The following summarizes matters related to corporate governance of Mizuho Financial Group, Inc. (“MHFG” or “we”) as required to be disclosed pursuant to Japanese disclosure rules.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

Mizuho group is introducing the following initiatives to prevent further system failure incidents.

On November 26, 2021, MHFG and Mizuho Bank, Ltd. (“Mizuho Bank”), received a business improvement order from the Financial Services Agency of Japan, pursuant to the provisions of Article 52-33, Paragraph 1 and Article 26, Paragraph 1 of the Banking Act of Japan. In accordance with the order, MHFG and Mizuho Bank, Ltd., submitted a business improvement plan to the Financial Services Agency of Japan on January 17, 2022. We will continue to steadily implement our measures to prevent further incidents in accordance with the business improvement plan and thereby further enhance our multilayered system failure response capabilities. In addition, on November 26, 2021, Mizuho Bank received a corrective action order from the Ministry of Finance of Japan, pursuant to the provision of Article 17-2, Paragraph 1 of the Foreign Exchange and Foreign Trade Act of Japan, in regard to the performance of the confirmation obligations of banks under Article 17 of said act. Accordingly, Mizuho Bank formulated measures to improve operations and prevent further incidents, established an audit framework, undertook other initiatives in line with such order and submitted a report on these initiatives to the Ministry of Finance of Japan on December 17, 2021. Beyond the steady implementation of the measures to prevent further incidents, Mizuho Bank is reassessing the causes for the system failures and building an appropriate structure for the internal management systems in relation to foreign exchange laws and regulations.

By the end of September 2022, we had implemented all of the measures in our business improvement plan as planned, and steadily improved our human and organizational response capabilities to handle the stable operation of our systems, and respond to customers in the event of a failure. In terms of “preventing system failures”, we have selected critical systems and completed inspections for major failure risks. As for “improving our ability to respond to system failures”, we have checked our contingency plan and conducted training for important settlement operations, and confirmed our response to customers in the event of a failure. We will continue to conduct regular inspections and training to prevent system failures and respond promptly to customers when they occur. We have already implemented the framework established in each item, developed infrastructure, and strengthened the framework for measures relating to "leveraging customer and sales sites opinions", "IT governance", and "strengthening our human and organizational response capabilities." In the future, based on communication through on-site locations and our headquarters, we will deepen our understanding of the actual situation, and through consultations concerning measures to be taken, we will work

timelessly to implement such measures.

Mizuho group will, once again, be more conscientious of our social role and public mission as a financial group and devote all of our energies on our commitment to a customer-focused mindset and the stabilization of our operations with the aim to be a company that is beneficial to our customers and society. All of our directors, executive officers and employees will make concerted efforts to become a company that is truly trusted by our customers and society.

Thus we operate Mizuho's business giving due regard to creating value for diverse stakeholders and realize improved corporate value through continuous and stable corporate growth. As a result, we fulfill our social role and mission by contributing to internal and external economic and industrial development and prosperity of society.

For that purpose, we, as a holding company, play an active role in the management of our group; take on a planning function with respect to strategies and policies of our group and a controlling function with respect to each company of our group as part of its business management; establish a corporate governance system consisting of the Board of Directors at its core, which has received the mandate of the shareholders; and ensure that self-discipline and accountability of management of our group is fully functioning.

We have adopted a Company with Three Committees in order to realize the basic policy regarding our corporate governance system shown below:

- 1) Secure the effectiveness of corporate governance by ensuring the separation of supervision and management and making supervision of the management such as the execution of duties, etc., by executive officers the primary focus of the Board of Directors.
- 2) Make it possible for the management to make swift and flexible decisions and realize expeditious corporate management by the Board of Directors' delegating decisions on business execution to executive officers.
- 3) Utilize committees, etc., comprising mainly of outside directors who are independent from the management of Mizuho, and secure transparency and fairness in decision-making processes and the effective supervision of the management.
- 4) In the course of designing the organizations, etc., comprising the corporate governance system that realizes matters set out in items 1 through 3, the Company is to actively adopt operations and practices that are recommended at a global level regarding corporate governance as well as compliance with Japanese and foreign laws and regulations as a financial group expanding across the globe.

Regarding the fundamental perspectives, framework and governing policies of our corporate governance system (Board of Directors, Directors, Nominating Committee, Compensation Committee, Audit Committee, voluntary committee, etc., Mizuho's group governance and our advisor system), we have established the "Corporate Governance Guidelines" as high-level regulations superseded only by the Articles of Incorporation. For your reference, we put it on our website at https://www.mizuhogroup.com/who-we-are/governance/governance/g_report#guideline.

Reasons for Non-compliance with the Principles of the Corporate Governance Code

We are implementing all the principles of the Corporate Governance Code.

