#### 1. Qualitative Information Regarding Results for the Period

#### (1) Explanation of Operating Results

On February 1, 2023, the Group announced its new Group mission, "Circulate all forms of value to unleash the potential in all people." This Group mission is meant to go beyond Mercari's founding mission of "Create value in a global marketplace where anyone can buy & sell," and clearly states the role that the Group should fulfill in society. The Group will continue to take on bold challenges without fear of failure as we aim to unleash the potential in people all over the world. To realize its new mission, the Group's business policy for the current fiscal year entails having an awareness of the balance between growth and revenue by building a sturdy global business base. Furthermore, the Group is aiming for growth by creating synergies through its consumer-to-consumer (C2C) and business-to-consumer (B2C) operations, and between the Marketplace and Fintech domains.

In the Marketplace domain, the Group is striving to increase the number of listings through strengthened collaboration between the C2C and B2C business areas as one of its business objectives for the current fiscal year. During the six months ended December 31, 2022, it focused on acquiring new users through referral campaigns and offline measures such as *Mercari Workshops*, and promoted proofs of concept (PoC (Note 1)) for measures aimed at growth over the medium-to-long term. As a result, the growth of gross merchandise value (GMV (Note 2)) for the Marketplace domain was generally in line with expectations at +10% year-on-year, and for the six months ended December 31, 2022, was ¥475.2 billion, an increase of ¥39.3 billion from the corresponding period of the previous fiscal year, with monthly active users (MAU (Note 3)) numbering 21.53 million.

In the Fintech domain, the Group has been working to promote circular finance by strengthening Group synergy as one of its business objectives for the current fiscal year. To further grow its credit business and strengthen its revenue base, the Company announced its entry into the credit card business and began rolling out *Mercard* on November 8, 2022. Although the response seen thus far is the initial momentum generated during promotions to acquire cardholders and promote the use of *Mercard*, the number of cardholders is nonetheless growing steadily. With the launch of the service, the Company has started to make upfront investments to acquire *Mercard* cardholders and encourage use of the card; however, since a revenue base has been established to a certain extent by the credit business, which the Company has been promoting since the fiscal year ended June 30, 2021, and the business continues to grow steadily, Fintech achieved an unadjusted operating profit (Note 4) during the second quarter of the current fiscal year.

As a result of the above, Japan Region reported net sales of ¥58,427 million (up 20.9% year-on-year) and segment profit of ¥16,305 million (up 128.9% year-on-year) for the six months ended December 31, 2022.

In its US business, the Group has been focusing on product improvements to promote both selling and buying as its business policy for the current fiscal year. Having succeeded in achieving a certain level of brand recognition, targeted and effective advertising led to an increase in new users and MAU of 5.16 million. On the other hand, a slowdown in purchases resulting from inflation and other factors saw GMV decrease to \$528 million (¥73.9 billion; the exchange rate conversion is the total of the amounts calculated for each month using the average rate during the month), down \$52 million from the corresponding period of the previous fiscal year. As a result of the above, the US business reported net sales of ¥23,022 million (up 13.9% year-on-year) and a segment operating loss of ¥6,324 million (versus a segment loss of ¥4,567 million in the corresponding period of the previous fiscal year) for the six months ended December 31, 2022.

As a result, for the six months ended December 31, 2022, the Group recorded net sales of \$84,285 million (18.4% increase year-on-year), operating profit of \$5,832 million (compared to operating loss of \$1,774 million in the corresponding period of the previous fiscal year), ordinary profit of \$5,967 million (compared to ordinary loss of \$1,797 million in the corresponding period of the previous fiscal year), and net profit attributable to owners of parent of \$1,202 million (compared to net loss attributable to owners of parent of \$2,728 million in the corresponding period of the previous fiscal year).

- (Note 1) PoC (proof of concept) refers to the verification or demonstration of a new idea in the preliminary stage of prototype development.
- (Note 2) GMV (Gross Merchandise Value) is the total value of merchandise sold during a specified period.

This is a translation of the original release in Japanese. In the event of any discrepancy, the original release in Japanese shall prevail.

- (Note 3) MAU (Monthly Active Users) is defined as the quarterly average number of registered users who accessed the *Mercari* service via app or website at least once during a given month.
- (Note 4) Amount before deducting internal transactions between Marketplace and Fintech (outsourced payment processing fees).

#### (2) Explanation of Financial Position

(Assets)

Assets as of December 31, 2022, increased by \(\pm\)35,412 million from the end of the previous fiscal year to \(\pm\)375,275 million.

