Notice Regarding the Start of “Crowdfunding” through business alliance between Kongo Gumi Co., Ltd. and READYFOR Co., Ltd.

Notes

Our group company Kongo Gumi Co., Ltd. (headquartered in Tennoji-ku, Osaka-shi, Osaka; President and CEO: Toshihiko Tada; hereafter referred to as Kongo-gumi), a business partner, READYFOR Co., Ltd. (headquartered in Chiyoda-ku, Tokyo; President and CEO: Haruka Mera, hereinafter referred to as "READYFOR"), we have decided to start crowdfunding based on a business alliance.

1. Background and purpose of the business alliance

Founded in 578 AD, Kongo Gumi is told to be the oldest company in the world, and is mainly engaged in the design and construction of shrines and temples, and the restoration and repair of cultural properties. The company started with the construction of Shitennoji Temple, and is now involved in shrines and temples all over Japan.

Since READYFOR Co., Ltd. launched Japan's first and largest crowdfunding service in March 2011, We have implemented approximately 20,000 crowdfunding projects which have been made to NPOs, medical institutions, research fields, regional revitalization, culture, and other activities. In addition, we have also worked on many projects related to shrines and temples. In recent years, many shrines and temples, parishioners and parishioners have been declining due to the declining population and aging population, and furthermore, they are also affected by restrictions on movement due to the prolonged COVID-19 pandemic. As a

result, an increasing number of temples and shrines are facing financial difficulties. Kongo Gumi will provide a “crowdfunding platform” to shrines and temples nationwide in collaboration with READYFOR, which has a sufficient track record in fundraising in the field of shrines and temples. We will contribute to the restoration and repair of buildings by “crowdfunding platform” promoting.

2. Outline of business alliance

Through this business alliance, we will provide READYFOR's "crowdfunding platform" for shrines and temples that do business with Kongo Gumi. Crowdfunding can improve the name recognition of shrines and temples, which until now had been gave up due to financial problems even if they would like to restore or repair the buildings, increase the number of worshipers, and diversify the means of raising funds. This is expected to contribute to mutual development.

3. Outline of the “crowdfunding” business to be started

From November 1, 2022, as the first business tie-up, we will start crowdfunding for the Reiwa Great Renovation of Nichiren Sect's head temple "Matsuosan Gokoku Koshoji" in Ogi City, Saga Prefecture.

For details, please refer to our website <https://www.takamatsu-cg.co.jp/>.
