[Monthly comment]

In October, net sales totaled 119.0% for existing stores compared with the previous year and 129.9% for all stores.

Due to factors including large growth in sales of autumn and winter apparel with the drop in temperature in the latter half of the month and an overlap with the dates of a seven-day sales promotion conducted in late October as well as favorable sales of home appliances, household items, hobby-related items, brand items, etc. coinciding with the increase in store visits due to the promotion, sales of both existing stores and all stores increased year on year.
