JDI to Exhibit LumiFree, the World's First LED Free-Lighting Technology, at LIGHTING FAIR 2023

JDI will exhibit LumiFree at LIGHTING FAIR 2023, to be held at Tokyo Big Sight from February 28 to March 3, 2023.

LumiFree is the world's first LED Free-Lighting technology that can flexibly control the light distribution characteristics of LED light sources. At the exhibition, visitors will be able to trial a luminaire equipped with LumiFree and experience the ability to control light freely. JDI is contributing to the realization of a more sustainable world through creating value for people, spaces, and environments through new lighting effects and reduced energy use and light pollution caused by excessive lighting. Please visit our booth to experience the future of lighting with LumiFree.
