The corporate governance of Suntory Beverage & Food Limited (the “Company”) is described below.

I Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Views

“Characteristics” of the Company’s corporate governance

The Company and its subsidiaries (the “Group”) comprise the beverage and food segments of the Suntory Group, and share the corporate philosophy, founding spirit, and Group Management Policy with their parent company Suntory Holdings Limited and respective Suntory Group companies. As a member of the Suntory Group, we consider that we have the characteristics of creating Group synergy and contributing to the foundation that supports the Company’s sustainable growth through the utilization of its brands, human capital, intellectual property and other group business resources.

On the other hand, the Company believes that it has the characteristics of contributing to the foundation that supports the Company’s sustainable growth through the improvement of the quality of management of the Company as it is required to be independent as a listed company due to its choice to be listed, in addition to it being accountable to investors and observing the regulations in the capital markets.

“Basic policy” for the Company’s corporate governance

As the Company has the two characteristics stated above, there are concerns regarding conflicts of interest between Suntory Holdings Limited and the Company’s general shareholders. However, we think both characteristics make up the foundation that supports the Company’s sustainable growth. Therefore, the basic policy for the Company’s corporate governance is that it shall promote unified group management as a member of the Suntory Group and utilize the brands, human capital, intellectual property and other group business resources while maintaining independence of management, which is necessary as a listed company, making its own decisions regarding major business resources that act as the source of the Company’s corporate value, such as brands, human resources, key assets and information, which are necessary to continue to exist independently, holding and securing such business resources, and working for the Company’s sustainable growth while placing due consideration on shareholder conflict of interest.

Based on the “Basic policy” for the Company’s corporate governance stated above, we strive to enhance corporate governance in order to maintain good relationships with shareholders, other investors, and other stakeholders (customers, local communities, business partners and employees, etc.) and to allow us to fulfill our corporate social responsibilities.

--------------------------------	---

Matters relating to Independent Officers

The Company has selected Outside Directors in consideration of business relationships with companies/organizations at which an Outside Director serves as executive officer, and other factors, and has designated anyone who is qualified as independent officer, while referring to the independence criteria for independence officers established by the Tokyo Stock Exchange.

The Company believes that an Outside Director must be independent from the management team of the Company and the parent company Suntory Holdings Limited in order for him or her to fulfill the duties of an Outside Director. Accordingly, the Company views Outside Directors as lacking independence if they fall under one or more of the categories below.

- The relevant Outside Director is currently or has in the past (within the last ten years) been an executive officer of the Company, its subsidiaries, parent company or fellow subsidiaries, or a non-executive director of the parent company.
- A close relative (of first or second degree) of the relevant Outside Director is currently or has in the past (within the last ten years) been a key business executive of the Company, its subsidiaries, parent company or fellow subsidiaries, or a non-executive director of the parent company.

- The relevant Outside Director has, as an expert or consultant in the field of law, accounting, or tax, received remuneration of over ¥10 million directly from the Company, its subsidiaries, parent company or fellow subsidiaries in the past three business years. This excludes remuneration as a Director of the Company and remuneration paid to the organization or business to which the relevant Outside Director belongs.
- A nonprofit organization of which the relevant Outside Director is an executive officer has received donations from the Company, its subsidiaries, parent company or fellow subsidiaries of over ¥10 million and this amount exceeded 2% of the relevant organization's total business income in the past three business years.

[Incentives]

Implementation of Measures to Provide Incentives to Directors	Performance-based compensation
---	--------------------------------

Supplementary Explanation [Updated]

Remuneration, etc. for the Executive Directors consists of fixed compensation (monthly) and performance-based compensation (annually in March). Regarding the remuneration, etc. for Executive Directors who are foreign nationals, the remuneration will be paid by overseas subsidiaries. Although the remuneration is not subject to the Company's remuneration system, it is a combination of fixed compensation and performance-based compensation, and the Company's consolidated operating income is used as one of the criteria for performance-based compensation.

Remuneration, etc. for non-executive Directors shall only consist of fixed compensation (monthly). However, full-time Audit and Supervisory Committee Members shall be paid, in addition to fixed compensation, a performance-based compensation (annually in March) as remuneration, etc. in consideration of the contribution to the Company's performance.

While fixed compensation is the main form of remuneration, the ratio of fixed compensation to performance-based compensation paid to Executive Directors (excluding Executive Directors who are foreign nationals) is set to secure outstanding personnel and provide the proper incentive to improve the Company's performance and corporate value. The human resources committee takes the trends with respect to remuneration benchmark company groupings and other factors into consideration and holds regular discussions.

The performance-based compensation, for which the key performance indicator is consolidated operating income (excluding one-time income and expenses), is calculated by multiplying the amount

on the performance-based compensation calculation table set according to the individual's responsibilities/performance evaluation by a performance coefficient, where that performance coefficient is calculated by multiplying the achievement percentage of the targeted consolidated operating income (excluding one-time income and expenses) by the benchmark consolidated operating income (excluding one-time income and expenses).

The Company chose consolidated operating income (excluding one-time income and expenses) as the key performance indicator because in the Group, importance is placed on consolidated operating income (excluding one-time income and expenses) as an indicator that reflects the results of continuous business activities and because it will incentivize the recipients to improve the Company's performance and corporate value. Note that the Company has not disclosed the targets and actual results of consolidated operating income (excluding one-time income and expenses) for fiscal 2022, but the forecast and actual results for consolidated operating income, which form the bases of those amounts, are ¥140,500 million and ¥139,688 million, respectively.

Although the remuneration is not subject to the Company's remuneration system, it is a combination of fixed compensation and performance-based compensation, and the Company's consolidated operating income is used as one of the criteria for performance-based compensation.

The level of fixed compensation shall be set according to position and considering responsibilities.