Disclosure Based on the Principles of the Corporate Governance Code

[Supplementary Principle 1.1.1] (Analysis of Reasons and Causes for Opposition to the Company Proposal)

At the 20th Ordinary General Meeting of Shareholders held on June 21, 2022, we presented a proposal entitled “Proposal 1: Appointment of twelve (12) directors”. While the proposal was adopted, a considerable number of votes were cast against the appointment of certain directors. We have analyzed the main factors for this to be as follows.

- Failure to obtain the understanding of some shareholders concerning the societal impact of the series of IT system failures and other incidents, and the supervisory line’s efforts to prevent further incidents.
- Failure to obtain the understanding of some shareholders concerning the high ratio of cross-shareholdings within our net assets as of the end of March 2022 and our reduction targets going forward.

In light of the above analysis, we will steadily implement our business improvement plan, and we will continue to undertake evaluations and improvements towards raising the effectiveness of our supervisory functions group-wide.

We will continue our sales of cross-shareholdings going forward, and will look into setting our next targets, including a medium- to long-term sales policy.

In addition, we will endeavor to proactively disclose information on the progress of these improvements and engage in wide-ranging communication with all of our stakeholders.

(See Supplementary Principle 4.11.3 Preconditions for Board Effectiveness regarding recognition of issues and future initiatives based on the evaluation of the effectiveness of the Board of Directors.)

[Principle 1.4] (Cross-Shareholdings)

“Policy Regarding Mizuho Financial Group’s Cross-shareholdings of Other Listed Companies”

- As a basic policy, unless we consider these holdings to be meaningful, MHFG and the Three Core Companies* will not hold the shares of other companies as cross-shareholdings. This reflects factors including the changes in the environment surrounding Japan’s Corporate Governance Code and the potential impact on our financial position associated with stock market volatility risk.
- We consider cross-shareholdings to be meaningful if they contribute to the maintenance and improvement of the corporate value of issuers and the Mizuho group based on their growth potential, outlook, or revitalization perspectives or as a result of studies on present and future economic feasibility and profitability.
- We will regularly and continually examine whether shares held as cross-holdings are meaningful, and we will dispose of holdings determined to be deficient in meaning with due regard to the impact on the market and other matters. Through dialogue with the issuing companies, we will also reduce even those holdings we consider to be meaningful.

“Standards Regarding the Exercise of Voting Rights Associated with Cross-shareholdings”

- MHFG and the Three Core Companies will exercise voting rights after comprehensive consideration of whether an issuing company has established effective corporate governance and is making appropriate decisions to improve its corporate value over the medium to long term. We will also consider any impact to our own corporate value. Further, if we are unable to agree on proposals made by issuing companies, we may consider disposing of our share holdings.
- We will consider specific proposals through dialogue with the issuing companies and studies conducted by our own specialized departments. In particular, when proposals such as those listed below could affect corporate value or shareholder interests, we will decide on the exercise of voting rights after comprehensive consideration of the purposes of the proposals and the issuing company's approach to improving corporate value.
 - Proposals to re-elect directors and auditors, grant retirement benefits, pay bonuses and increase compensation amounts when an issuing company has posted a loss or paid no dividends for a certain period of time, or a corporate scandal has occurred.
 - Proposals to re-elect representative directors when profit on capital is going through a long-term slump or there are less than the required number of independent directors after convening a general meeting of shareholders.
 - Proposals to appropriate retained earnings when there are ongoing low dividend distributions or when such proposals, if resolved, may adversely affect financial soundness.
 - Proposals to adopt or continue anti-takeover measures.
 - Proposals for reorganization such as through a merger.
 - Proposals for capital strategies, including issuing new shares.
 - Proposals to grant stock options to dilute overall shares.
 - Proposals to change articles of incorporation that may impact shareholder value.
 - Proposals based on shareholder proposals.

*: "Three Core Companies" refers to Mizuho Bank, Ltd., Mizuho Trust & Banking Co., Ltd. and Mizuho Securities Co., Ltd. (the same applies hereinafter)

MHFG has published an overview of assessment results of cross-shareholdings on its website at <https://www.mizuhogroup.com/who-we-are/governance/governance/structure/hold>.

[Principle 1.7] (Related Party Transactions)

When MHFG engages in transactions with its directors or major shareholders (i.e., related-party transactions), in order to ensure that such transactions do not harm the interests of the Company or the common interests of its shareholders, MHFG has established the following system:

- As a result of a resolution of the Board of Directors, MHFG has established the "Mizuho Code of Conduct" and the "Compliance Manual" to prohibit conflicts of interest conduct, bribery of shareholders in relation to exercise of their rights, and favors to shareholders, and to disseminate and ensure compliance with an arm's-length relationship in related-party transactions. The Board of Directors, Audit Committee, Executive Management Committee and the President & CEO receive reports and perform monitoring, with respect to the status of compliance, etc., periodically and as necessary.
- When directors or executive officers engage in transactions in the line of business of MHFG or transactions that have conflicts of interest, MHFG has expressly provided in the "Regulations of the Board of Directors," which was established as a result of a resolution of the Board of Directors, that

such transactions are matters subject to approval by the Board of Directors, which are monitored at the Board of Directors through approval of or report on each actual transaction and audited at the Audit Committee pursuant to the “Audit Policies of the Audit Committee.”

