## Notice on Obtaining SBT Certification for GHG Emissions Reduction Targets

Daiseki Eco. Solution Co., Ltd. (“the Company”) hereby announces that it has, as a group company of Daiseki Co., Ltd., recently obtained certification for “Science Based Targets (the “SBT”)” regarding its greenhouse gas (GHG) emissions reduction targets from the Science Based Targets initiative (the “SBTi”) as follows.

### 1. SBT certification

Science Based Targets refer to GHG emissions reduction targets set in line with climate science necessary to achieve the targets set under the Paris Agreement (by holding the global average temperature rise to well-below 2°C above pre-industrial levels and pursuing efforts to limit the temperature rise to 1.5°C). The SBTi is an international cooperative organization that works together with the CDP, United Nations Global Compact, World Resources Institute (WRI), and World Wide Fund for Nature (WWF), which defines and promotes best practice in science-based targets setting and independently assesses targets set by corporations. Recently, the medium- to long-term GHG emissions reduction targets set by the Daiseki Group were certified by the SBTi that they are in line with the 1.5°C target under the Paris Agreement.

### 2. Targets and efforts of the Daiseki Group

SCOPE 1\*<sup>1</sup> + SCOPE 2\*<sup>2</sup> : 34% reduction by FY2027 (as compared with FY2021)

SCOPE 3\*<sup>3</sup> : 20% reduction by FY2027 (as compared with FY2021)

Shift to : Making a shift to electricity generated from renewable energy sources for 100%  
renewable-energy-sourced of its electricity use by FY2030  
electricity

\*<sup>1</sup>: Scope 1: Direct emissions associated with use of fuels

\*<sup>2</sup>: Scope 2: Indirect emissions associated with electricity purchased from the outside and use of heat

\*<sup>3</sup>: Scope 3: Indirect emissions other than Scopes 1 and 2

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION
