The corporate governance of ESPEC CORP. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Company firmly believes that a corporation is a public institution, or a social apparatus with roles and functions for fulfilling people’s wishes and living up to the expectations of society. Based on this philosophy, the Company aims to become a highly efficient corporate medium for exchanging value. Accordingly, the Company shall provide all stakeholders with higher value through the mutually beneficial relationships it builds with shareholders, customers, business partners, employees and all other stakeholders it interacts with in the course of conducting its corporate business activities.

By continually enhancing corporate governance with this philosophy as an impetus, the Company shall realize sustainable growth and enhance corporate value over the medium to long term, while fulfilling its social responsibility to stakeholders.

The Company’s basic views, policy for engagement in each principle, and status of implementation of the Corporate Governance Code have been formulated in a separate Basic Policy on Corporate Governance, publically disclosed on the Company’s website.

https://www.espec.co.jp/english/ir/management/pdf/governance_policy.pdf

Reasons for Non-compliance with the Principles of the Corporate Governance Code

The Company has implemented each principle of the Corporate Governance Code after its revision in June 2021 (including principles for the Prime Market) in accordance with the above basic policy.

Disclosure Based on the Principles of the Corporate Governance Code (Updated)

Please refer to the following articles of the Basic Policy on Corporate Governance for details on matters that ought to be disclosed under the Corporate Governance Code.

[Principle 1.4 Cross-Shareholdings]

Article 5. Cross-Shareholdings

- To improve corporate value over the medium to long term, the Company will only hold shares of business partners judged to maintain and strengthen stable relationships.
- At meetings of the Board of Directors held on July 13, 2021 and January 13, 2022, the Company verified the need for individual cross-shareholdings in its possession. As a result of the verification, the Company sold four issues of stocks whose holding purpose could not be fully justified. Moreover, it disclosed in its Annual Securities Report the issues of stocks it decided to continue to possess and the objectives in doing so.
- The Company shall exercise the voting rights on its cross-shareholdings appropriately in view of the aim behind the holdings and from the standpoint of improving its corporate value and that of its investees over the medium to long term.

In the event a concern emerges in regard to corporate governance, an opposing vote regarding the appointment of officers will be cast until that concern has been resolved.

[Principle 1.7 Related Party Transactions]

Article 6. Related Party Transactions

[Supplementary Principle 2.4.1 Ensuring Diversity in the Promotion of Core Human Resources, etc.]

Article 9. Promotion of Diversity

(1) Policies on Ensuring Diversity in the Promotion of Core Human Resources, etc.

The Company embraces diversity regardless of gender, age, nationality, or any other characteristic, and appropriately manages frameworks for human resources recruitment, promotion, training, evaluation and so forth, so that the Company's broad spectrum of human resources can demonstrate their individuality and abilities. For information on initiatives to promote the active participation of diverse human resources, please see the Company's Sustainability Report.

<https://www.espec.co.jp/sustainability/report.html>

(2) Voluntary and Measurable Goals for Ensuring Diversity and Current Status Thereof

1. Promotion of women to managers

The Company is actively engaged in building an organization where motivated and capable women can enjoy a good working environment and actively participate in the workforce. Since fiscal 2013, the Company has been offering female leader development programs, along with striving to nurture female employees into managers and to expand the scope of their occupations and job duties. As of the filing date of this report, the Company has 2 female officers and the ratio of female managers stood at 6.0%. By fiscal 2025, the Company aims to achieve a ratio of female managers of 10% or more.

2. Promotion of foreign nationals to managers

The Company strives to secure talented human resources, regardless of nationality. For example, in the hiring process, the Company has set a certain target for the recruitment of non-Japanese nationals and actively hires such individuals. Currently, the Company does not yet have a foreign national manager. It will push ahead with human resources development to secure such managers.

3. Promotion of midcareer hires to managers

Midcareer hires account for 30% of the number of the Company's managers, almost the same percentage as the ratio of midcareer hires to all employees. Going forward, the Company will continue to promote midcareer hires to managers, with a view to ensuring even more diversity.

(3) Policies on Human Resource Development and Internal Environment Development to Ensure Diversity

1. Provide motivated and capable human resources with a diverse range of support for growth and opportunities to succeed

Personal growth is highly dependent on individual will and motivation. Indeed, such growth can be described as a personal priority. The Company provides capable employees who are eager to grow with a diverse range of support for growth and opportunities to realize their ambitions.

