Financial Results for Fiscal Year 2022 1H and FY22 Forecast

(April 1, 2022 – September 30, 2022)

Michiko Nakajima

Vice President

Accounting & Treasury Headquarters

November 1, 2022

■ FY22 1H results: Sales were up, but operating income declined. (year on year comparison)

- **Summary** : Orders increased significantly, and sales were up due to the impact of fluctuations in exchange rates and other factors. Operating income decreased due to a decrease in the gross margin, an increase in SG&A expenses, and other factors. Profit attributable to owners of parent increased.
- **Segments** : **Control** : Sales were up, but operating income declined. (excluding the impact of exchange rates, orders increased 23.6% and sales increased 1.2% year on year.)
Measuring instruments : Sales were up, but operating income declined.
New businesses and others : Sales declined. The operating loss shrunk.
- **Regions** : Strong in the Middle East and Africa, Central and South America, and India. Solid in Japan and China.
- **Subsegments** : The energy & sustainability and materials businesses were both strong.
- **Industries** : The upstream and downstream sectors and the chemicals industry were all strong.

■ FY22 earnings forecasts: <Change>

- **Reasons for revision:** 1. Revision to exchange rate (US\$1: ¥130 → ¥135)
2. Upward revision to orders based on 1H results and outlook

- From FY21, as a result of revising the Group's internal management classification, the life innovation business that was previously included in the test and measurement business segment has been reclassified into the industrial automation and control business segment. In addition, the name of the reportable segment previously known as the test and measurement business has been changed to the measuring instruments business. Moreover, segment information for FY20 has been presented based on the changed classification.
- The name of the reportable segment previously known as "aviation and other businesses" has been changed to "new businesses and others" since FY22 following the transfer of the aviation equipment business.

Summary of FY22 1H Results (year on year comparison)

- ◆ Orders increased significantly. (excluding the impact of exchange rates: +22.9% year on year.)
- ◆ Sales increased due to the impact of fluctuations in exchange rates and other factors. (excluding the impact of exchange rates: +0.4%.)
- ◆ Operating income decreased due to a decrease in the gross margin, an increase in SG&A expenses, and other factors.
- ◆ Profit attributable to owners of parent increased.

(Billion ¥)

	FY21_1H	FY22_1H	Difference	Growth rate	Impact of exchange rate
Orders	193.8	264.3	+70.6	+36.4%	+26.2
Sales	184.4	205.9	+21.5	+11.7%	+20.8