- When directors or executive officers engage in transactions in the line of business of MHFG or transactions that have conflicts of interest and the Board of Directors approves the matters, the legal risk department of MHFG conducts legal review. Additionally, the legal risk department also conducts legal review, as necessary, on matters concerning transactions between MHFG and its group company.

MHFG has been actively introducing initiatives to enhance diversity within our workforce throughout the world for a long time. We attach great importance to creating an environment of greater mutual inspiration, understanding, and respect among employees with different attributes and backgrounds, such as nationality, gender, and values.

In particular, in order to more effectively reflect diverse perspectives, thinking and values in the formulation of fundamental strategies, our decision-making and our day-to-day business, MHFG will promote programs that encourage appointment of women, international talent and mid-career hires to the management or other managerial positions.

[Supplementary Principle 4.1.3] (Succession Planning)

1. Basic concept and overview

- We are devoting ample time and resources to succession planning in order to appoint optimum personnel to positions such as Group CEO, principal management members who support the Group CEO (e.g. our in-house company heads) as well as top management of the Three Core Companies, with the purpose of achieving sustainable growth for the entire Group and improving corporate value over the medium- to long-term. In addition, in preparation for any unforeseen circumstances of the Group CEO, we also consider candidates for the Group CEO “after the next.”
- Implementation of and the status of operation of succession planning for the Group CEO and other positions are reported to meetings of the Nominating Committee and “Human Resources Review Meeting” (collectively “Nominating Committee, etc.”).
- The core elements of the succession planning for the Group CEO and other positions are deliberation at meetings of the Nominating Committee, etc. on (i) the personnel requirements expected for each position, (ii) timing of the succession, (iii) setting up a candidate pool and taking the time to properly train candidates (including the necessary career selection for candidates), (iv) the personalities of the candidates members of the Nominating Committee, etc. have comprehended and (v) the decisions on candidates, etc., by taking into consideration the current Group CEO’s opinion.
- The Nominating Committee, etc. discusses the selection of the Group CEO in full based on personalities and disregards formalistic human resource management such as annual promotion based on seniority, by utilizing multifaceted personnel evaluation information including a 360-degree evaluation of the candidate and third-party evaluation by an external institutional evaluator, thoroughly profiling candidates and taking into consideration the opinion of the current Group CEO. The current Group CEO fully cooperates with the Nominating Committee, etc. for the committee to gain an understanding of the personality of the candidates by, for example, establishing a process to directly grasp the abilities and qualifications etc., of

candidates.

- The Nominating Committee makes a decision on the appointment of a director who concurrently serves as the Group CEO while ensuring objectivity and transparency of the process.

2. Personnel requirements of the Group CEO

- Our Group CEO is expected to satisfy the following requirements as the head of the leading Japanese financial services group with a global presence and a broad customer base.
 - 1) The Group CEO is required to possess both strong will and humility, and needs to be an individual who is open, fair, sincere and honest and is trusted and relied upon by various stakeholders on global-basis.
 - 2) The Group CEO needs to be a leader who can lead the Group and accomplish sustainable growth even in the face of uncertain environment or difficult situations, by confronting them decisively with his/her unshaken faith and flexibility to address changes.
 - 3) The Group CEO is required to possess extensive experience and knowledge, and the ability to foresee a new era. He/she needs to be an adversary who devotes his/her passion to create new value or make changes that contribute to our customers or the future of the economy and society.
- In addition to the above, in appointing the Group CEO, we examine required qualifications or abilities that we emphasize or further take into consideration after considering the business environment surrounding us at the time of succession, recognition of the era we are in based on such business environment as well as the direction of the group strategies.

3. Regarding the Group CEO succession announced in January 2022

- Mizuho Financial Group hereby announced that, on January 17, 2022, Managing Executive Officer Masahiro Kihara was officially selected as the successor to Member of the Board of Directors and President & Group CEO Tatsufumi Sakai (“Group CEO”; titles are current as of January 2022). Mr. Kihara was appointed as President & Group CEO on February 1, 2022 and as a member of the Board of Directors at the ordinary general meeting of shareholders held on June 21, 2022.