2. Developing an environment in support of diverse workstyles

The Company believes that it is important for it to develop an environment where employees can fully demonstrate their abilities with peace of mind. The workstyles that people desire are constantly changing with the times. To an appropriate extent, the Company will strive to develop an advanced workplace environment in support of diverse workstyles that meet the demands of the times.

[Principle 2.6 Roles of Corporate Pension Funds as Asset Owners]

To ensure appropriate operation of its defined benefit pension plan, the Company has established operational goals and a policy asset composition from a medium- to long-term standpoint, and entrusts its corporate pension to an investment management institution that accepts Japan's Stewardship Code. From an operational viewpoint, the Company assigns human resources with appropriate skills as heads of the finance and personnel departments and monitors the operational status of the operational institution. Moreover, to ensure transparency in regard to conflicts of interest, the Company notifies employees of the results of fund operations.

Amounts”, in the business report included in the convocation notice for the general meeting of shareholders, and the Annual Securities Report.

[Supplementary Principle 3.1.3 Initiatives on Sustainability]

Article 8. Policy on Sustainability

(1) Initiatives on Sustainability

THE ESPEC MIND, which is the Company’s corporate philosophy, contains two important beliefs. The first belief is that a corporation is a public institution. The second belief is that the Company should aim to enhance its value exchangeability with all its stakeholders. Guided by this corporate philosophy, the Company has formulated ESPEC Vision 2025, where it clearly defines what kind of company and team it wants to be in the future, and what kinds of businesses it will pursue to create value. By implementing THE ESPEC MIND and ESPEC Vision, the Company seeks to achieve sustainable growth and contribute to society. For information on policies and initiatives related to the Company’s sustainability, please see its Sustainability Report.

(2) Investments in Human Capital

The Company aims to maximize employees’ abilities and energy through efforts to develop and nurture high-quality human resources who are strongly ambitious. For information on initiatives related to investments in human capital, please see the Company’s Sustainability Report.

<https://www.espec.co.jp/sustainability/report.html>

(3) Investments in Intellectual Properties

Regarding patents and technology-based designs, the Company strategically submits applications and acquires and exercises rights, along with continuously making a certain level of investment in the development of new technologies and products. In addition, the Company has developed a security framework to protect intellectual properties. Moreover, the Company regularly holds Company-wide technology networking meetings to bring out the creativity and ingenuity of employees. Concurrently, the Company works to raise employee motivation and enhance technical capabilities by, for example, presenting awards through the ESPEC Idea Challenge program, and by providing incentives based on invention and design handling regulations. For details on specific research and development initiatives, please see “Research and Development Activities” in the Annual Securities Report.

[Supplementary Principle 4.11.3 Evaluating the Effectiveness of the Board of Directors]

Article 15. Evaluating the Effectiveness of the Board of Directors

To evaluate the effectiveness of the Board of Directors during fiscal 2021, the Board of Directors met in April 2022 to analyze and evaluate their effectiveness as a whole. As an evaluation method, the outside directors as the responsible officers, had all board members and Audit & Supervisory Board members fill out a questionnaire-style self-evaluation of the organization, functions,] and conduct of the Board of Directors, as well as the support it had received. Based on the results, follow-up interviews were conducted. As a result, it was judged that the effectiveness of the Board of Directors as a whole has been secured based on the confirmation that the Board had put in place an organization for fulfilling its function of supervising management, and that conditions within the Board contributed to discussions and exchanges of opinions in a free, uninhibited and constructive manner. Meanwhile, the Board of Directors confirmed the need to work on further enhancing, utilizing and providing timely information about proposals on agendas, as issues that must be addressed going forward. Looking ahead, we will continue to have discussions from various perspectives and endeavor to further improve the Board's effectiveness.

Results of the evaluation of the effectiveness of the Board of Directors have been posted on the Company's website.

Performance-linked Compensation

Supplementary Explanation for Applicable Items

In connection with the transition to a Company with Audit & Supervisory Committee at the 69th Ordinary General Meeting of Shareholders held on June 23, 2022, the Company abolished compensation limits for directors and Audit & Supervisory Board

members resolved at the 55th Ordinary General Meeting of Shareholders held on June 24, 2008. Based on this, the Company newly set the amount of monetary compensation for directors (excluding directors who are Audit & Supervisory Committee members) at up to 300 million yen annually, which is the same amount as before, and the amount of monetary compensation for directors who are Audit & Supervisory Committee members at up to 80 million yen annually, which is also the same amount as before.