Current Situation

Current Situation

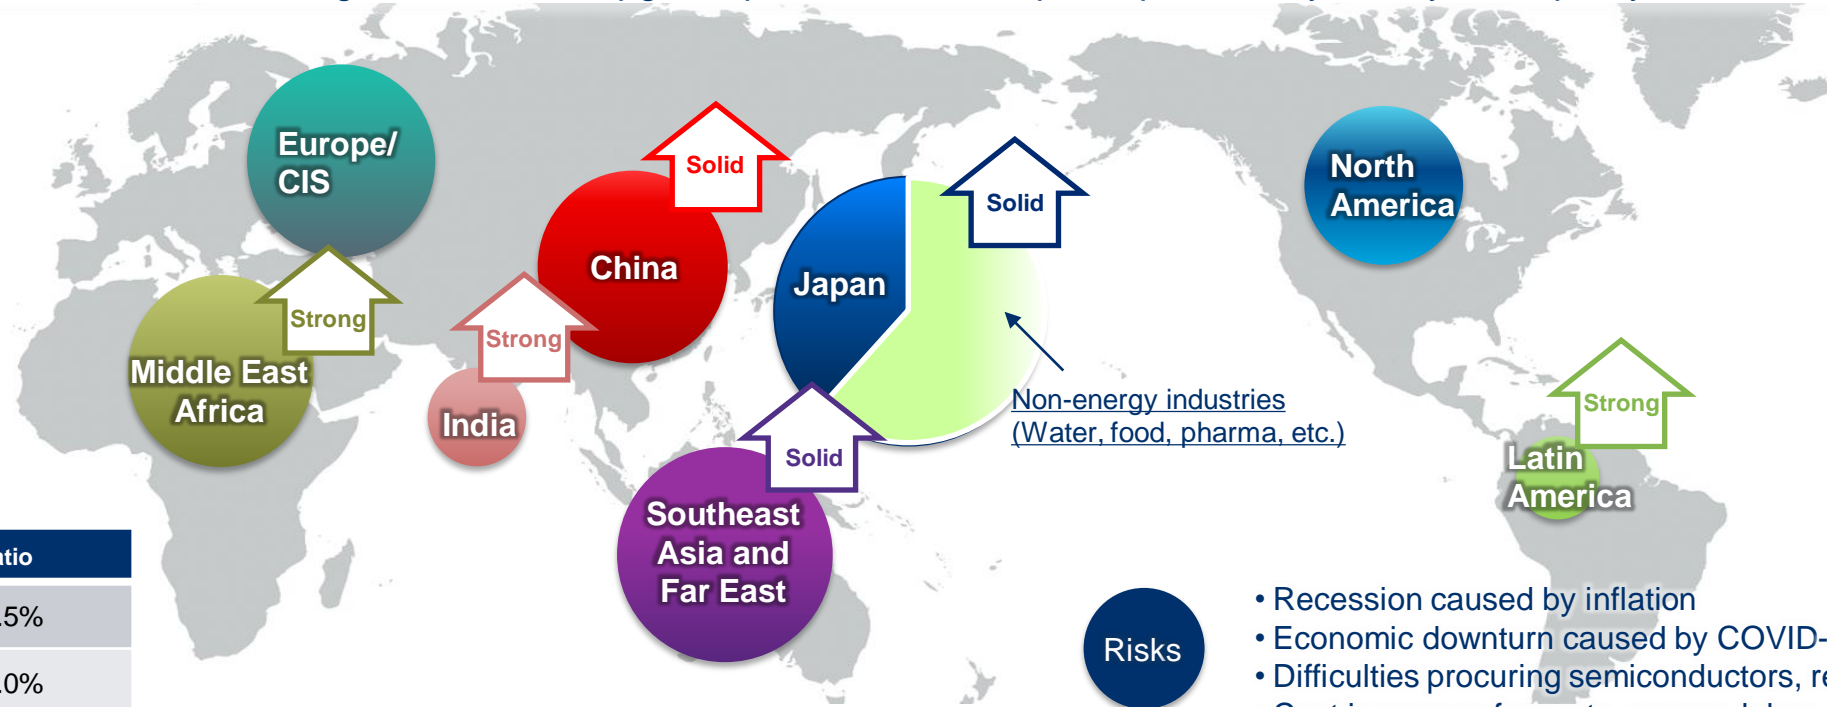

OPEX in the energy sector is strong, and the materials sector is strong overall

Regions

Middle East: High willingness to invest in equipment upgrades, etc. **China:** Continued base growth, especially in chemicals. Steady willingness to invest in environmental initiatives and quality improvement
Japan: Remains solid **India:** Active investment in refineries and other new facilities

Industries

Upstream: Stable oil & gas prices and demand. Customers highly motivated to invest in OPEX. **Renewables:** Active in all regions
Downstream, chemicals: Increased investment due to rising output and production of new materials
Pharma, food, water: Strong investment to upgrade processes and improve productivity, safety, and quality

Outside Japan sales ratio

FY21 1H	70.5%
FY22 1H	73.0%

Achieving the FY22 Earnings Forecast

Sales

- Reliably execute projects
- Implement measures to increase production volume and resolve part procurement issues

Profitability

- Ensure that cost increases are passed on to customers
- Compensate for rising costs by implementing measures to improve productivity and ensure efficiency in SG&A expenses.

Achievement of FY22 forecast

Review of Accelerate Growth 2023 (AG2023)

Accelerate Growth 2023: 4 Basic Strategies

* IA2IA: The transition from industrial automation to industrial autonomy by incorporating DX-related technologies such as AI, digital twins, and robotics

* Smart manufacturing: The achievement of autonomy and improvement of productivity in production operations, enterprises, and supply chains through DX and IA2IA

Accelerate Growth 2023: Progress Highlights

1

Implement IA2IA & smart manufacturing and transform value provision

Strategies

Expansion of value provided

- Move IA2IA concept to the implementation phase
- Expand the scope of smart manufacturing solutions provided for customers

Progress

Proceeding to implementation phase to expand value provision

- Development of new solutions to expand IA2IA/smart manufacturing business is progressing as planned.
- Our capabilities as a MAC/MAIC are highly evaluated, leading to orders.
- Steady progress is being made in establishing a global foothold in the ERP system integration business.
- New business models are being promoted (recurring/subscription).