【Background to the Group CEO succession】

- As announced on November 26, 2021, from the viewpoint of clarifying management’s responsibility for the series of IT system failures at Mizuho Bank, Group CEO Sakai submitted a formal request to resign from his position to the Board of Directors and Nominating Committee, and the Board of Directors and Nominating Committee accepted his resignation.

【Role of the Nominating Committee】

- In the Group CEO succession process, the Nominating Committee carried out its legally determined function of deciding candidates for membership of the Board of Directors. In addition to this function, the Nominating Committee also served the role usually filled by the Human Resources Review Meeting, which is chaired by the Group CEO. The Board of Directors authorized the Nominating Committee to take on the said role in order to ensure objectivity in the selection process for the Group CEO position. Consequently, the Nominating Committee deliberated on the selection of the next Representative Executive Officer / President & Group CEO as well.
- Mizuho Financial Group’s Nominating Committee, including the committee chair, is comprised entirely of outside directors with an adequate level of independence from the management of the Mizuho group.
- At Mizuho Financial Group, we have been disclosing the criteria for the Group CEO position as part of this report since December 2018 (see Supplementary Principle 4.1.3: Succession planning), and our

Nominating Committee and Human Resources Review Meeting have been monitoring and discussing the state of our candidate pool. The members of the Nominating Committee regularly further their understanding of strategies and challenges in each department by holding discussions with group management through committee meetings and other opportunities. This also enables them to keep track of the abilities and attributes of management.

【Group CEO selection process】

- In light of the resignation of the Group CEO and the challenges faced by the Mizuho group, the Nominating Committee engaged external evaluators for extensive review on the criteria for the Group CEO position, as described below. The committee conducted multifaceted evaluations of candidates carefully selected from the talent pool, which included talent from outside of Mizuho, and interviewed each candidate multiple times. At its meeting on January 17, 2022, having concluded thorough deliberations, the committee decided that it would forward Mr. Kihara as a candidate for membership of the Board of Directors at the ordinary general meeting of shareholders to be held in late June 2022, under the assumption that Mr. Kihara will become the next Group CEO. It also decided that it would select Mr. Kihara as the Group CEO at the Board of Directors meeting to be held on the same day.

【Criteria for the Group CEO position (criteria of focus)】

- In considering what attributes and abilities to focus on or otherwise include in its search for the next Group CEO, the Nominating Committee took into account the approach to the position criteria outlined in Supplementary Principle 4.1.3: Succession planning (2) 1) to 3); the current state of affairs in the world; the changes in the business environment surrounding Mizuho; the direction of group strategy going forward; and other factors.
Following is an outline of the priorities the Nominating Committee identified through the above process.
 - It is critical that the new Group CEO treat the series of IT system failures and other issues with the utmost seriousness, be fully committed to our customers, and ensure stable operations, while also assisting the group in turning over a new leaf and leading the entire group in a more positive direction.
 - It is essential that the new Group CEO maintain and advance our strategies and reforms for our transition to the next generation of financial services.
- Based on these priorities, the Nominating Committee determined that the next Group CEO should be a professional who can accurately assess the current situation, coordinate among the Mizuho group, elevate the discipline and capacity of our organization, understand the direction of overall group strategies and reforms, and apply these skills to formulating and executing group strategies going forward. With this vision for the candidate established, the committee decided to focus its selection on the candidates' ability to drive change and innovation, lead the organization, persevere, exercise impact and influence, think insightfully, and demonstrate curiosity.

【Selection of the Group CEO】

- Mr. Kihara possesses the abovementioned attributes and abilities. He also has a broad outlook, rational judgment, outstanding decisiveness, and excellent management skills. Above all, he is a leader who can motivate his colleagues and guide Mizuho into the future. Within the Mizuho group, he has worked in corporate planning, financial planning, risk management, investment banking coordination, and markets coordination, among other areas. This has given him wide-ranging business experience and made him intimately familiar with all of our operations.
- For these reasons, the Nominating Committee has unanimously agreed that Mr. Kihara is the most suitable candidate to become the next Group CEO at this time.

[Principle 4.8] (Effective Use of Independent Directors)

The Board of Directors shall not have more than fifteen (15) directors, which is the number of directors prescribed under the Articles of Incorporation. [Supplementary Principle 4.11.2] (Preconditions for Board Effectiveness)

With regard to the status of major concurrent offices of candidates for directors and directors, MHFG provides such information on reference materials of the “notification of general meeting of shareholders” and other disclosure documents such as the Business Report on an annual basis.

For the status of directors’ major concurrent positions as of the date of this report, see “II. 1. 【Matters regarding outside directors】 —Relationship with the Company (2).”

[Supplementary Principle 4.11.3] (Preconditions for Board Effectiveness)

The Board of Directors shall perform an analysis and evaluation of the effectiveness of the Board of Directors as a whole each year and shall disclose a summary of the results. The Board shall also have a third-party organization perform an evaluation at least once every three years. The operational policies for the evaluation of the effectiveness of the Board of Directors are stated in Article 9 Paragraph 4 of the Corporate Governance

Guidelines.