In connection with the transition to a Company with Audit & Supervisory Committee, the Ordinary General Meeting of Shareholders held on June 23, 2022 resolved once again to determine the compensation amount and details pertaining to the Board Benefit Trust (BBT) (hereinafter, the “System”), which is a performance-linked share-based remuneration system for directors (excluding outside directors and directors who are Audit & Supervisory Committee members; hereinafter “Directors”), separately from the above compensation limits related to monetary compensation.

The substantive details of the System are identical to the details resolved at the 65th Ordinary General Meeting of Shareholders held on June 22, 2018.

The System is a performance-linked, share-based remuneration system under which the Company shares are acquired through a trust using funds contributed by the Company (hereinafter, the trust established under the System shall be referred to as “the Trust”), and the Company’s directors and executive officers who do not concurrently serve as directors (hereinafter, collectively referred to as “Directors, etc.”) are provided with the Company shares and the money equivalent to the market value of the Company shares (hereinafter referred to as the “Company shares, etc.”) through the Trust in accordance with the Regulations for Delivery of Shares to Officers stipulated by the Company.

In principle, Directors, etc. will receive the Company shares, etc. at the time of their retirement. The System will operate for four fiscal years, from the fiscal year ended March 31, 2019 to the fiscal year ended March 31, 2022 (hereinafter, the “initial applicable period”) with subsequent four fiscal year periods referred to as “applicable periods”). The limit of share-based remuneration is set in principle at 412 million yen (including up to 300 million yen for directors) for each applicable period.

Note: The above listed amount of share-based remuneration is the provision for share awards for directors (and other officers) recorded in the fiscal year under review.

Disclosure of Policy on Determining Remuneration Amounts and the Calculation Methods Thereof

(1) Policy for determining individual compensation for directors

- As a basic policy, the Company ensures that its decisions regarding the compensation of directors are fair and rational. At the same time, the compensation structure provides directors with suitable incentives for raising their motivation to achieve sustainable growth and improve corporate value over the medium to long term for the Company.
- Compensation of directors (excluding outside directors and directors who are Audit & Supervisory Committee members) shall consist of a fixed amount of basic compensation set based on considerations such as rank and tenure, and a performance-linked compensation set based on the Company's business performance in each fiscal year.
- Outside directors receive only a fixed amount of monetary compensation because of their non-executive status and from the standpoint of ensuring independence.
- The Board of Directors decides the amount of compensation for each director (excluding any director who is an Audit & Supervisory Committee member) following a review by the Nomination and Compensation Committee.
- Directors who are Audit & Supervisory Committee members receive only a fixed amount of monetary compensation because of their non-executive status and from the standpoint of ensuring independence. The Audit & Supervisory Committee decides the amount of compensation for each director who is an Audit & Supervisory Committee member following a review by the Nomination and Compensation Committee.

(2) Policy regarding type and ratios of compensation, etc. for directors

- The types of compensation for directors (excluding outside directors and directors who are Audit & Supervisory Committee members) and the ratios in principle are as follows: monetary compensation (fixed) 60%; monetary compensation (performance linked) 20%; share-based remuneration (fixed) 8%; and share-based compensation (performance-linked) 12%.
- Outside directors and directors who are Audit & Supervisory Committee members receive only a fixed amount of monetary compensation because of their non-executive status and from the standpoint of ensuring independence.

(3) Matters related to financial compensation, etc.

1. Fixed compensation

The fixed compensation component of monetary compensation is determined in accordance with the "Payment Standard for Director Compensation," which is deliberated by the Nomination and Compensation Committee. The payment is made by paying 1/12 of the fixed compensation component as basic monthly salary on a fixed day each month.

2. Performance-linked compensation

The performance-linked component of monetary compensation is determined by the consolidated operating profit margin for each fiscal year, which served as an indicator of the Company's earning capability consistent with its medium-term management plan. The calculation is made by multiplying the basic monthly salary by a payment multiple deliberated by the Nomination and Compensation Committee. The payment is made by paying 1/12 of the performance-linked component on a fixed day each month starting from July of the following fiscal year.

(4) Matters related to share-based remuneration (non-monetary compensation, etc.)

For share-based remuneration (non-monetary compensation, etc.), the Company has introduced the Board Benefit Trust (BBT), a performance-linked share-based remuneration system, in accordance with the resolution of the 65th Ordinary General Meeting of Shareholders, held on June 22, 2018.

The system is intended to realize a healthy incentive for sustainable growth, as required under the corporate governance code.

1. Fixed compensation

The fixed compensation component of share-based remuneration is calculated based on position points determined in accordance with position. The points allotted to each director are exchangeable at the rate of one of Company's common shares per point when payment of the Company's shares, etc. is made.

