustainably, we will

develop the environment and human resources in a manner that enables diverse employees to maximally exert their characteristics and skills as strong individuals.

[Principle 2.6]

To enable corporate pension funds to perform the functions expected of them as asset owners, the Company allocates to the fund secretariat human resources suitable for carrying out asset management, etc. and has out in place an Asset Management Committee in which the heads of the Finance Department, Accounting Department, and Global Human Resources Department participate as members. The Asset Management Committee deliberates on matters concerning fund management status, asset distribution, and future fund management policy. The Asset Management Committee, through its deliberations, confirms whether fund management is being implemented in accordance with the Basic Fund Management Policy and whether it is based on diversified investment conducted from a medium- to long-term perspective. The Company has also appointed an external consulting firm to complement internal professional expertise and knowhow while also – by providing an independent perspective – helping to prevent conflicts of interest between the Company and beneficiaries of the pension funds.

[Principle 3-1 (i)]

The Company discloses the corporate philosophy, vision, mid-term business plan, and other information on the corporate website.

<https://www.toyota-tsusho.com/english/company/vision.html>

[Principle 3-1 (ii)]

Please see “I. 1. Basic Policy” of this report.

[Principle 3-1(iii)]

- Decision policy and decision process

Compensation for directors of the Company shall consist of (i) fixed remuneration as basic compensation, (ii) bonuses(short-term incentives) as performance-linked compensation, and restricted stock compensation (medium- to long term incentives). The ratio of fixed remuneration to performance-linked compensation is determined with a target ratio of 50:50. For performance-linked compensation, the ratio of “bonus” to “restricted stock compensation” shall be determined at a ratio of 70:30. The directors are responsible for the final profit (including temporary and incidental gains/losses) of all Group companies, the amount of performance-linked compensation paid in each fiscal year shall be determined for each position with the consolidated profit (attributable to owners of the parent company) for the previous fiscal year as an indicator. However, outside directors are independent from the operational management, therefore, they are paid fixed remuneration only, and not paid bonuses and restricted stock compensation. Audit & Supervisory Board members are also paid fixed remuneration only because they are independent so that they carry out audits appropriately.

The Company has established an Executive Compensation Committee as an advisory body to the Board of Directors, with the majority of the committee members being independent outside directors. The committee is chaired by the Chairman of the Board, who has no representative authority and is not involved in operational management. The Executive Compensation Committee shall deliberate on the policy for determining the details of compensation for each director (hereinafter, the “Policy”), the director compensation system, director compensation proposals to be submitted to the General Meeting of Shareholders, and other important matters concerning director compensation. The Board of Directors shall determine the Policy, the proposal on officer compensation (bonuses for officers) to be presented to the General Meeting of Shareholders, and the compensation for each Director in relation to restricted stock compensation, taking into account the result of such deliberations. The Board of Directors shall delegate the decision to the President & CEO from the standpoint of flexibly and agilely deciding the amount of compensation for each Director in relation to fixed remuneration and bonuses. The President & CEO shall determine the amount of compensation for each director in accordance with the Policy, taking into account opinions gathered during interviews with each member of the Executive Compensation Committee. The Board of Directors deems the compensation, etc. of each director for the current fiscal year is in line with said decision policy, having confirmed that it is consistent with the Policy determined at the Board of Directors’ meeting, and that the

findings of the Executive Compensation Committee have been given due regard.

- Method of deciding on compensation

The following is an outline of the components of compensation for directors (excluding outside directors; hereinafter, “Eligible Directors”) of the Company.

i) Fixed remuneration

Fixed remuneration shall be monthly compensation and shall be set at an appropriate level with reference to the remuneration data of other companies in the industry and taking into consideration the position and responsibilities of each director.

ii) Bonuses

For each fiscal year, the Company shall determine the amount of bonuses to be paid to each individual by adjusting, as appropriate, 70% of the total amount of the specified performance-linked compensation for each position based on the responsibilities of the position and the performance of the duties for which the individual is responsible.

iii) Restricted stock compensation

For each fiscal year, the amount of restricted stock compensation to be paid to each individual shall be determined by adjusting, as appropriate, 30% of the total amount of performance-linked compensation specified for each position based on the responsibilities of the position and the performance of the duties for which the individual is responsible. However, in cases where it is not appropriate to grant restricted stock compensation to Eligible Directors, the full amount of the performance-linked compensation for Eligible Directors shall be paid as a bonus.