1. Evaluation methodology and process

We utilized a third-party organization for the previous fiscal year's effectiveness evaluation, and did so again for the FY2021* evaluation. This served to account for new initiatives towards further enhancement of our supervisory functions, which are currently underway as part of the business improvement plan made in response to the series of IT system failures. The evaluation consisted of a questionnaire survey given to all directors (asking them to evaluate each item on a 4-point scale (with some exceptions) and to provide comments), and of interviews of approximately one hour each with individual directors. The evaluation was made based on the expert insight of the third-party organization that reviewed the survey and interviews. An Outside Director Session discussed the evaluation results, and the Chairman of the Board of Directors reported the results, issues, and direction of future initiatives to the Board of Directors.

Mizuho Bank is also implementing initiatives towards further enhancement of its supervisory functions as part of the business improvement plan. Consequently, in line with Mizuho Financial Group, Mizuho Bank employed a third-party organization to evaluate the effectiveness of its Board of Directors. An Outside Director Session discussed the evaluation results, and the Chairman of the Board of Directors reported the results, issues, and direction of future initiatives to the Board of Directors.

*The period subject to evaluation was June 2021 to June 2022.

Reference: Main evaluation items

- 1) Mizuho Financial Group's governance structure / overall effectiveness of the Board of Directors
 - Role and function of the Board of Directors
 - Structure and operation of the Board of Directors
 - Status of discussions on key supervisory topics by the Board of Directors
- 2) Structure, role, and operation of various committees

2. Summary of evaluation results

(1) Analysis and evaluation

➤ We were able to confirm that discussions and policy-setting under the business improvement plan have led to an improvement in the consistency of approach and mechanisms for securing the effectiveness of the Board of Directors. We were also able to confirm that specific initiatives are advancing. On the other hand, we had to recognize that many areas are still in need of improvement, primarily operational aspects. Specific details are as follows.

1) Effectiveness and efficiency of supervision across the group

- In light of the results of the previous fiscal year's effectiveness evaluation as well as the business improvement plan, the Board of Directors has been engaging in deeper discussions with the Presidents & CEOs of the three core companies at Board of Directors meetings, in greater communication with group executive officers and employees through off-site meetings and on-site visits, and enhancing broader opportunities for the exchange of views with outside directors of subsidiaries. These changes have elevated the Board of Directors' capacity to gather multifaceted information regarding business execution. Even so, there is still room for improvement in terms of more efficient and effective operations aligned with the holding company and subsidiaries' respective roles.

2) Enhanced discussions on key topics for supervision

- Discussions on progress in the business improvement plan, which is a key business issue at present, and on sustainability have grown more substantial. The Board of Directors must continue to take up compliance, risk management, and the status of reforms to the corporate culture as key topics for supervision, and must move forward discussion on growth strategy, including from a medium- to long-term viewpoint.

3) Operation of statutory committees and voluntary committees

- As described in item 1), the business improvement plan is proceeding, and the structure and depth of discussions of the statutory committees and voluntary committees were evaluated highly on the whole. However, there is a need for deeper discussion on the structure of the Boards of Directors at the holding company and subsidiaries, as well as on succession issues for outside directors, succession issues for the Group CEO and other executive officers, further enhancement of the compensation system, and similar topics.

(2) Evaluation results and initiatives going forward

The evaluation described in item (1) above confirmed that the Mizuho Financial Group Board of Directors, its statutory committees, and other bodies secured overall effectiveness with respect to their purpose and expected functions during FY2021. It found steady progress on initiatives associated with the business improvement plan and on addressing issues identified in the FY2020 evaluation. As already mentioned, it also pointed out some issues we must continue to focus on in order to further improve the effectiveness of the Board of Directors. Mizuho Bank is facing broadly similar issues as in described items (1) 1) and 2). We will advance our initiatives for more effective and efficient performance of supervisory functions across the Mizuho group, with both Mizuho Financial Group and our subsidiaries increasing sophistication of activities and operations rooted in our respective roles and ensuring mutual coordination.

[Supplementary Principle 4.14.2] (Director Training)

In order to fulfill their roles in the monitoring and advising functions of the Board of Directors, our directors proactively gather information and take efforts to be informed of the management environment and the state of business surrounding our Group. We provide our directors on a continuing basis with “opportunities to acquire and improve knowledge” that is necessary to fulfill their expected roles and duties.

We shall provide newly appointed directors with opportunities when taking office to acquire the knowledge necessary to fulfill the roles and responsibilities required of directors, such as information on the Companies Act, other related laws and regulations as well as corporate governance, and shall provide each director on a tailor-made basis with such opportunities after taking office as necessary.

