[Monthly comment]

In September, net sales totaled 109.9% for existing stores compared with the previous year and 120.7% for all stores.

Due to factors including favorable sales of autumn and winter apparel with gradual temperature drop and favorable sales of home appliances such as refrigerators and washing machines as well as household items, hobby-related items, brand items, etc., sales of both existing stores and all stores increased year on year despite the impact of large typhoons that hit on two three-day weekends.