The transfer restrictions on transfer-restricted stock compensation for a director are lifted on a day on which he/she resigns from the Company. Compensation to be provided to target directors to grant transfer-restricted shares to them will be monetary claim, the total value of which will be not more than 200 million yen a year as a limit separate from the aforementioned fixed remunerations and bonuses for directors. The class of stock to be allocated will be common shares (those for which transfer restriction is imposed in an allocation agreement). The total number of shares to be issued or disposed of will be not more than 200,000 shares a year for target directors (as resolved by the Ordinary General Meeting of Shareholders of June 23, 2020). Specific timing of provision and allocation to individual target directors will be determined by the Board of Directors on the basis of deliberations by the Executive Compensation Committee.

- Only fixed remuneration is paid to Audit & Supervisory Board members in light of their

role of appropriate auditing from an independent position. With respect to fixed remuneration for Audit & Supervisory Board members, the 2014 Ordinary General Meeting of Shareholders approved a payment limit of 16 million yen per month, and amounts for individual Audit & Supervisory Board members are decided by conference with the Audit & Supervisory Board within this remuneration limit. Executive retirement benefits are not paid to all directors and Audit & Supervisory Board members.

[Principle 3-1 (iv)]

- Policies

The Company defines its top management as being inside directors excluding the Chairman of the Board, Division CEOs, and Regional CEOs. When appointing senior executives, the Company comprehensively considers and appoints the right person for the right position that will enable appropriate and prompt decision-making at each role. The Company considers appointments of outside officers in accordance with the requirements set forth in the Companies Act and the independence standards established by financial instruments exchanges. Further, the Company has stipulated criteria for the dismissal of top managements in its internal regulations and such considerations are made in accordance with these regulations.

- Procedures

In its consideration of director nominations, the Company has established the Executive Appointment Committee, at which independent outside officers make up the majority, to consider the appointment or dismissal of top managements and make recommendations to the Board of Directors as reference for resolution.

Audit & Supervisory Board members are appointed by resolution of the Board of Directors after consultation of Audit & Supervisory Board.

[Principle 3-1 (v)]

The reasons for the election of individual directors and Audit & Supervisory Board members are described in the election proposals in the Reference Materials for the General Meeting of Shareholders.

For details, please refer to the Notice of Ordinary General Meeting of Shareholders posted on the corporate website.

[Supplementary Principle 3-1-3]

We identified Key Sustainability Issues [Six Materiality] that it will address with priority.

- 1.Strive for the elimination of traffic casualties and contribute to the creation of a safe and comfortable mobility society
- 2.Contribute to the transition to a carbon neutral society by reducing CO₂ emissions from automotive, manufacturing, and energy plant construction through the use of clean energy and innovative technologies.
- 3.Contribute to the development of a recycling-based society by transforming waste into resources for manufacturing.
- 4.Grow with developing countries, including those in Africa, and endeavor to resolve social issues through business operations.
- 5.Begin everything we do with ensuring safety and compliance and continue to be an organization trusted by society.
- 6.Respect human rights, and actively develop people who will contribute to society by nurturing them and giving them opportunities to apply their skills.

We have established four priority strategies(Next mobility strategy, Renewable energy strategy, Circular economy strategy, Africa strategy) in line with the above-mentioned materiality in order to realize a prosperous society through our business. For details, please refer to our integrated report .

In addition, with the mission of “Passing on a better global environment to the children of the future” we launched Carbon Neutral Promotion Task Force in April 2021 for realizing a sustainable society. And we create Working Group(WG); Renewable Energy &Energy Management WG , Battery WG, Hydrogen &Carbon Neutral Fuel WG, Resource Circulation &3R* WG, Economy of Life WG. At each stage of the industrial life cycle, we will be involved in businesses that contribute to the circular economy.