In addition, for outside directors, each outside director is offered opportunities to acquire the necessary knowledge about our Group’s business, finance and organizational structure at the time of appointment and continuously thereafter.

The training policy for directors is described in Article 6 Paragraph 6 of the “Corporate Governance Guidelines.”

5. Other Special Circumstances which May have Material Impact on Corporate Governance

Mizuho has introduced an in-house company system based on the group's diverse customer segments. The aim of this system is to leverage Mizuho's strengths and competitive advantage, which is the seamless integration of Mizuho's banking, trust, securities, asset management and research and consulting functions under a holding company structure, to speedily provide high-quality financial services that closely match customer needs. With increased strength and speed, each in-house company can develop consistent strategies according to the attributes of its customers during all processes from the formulation of strategy to its execution across several entities.

MHFG, as a holding company, shall administer each company of Mizuho to ensure that self-discipline and accountability of management of Mizuho are fully functioning. In order to achieve the goal set out mentioned above, the Company has established its Group Management Administration Regulations and shall administer key group companies under group management administration agreements. In particular, in administering the Three Core Companies, MHFG's Board of Directors, Nominating Committee, and Compensation Committee shall approve matters such as the appointment and dismissal of directors of the Three Core Companies, appointment and removal of executive officers (as defined in our internal regulations) with special titles of the Three Core Companies, and compensation for each individual director of the Three Core Companies.

Each of the Three Core Companies has chosen to adopt the "Company with Audit and Supervisory Committee" structure. Each of them aims to realize a higher level of supervision by the Board of Directors and swifter decision-making, in order to perform its roles more effectively under the Group's in-house company system. Thus, the Group will further enhance its corporate governance on a group basis.

Auditing Structure

Appointment of Directors and/or Employees to Support the Audit Committee

Appointed

Matters Related to the Independence of Such Directors and/or Employees from Executive Officers

MHFG has established Audit Committee Office as a department responsible for assisting duties of Audit Committee and placed employees who are not subject to the chain of command structure of executive officers and other business executives. In order to ensure independence of the employees assigned to Audit Committee Office from executive officers, we seek prior consent of Audit Committee with respect to the reorganization of Audit Committee Office, personnel changes and other matters relating to employees assigned thereto and establishment of the budget thereof

Cooperation among Audit Committee, Accounting Auditors and Internal Audit Department

The Audit Committee executes its duties on the premise of the establishment and management of an internal control system in MHFG and its subsidiaries by approving the basic internal auditing plan and budgets of Internal audit Group, the entrustment of the Head and General Manager of Internal Audit Group, receiving reports from the Internal Audit Group regarding progress and results etc., of particular audits and plans, and seek inspections or issue specific instructions as necessary.

In addition, the Audit Committee monitors and inspects that accounting auditors are independent and appropriately conduct audits and receives periodic reports with respect to the status, etc., of audits from and exchanges opinions as necessary with accounting auditors in order to mutually strengthen cooperation.

The Internal Audit Group exchanges opinions and information with accounting auditors with respect to their assessment of risks on a regular basis and as necessary to strengthen cooperation so as to enhance effectiveness and efficiency of the overall audit function.

2. Matters Concerning Functions of Business Execution, Auditing and Supervision, Nomination, and Remuneration Decisions (Overview of Current Corporate Governance System)

MHFG maintains the following corporate governance structure.

□Supervision

○Board Members and Board of Directors

The main roles of the Board of Directors of MHFG are making decisions on business execution such as basic management policies, which are legally matters to be determined solely by the Board of Directors, and supervising the execution of duties by directors and executive officers. In order to fulfill the roles mentioned above, the Board of Directors shall appropriately establish and supervise the operation of the internal control systems (regarding matters such as risk management, compliance and internal auditing) and risk governance systems of Mizuho. The Board of Directors, in principle, delegate to our President & CEO, who is also the Group CEO, decisions on business execution (excluding matters that are legally required to be determined solely by the Board of Directors), for the purpose of realizing swift and flexible decision-making and expeditious corporate management and strengthening the supervision of directors and executive officers by the Board of Directors.

In light of the role of the Board of Directors to supervise management, the majority of the members of the Board of Directors consist of outside directors and internal directors who do not concurrently serve as persons performing executive roles ("Internal Non-Executive Directors," and together with outside directors, "Non-Executive Directors"). Currently, the Board of Directors consists of a total of 12 directors (six outside directors, two Internal Non-Executive Directors and four directors concurrently serving as executive officers), one of which is female director.

The Chairman of the Board of Directors shall, in principle, be an outside director (or at least a Non-Executive Director) in light of the role of the Board of Directors to supervise management. Ms. Izumi Kobayashi currently has been the Chairman of the Board of Directors since June 2020.

