[Principle 1.4 Cross-Shareholdings]

In regard to holding shares in a company the Company does business with, we look at whether or not we should hold such shares as well as how many shares we should hold in light of our business operations, such

[Translation]

as whether such cross-shareholding helps to maintain and strengthen relationships with that company or facilitate business transactions. If we decide that shares are not suitable for holding, we will reduce the number of such shares. Decisions on whether or not to hold shares as well as the number of shares to be held are reviewed by the Board of Directors annually.

We had cross-holdings in 115 companies as of March 31, 2015 but reduced them to 47 companies as of March 31, 2022.

In addition, when exercising voting rights of shares held, we comprehensively consider whether such proposals will contribute to increasing the corporate value over the medium to long term of that company with which we do business, and whether the proposal would have an effect on the Company.

[Principle 1.7 Related Party Transactions]

When the Company engages in an important or non-routine transaction with a related party such as an officer or major shareholder, we submit the matter to the Board of Directors for approval.

[Supplementary Principle 2.3.1 Sustainability Initiatives]

The Company has established the Basic Policy on Sustainability with the aim of helping to solve issues facing society, achieving sound and sustainable growth, and increasing our corporate value over the medium to long term. We also believe that it is important to identify material sustainability issues we should address, align them with our management strategies, and actively work to resolve these issues through our operations.

In fulfilling its supervisory function, the Board of Directors recognizes that addressing sustainability issues is an important focus of management. The Basic Policy on Sustainability and material sustainability issues are posted on our website.
