Coincheck, Inc.

Coincheck App Wins "No.1 Downloads in Japan" for the forth consecutive year

- Number of app downloads surpassed a cumulative of 5.4 million downloads -

Coincheck, Inc. (Head office: Shibuya-ku, Tokyo, President: Satoshi Hasuo, hereinafter referred to as "Coincheck") is pleased to announce that, in 2022, the Coincheck app was downloaded the most in Japan (*1). This is the forth year in a row that the Coincheck app has been ranked No.1 in Japan in terms of app downloads since 2019.

The Coincheck app is used by many people as their first account for crypto asset trading because of its easy-to-use UI/UX even for those who have no experience in crypto asset trading. In 2022, in addition to expanding the range of crypto assets handled by "Coincheck", a crypto asset trading service, we are also focusing on expanding the number of titles handled by the marketplace "Coincheck NFT (β version)", and the number of app downloads surpassed cumulative of 5.4 million.

The Coincheck app has long been known for its ease of use, with the "price chart and price list" displayed immediately after launching the app allowing users to intuitively check price fluctuations of crypto assets, and the three-tap transition from all screens within the app to the buy/sell screen to ensure that no one misses the right moment to make a transaction.

In 2022, the app was updated 33 times for iOS and 32 times for Android, and its functions were expanded to include the "Discover Screen," which provides the latest news on crypto assets (*2), a ranking of trading amounts of each crypto asset (*3), and other helpful information for trading.

Upholding its corporate mission of "exchange of new values easier," Coincheck is striving to add new crypto assets in their exchange, increase its usability and develop new services.

*1 Among the Japanese crypto asset trading app. Data source: AppTweak

*2 Information distributed by third-party news sites, etc.

*3 Trading value (converted to Japanese yen) at the marketplace in Coincheck in the last hour.