2. Performance-linked compensation

The performance-linked compensation component of share-based remuneration is calculated by multiplying the basic points determined based on position by a performance-linked coefficient. The performance-linked coefficient is calculated based on a simple average of the achievement rates on consolidated net sales and operating profit targets for each business year (figures announced in the consolidated performance forecast in the Company's consolidated financial results), as

indicators of the Company's earning capability consistent with its medium-term management plan.

The time for receiving the share-based remuneration described above in 1. and 2. is upon the retirement of the director, in principle. The total number of allotted points up to that time are converted into a number of shares, which is paid to the director. To secure funds for payment of taxes, 25% of the paid shares are converted into cash at market value at the time of retirement, and paid to the director.

(5) Matters related to the resolution of the general meeting of shareholders regarding compensation, etc. for directors

The amounts of monetary compensation for directors of the Company were resolved at the 55th Ordinary General Meeting of Shareholders, held on June 24, 2008, as a total amount of up to 300 million yen annually for directors and a total amount of up to 80 million yen annually for Audit & Supervisory Board members. In connection with the transition to a Company with Audit & Supervisory Committee at the 69th Ordinary General Meeting of Shareholders held on June 23, 2022, the Company has abolished those compensation limits for directors and Audit & Supervisory Board members. Based on this, the Company newly set the amount of monetary compensation for directors (excluding directors who are Audit & Supervisory Committee members) at up to 300 million yen annually, which is the same amount as before, and the amount of monetary compensation for directors who are Audit & Supervisory Committee members at up to 80 million yen annually, which is also the same amount as before. As of the end of the Ordinary General Meeting of Shareholders, the number of directors (excluding directors who are Audit & Supervisory Committee members) was seven (including two outside directors) and the number of directors who are Audit & Supervisory Committee members was three (including two outside directors).

In addition, the 65th Ordinary General Meeting of Shareholders, held on June 22, 2018, resolved to introduce a performance-linked share-based remuneration system for directors (excluding outside directors), separately from the above compensation limit for directors. Based on the Regulations for Delivery of Shares to Officers under the system, the Company has contributed 300 million yen (for a period of four fiscal years). The Company abolished the compensation limit associated with the system for directors (excluding outside directors) in connection with the transition to a Company with Audit & Supervisory Committee at the 69th Ordinary General Meeting of Shareholders held on June 23, 2022. The Ordinary General Meeting of Shareholders resolved once again to determine the compensation amount and details of the system for directors (excluding outside directors and directors who are Audit & Supervisory Committee members). As of the end of the Ordinary General Meeting of Shareholders, the number of directors (excluding outside directors and directors who are Audit & Supervisory Committee members) was five.

(6) Matters related to delegations concerning determination of individual compensation, etc. of directors

In the fiscal year under review, the Board of Directors meeting held on May 13, 2022 resolved to delegate the determination of the fixed compensation component of individual monetary compensation of each director to the representative director and chairperson, Masaaki Ishida, in accordance with the determination policy deliberated by the Nomination and Compensation Committee. The reason for delegating this authority is that the representative director and chairperson, who also serves as the chairperson of the Board of Directors, is deemed to be the most suitable person for evaluating the businesses overseen by each director while taking an overall view of the Company's performance.

The compensation of the Company's officers is disclosed in the business report of the convocation notice for the Ordinary General Meeting of Shareholders and the Annual Securities Report.

3. Status of Measures to Ensure Due Respect for Stakeholders

	Supplementary Explanation
Establishment of Internal Rules Stipulating Respect for the Position of Stakeholders	In December 1999, the Company formulated THE ESPEC MIND to guide all manner of decision-making and activities. This document systematically codifies the Company's values as a business enterprise based on two key themes: having a high relevance to society and universal appeal. Based on the belief that "A company is a public entity of society," THE ESPEC MIND aims to further enhance the Company's value exchangeability with all stakeholders. Guided by this basic philosophy, the Company is pushing ahead with business activities that respect the position of various stakeholders.
Implementation of Environmental Preservation Activities and CSR Activities, etc.	Moreover, the Company has established an ESPEC Code of Conduct and Behavior Guidelines, which specifically states the Company's corporate conduct principles and behavior standards applicable to all corporate officers and employees based on the philosophies contained in THE ESPEC MIND. By complying with and proactively practicing these aforementioned philosophies, code, guidelines, principles, and standards, the Company is working to enhance its CSR activities. The Company positions environmental activities as one of

	its highest corporate management priorities. The Company has formulated a Company-wide Environmental Policy and Environmental Declaration, and is making proactive efforts to protect, preserve and enhance the global environment. The Company announces these activities via its Sustainability reports and its website, in order to clearly convey its activities to all stakeholders.
Formulation of Policies, etc. on Provision of Information to Stakeholders	ESPEC aims to deepen understanding of ESPEC among all of its stakeholders and build closer relationships of trust, thereby ensuring that its corporate value is fairly assessed. In its IR Policy and information disclosure rules, ESPEC recognizes that it is an important responsibility of management to disclose information properly and promptly. Accordingly the Company has made a commitment to provide accurate corporate data consistently, in good faith, fairly and in a timely manner, irrespective of whether business performance is favorable or not.