The main reasons for increases and decreases are as follows.

- The main reasons for the decrease in cash on hand and in banks are outlined in the Explanation of Cash Flows section below.
- Other receivable increased by \(\frac{\pmathbf{1}}{17,380}\) million compared to the end of the previous fiscal year, primarily due to an increase in use of \(Merpay Smart Payments\) (lump-sum payment and fixed-amount payment).
- Guarantee deposits increased by \(\frac{\pmathbf{\pmathbf{\frac{2}}}}{24,998}\) million from the end of the previous fiscal year, primarily due to deposits paid based on laws and regulations accompanying the increase in the amounts spent on \(Mercari\) and \(Mercari\) and \(Mercari\).

(Liabilities)

Liabilities as of December 31, 2022, increased by ¥33,016 million from the end of the previous fiscal year to ¥334,880 million.

The main reasons for increases and decreases are as follows.

- Borrowings increased by ¥13,212 million from the end of the previous fiscal year, primarily due to the liquidation of receivables for lump-sum payments and fixed-amount payments.
- Deposits received increased by \(\xi\)16,277 million from the end of the previous fiscal year, primarily due to higher spending on *Mercari* and *Merpay*.

(Net assets)

Net assets as of December 31, 2022, increased by \$2,396 million from the end of the previous fiscal year to \$40,394 million.

The main reasons for increases and decreases are as follows.

- Capital stock increased by ¥444 million from the end of the previous fiscal year following the issuance of new shares.
- Capital surplus increased by ¥444 million from the end of the previous fiscal year following the issuance of new shares.
- Retained earnings increased by ¥1,202 million from the end of the previous fiscal year due to the recording of net profit attributable to owners of the parent.

#### (3) Explanation of Cash Flows

For the six months ended December 31, 2022, cash and cash equivalents (hereinafter referred to as "cash") decreased by \footnote{\pma}8,970 million from the end of the previous fiscal year to \footnote{\pma}202,435 million as of December 31, 2022.

The status of cash flows and their contributing factors for the six months ended December 31, 2022, are as follows. (Cash flows from operating activities)

Cash used in operating activities during the Period amounted to \$21,450 million. This is primarily attributable to net profit before income taxes of \$5,221 million, an increase in deposits received of \$16,681 million, an increase in other receivable of \$17,418 million, and an increase in guarantee deposits of \$24,999 million.

(Cash flows from investing activities)

This is a translation of the original release in Japanese. In the event of any discrepancy, the original release in Japanese shall prevail.

(Cash flows from financing activities)

Cash provided by financing activities during the Period amounted to \\ \xi\$13,163 million. This is primarily attributable to change in short-term borrowings of \\ \xi\$1,411 million and proceeds of \\ \xi\$12,000 million from long-term borrowings.

#### (4) Explanation of Consolidated Financial Results Forecasts and Other Forward-looking Statements

The Group strives to achieve its mission through efforts related to its business policy for the current fiscal year, which entails having an awareness of the balance between growth and revenue by building a sturdy global business base. At the same time, it is difficult to make projections for consolidated earnings, partly because the Group will be taking a flexible approach to investments in response to business circumstances and environmental changes. This is in order to realize medium- to long-term growth, as the Group continues to closely observe the external environment in terms of how long the effects of inflation in Japan as well as in the United States will continue. As such, the Company has not yet announced forecasts for consolidated earnings.

#### (4) Notes to the Quarterly Consolidated Financial Statements

Notes on going concern assumption

Not applicable.

Notes on significant changes in the amount of shareholders' equity Not applicable.

Application of special accounting methods for handling preparation of the quarterly consolidated financial statements *Calculation of income tax expense* 

The Company reasonably estimated the effective tax rate following the application of tax effect accounting on net profit before income taxes for the fiscal year, which includes the current quarterly period. The Company also applied this percentage to quarterly net profit before income taxes to determine income taxes. However, the statutory effective tax rate is utilized in cases where it is not possible to use the estimated effective tax rate.

  - 2. Matters related to changes in reportable segments

Previously, the Group operated as a single segment, the marketplace business. Commencing the first quarter ended September 30, 2022, the Group changed its reportable segments to those of Japan Region and US.

This change was made because the Group transitioned to a new management execution structure from January 1, 2022, and changed its corporate management classification from July 1, 2022, with the objectives of further strengthening the strategy of the overall business structure in Japan and further developing globally.