*Rebuild, Reuse, Recycle

Deeming climate change as a significant business challenge, we expressed support for TCFD in May 2019, have been providing disclosure in accordance with the framework, and will step up the endeavors further.

In July 2021, as a specific policy to contribute to a shift to a decarbonized society, the Toyota Tsusho Group established a goal of i) reducing greenhouse gas emissions from its business activities in Scope 1 and Scope 2 of the nonconsolidated operations and consolidated subsidiaries in and outside Japan by 50% by 2030 in comparison with that in 2019 and ii) achieving carbon neutrality by 2050. The Group aims to achieve the goal by working to i) continue thorough energy-saving efforts and use of renewable energy sources (shift to LED at office and plants, and solar power generator installation at its

buildings), ii) reduce carbon dioxide emissions in production processes and logistics, iii) lower such emissions via technological innovation, and iv) use J-credit derived from renewable energy sources.

As one of our key sustainability issues toward achieving our vision (Global Vision), we expressed an intent to respect human rights, and actively develop people who will contribute to society by nurturing them and giving them opportunities to apply their skills, and are working to grow professionals able to perform well globally. Each year, the Global Human Resources Committee deliberates on a task assignment-based short-to-medium-term development plan particularly for successor candidates for highly important posts under our business strategy. Moreover, we provide them with opportunities to grow through internal and external training courses.

[Supplementary Principle 4-1-1]

The following matters require judgement and resolution by the Board of Directors.

- Matters stipulated in laws and ordinances and the Articles of Incorporation;
- Matters delegated to the Board of Directors by resolution of the General Meeting of Shareholders; and
- Other important business matters.

Other matters are delegated to each director and the progress is reported to the Board of Directors as appropriate according to their degree of importance to the business. To allow its Board of Directors to devote more time to discussion, the Company raised some monetary thresholds for investments/expenditures requiring Board approval and narrow down the items to be reported.

[Supplementary Principle 4-2-2]

The Toyota Tsusho Group's corporate philosophy of "living and prospering together with people, society, and the globe, we aim to be a value-generating corporation that contributes to creation of a prosperous society" is deemed to be a paramount concept that will remain unchanged perpetually and must be handed down generation after generation. Thus, we have been raising our corporate value through engaging in business activities in ways friendly to the global environment and developing professionals who contribute to society.

While putting into practice our corporate philosophy that expresses our resolve to work on management, sustainability for the Group is its business management itself and is defined as an act to present its significance of existence and its desirable state, generate economic value, premised on the environment and society, and to keep growing together with society in a sustained manner.

The Toyota Tsusho Group has specified key sustainability issues (materiality) as ones to be addressed in a prioritized fashion while pursuing sustainability management. We, the Toyota Tsusho Group, will contribute to resolving social issues and creating a prosperous society in the future.

[Principle 4-9]

The Company's independent officers are selected from individuals who are able to reflect a wealth of experience, advanced professional knowledge, and wide-ranging insights in the Company's management and are able to actively and constructively offer their suggestions and views about enhancing the Company's corporate value over the medium and long term from a fair and neutral position and who satisfy the requirements for outside directors and outside auditors set forth in the Companies Act and the independence standards established by financial instrument exchanges.

[Supplementary Principle 4-10-1]

The Company has in place of the Executive Appointment Committee and the Executive Compensation Committee as advisory bodies to the Board of Directors.

The Executive Appointment Committee: i) deliberates on the policy on the election and dismissal of the Members of the Board, Audit & Supervisory Board Members, and management executives and on proposed appointments; ii) formulates and executes a plan to develop potential CEO successors; and iii) studies other important matters associated with executive appointment. The Executive Compensation Committee studies our executive compensation structure, relevant decision making policy, and other important matters associated with executive compensation and deliberates on proposed executive compensations. On the basis of the deliberation results, the Board of Directors resolves proposed executive appointments and executive compensations.

