Notice of Change in Reporting Business Segments

At the ordinary meeting of the Board of Directors held on January 16th 2023, Findex Inc. has decided to make a change in its business segments for financial reporting.

1. Outline

The Company's office systems projects, centered on the DocuMaker Office document management system, have been selling at a much greater pace than planned. Due to the high demand for its products, the Company implemented measures as needed to expand sales, such as strengthening its team and developing new distributors.

As a result, the Company has decided to separate "Medical Systems" and "Office Systems," which were previously reported as part of the "System Development" segment, into two separate segments. The Company now has three reportable segments: "Medical Business", "Public Business", and "Health Tech Business".

In addition to this change in reporting segment for accounting purposes, the Company has also decided to establish a new "Public Solution Department", specializing in handling the business mentioned above. For details, please refer to the "Notice of Establishment of New Organization and Personnel Changes" separately announced today.

[Previous Reporting Business Segments]

Name	Business
System Development	Development and sales of medical software, office software, maintenance
Health Tech	Development and sales of medical devices and research on related areas

[New Reporting Business Segments]

Name	Business
Medical Business	Development and sales of medical software, maintenance, consulting services
Public Business	Development and sales of public document management solutions, e-approval software, maintenance
Health Tech Business	Development and sales of medical devices and research on related areas

2. Schedule

A new reporting segment will be introduced starting with the announcement of financial results for the first quarter of fiscal year 2023.