IV. Matters Concerning the Internal Control System

1. Basic Views on Internal Control System and Status of Development

(1) Basic views

The Company's basic philosophy on internal control seeks to retain the trust and confidence of stakeholders and society as a whole by developing the necessary systems and frameworks to ensure decision-making and business execution are undertaken appropriately in compliance with laws and regulations as well as the Company's Articles of Incorporation and internal rules. In addition, the Company develops and maintains internal systems that allow for checks and self-correcting mechanisms to function effectively with respect to the operation of the aforementioned systems and frameworks.

Moreover, the Company seeks to develop appropriate internal control systems according to the size and circumstances of each of its Group companies.

(2) Progress with establishment

1. In regard to the compliance system, the Company formulated THE ESPEC MIND as its corporate philosophy in December 1999 and is promoting activities for complying with laws and regulations as well as the Articles of Incorporation and internal rules of ESPEC and its Group companies. In April 2006, ESPEC established an Internal Control Committee with an eye to developing an internal control system for ESPEC and each Group company, as well as internal rules, an internal desk (Audit & Supervisory Committee members and the internal audit division) and external desk (corporate attorney) for internal whistleblowing, in conjunction with the enactment of Japan's Whistleblower Protection Act. Initiatives for strengthening the compliance system further include the formulation of an ESPEC Code of Conduct and Behavior Guidelines in May 2006. Furthermore, a desk for receiving whistleblowing reports from external stakeholders was established in December 2006. To further strengthen Group governance, the Company newly established an Internal Control System Committee in November 2020, dissolving the existing Internal Control Committee. In May 2022, the Internal Control System Committee deliberated on revising the basic policy on establishing an internal control system, which the Company's Board of Directors resolved to partially revise during a meeting held in June 2022.
2. As a part of its risk management system initiatives, the Company established a Risk Management Committee to strengthen risk management in August 2006, after having formulated its internal rules for crisis management in February 2002. To manage information, the Company formulated its administrative rules for information security in April 2005 with the goal of ensuring information security and making effective use of information, and worked to promote appropriate management including for the acquisition, recording, safekeeping, use, and disposal of various information. In December 2019, the Company acquired the international certification standard ISO 27001 in Information Security Management Systems.
3. As for the system for disclosing corporate information, the Company formulated its rules for information disclosure in March 2005 and established an Information Disclosure Committee from the fiscal year ending March 31, 2006 with an eye to enhancing timely and appropriate disclosure. Since then, this committee has met as needed to appropriately manage the use of information, including for discretionary disclosure.

2. Basic Views on Measures for Eliminating Anti-Social Forces and Status of Development

(1) Basic views

As a basic policy on the exclusion of anti-social forces, the Company will resolutely stand up against and refuse any involvement with and all illegitimate requests from anti-social forces and groups that pose a threat to social order and safety and obstruct sound economic activities.

(2) Progress with exclusion

1. Establishment of a supervisory department and officer responsible for refusing illegitimate requests

The Company has designated the Administration Headquarters and the director in charge thereof as the supervisory department and the officer responsible for refusing illegitimate requests, respectively. Furthermore, the Company has deputized several management personnel within the Administration Headquarters as officers in charge of refusing illegitimate requests from anti-social forces and groups. This system is in place to ensure consistent responses under a unified policy in case the supervisory officer is not on hand.

2. Coordination with external specialists

As a member of the Osaka Prefecture Corporate Defense Council, which aims to defend corporations in coordination with the police, ESPEC is working in unison with other members of the council for the abatement of brute force directed against companies.

3. Collection and management of information

ESPEC is also striving to collect and exchange relevant information with the Osaka Prefecture Corporate Defense Council and its other member companies. The Company has built a database for managing the information on anti-social forces it obtains from the council and other sources or collects by its own means.

4. Formulation of a response manual

Furthermore, in accordance with the basic policy on the exclusion of anti-social forces, ESPEC has formulated a Response Manual for Countering Anti-Social Forces that it has disseminated throughout the Company. The manual sets forth specific response measures against anti-social forces.