The Executive Appointment Committee and the Executive Compensation Committee are each chaired by the Chairman of the Board who neither has representation right

nor is involved in our business execution. These committees' independence is secured as the majority of the committee members are accounted for by outside directors equipped with diverse experience. The committees provide the Board of Directors with appropriate advice on gender and other diversity issues as well as from a skill perspective, thereby reinforcing the independence, objectivity, and accountability of the Board.

[Supplementary Principle 4-11-1]

The Company selects its directors from inside and outside the Company who have a wealth of experience, advanced professional knowledge, and wide-ranging insights so as to develop a system in which decision-making and oversight of management and execution are appropriately performed.

The Company comprehensively deliberates the members of the Board of Directors from the perspective of enabling appropriate and prompt decision-making and appointing the right person for the right position according to individual roles. The Board of Directors currently consists of a total of eight directors, including three independent outside directors.

The Company has appointed two persons who have appropriate knowledge of finance and accounting as Audit & Supervisory Board members. The Audit & Supervisory Board currently consists of five members, including three independent outside auditors, who supervise and check officers' business execution from an objective and professional perspective.

Please refer to the end of this report for the combination of abilities and experiences possessed by the directors and auditors of the Company.

Please see "Principle 3-1 (iv)" of this report regarding policies and procedures for the selection and appointment of directors.

[Supplementary Principle 4-11-2]

Concurrent service of directors and Audit & Supervisory Board members as officers of other listed companies is noted in the Notice of Ordinary General Meeting of Shareholders.

[Supplementary Principle 4-11-3]

In order to improve the effectiveness of the Board of Directors, the Company conducts an analysis and evaluation of the Board of Directors, and reports the findings to the Board of Directors every year. The outline of analysis and evaluation of the Board of

Directors for FY2021 is below.

<<Outline of Evaluation>>

<Individuals Surveyed>

All 9 Members of the Board and all 5 Audit & Supervisory Board members

<Survey Method>

Questionnaire survey

<Matters Evaluated>

- Board composition, operation, proposal/deliberation processes, etc.

<Evaluation Results>

• The Company conducted a director effectiveness evaluation targeting Members of the Board and Audit & Supervisory Board Members for fiscal 2021. The collected survey responses were generally positive across all of the matters evaluated, confirming that the Board of Directors is functioning effectively.

• The survey confirmed that progress has been made over the past year in addressing issues identified in the previous fiscal year's evaluation, namely, "the skill matrix of all members of the board of directors, including the roles expected of outside officers, be disclosed to the outside in Dec", "the secretariat start to share with Auditors Q&As in a briefing to Outside Directors prior to a board of directors meeting every month", "dialogue meetings on IR activity reports were held in September between the CFO and outside officers", "in addition to the timely report by the CCO about risk and compliance, a direct report to the Board of Directors of the Audit Department was conducted in Dec", "implement management discussions on big themes after BOD Mtg in Aug and Sep", "audit policies, etc. are explained by full-time corporate auditors to outside directors through individual online interviews", "set up an informal luncheon at the general meeting of shareholders, the board of directors, the executive review meeting, etc.", "providing opportunities for outside directors and auditors to deepen their understanding of group business by remote inspection etc. in Jun, Aug and Dec", "ongoing an Outside Directors & Auditors meeting in Feb and Jun". The Company will continue to make progress on these issues.

• In response to issues identified by the latest evaluation, the Company will endeavor to further increase the Board of Directors' effectiveness by (1) started an investigation on the appropriate ratio of independent outside directors, (2) amend our resolution-approval categories and delegate the authority for minor matters for BOD approval and reporting to the executive side, (3) provide periodic reporting on safety at BOD meetings, (4) hold cybersecurity meetings with outside directors and auditors, (5) reflect

market developments, customer expectations, and competitors' strategies in sales divisions' matters for approval and reporting, (6) hold interviews and opinion exchange meetings between all of outside directors and full-time Audit & Supervisory Board members twice a year, (7) resume on-site inspections by outside directors and auditors in view of the subsiding COVID-19 situation, (8) increase opportunities for reporting on our human rights policy at BOD meetings while asking all outside directors to attend Sustainability Management Committee meetings as observers.

