Notice Concerning Disclosure based on TCFD Recommendations

Leopalace21 Corporation (Headquarters: Nakano-ku, Tokyo; President and CEO: Bunya Miyao; the “Company”) has organized and disclosed information on climate change issues based on the Task Force on Climate-related Financial Disclosures (TCFD) recommendations.

Disclosure based on TCFD Recommendations

The Company expressed its support for the recommendations of TCFD and joined the TCFD Consortium in October 2021. Subsequently, based on the TCFD recommendations, the Company has organized its activities in terms of governance, strategy, risk management, and metrics and targets with respect to both the risks and opportunities that climate change presents to the business.

The CO₂ emissions from the Company's related facilities that fall under Scope 1 and 2 (CO₂ emissions from gas, gasoline, and electricity used by the company), were reduced mainly through the consolidation of leasing sales offices as a result of promoting structural reforms of the core business, and through the reorganization and rationalization of the businesses in the form of transferring of or withdrawing from non-core and unprofitable businesses. The CO₂ emissions in FY2021 was a reduction of 47.6% compared to those in FY2016, the year in which the Company began disclosing information.