5. Implementation of training activities

Moreover, ESPEC provides training as called for to personnel at domestic business operations and Group companies placed in charge of severing ties with anti-social forces, utilizing printed and video teaching materials produced by the Osaka Prefecture Center for Promoting the Banishment of Brute Force.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures

Not Adopted

Supplementary Explanation for Applicable Items

ESPEC received the approval of its shareholders at the 55th Ordinary General Meeting of Shareholders held on June 24, 2008 for the introduction of countermeasures against the large-scale purchase of its shares ("anti-takeover measures"). Subsequently, the 61st Ordinary General Meeting of Shareholders held on June 25, 2014 resolved to extend the anti-takeover measures ("the extension"). The period of validity of the extension was up to the time of the conclusion of the 64th Ordinary General Meeting of Shareholders to be held in June 2017. At a meeting held on May 12, 2017, the Board of Directors resolved not to seek another extension after the expiration date, but to abolish it.

Even after the abolition of the extension, ESPEC will continue to advance and implement its initiative for maintaining and enhancing both corporate value and shareholder returns. In addition, regarding people who intend to make a large-scale purchase of the Company's shares, shareholders are requested to provide necessary and sufficient information to enable the Company to properly determine the acceptability of such people. In parallel, the Company is enacting appropriate measures based on Japan's Financial Instruments and Exchange Act, the Companies Act of Japan, and other relevant laws, including the disclosure of the opinions of the Board of Directors and the securing of sufficient time for shareholders to fully review the situation.