The Board of Directors held 24 meetings in the fiscal year ended March 31, 2022. In particular, the Board had discussions regarding the monitoring of the responses to the IT system failures (including reports from the System

Failure Response Evaluation Committee), the approval of the business improvement plan, the human resource policies for personnel selection and developing candidates for the refinement of our executive system, the initiatives on cyber security, the capital policies and shareholder return principles, the initiatives on sustainability including the response to climate change, the promotion of diversity and inclusion, and future human resource strategies. The average attendance rate was 98%.

The Chairman of the Nominating Committee shall be an outside director, and in principle its members shall be appointed from among outside directors (or at least Non-Executive Directors) in order to ensure objectivity and transparency in the appointment of directors. All members of the Nominating Committee, including the Chairman, are currently outside directors.

The Nominating Committee held nineteen meetings in the fiscal year ended March 31, 2022. In particular, the Committee had discussions regarding the Group CEO succession, the status of formulation and operation of the succession plan, the composition of the Board of Directors, which takes into account the different roles among the holding company and the operating entities, and director nomination and appointment for the fiscal year ending March 31, 2023 at MHFG and the Three Core Companies. The Compensation Committee of MHFG determines the compensation for each individual director and executive officer of MHFG, exercises the approval rights held by MHFG regarding compensation of each individual director of the Three Core Companies, determines the basic policies and compensation system for directors and executive officers of MHFG and exercises the approval rights held by MHFG regarding the basic policies and compensation system for directors and executive officers of the Three Core Companies.

The Chairman of the Compensation Committee shall be an outside director, and in principle its members shall be appointed from among outside directors (or at least Non-Executive Directors) in order to ensure objectivity and transparency in the compensation of directors. All members of the Compensation Committee, including the Chairman, are currently outside directors.

commission of Group Chief Auditor and appointment of General Manager.

In addition, the Audit Committee audits the legality and appropriateness of the execution of duties by directors and executive officers and executes its duties through effective coordination with the Internal Audit Group, etc., on the premise of the establishment and management of an internal control system of MHFG and its subsidiaries. The Audit Committee shall, whenever necessary, gather information based on its right to collect reports and investigate business property.

Given that it is necessary for the Audit Committee to gather information through internal directors who are familiar with the financial business and related regulations, share information among the Audit Committee, and to have sufficient coordination with internal control departments, we in principle appoint one or two Internal Non-Executive Directors as full-time members of the Audit Committee. The majority of its members including the Chairman shall be outside directors. Currently, among the four members of the Audit Committee, one member is appointed among Internal Non-Executive Directors as full-time members of the Audit Committee and three members are appointed among outside directors.

All members of the Audit Committee shall meet independence requirements under the U.S. securities laws and regulations as may from time to time be applicable to the Company. □Internal Audit Function and Others

The Internal Audit Committee is chaired by the President & Group CEO. The committee discusses and determines all important matters concerning internal audits on the basis of the basic policy determined by the Board of Directors, and reports resolutions and important matters made by the committee to the Audit Committee and the Board of Directors.

The Head of the Internal Audit Group reports the progress of individual audits and plans to the Audit Committee, responds to requests for inspections, and receives specific instructions from the committee.

To ensure independence of the internal audit function from the audited sections, we separate the Internal Audit Group from the groups which it audits and establish it as an independent group in its own right under the control of the Internal Audit Committee.

The internal audit infrastructure MHFG has established is as follows: MHFG has set up an Internal Audit Department to carry out internal audits based on the basic policy determined by the Board of Directors. It also checks the internal control structure of the various companies on the basis of the reports it receives from the major group companies of the results of internal audits and problems and issues that have been investigated by them. Thus, all information on the status of the major group companies' internal audit works is held and controlled by MHFG's Internal Audit Department. The results of both MHFG's and the major group companies' internal audits are reported to the Internal Audit

Committee on a regular basis and at other times as necessary by the Head of the Internal Audit Group.

We have been audited by the accounting firm of Ernst & Young ShinNihon LLC since establishment of MHFG in 2003. Four CPAs are responsible for executing MHFG's accounting audit for the fiscal year ending March 31, 2023: Noboru Miura, Kenjiro Tsumura, Mitsuhiro Nagao and Takahiro Fujimoto.

As of September 30, 2022, there are also sixty-eight CPAs and eight-seven other assistants who assist these four CPAs in the audit of MHFG.

(Note) The Dai-ichi Kangyo Bank, Ltd and the Fuji Bank, Ltd entered into an accounting audit contract with Ernst & Young ShinNihon LLC in 1976 (known as Dai-ichi Audit Firm and Tetsuzo Ota & Co. at that time, respectively). Since then, Mizuho Holdings, Inc. established through the stock transfer of the Dai-ichi Kangyo Bank, Ltd, the Fuji Bank, Ltd and the Industrial Bank of Japan, Ltd. in 2000, and we, MHFG established through capital contribution by Mizuho Holdings, Inc. in 2003, have continuously entered into an accounting audit contract with Ernst & Young ShinNihon LLC.

