Notice Concerning Support for the Task Force on Climate-related Financial  
Disclosures (TCFD) Recommendations

Fukuoka REIT Corporation (FRC) announces that Fukuoka Realty Co., Ltd (FR), the asset management company to which FRC entrusts the management of its assets, expressed its support for the Task Force on Climate-related Financial Disclosures (TCFD) recommendations and joined the TCFD Consortium, an organization formed by domestic companies supporting the TCFD recommendations.

1. Overview of TCFD

TCFD is an international initiative established by the Financial Stability Board (FSB) at the request of the G20 for the purpose of discussing the disclosures of climate-related financial information and the responses by financial institutions. TCFD publishes recommendations for companies to disclose their governance, strategy, risk management, and metrics and targets for climate-related risk and opportunities.

2. Overview of TCFD Consortium

The TCFD Consortium is an organization established for the purpose of helping domestic companies supporting the TCFD recommendations and financial institutions promote initiatives in an integrated manner and discussing initiatives that lead effective information disclosure by companies and the disclosed information to appropriate investment decisions by financial institutions, etc.

3. Our Future Initiatives

Based on the Sustainability Policy, FRC and FR believe that the promotion of sustainability through consideration of environmental, social and governance (ESG) is secure the best interests of our unitholders over the medium to long term. FR formulated the Sustainability Policy in January 2018 as a concrete implementation policy for this concept and established the Climate Change Resilience Policy as a policy for responding to risks and opportunities related to climate change and for resilience of our businesses and strategies to climate-related issues in September 2022.

FRC and FR will continue to promote sustainability initiatives as well as conduct information disclosure in line with the TCFD recommendations as Japan's first region-specific REIT that contributes to urban creation and revitalization of the Fukuoka/Kyushu region.