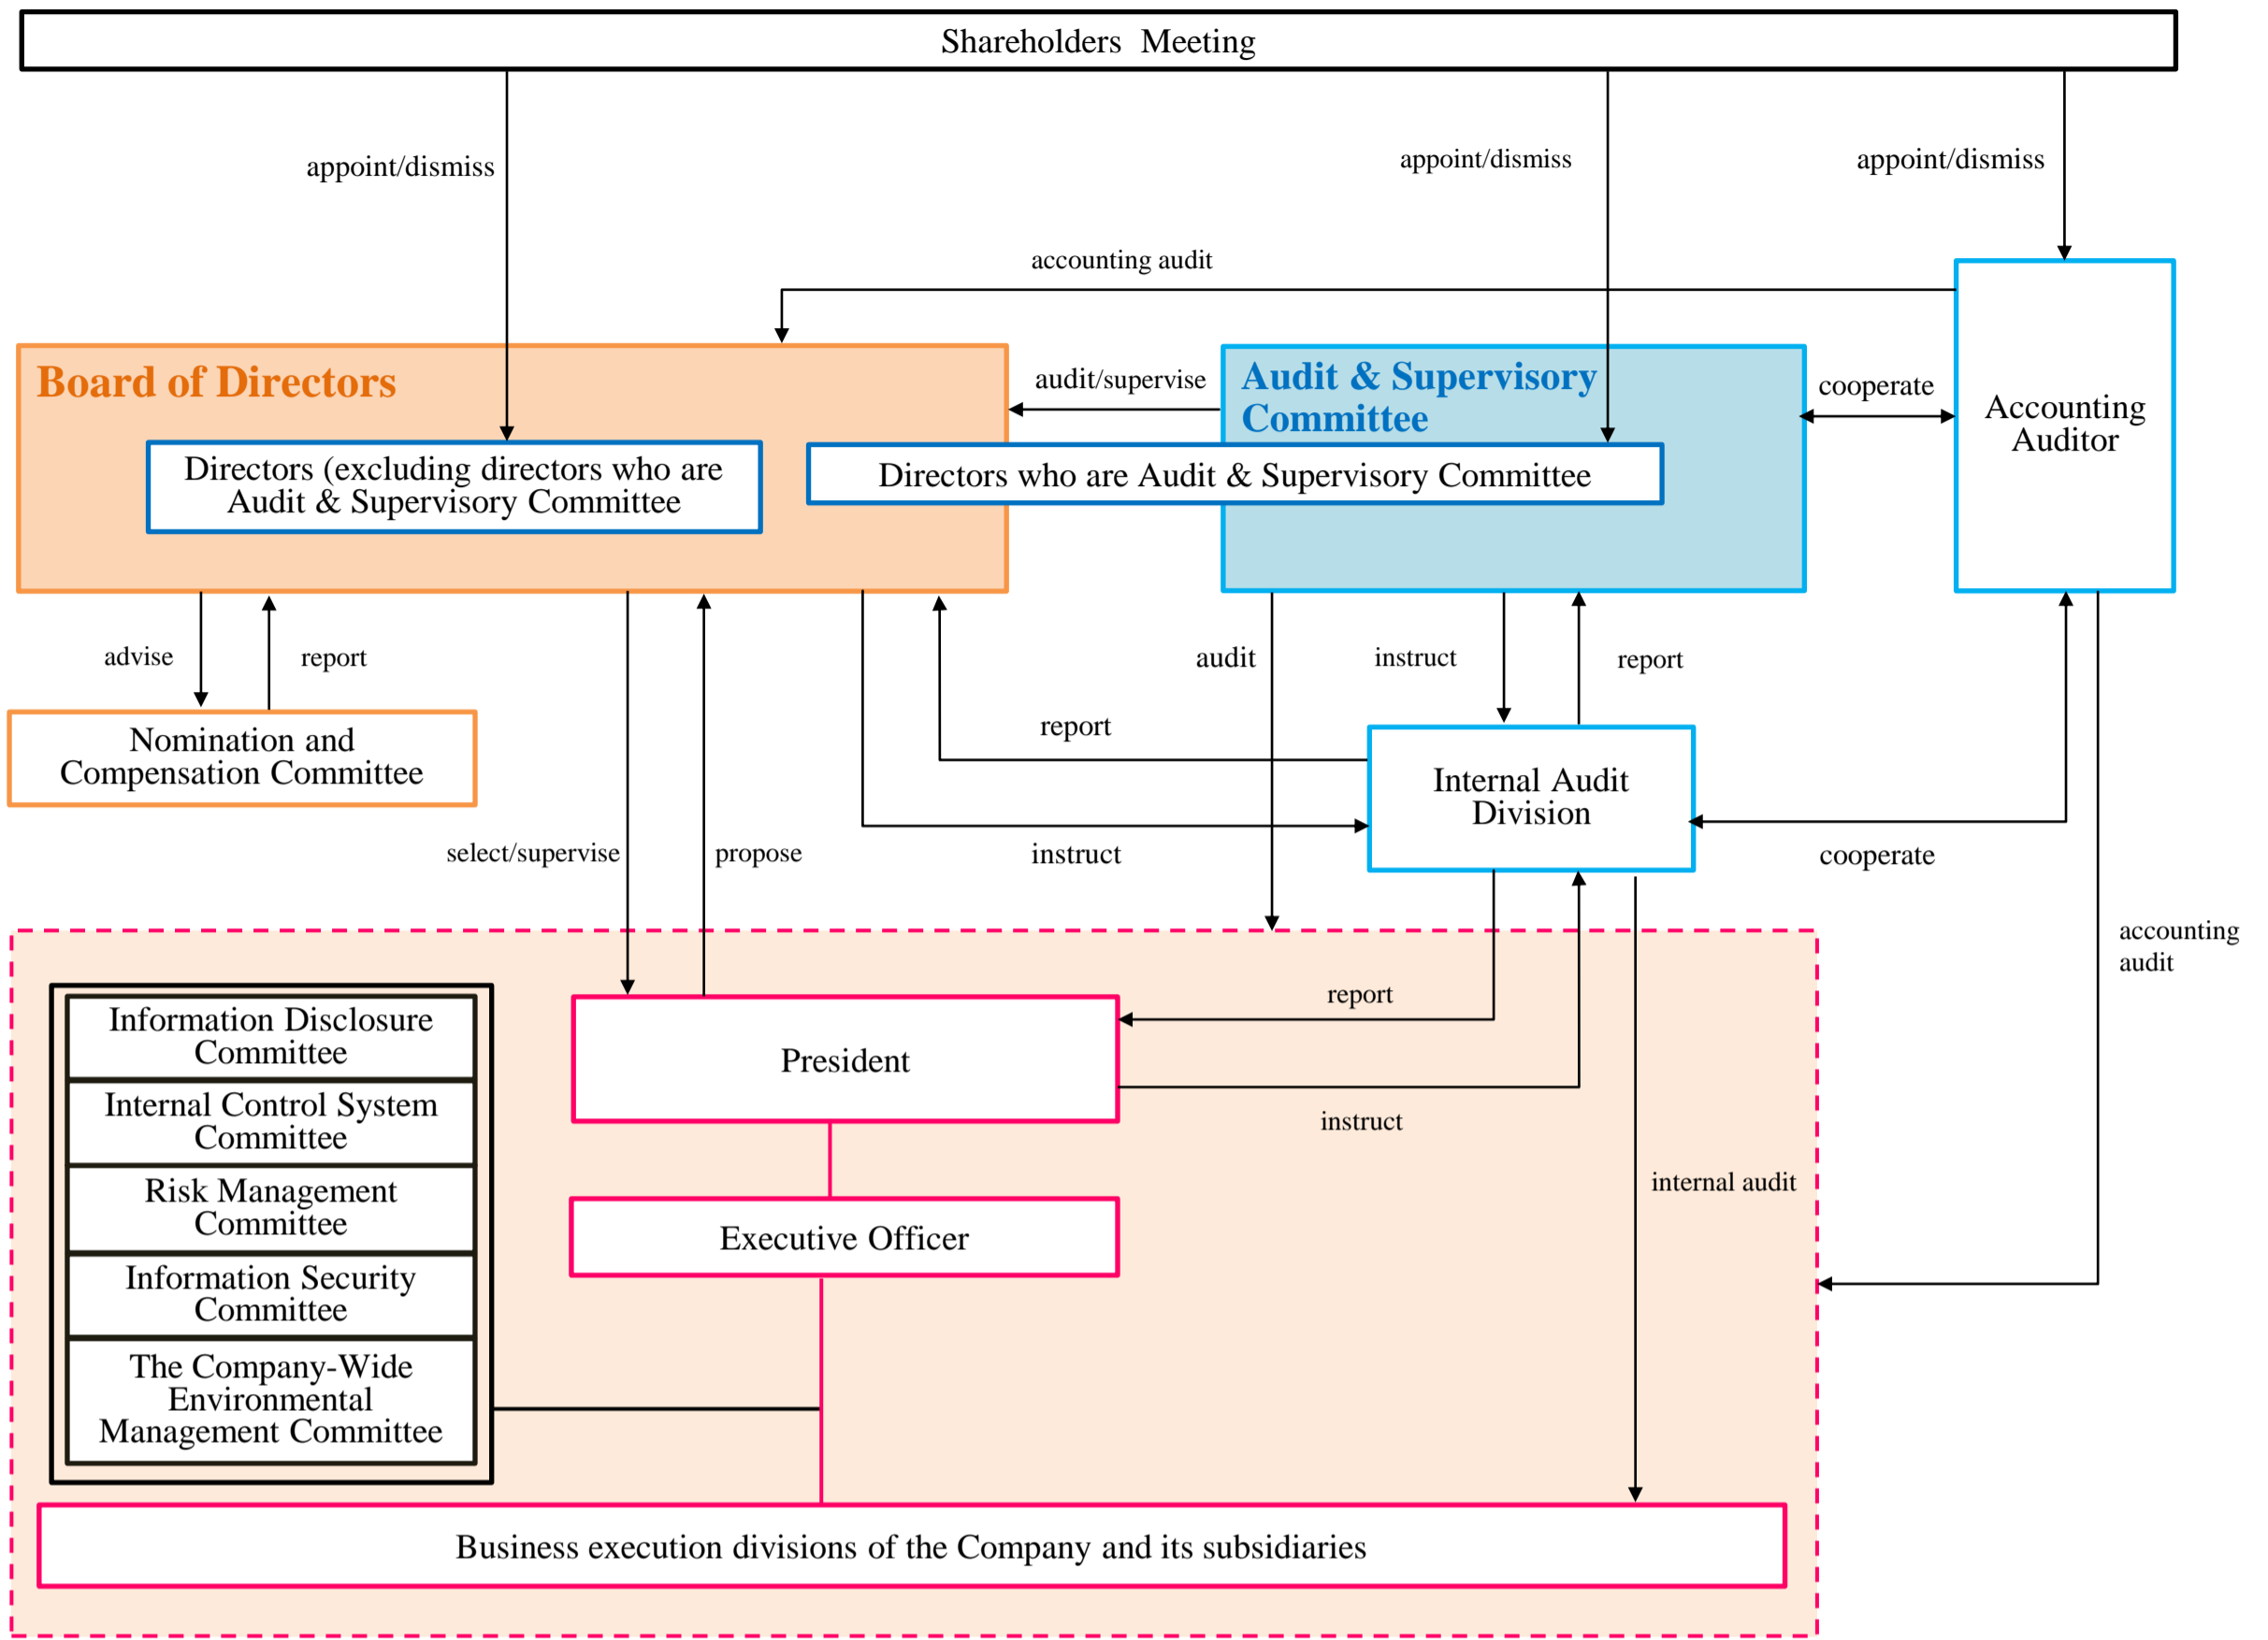

2. Other Matters Concerning the Corporate Governance System