Transforming the way we work

Flexible working styles are essential to the success of diverse employees. In addition to working to reduce long hours through improving operations and other measures, the Mizuho group is expanding options of working arrangements by enhancing the remote work system, introducing the “three- or four-day work week” option, and promoting the “new working styles” that are not restricted by location, day of the week or time of day. By creating an environment in which all employees can independently design their own working styles, we aim to promote the sustainable growth of both employees and Mizuho, while raising work productivity.

Employee health and wellness

As part of our commitment to creating safe and healthy workplaces in compliance with occupational health and safety legislation, we strive to improve the safety and health of our employees through various medical checkups, health management programs under the direction of industrial physicians and other specialists, and the work of the Health Committee. And we are committed to helping all of our employees maintain both their physical and mental wellbeing and will continue to enhance our proactive approach to employee health, not only in terms of disease prevention, but also the promotion and maintenance of health, as well as the creation of workplaces that are healthy and comfortable.

Promoting women's professional advancement and our progress on women in leadership

We promote women's professional advancement by providing career advancement support through training and coaching tailored to each career stage, enhancing support systems for balancing work and child care, and promoting awareness throughout the workplace, including by encouraging men to take childcare leave.

Since FY2022, we have provided women in general manager and equivalent positions with executive mentoring and, for those newly appointed, targeted training in order to strengthen the development of women business leaders who will advance the organization.

As a result of the promotion of women's professional advancement as a management strategy, we made significant progress in increasing the number of women in management positions at the manager and assistant

manager, exceeding the Japanese government's recommended targets (Our representation is 27.5% and 57.1%, respectively as of July 2022).

Under the 5-Year Business Plan, we have set a new numerical target for the number of women in management positions (general manager equivalent position and total for general manager and manager equivalent positions) in order to form a talent pool that will lead to executive management. Recently we have joined the 30% Club Japan in support of their mission of increasing the percentage of women involved in important decision-making bodies within corporations so that we will continue to strengthen company-wide initiatives for women's professional advancement.

In addition to identifying and developing leadership candidates on a global basis from throughout our diverse workforce and multiple business fields, we are addressing limitations within our pipeline of female leadership candidates by fostering individuals with high potential through strategic assignments and a coaching program. In our top management, Mizuho Financial Group has 2 female external directors (1 female outside director and 1 female group executive officer) and Mizuho Bank, Ltd. has 1 female outside director. In addition, Mizuho Bank, Ltd has 1 female operating officer* and Mizuho Securities Co., Ltd. has 4 female operating officers.

This is an interactive project that engages employees by hosting events for them to get exposed to different perspectives as well as building relationships with others through communication and discussions. In FY2021, over 7,000 employees participated. We also provide recordings of past events online so that more employees can participate in Mizuho D&I Month at their discretion. By fostering an environment for such employee-driven initiatives, we aim to induce positive changes in employees' mindsets and behaviors, whereby moving towards creating a new set of corporate values for the group.

Employee resource groups (ERGs)

At Mizuho we are actively promoting employee resource groups (ERGs), which are employee-led networks that encourage proactive connectivity and contribute to both personal development of employees and Mizuho's growth. ERGs enable employees from diverse backgrounds to share knowledge and experience and address social issues, global topics or other areas of shared interest from diverse perspectives. ERGs create opportunities for each individual to achieve professional growth as well as encourage the discovery of new ideas which benefit our business.

IV. Matters Concerning the Internal Control System

Each director, including outside directors, supervises the status of various management by periodically receiving reports concerning the status of management of departments in charge of compliance and risk monitoring, etc., at meetings of the Board of Directors.

The Audit Committee audits the legality and appropriateness of the execution of duties by directors and executive officers, etc., and executes its duties through effective coordination with the Internal Audit Group, etc., based on the establishment and management of an internal control system in MHFG and its subsidiaries. Audit Committee members who are authorized to collect reports and investigate business property directly execute audits of directors and executive officers at the management level of each in-house company, unit, group, etc. and Subsidiary.

Following the concept of the “three lines of defense” as shown in the Basel Committee on Banking Supervision’s “Corporate governance principles for banks,” in addition to autonomous controls by the in-house companies, units, etc. (1st line-of-defense) and monitoring by the departments in charge of compliance and risk management (2nd line-of-defense), we have internal audit departments that belong to the internal audit group, based on the Internal Audit Committee that is independent from 1st line-of-defense and 2nd line-of-defense, which conduct internal audits (3rd line-of-defense) for the in-house companies, units, etc. as well as for the departments in charge of compliance and risk management.