Results

◆ Number of new IA2IA/Smart manufacturing solutions

FY21 results: 50

➔ FY22 target: 67 (progress 1H: 17)

FY23 target: 150

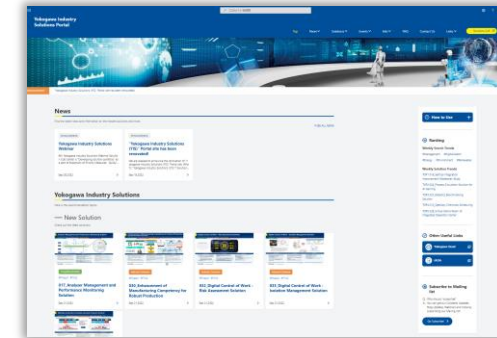

◆ Number of orders received for IA2IA/Smart manufacturing business

FY21 results: 195

➔ FY22 1H results: 100

◆ Orders received / Project wins

- Yokogawa selected as MAC for construction of Europe's largest renewable hydrogen plant
- Yokogawa selected by Grön Fuels as preferred supplier of technology, equipment, and services for North America's largest renewable fuels complex

Expanding Opportunities – Yokogawa and Smart Manufacturing

Yokogawa, connecting entire societies and supply chains

- ✓ Shell selects Yokogawa as MAC for Europe 's largest renewable hydrogen plant, the Holland Hydrogen I plant in Rotterdam

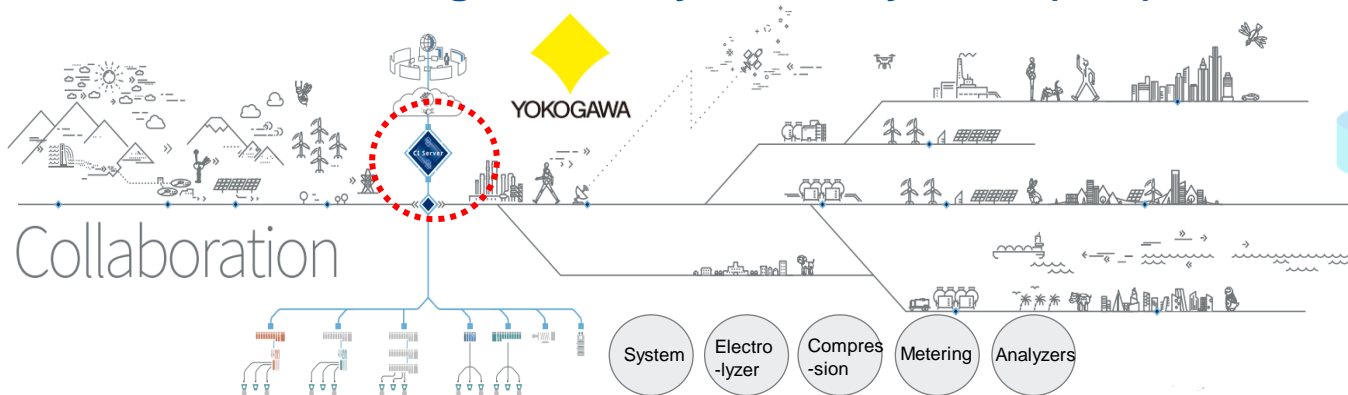

Source : Hydrogen Economy in Rotterdam Handout of the Port of Rotterdam Authority

Overview of Port of Rotterdam development project

- To become an international hydrogen hub
- Production, storage, receiving, transportation (ships and pipelines), supply, and utilization: Connection of entire supply chain
- Dramatic reduction of CO₂ emissions by utilizing an offshore wind farm and other renewable power generation facilities

- ✓ CI Server: Through the provision of this key solution to societies and supply chains, Yokogawa is leading the way forward as an integrator for system of systems (SoS).

- Closely connecting entire societies and supply chains
- Integrates, gathers, and and analyzes things and data, and implements optimization and operation solutions

Accelerate Growth 2023: Progress Highlights

2

Strengthen industry responsiveness and expand cross-industry business

Strategies

Expansion of value provided

- Provide new value to customers who are making the shift to being integrated energy companies
- Expand other industry and cross-industry business

Progress

Steady expansion of three industry business segments

- Our solution business for optimizing energy management with complex energy supply chains that make use of renewable energy, storage batteries, and the like, is winning orders and receiving many inquiries.
- We are making steady progress with the expansion of our solutions business targeting the functional chemicals market.
- We are strengthening our sales organization to expand our business in the pharmaceutical and food industries. The further acceleration of these activities will be key to our success.