[Supplementary Principle 4-14-2]

- The Company appropriately provides the elected members of the Board of Directors and Audit & Supervisory Board with information necessary for them to fully perform their functions. The Company also provides opportunities for directors and Audit & Supervisory board members to participate, at Company expense, in seminars, training, etc. conducted by third-party organizations necessary for the performance of their duties.

- In addition to providing orientation for newly appointed outside officers, the Company continuously arranges opportunities for them to understand the business activities of the Company and the Group, such as inspecting the actual situation on-site (Genchi Genbutsu) by visiting the Company's principal business entities and holding dialogues with employees.

- At least once a year, the Company holds Executive Review Meetings in which inside and outside officers participate. At the meetings, an intensive review of recent management issues is conducted, and information necessary for the performance of duties is provided.

[Principle 5-1]

The Board of Directors has approved the following policy.

Policy for development of systems and measures to promote constructive dialogue with shareholders

(i) The Company has appointed an executive officer of public affairs and an executive officer of investor relations.

(ii) The Company has formed a task team for the purpose of organic collaboration that supports dialogue.

(iii) General Meeting of Shareholders: The Company provides easy-to-understand

explanations of the Company's business, organization, etc. and conscientiously answers questions from shareholders.

Individual investors: The Company regularly makes presentations at IR events and provides explanations of the Company.

Institutional investors: The Company holds quarterly results briefings.

Overseas investors: The Company provides explanations of the Company at forums held in Japan and meets regularly with major shareholders.

(iv) Feedback on shareholder opinions and concerns is provided to top managements as necessary.

(v) Insider information is appropriately managed in accordance with the Insider Trading Control Regulations instituted by the Company.

[Principle 5-2]

The Company discloses the mid-term business plan and other information on the corporate website.

<https://www.toyota-tsusho.com/english/ir/management/plan.html>

[Supplementary Principle 5-2-1]

In formulating the business portfolio, the Board of Directors monitors the Progress Report for Execution of Operation of each sales division, and after the Board of Directors, Business Policy Briefing Session between outside director and auditor and each sales division and Management Discussions on Big Themes are held. Moreover, we hold Mid-Term Business Plan Meeting every March to discuss Toyota Tsusho Group-wide annual plans and medium-term management plans. After sharing detail of the plans with outside director and auditor, the Board of Directors of the same month resolved policies and strategies regarding the business portfolio. Based on the content of the resolution, the basic policy is disclosed to the outside by investor relations activities.

5. Other Special Items Exerting a Significant Impact on Corporate Governance (Updated)

1. Our policy on group management and significance of owning listed subsidiaries

The Company owns Tomen Devices Corporation (Prime Market of the Tokyo Stock Exchange) and Elematec Corporation (Prime Market of the Tokyo Stock Exchange) as listed subsidiaries.

Our corporate philosophy says that living and prospering together with people, society, and the globe, we aim to be a value-generating corporation that contributes to creation of a prosperous society.

Toward maximizing the corporate value of the entire Company group under this corporate philosophy, we think that it is highly significant to own Tomen Devices Corporation, which is strong in marketing function as a world-class distributor for semiconductor manufacturers, and Elematec Corporation, which is strong in site skills catering for diverse customer needs due to having networks in countries around the world and in locations in Japan. In our view, to keep these firms listed to respect their autonomy and independence will contribute to synergy within the Company group to expand our operations, considering competition and market conditions in the business domains for these listed subsidiaries.

2. Governance system and effectiveness securement at listed subsidiaries

To ensure that the Company group's operations are efficient and transparent to make its governance system effective, the Company works to ensure compliance and put its financial position on a sound footing under its Audit & Supervisory Board system and divisional consolidated business administration while endeavoring to optimize our consolidated operations such as by sharing our corporate philosophy and business strategies. We strive to ensure that duty execution by subsidiary directors etc. is compliant with laws and the Articles of Incorporation by dispatching directors and audit & supervisory board members to our listed subsidiaries to thus have them supervise

and audit such execution.

