### 2. Reasons for Dividend

AEON MALL recognizes that returning profits to shareholders through improving earnings power is a key management priority. Our basic policy on income distribution emphasizes steady dividend payments to shareholders, while using internal reserves to invest in structural business improvements, including investments in growth businesses, new businesses, and other areas that strengthen our operating foundation. We aim to provide a consolidated dividend payout ratio of 30% or more, while striving to increase dividends on a long-term and continued basis according to our stage of growth.

AEON MALL has resolved to pay an interim dividend per share of ¥25, as originally forecast and in reflection of the aforementioned policy and our earnings forecasts. We plan to pay a year-end dividend of ¥25, resulting in an annual dividend of ¥50 per share.

Under our articles of incorporation, distributions of retained earnings are subject to the approval of our board of director