Results

◆ Orders received in focus industries (FY22 1H results)

- Energy & sustainability business: Renewable energy **4.4 billion yen (YoY +89.5%)**
- Materials business: Functional chemicals **7.7 billion yen (YoY +88%)**
- Life business: Pharmaceuticals and foods **10.3 billion yen (YoY -1.5%)**

◆ Orders received and projects completed

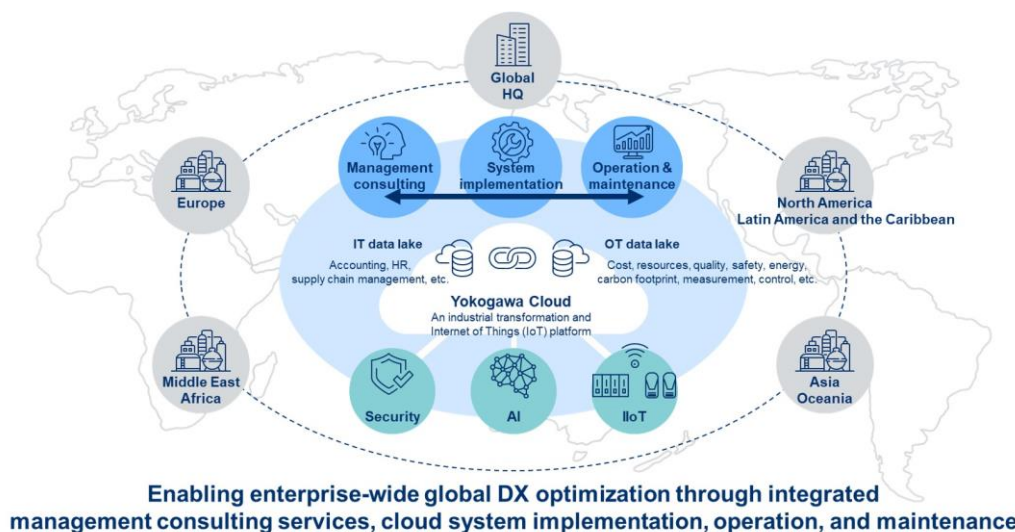

- Creating opportunities through global collaboration, we received our first large order in the South American mining industry.
- First orders in the grid control field. Through synergy with PXiSE Energy Solutions, we received two orders within the first six months after acquiring this company.
- We completed installation of an IoT system for integrated remote performance management at Kenya's Olkaria Geothermal complex, the largest such facility in Africa.

Establishment of Yokogawa Digital Corporation

Establishment of Yokogawa Digital Corporation (July 2022)

- **Providing enterprise-wide solutions** to manufacturers that cover everything from the plant floor to the C- suite
- **Providing one-stop access** to consultation, system implementation, operation, and maintenance services
- Leveraging **Yokogawa's expertise and wealth of experience in DX at manufacturing sites** to provide **DX support that delivers results**

Accelerating and scaling up the IA2IA/smart manufacturing business

Toward the Achievement of AG2023

Toward the Achievement of the AG2023 Targets

In a rapidly changing business environment, we are **implementing the AG2023 strategies with a sense of urgency and accelerating efforts to achieve our targets.**

- ✓ Leveraging Yokogawa's strengths to drive **further growth and development**
- ✓ Achieving **high profitability** by expanding the value that we provide and improving productivity
- ✓ With a long-term perspective, **expanding our business in non-energy industries** and contributing to the realization of a sustainable society

Accelerate Growth 2023^{FE}

**Utilizing our ability to measure and connect,
we fulfill our responsibilities for the future of
our planet.**

Measuring represents Yokogawa's origin as a company. We measure things, grasp and analyze their state, and add value through the information that is derived. *Connecting* refers to how Yokogawa not only combines valuable information, but also builds trusted relationships with customers in various industries and brings together businesses and industries, giving resonance to the value that we create.

Our ability to measure and connect is a core competence that Yokogawa must never lose. We wish to use this strength to find solutions to various social issues and create a future where humanity and planet Earth can co-exist in symbiotic harmony. This aspiration is expressed in our commitment to *fulfill our responsibilities for the future of our planet*.