Besides having listed subsidiaries' rules clarify approval authority at them, the Company attaches importance to their autonomy and independence. With independent officers being elected by them, they ensure the autonomy and independence to prevent any conflict of interest with minority shareholders, something made possible by having independent officers supervise duty execution by directors.

3. Framework to ensure the appropriateness of operation at the Company group

The Company exercises its shareholder rights at a general meeting of shareholders of listed subsidiaries of it while ensuring to clarify approval authority at the subsidiaries with rules laid down by them and to attach importance to their autonomy and independence.

Although various business transactions are entered into between the Company and its listed subsidiaries, prices and other transaction terms and conditions are determined similarly to those for ordinary transactions through individual negotiations. The relationship and transactions between them have nothing that limits their independence.

<Other matters>

The Company reviewed the advisor / advisor system at the Board of Directors meeting in November 2017, and has abolished the operation of automatically commissioning all retired officers.

- Senior executive advisors are commissioned for a term of one year in principle only when it is necessary to assign duties for the company. Its business content is limited to specific business commissioned individually and does not participate in any management decision-making.

2. Matters on Functions of Business Execution, Auditing and Supervision, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System) (Updated)

The Company has eight directors, four of whom are outside directors. The Company has adopted the Audit & Supervisory Board system for auditing of directors' execution of duties, which is conducted by five Audit & Supervisory Board members elected at the General Meeting of Shareholders, three of whom are outside Audit & Supervisory Board members.

The Company manages its consolidated subsidiaries through a divisional system. It currently has seven operating divisions, and Administrative Division. Each operating division is headed by an executive officer appointed as a Division CEO. Division CEOs practice expeditious management in close contact with frontline personnel.

To further segregate duty execution by the entity-level management (directors) and that by divisions (executive officers), the Board of Directors chaired by a non-executive director strengthens a function to supervise the status of duty execution while continuing to clarify authority and responsibility and bolster internal control.

3. Reasons for Adoption of Current Corporate Governance System

The system of a Company with an Audit & Supervisory Board is the foundation of the Company's corporate governance. The Company has adopted the current corporate governance system to ensure management soundness by means of the following.

- Strengthening of appropriate decision-making and management oversight, reflecting the expert and objective perspective of outside directors
- Strengthening of auditing and checking of the performance of duties by directors from an expert perspective and shareholders' perspective by outside Audit & Supervisory Board members
- Greater speed and efficiency in decision-making through an executive officer system

IV. Matters Related to the Internal Control System

1. Basic Policy on Internal Control System and Implementation Status

[Basic Policy]

In the Toyota Tsusho Group's Fundamental Philosophy, the Toyota Tsusho Group (the "Group") has set forth the corporate philosophy "Living and prospering together with people, society, and the Earth, we aim to be a value-generating corporation that contributes to creation of a prosperous society." The Group has instituted the Behavioral Guidelines as a fundamental code of conduct for legally and appropriately realizing this philosophy as a good corporate citizen.

In keeping with this fundamental philosophy, the Company has instituted the Basic Policies on Establishing Internal Control Systems for the purpose of carrying on and deepening penetration of the Toyota Tsusho Group Way, which articulates the Group's unique values, beliefs, and daily principles of conduct, of promoting value creation from the customer's perspective, and of fulfilling the Group's social mission by establishing a "system for ensuring the appropriateness of the Company's operations."

[Implementation Status]

The Company has instituted the Basic Policy on Development of Internal Control Systems, clearly defined the duties of directors and developed a system capable of timely and appropriately confirming the status of development of systems that ensure the appropriateness of the Company's operations. The Company revises the basic policy in accordance with changes in the management environment. The status of implementation to date is as follows.

1. Compliance system

The Company has developed a “system for ensuring that the performance of duties of directors and employees complies with laws and regulations and the Articles of Incorporation,” distributed standard and portable editions of the Global Code of Conduct & Ethics to all officers and employees, and established the Sustainability Management Committee chaired by the president. The Company promotes information sharing and mutual checks and balances among the officers through such forums as the Executive Officers Meeting.

