Announcement of the 50th Anniversary of the Establishment and a Commemorative Logo Creation

YUSHIN will celebrate its 50th Anniversary in October 2023. We would like to express our heartfelt gratitude to all of our stakeholders for their patronage and support.

We have created a 50th anniversary commemorative logo to carry our thought to continue to take on new challenges for our next half century. We will try to increase our corporate value through sustainable business development as well as to contribute to building a sustainable society through the manufacture and sale of robots and automation equipment.

Our thoughts into the commemorative logo

The isosceles triangle, which is used in Yushin Precision Equipment's corporate emblem, has a corner at the bottom, a design not often seen, represents our "unconventional and free-minded thinking." The triangle points to the future direction, the sides surrounding the Y symbolize the infinite expansions that cross with each other and soar high, and the shiny colors express the image of individuals with a lot of potentials gathering and developing.
