1. Qualitative Information and Financial Statements

(1) Operating Results

During the first nine months of the fiscal year ending March 31, 2023 (from April 1, 2022 to December 31, 2022), amid the transition to the new phase of living with COVID-19, there were expectations that the Japanese economy would show renewed vitality by striking a balance between COVID-19 countermeasures and socio-economic activities. However, the outlook remained uncertain against the backdrop of a downturn of overseas economies reflecting ongoing monetary tightening worldwide and in view of inflation, largely attributable to soaring commodity prices and rapid depreciation of the yen.

In the pachinko and pachislot industry, the use of #6.5 models introduced from June 2022, that is, pachislot machines compliant with the new regulations, has become widespread, and pachislot machine utilization, which had remained sluggish, showed signs of improvement. In addition, machine utilization of Smart Pachislot machines, introduced step by step since November, is meeting parlor operators' expectations. Thus, the business conditions in the pachislot market are steadily improving. On the other hand, in the pachinko market, machine utilization remains stable and demand for new machines continues to be firm, although there is a short-term shift in demand toward pachislot machines in view of the trend toward improvement of the pachislot market.

In these circumstances, having maintained momentum through the second quarter, when the Group's market share of mainstay pachinko machines greatly increased thanks to the enhanced brand power, the Group was able to steadily increase sales volumes. For example, *GODGILLA vs EVANGELION -G-cells awakening-*, a pachinko machine launched in the third quarter, recorded the largest sales volume in the industry among the pachinko machines introduced in 2022. Moreover, *L Pachislot Valvrave the Liberator*, the industry's first Smart Pachislot machine, has been attracting great interest among players and parlor operators, as evidenced by high machine utilization ever since its introduction, and is greatly contributing to the Group's growing presence in the pachislot market.

As a result, on a consolidated basis, net sales were ¥128.0 billion, an increase of 82.1% compared with the same period of the previous year, operating income was ¥48.0 billion, an increase of 139.8%, recurring income was ¥48.7 billion, an increase of 133.9%.