2. Risk management system

The Company has developed “Regulations and other systems related to the management of risk of losses” and institutes management regulations, conducts training, and distributes manuals related to various risks. The Company has prepared management regulations or guidelines for risks pertaining to business execution that require particular caution, namely, business investment and loan risk, credit risk, market risk, and occupational health and safety, and environment risks, and appropriately identifies and manages these risks. The Company is developing appropriate management systems at concerned departments to deal with information security, crisis management, and other issues. In addition, the ERM Committee endeavors to identify risks companywide and discover risk-related issues.

3. Information management system

The Company has developed a “system relating to the retention and management of information relating to the performance of duties by directors and employees,” instituted document regulations and document handling standards relating to document retention, and designated departments responsible for document retention and retention periods for each type of document.

4. System for ensuring the propriety of operations of the corporate group

In the Group, in accordance with policies on divisional consolidated management, a consolidated business plan including subsidiaries has been formulated, and the Board of Directors supervises the information ascertained and managed about the financial details and important matters of business execution in accordance with management policies aligned with the systems and other characteristics of each subsidiary. Accordingly, the Company exercises its shareholder rights at a general meeting of

shareholders of listed subsidiaries of it while making sure to clarify approval authority at the subsidiaries with rules laid down by them and to attach importance to their autonomy and independence. Moreover, regarding important matters for the Group, the Company requires the responsible department to have prior consultations or reporting. For risk management, in accordance with the Basic Policy for Risk Management, the Company engages in necessary examination and monitoring of business processes of subsidiaries and strives for early detection and prevention of risks. In addition, the Company and its group companies share the spirit of the Toyota Tsusho Group's Fundamental Philosophy and the Global Code of Conduct & Ethics which provides more specific behavioral guidelines of the Group, and ensure compliance with laws, regulations, and social ethics.

2. Basic Policy on Excluding Antisocial Forces and Implementation Status

The Toyota Tsusho Group Compliance Manual based on the Global Code of Conduct & Ethics (COCE) stipulates that the group takes a firm stance toward antisocial forces and organizations that threaten the order and safety of civil society and the Company firmly has a policy of rejecting any demand from antisocial forces and organizations.

To accomplish this, the Company regularly cooperates with outside specialized agencies such as the National Center for Removal of Criminal Organizations and the Organized Crime Control Bureau of Police Headquarters and has developed a system for dealing with antisocial forces. The Company's Nagoya Head Office is a member of the Aichi Prefecture Corporate Defense Council, and receives guidance and shares information as a member.

In the event that an unreasonable demand is received from antisocial forces, the General Affairs Department, as the designated department responsible for responding, takes a resolute stance and responds in cooperation with the police and other relevant agencies and an attorney.

V. Other

1. Defense Against Takeovers

Defense Measures Against Takeovers	None
------------------------------------	------

Supplemental Remarks on This Item

The Company has not introduced takeover defense measures at this time.

2. Other Matters Concerning Corporate Governance System

Overview of the Timely Disclosure System

The Company has instituted as Disclosure Regulations activities policies and

mechanisms for all officers and employees to systematically engage in effective, consistent information disclosure to accomplish the following items.

- 1) Build relationships of trust with stakeholders through proactive, effective information disclosure and fulfillment of accountability.
- 2) Strive for timeliness and fairness in information disclosure and contribute to appropriate share price formation and formation of reputation in society that correctly reflect the Company's corporate value.
- 3) Feedback to management the opinions of stakeholders and contribute to enhancement of corporate value through interactive communication with stakeholders.

<Internal Systems Related to Management and Timely Disclosure of Company Information>

Under the Disclosure Regulations, all officers and employees promptly report to the Chief Strategy Officer and the department responsible for information disclosure (Public Affairs Department) about matters decided at committee meetings and important information occurring at the Company and its subsidiaries in accordance with the division of their duties. After receiving reports, the Chief Strategy Officer and department responsible for information disclosure rigorously implement internal information management, judge the necessity of timely disclosure of the information, and timely disclose information requiring disclosure.
